3. PAYMENTS IN RESPECT OF GP REGISTRAR'S ALLOWANCE

Notes on Allowances

1. The determination of the allowance payable in respect of each placement within a training programme is normally determined, regardless of the date the placement under the contract actually commences, by the date the contract was entered into and the grade of the doctor at the time that contract was entered into. With those details the allowance payable can be found in the following table by first identifying the column relating to the date the contract for the GP Registrar placement was entered into and then ascertaining the amount of allowance payable, under that column, in respect of the grade of the doctor at the time the contract was entered into. The appropriate point on that grade is the point the doctor is on, or would have been on if he had remained in that grade, at the time the placement under the contract actually commences.

2. However, in all cases, if the allowance so determined is less than the allowance calculated on the basis of the practitioner's current training grade (and their point on that training grade) and the supplement payable at the time the placement under the contract actually commences, then the higher amount is payable.

3. For doctors entering the GPR programme from a training grade the following points, which reflect the phasing out of certain of these grades, must be noted in establishing the doctor's grades for the purpose of paragraphs 1 and 2 above:

- The allowance for a practitioner in a placement contracted for before 1 August 2007 while the practitioner was in the Senior House Officer or Specialist Registrar grade will be determined as if the practitioner had continued in that grade, regardless of any intervening service in the Specialty Registrar Grade. These allowances are shown in parts (a) and (b) below;
- The allowance for a placement contracted for on or after 1 August 2007 will be based on the presumption that the doctor was in the Specialty Registrar (StR) grade at the time the contract was entered into and will be paid in accordance with the section of part (c) relating to the date the contract was entered into, irrespective of whether the practitioner was already in the (StR) grade at the time of the contract was entered into. However, if the previous post held by the doctor was as a Specialist Registrar (SpR) and the doctor is, at the time the placement actually commences, on the minimum or first incremental point of that scale, then the allowance will be determined with reference to part (b) of the table.

4. Practitioners entering from non-training grades are provided for separately in part (d).

Formal contract for practice placement made (dates are inclusive):
