

Bangladesh - Straightforward passport renewal for adults

We have looked to make the process for renewing a passport as straightforward as possible. Renewals will generally take four weeks to process.

However, after an initial assessment of your application we may need to request additional documentation to be satisfied of your claim to British nationality and your identity. If this is the case our team will get in touch with you with a list of the additional documents required.

Do not make any travel arrangements until you have received your new passport. If the documents are not in English you must provide a translation. You need to provide all original documents and all the translations along with a photocopy of each document.

Essential Documents:

The following documents are essential to establish both your identity and your claim to British nationality. **Without them we cannot accept your application.**

Due to the high level of attempted fraud we see in Bangladesh we will carry out checks on the documents submitted and if documents are found to be fraudulent we will immediately refuse the application. Any fees are non-refundable. We may pass the fraudulent documents to the Bangladeshi or UK authorities for prosecution.
