

Naval Service Monthly Personnel Situation Report

1st September 2012

Produced By:

Defence Analytical Services and Advice

Revisions to historic data from the Joint Personnel Administration System

DASA has recently undertaken a major review of all Armed Forces personnel data from the Joint Personnel Administration system. This has resulted in changes to the strengths, intake and outflow data reported in this publication, affecting the following periods:

Flow statistics from the period ending 31 October 2006 to the period ending 31 March 2009 and strength from 1 May 2007 to 1 April 2009 (inclusive)

Changes to headline strengths range from fewer than 10 to approximately 30. Changes to monthly intake figures range from fewer than 10 to approximately 100, and changes to monthly outflow figures range from fewer than 10 to around 130.

The revised data are considered finalised and are therefore no longer marked provisional. Data subsequent to April 2009 remain provisional. DASA is continuing to review JPA data post April 2009.

**This Naval Service Monthly Personnel
Situation Report is published by DASA
Navy (Portsmouth)**

We welcome feedback on the report.

Naval Service Monthly Personnel Situation Report

September 2012

This was previously known as the Royal Naval Monthly Personnel Situation Report

All data are derived from DASA's ARES2 Manpower Database. Strength data represents the position at the first of the month and flows data is movement reported during the previous calendar month.

The date of this situation report represents data as at the last day of the preceding month, i.e the January 2010 report represents data as at 31 December 2009.

Totals may not equal the sum of parts due to rounding. All numbers over 100 are rounded to the nearest 10 with numbers ending in 5 rounded to the nearest multiple of 20, to avoid bias. Numbers under 100 are rounded to the nearest 5, with numbers that would be rounded to 0 represented by '-'.
Cells with "-" indicate 0.

From June 2011, overall Liability figures are calculated as a straight line interpolation between the Planning Round Financial Year figures. Where liability is broken out by branch/specialisation, Planning Liability 1-12 has been used and is currently scaled to the interpolated monthly PR12 total figure.

The Ratings "Branch" split has been changed to reflect the branch manager structure.

RM Aircrewmembers are included with XAV, and RM Medical Assistants are included with Medical. Where an RM/RN total split is given, they are included with RM.

Royal Marines Officers includes RM pilots.

'No Spec' (Officers) and 'No Trade' (Ratings) covers personnel whose specialisation has not yet been assigned.

Only Table 1 includes Full Time Reservists (FTRS), unless otherwise stated.

Premature Voluntary Release (PVR) has now been renamed Voluntary Outflow (VO).

VO exit rates are the 12 month total exits divided by the average strength. (Strength calculated on a 13 month rolling average).

Figures for previous periods have been revised to reflect the reclassification of some re-entrants from Untrained to Trained. These should now be the final figures.

LTAs and AWOLs have been removed from the strengths.

In the Trained Strengths tables involving branch and specialisation, Transfer Trainees have been removed from the totals. Transfer Trainees are shown in tables 2e and 2f. From May 2008, Transfer Trainees include Sideways Entries.

NA(Met) are shown as HM(M) under Warfare General Service regardless of their Arm.

Previously published graphs linked to future exits have been removed in line with the Data Protection Act 1998. Logistics trades have been reported in line with 2010DIN01-128

Data from the Joint Personnel Administration system introduced October 2006 have been revised and are considered final to 1st April 2009. Data post April 2009 to 1st October 2011 remains provisional and continues to be reviewed by DASA. Data from 1st November 2011 are final.

Sep-12 Edition.

From Apr 08 until Dec 09, in this table only, the Liability used is the DP09 Liability Ceiling against which Manning Balance is now measured.

Pre-Apr 08, from Jan 10 and elsewhere in this document, Liability split by Officer/Rating, Branch & Spec is taken from the relevant Planning Liability (currently PL 1-12) scaled to the current DP. Total Liability figures are calculated as a straight line interpolation between the relevant PR April points (currently PR11 April 12 and PR12 April 13).

*From Jun 09 in this table only, the FTRS Strength has been split into those that are counted against the Regular Liability - FTRS "Regulars", and those that count against a separate FTRS only Liability - FTRS "Non-Regulars"

Data are Provisional from 1st May 2009 to 1st Oct 2011 Situation Dates. All data from 1st Nov 2011 are final.

Notes

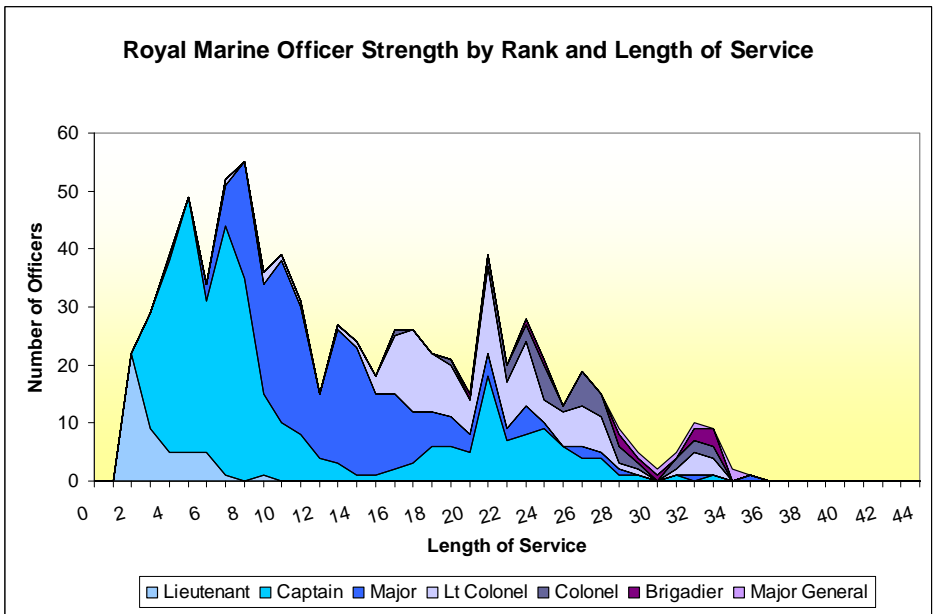

- 1 Flows data are for the last 12 months
- 2 LOS is taken from entry into the Naval Service
- 3 RN Rating and RM Other Rank exits include Promotion to Officer
- 4 Paid rank has been used for the current average LoS, but all other calculations feature substantive rank

Key

- VO Voluntary Outflow
 TX Time Expiry
 OW Other Wastage
 PTO Promotion to Officer

Sep-12 Edition.

Provisional Data

These figures are based on current strengths who have applications extant. In some cases the month of exit is estimated using 12 months from date of application. Not all of the people will exit as it is possible some may withdraw or cancel. Please be aware the notice period has been reduced to allow for personnel to exit earlier if required, therefore only applications currently captured on the workflow system are shown here.

FAA	Fleet Air Arm - Aviation

Notes

Transfer Trainees

There are some branches in the Naval Service which are only open to sideways entrants or Transfer Trainees.

Within this report Transfer Trainees are split out and shown on a separate table.

Personnel within a Branch with no specialisation are shown as Unspecified.
