

*To the Department of Energy and Climate Change*

*Dear Ed Davey,*

*Cumbrians have said No repeatedly to a geological dump anywhere under this land from Morecambe Bay to the Solway. The new consultation announced by DECC is a narrowly focused set of questions with the aim of achieving a Yes response to a repository as quickly as possible by scrapping the rights of host communities to say NO. The consultation aims to give the few people on the Allerdale and Copeland Borough Council Executive the sole right to make the decision. Cumbrians have already said no repeatedly to becoming the nuclear dumping ground for existing and future radioactive wastes taken out of reactor cores and buried under Cumbria's leaky geology.*

*Cumbria is not a willing volunteer for the geological dumping of nuclear wastes and the representative County council has already said NO. I say NO to geological dumping of nuclear waste under Cumbria.*

*Yours sincerely,*

James Francis Glencross
