HOUSE OF COMMONS

21 June 2010

Presented by The Speaker of the House of Commons

Introduction

Paragraph 11 of Schedule 1 to the Local Democracy, Economic Development and Construction Act 2009 requires the Local Government Boundary Commission for England to submit to the Speaker's Committee each financial year an estimate of the Commission's income and expenditure. After concluding its examination and making modifications (if any) to the Estimate the Speaker's Committee shall lay the Estimate before the House of Commons.

Supply Estimates are the means by which the Local Government Boundary Commission for England seeks authority from Parliament for its spending each year. The Main Estimate starts the process and is presented to Parliament around the start of the financial year to which it relates.

This Main Estimate is presented in both resource and cash terms.

Main Estimate	The Estimate is structured as follows–
Part I	Part I of the Estimate contains the net provision sought (i.e. the amount of expenditure in resource terms and the net cash requirement for the coming financial year); a formal description of the services to be financed from the Estimate known as its Ambit; who will account for the Estimate; and any resources and cash which have already been allocated in the Vote on Account.
Part II	<p>Part II sets out in a tabular matrix format the resources required. Each of the columns numbered 1 to 9 is expressed in accruals terms. Columns 1 to 6 fall within the Resource Budget and show all voted current expenditure scored on an accruals basis. Columns 1 and 2 show direct expenditure; column 3 shows grants and transfers to other bodies. All of these three columns include amounts in respect of the current consumption of assets but do not include the amounts associated with the acquisition of assets.</p> <p>Appropriations in aid (AinA) within the Resource Budget are shown in column 5. Appropriations in aid are deducted from the total of gross resource expenditure shown in column 4 to give a net total (column 6). Columns 7 and 8 show the non-Resource Budget elements of the Estimate and are also scored on an accruals basis. Column 7 shows forecast capital acquisitions and column 8 shows forecast appropriations in aid, which relate to non-operating cost items such as income from the disposal of fixed assets. Column 9 shows the resources provision for the prior year and column 10 shows the outturn for the year before.</p> <p>A detailed explanation of the reconciliation between the net resource total and the net cash requirement is shown in the second section of Part II.</p>
Part III	Part III shows the extra income receipts payable to the Consolidated Fund. This seeks to notify Parliament of the Commission's forecast of amounts to be paid directly to the Consolidated Fund and not appropriated in aid.
Accompanying Tables	The tables accompanying the Resource Estimate set out the Forecast Operating Cost Statement; there are also two reconciliation tables; one showing the reconciliation of the Resource Estimate to the Accounts and Budgets; and another showing the reconciliation of the Capital Estimate and the Budget. The Statements are accompanied by a note on the Accounting Officer's responsibilities.

THE LOCAL GOVERNMENT BOUNDARY COMMISSION FOR ENGLAND MAIN SUPPLY ESTIMATE 2010-11

<p>Appropriations in Aid</p>	<p>A Treasury Minute under the Government Resources and Accounts Act 2000 has today been laid before Parliament directing the use as appropriations in aid of such sums shown in the Estimate as would otherwise have been required to be surrendered to the Consolidated Fund. In order to comply with the intentions of the Government Resources and Accounts Act 2000 the source of all types of income to be appropriated in aid is explained in an analysis in the form of a Note to the Estimate.</p> <p>The 2010-11 Main Estimates are presented in six booklets. This booklet covers the Main Estimate for the Local Government Boundary Commission for England. Six separate booklets are being presented to Parliament for the main Central Government departments, The House of Commons (Admin), the National Audit Office, the Electoral Commission, Independent Parliamentary Standards Authority and the Local Government Boundary Commission for England. The Independent Parliamentary Standards Authority will be presenting its Main Supply Estimate for 2010-11 in due course.</p>
<p>Parliamentary Procedure</p>	<p>Full details of Parliamentary procedure in relation to the voting of resources is given in the Treasury's Main Estimates booklet presented today.</p>
<p>Supplementary Budget Information</p>	<p>The Supplementary Budgetary Information (SBI) tables (see Annex) provide reconciliation between the provision sought in the 2010–11 Main Estimates and the main spending plans. Table 1 shows the resource budget and Table 2 shows the capital budget.</p>
