Background to UKAFA

“Empowering Engagement” suggested that national leadership for older people would be provided by a UK wide forum, chaired by the Minister of State for Pensions and the Minister of State for Care Services.

The Government’s response identified key actions which would improve older people’s engagement.

Recommendations - Tangible Outcomes

Findings

Setting the agenda –

- Regional groups and devolved nations should have standing items within UKAFA
- Members to work together between meetings
- Members to drive outcomes for UKAFA

Recommendations

- Allocating a set part of the agenda to regional forums and devolved nations has been attempted previously, but met with limited success due to the low level of contributions.
- Suggest a trial period of a year to see if members can make this work

Recommendations - Tangible Outcomes

Finding

Subject area lead -

- Members of UKAFA should take the lead on subject areas, e.g. housing, digital inclusion, loneliness and isolation

Recommendation

- UKAFA members to consider how this might work including which areas individuals might want to lead on.

Recommendations - Tangible Outcomes

Findings

Reporting back –

- Facilitating the achievement of tangible outcomes by reporting back to UKAFA on how discussion has influenced policy/strategy
- Supporting representatives to feedback to their host organisations

Recommendations

- Develop a reporting back process for officials and organisations engaging with UKAFA
- Produce a guide for members advising on how to engage with UKAFA and how to report back to their organisations

Recommendations - Membership

Findings

Expand membership -

- To best represent an ageing society UKAFA should be more diverse and intergenerational, including members that represent other age groups
- To better present joined-up government UKAFA should include representation from more government departments

Recommendation

- Secretariat to develop proposals, for discussion at a future meeting, on expanding the membership of UKAFA whilst staying within practical limits

Recommendations - Membership

Finding

Member profiles -

- **Sharing the interests, skills and experiences of individual members would encourage more cross organisational work and raise the profile of UKAFA**

Recommendation

- **Secretariat to collect profiles of UKAFA members to share**

Recommendations - Membership

Findings

Infrequent attendance -

- Some members have a less than 30% attendance record over the last three years
- Should there be a minimum attendance requirement to retain membership?

Recommendations

- Members who have not attended UKAFA for two consecutive meetings should be asked whether they wish to remain a member. If no response, their place should be offered to an equivalent organisation.
- This approach to be included in the membership guide.

Recommendations - Communications

Findings

Raising the profile -

- It is not easy to find clear information on the structure, membership, remit, purpose and scope of UKAFA

Frequency of meetings -

- Opinion was divided on whether the frequency of meetings should increase

Recommendation

- Develop a communications strategy for UKAFA.
- Consider the value of changing the current arrangements on the understanding that there is no additional funding.

Recommendations - Communications

Finding

Secretariat –

- There is less resource available for the Secretariat.

Recommendation

- Members to feedback on the services they most value from the Secretariat so work can be prioritised.
