## Population in custody August 2010 - Key points

### Resumption of publication and use of new data source

Publication of the monthly population in custody bulletin was suspended from August 2009 to March 2010 inclusive due to technical problems relating to the supply of data for statistical purposes. Publication of the bulletin resumed in April 2010 as announced on the MoJ website <http://www.justice.gov.uk/publications/populationincustody.htm>

As a result of these technical problems, detailed figures for August 2009 to February 2010 are not available, so in this and subsequent bulletins which include these months it is not possible to make comparisons to a year ago other than for headline totals.

Since resuming publication, figures in this bulletin are based on a new data source, consistent with the published weekly prison figures.

*From October 2010, statistics describing the population in custody in England and Wales will be published in a new quarterly publication, Offender Management Statistics Quarterly Bulletin, alongside data on prison receptions, discharges, licence recalls and probation. Figures showing the population in custody by type of custody, age and gender will be presented for the most recent 5 quarters and by month within the most recent quarter. Nationality will continue to be included quarterly.*

### Population in custody (prisons, secure training centres and secure children's homes)

- The population in custody on 31 August 2010 was 85,600, a rise of 1 per cent from a year earlier. The population in prisons was 85,200 (a rise of 990 from a year earlier), in Secure Training Centres (STCs) it was 270 and in Secure Children's Homes (SCHs) it was 170.

### Population in prison

- The male prison population increased by 1 per cent (up 990) to 80,900 and the female prison population was virtually unchanged at 4,300 in August 2010 compared to August 2009.
- The adult population in prison was 73,400 at 31 August 2010, an increase of 1 per cent (up 1,000) from a year earlier. Over the same time period the number of 15 to 17 year olds fell 20 per cent (down 410) to 1,670 and the young adult prison population (see definitions) increased 4 per cent (up 400) to 10,100 at 31 August 2010.
- The remand population in prison fell 2 per cent from 13,300 in August 2009 to 13,000 in August 2010 (down 320). Within this total, the untried population rose slightly to 8,800 (up 30) and the convicted unsentenced population fell 8 per cent (down 350), to 4,200.
- There were 71,200 sentenced<sup>(1)</sup> prisoners at 31 August 2010, an increase of 3 per cent from a year earlier (up 1,900). There are now 7,700 prisoners serving sentences of less than 12 months, 44,600 prisoners serving sentences of 12 months or more (excluding

indeterminates) and 13,200 prisoners serving indeterminate sentences (life sentences and indeterminate sentences for public protection - IPPs).

- There were 5,600 recall prisoners at 31 August 2010.
- Amongst both the remand and sentenced populations by far the largest offence group in August 2010 was violence against the person representing 25 per cent and 28 per cent of the totals (of 13,000 and 71,100) respectively.
- The prison population was 109 per cent of the 'In Use CNA' (77,900) at 31 August 2010.

---

<sup>(1)</sup> Includes recalls and fine defaulters (see Table 1)

**Figure B: Immediate custodial sentenced population by offence group August 2010**

## NOTES

### Data sources and quality

The data presented in this brief are drawn from the prison administrative IT systems. Although care is taken when processing and analysing the returns, the data collected is subject to the inaccuracies inherent in any large-scale recording system. While the figures shown have been checked as far as practicable, they should be regarded as approximate and not necessarily accurate to the last whole number shown in the tables. They are fit to be used for purposes of looking at trends and for comparing the relative magnitude of components.

The prison population information is now drawn from a single prison source. Although different from the source used up to June 2009, it contains the same details for individual inmates such as date of birth, sex, religion, ethnic origin, custody type, offence, reception and discharge dates, and for sentenced prisoners, sentence length. The overall reliability of the sentence length data has increased, but in a small number of cases, sentence length data is missing and has been imputed. Sentence lengths have been imputed for around 1,500 cases in the August 2010 dataset.

There have been two changes to the presentation of the data since the resumption of this publication in April 2010:

- The numbers in each sentence length band now exclude recalls which are shown as a separate subgroup within the total sentenced population (previously recalls were included in the relevant sentence length bands).
- The sentenced population groups “less than or equal to 6 months” and “greater than 6 months to less than 12 months” have been slightly revised to “less than 6 months” and “6 months to less than 12 months” respectively as a result of using the new data source.

Unless otherwise stated, numbers in the text have been rounded for ease of reading using the following rules:

Numbers of 100,000 and over are rounded to the nearest 1,000

Numbers from 1,000 – 99,999 are rounded to the nearest 100

Numbers from 10 – 999 are rounded to the nearest 10

Numbers under 10 are unrounded.

Information on the population in Secure Training Centres (STCs) and Secure Children’s Homes (SCHs) has been supplied by the Youth Justice Board.

All figures are provisional pending publication of the 2010 Offender Management Caseload Statistics.

## Definitions

Population in custody - Includes those held in prison establishments, police cells under Operation Safeguard, secure training centres (STCs) and secure children's homes (SCHs). All coverage is for England and Wales.

Population in prison – Includes those held in prisons in England and Wales, including the three removal centres (where people are held under immigration powers prior to removal from the UK) of Dover, Haslar and Lindholme.

Sentenced population – Includes those sentenced to an immediate custodial sentence and fine defaulters.

Immediate custodial sentence – this does not include fine defaulters but does include recalls.

Adult prisoners – Prisoners aged 21 years and over.

Young adults – Prisoners aged 18 to 20, but including 21 year old prisoners who were aged 20 or under at conviction who have not been reclassified as part of the adult population

Indeterminate sentences – These cover life sentences and indeterminate sentences for public protection (IPP).

Recalls – Prisoners who are returned to custody having breached the terms of their licence.
