# Section 1.

## Introduction

1. Supply Estimates are the means by which the Government seeks from Parliament sufficient funds and parliamentary authority for the bulk of departmental expenditure each year. A full description of Supply Estimates was included in the *Main Supply Estimates (HC 479)* presented to Parliament on 21 April 2008.

### Supplementary, New and Revised Estimates

2. In the course of the year, the Government may need to ask Parliament for additional resources and/or cash. Accordingly, there are up to three occasions for presenting Supplementary Estimates to the House of Commons: in June (summer), November (winter) and February (spring). Revised Estimates may also be presented in the summer round to replace the corresponding Main Estimates before Parliament formally approves them; Revised Estimates normally reduce the amount sought in the original Estimates or vary the way in which it is spent. New Estimates may also be introduced in the course of the year and are usually presented at the same time as Supplementary Estimates.

### Total Estimates to Date

3. For the current year, Main Estimates for each department were presented to Parliament on 21 April 2008.

4. The summer Supplementary Estimates presented to Parliament in this booklet increase resources by **£1,000 to £447,902,670,000** and cash by **£5,300,001,000 to £430,086,603,000**.

Table 1.1 Total Estimates to date		£ million
	Resources	Cash
<b>Main Estimates</b> <i>(HC 479, 486, 487, 488)</i>	447,903	424,787
<b>Summer Supplementary Estimates</b> <i>(Section 2 of this booklet)</i>	–	5,300
<b>Total</b>	<b>447,903</b>	<b>430,087</b>

5. There is 1 Supplementary Estimate seeking changes to resources and cash and this is shown in **Table 1.3**.

### Public Expenditure: Total Managed Expenditure

6. The main aggregate for public expenditure control is Total Managed Expenditure, which includes Departmental Expenditure Limits (DEL), for which firm three year plans were set in the 2007 Comprehensive Spending Review, and Annually Managed Expenditure (AME), which is subject to annual review as part of the Budget process. These definitions are explained in more detail in Chapter 1 and Appendix C of *Public Expenditure: Statistical Analyses 2008 (HC 489)* and in Section 2 of *Central Government Supply Estimates: 2008-09 Supplementary Budgetary Information (Cm 7359)*.

7. Most Supply expenditure is included within either DEL or AME. The main elements of DEL and AME not funded through Supply Estimates are central government expenditure funded directly from other sources (such as the National Insurance Fund), central government support for local authorities in England and Wales, the resource consumption of devolved administrations and of public corporations and non-departmental public bodies (NDPBs).

8. The net effect of the Estimates within this booklet, and associated non-voted increases, on the main control aggregates is shown in Table 1.2.

<b>Table 1.2 Expenditure within the main control aggregates</b>		<b>£ million</b>
	<b>Resources</b>	<b>Capital</b>
Change in DEL	–	–
Change in Departmental AME	–	5,300
<b>Total</b>	–	<b>5,300</b>

**Departmental Expenditure Limits**

9. Individual DELs operate as limits on spending at the departmental level covering both voted and non-voted provision. An explanation of the operation of DELs and the DEL figures, capital and resource, for 2008–09 was set out in Section 2 of *Central Government Supply Estimates 2008–09 – Supplementary Budgetary Information (Cm 7359)*. The presumption is that DELs, once set, will not be changed (other than for transfer of provision between DELs, take-up of end year flexibility, etc), even if there are unexpected fluctuations in costs or other determinants of expenditure.

10. Aside from transfers, EYF take-up, etc, decisions to make substantive changes to DELs usually only arise where there has been a policy decision to make a significant change in a particular service. Changes will be announced to Parliament as soon as possible after the decision has been taken. There are no changes to DELs associated with the Estimate presented in this booklet.

**Administration Budgets**

11. Departments’ administration budgets for 2008-09 were published in Table 2.3 of *Cm 7359*. The Estimate presented in this booklet does not result in any changes to administration budgets.

**Parliamentary Procedure**

12. Supplementary Estimates seek funds for expenditure in addition to that sought in previous Supply Estimates for the same financial year. They may be presented:

- (a) to seek authority, and additional resources and/or cash as necessary, for any new services;
- (b) to increase the provision for existing services;
- (c) to increase net resources if a shortfall is expected in income appropriated in aid; or
- (d) to increase appropriations in aid.

13. The House of Commons has an opportunity to debate and vote on Supplementary and, where applicable, New and Revised Estimates, following detailed examination by departmental Select Committees. This process is described more fully in Section 3 of *HC 479*.

**Format of Supplementary Estimates**

14. Each Supplementary Estimate begins with an introduction that explains why changes to existing provision are being sought. The format and organisation of Estimates is explained more fully in Section 2 of *HC 479*.

15. Part I of each Supplementary Estimate states, as necessary, the movements in amounts of resources and cash sought for the financial year. It also reproduces the “ambit”, which is a formal description of all the services (not just any new services) to be financed from the Estimate.

16. Part II of the Supplementary contains three tables. The first table identifies the Sections within each Request for Resources where changes are being proposed and also shows movements in capital and cash. This is followed by a reproduction of the original Main Estimate Part II table showing the revised subhead detail including the additional provision sought for each subhead (including unchanged subheads) as a result of the Supplementary. The third table provides a reconciliation between the net resource total and the net cash requirement.

17. Part III of the Estimate shows, as necessary, any changes to the income and/or receipts that are not appropriated in aid of expenditure but are paid into the Consolidated Fund.

18. Each Supplementary Estimate is supported by a Forecast Operating Cost Statement and Notes broadly analogous to those appended to the Main Estimates, either restated or updated. Individual select committees may of course request additional department-specific explanatory information to supplement this material.

**Appropriations in Aid**

19. A Treasury Minute under the Government Resources and Accounts Act 2000 has today been laid before Parliament directing the use as appropriations in aid of such sums shown in the Estimates as would otherwise have been required to be surrendered to the Consolidated Fund. The source of all types of income to be appropriated in aid is shown in the form of a Note to each Estimate.

**Symbols**

20. For convenience the symbols used throughout departmental Estimates are reproduced below.

*Public Expenditure:*

- Φ Income which is classified as negative expenditure in Resource Budget: DEL or Capital Budget: DEL in respect of income from capital receipts including asset sales and which is, exceptionally, surrendered to the Consolidated Fund as extra receipts rather than taken on to the Estimate as appropriations in aid.
- △ Income which is classified as negative expenditure in Resource Budget: AME or Capital Budget: AME and which is, exceptionally, surrendered direct to the Consolidated Fund as extra receipts rather than taken on to the Estimate as appropriations in aid.
- Extra income which is classified as outside of budgets and is surrendered direct to the Consolidated Fund as extra receipts.

*Accounting and audit arrangements for grants in aid and certain subscriptions, etc, to international organisations:*

- ♥ The accounts of this body are audited by the Comptroller and Auditor General and presented to Parliament.
- ◆ The accounts of this body are audited by auditors appointed by the Secretary of State (or Ministers) and presented to Parliament. The books and accounts are also open to inspection by the Comptroller and Auditor General.
- ♠ The accounts of this body are audited by auditors appointed by the Secretary of State (or Ministers) and presented to Parliament.

### Explanation of Accounting Officer responsibilities

In accordance with the Government Resources and Accounts Act 2000 the Treasury has made the following Accounting Officer appointments for the Requests for Resources within this Estimate.

<b>Request for Resources 1</b>	Nicholas Macpherson, Permanent Head of the Department
<b>Request for Resources 2</b>	Nicholas Macpherson, Permanent Head of the Department
<b>Request for Resources 3</b>	Nigel Smith, Chief Executive of the Office of Government Commerce

Nicholas Macpherson, as the Principal Accounting Officer (PAO) of HM Treasury has personal responsibility for the proper presentation of the department's resource accounts as prescribed in legislation, or by the Treasury, and their transmission to the Comptroller and Auditor General. The PAO as the permanent head, remains in general overall charge of HM Treasury.

The responsibilities of an Accounting Officer are set out in chapter 3 of Managing Public Money. In essence these responsibilities include a personal responsibility for the propriety and regularity of the public finances for which they are answerable; for keeping of proper accounts; for prudent and economical administration; for the avoidance of waste and extravagance; and for the efficient and effective use of all the available resources. In addition, the Accounting Officer must ensure that there is a sound system of internal control to support the achievement of the organisation's policies, aims, and objectives and should regularly review the effectiveness of that system.

In accordance with Managing Public Money requirements, the relationship between the PAO and the Additional Accounting Officer, and with their Ministers, together with their respective responsibilities, is set out in writing.

### Contingent liabilities

Nature of Liability	£ '000
<b>As at 31 March 2008, the following liabilities fell to be met from the Department's Estimate:</b>	
<b>Non-Statutory</b>	<b>£'000</b>
The Treasury is being sued for alleged failure to regulate the Lloyd's insurance market in proper accordance with EC Law.	Unquantifiable
HM Treasury has announced guarantee arrangements in respect of retail and uncollateralised wholesale deposits in, and certain other uncollateralised and unsubordinated wholesale obligations of, Northern Rock plc. These arrangements will exist for the current period of instability in the financial markets (Treasury Minute dated 26 November 2007).	Unquantifiable
The Bank of England has made available additional facilities to Northern Rock plc. The facilities are secured against the assets of Northern Rock plc, but HM Treasury has indemnified the Bank of England should the Bank of England face a deficit, having made all reasonable endeavours to recover its claims on the company. This facility will be reviewed on 17 March, and will most likely need to be extended until longer-term refinancing arrangements post temporary public ownership are confirmed (Treasury Minute dated 26 November 2007 and Banking (Special Provisions) Act 2008, Financial provision, Clause 16,1(a)). HM Treasury has confirmed to the FSA its intention to take appropriate steps (should they prove necessary) to ensure that Northern Rock will continue to operate above the minimum regulatory capital requirements (Treasury Minute dated 19 February 2008).	Unquantifiable
HM Treasury has guaranteed indemnities provided by Northern Rock for its new directors against liabilities and losses in the course of their actions and a direct indemnity for the interim period before directors are formally appointed to the board (Treasury Minute dated 19 February 2008).
