List of tables		
	Table 1: Committed consents and development allocations as at 31 August 2013	2
	Table 2: Proposed Developments as at 31 August 2013	42

1 Committed development

1.1.1 The following table lists unimplemented committed development (either approved consents or allocations in adopted local plans) identified at the 31 August 2013 where the potential for environmental effects may occur. Committed development is considered with the environmental assessment where material to the environmental impact of the Proposed Scheme. The location of these developments is shown on map series CT-13 (Volume 5, Cross Topic Map Book). Committed developments CFA1/1, CFA6/12, CFA9/3 and CFA14/1 lie outside the area shown on map series CT-13 but within 10km of the Proposed Scheme.

Table 1: Committed consents and development allocations as at 31 August 2013

Reference identification	Local planning authority including planning reference	Type (application or allocation)	Description	Site address	Applicant	Comment

2 Proposed development

- 2.1.1 The following table lists proposed development (either planning applications that have yet to be determined or spatial allocations included in local plans yet to be adopted) identified as of 31 August 2013 where the potential for environmental effects may occur were these applications to be granted or local plans become adopted. Proposed development has not been subject to any assessment within the environmental assessment due to uncertainty concerning its likely status in relation to the Proposed Scheme. Due to uncertainties related to this type of development they have not been mapped.

Table 2: Proposed Developments as at 31 August 2013

Reference identification	Local planning authority and planning reference	Type (application or allocation)	Description	Site address	Applicant	Comment
CFA1/P/1	Epping Forest District Council, London Borough of Haringey, London Borough of Enfield	Nationally Significant Infrastructure Project development consent order	Upgrading of one of two existing 275,000 volts (275kV) overhead lines between Waltham Cross and Tottenham substations to facilitate its operation at a higher voltage (400kV).	Between Waltham Cross and Tottenham	Transport for London
