

UPDATE 06/07/11

National Estates Data Collection – Version 25 (Excel)

Three column changes and one general change have been made to version 24 to correct data collection formatting errors. These changes refer to two date columns, a text column and a general formatting change. The changes are:

1. **Column J:** Change to date formatting (four digit year) and extension of validated date range.
2. **Column K:** Change to date formatting (four digit year) and extension of validated date range.
3. **Column S:** Change to cell formatting to correct error where some validated input was converted to a date field.
4. **General:** Correction to workbook date formatting to correct error in consistency across all users.

A corrected version of the workbook is now available, version 25.

It is recommended that users change to version 25.
