

Dear Sir/Madam

The members of Winscales Parish Council (West Cumbria) wish to reiterate their views that Cumbria is NOT geologically suitable for a disposal facility - there have already been two minor earthquakes in the area. Cumbria must NOT become a dumping ground.

Despite the fact that Cumbria County Council voted 'No' to the earlier proposal, it appears that its views, and those submitted by local councils and the public, continue to be disregarded insomuch as this matter continues to be pushed upon us.

Cumbria must NOT sacrifice its land, environment and residents' livelihoods to host a geological dump.

Hazel Blacklock
Clerk to Winscales Parish Council
24 November 2013
