River Basin Management Plan
South West River Basin District

Annex L: Record of consultation
and engagement

Contents

L.1	Introduction	2
L.2	Public access to information	3
L.3	Consultations	7
L.4	Involvement in the planning process	25

L.1 Introduction

This annex presents a summary of the steps taken nationally and within the South West River Basin District to ensure that the River Basin Management Plan (RBMP) has been produced through consultation and engagement with interested parties.

It is an important principle of the Water Framework Directive (WFD) to encourage a wide range of stakeholders to be involved in improving the water environment. As a first step to securing meaningful engagement stakeholders and the public need access to the information about the work in hand. Significant efforts to make information easily accessible have been made and they are described below under the heading “Public access to information”.

As a step on from making information available, and in order to gain a more detailed insight into the views of stakeholders on different aspects of river basin management, there have been a number of consultations on general and specific aspects of implementation. Some of these were led by the Department for Environment, Food and Rural Affairs and the Welsh Assembly Government, some by the Environment Agency, and some by other bodies such as the United Kingdom Technical Advisory Group. Some of the consultations have had a river basin district focus and some have been for England and Wales (“national” in the context of this chapter). All of these consultations have helped develop the proposals for river basin management and provided the benefit of wide geographical, sectoral and stakeholder coverage, and linked into a number of groups focussed on specific water management issues. All these activities are listed below under the heading of “Consultations” along with a summary of their outcomes.

Finally, the process of producing this River Basin Management Plan has benefited from the active involvement in the planning process itself by many different stakeholders. These have taken place at the national (England and Wales) and at the regional level through very wide ranging activities, which include for example the work of the National stakeholders, the river basin district liaison panels and many local groups. These forms of engagement are listed and described below under the heading “Involvement in the planning process”. Because this engagement has been extensive over a number of years this list is not exhaustive.

L.2 Public access to information

Means of dissemination	Activities
Environment Agency	
Environment Agency website	<ul style="list-style-type: none"> • Initial Article 5 information (River Basin characterisation outputs) on 'What's in your backyard' (WIYBY) – 2005 • Technical waterbody level information on objectives, classification status and identified risks as presented in the draft River Basin Management Plans - December 2008 <p>A river basin management web page has been set up and is updated regularly. Information on website includes:</p> <ul style="list-style-type: none"> • Background documentation used in river basin district liaison panel meetings and the minutes of meetings • All consultation documents and supporting information posted on the web site (different sites depending on the lead organisation for each consultation) • Posting of all statement of response to consultations • The internet address of the online consultation was promoted to local stakeholders' websites to enable web links to be created. • Use of electronic consultation to facilitate responses • Technical supporting information including further characterisation (risk assessment) outputs, classification, objectives and measures as presented in the draft River Basin Management Plans • Contact details for Environment Agency staff involved in river basin management
Use of public libraries	<ul style="list-style-type: none"> • Electronic and hard copy versions of the consultation documents ('River Basin Planning: Working Together' and 'River Basin Planning: Summary of Significant Water Management Issues') were made available at the district's central library and all local branches
Use of Environment Agency offices	<ul style="list-style-type: none"> • Copies of all Environment Agency led consultation documents were made available free of charge at the Head Office in Bristol and in the principal office in the South West River Basin District at Manly House, Kestrel Way, Exeter, EX2 7LQ.
Direct mail outs	<ul style="list-style-type: none"> • Copies of 'The Water Framework Directive – Guiding Principles on the Technical Requirements' mailed to National stakeholders • Over 100 paper or electronic copies of the consultation document 'River Basin Planning: Working Together' sent to stakeholders • Over 200 paper or electronic copies of 'River Basin Planning: Summary of Significant Water Management Issues' sent to stakeholders • Direct notification of consultations sent to over 200 river basin district stakeholders • Over 200 paper and electronic copies of the 'draft South West River Basin Management Plan' sent to stakeholders • Direct notification of consultations sent to 105 river basin district

Means of dissemination	Activities
Public notices	<p>stakeholders</p> <ul style="list-style-type: none"> • Notice published in London Gazette for one day stating submission on 22 September 2009 of the 'River Basin Management Plans 2009-2015' to Ministers for approval, under Regulation 13(1)(b) of the Water Environment (Water Framework Directive) (England and Wales) Regulations 2003. • Notice of consultation on 'River Basin Planning: Working Together' published in the Western Daily Press, Western Morning News and Dorset Echo for 1 week from 22nd December 2007 • Notice of consultation on 'River Basin Planning: Summary of Significant Water Management Issues' published in the Western Daily Press, Western Morning News and Dorset Echo for 1 week at the start of July 2007 • Notice of consultation on the 'draft South West River Basin Management Plan' published in the Western Daily Press and Western Morning News for 2 weeks from 15th January 2009
Technical pamphlets/ information sheets	<ul style="list-style-type: none"> • General Water Framework Directive introductory material distributed at conferences • Issue/sector based briefing sheets distributed at conferences • Sectoral and catchment summary leaflets were distributed during the dRBMP consultation promotional events
Publicity material	<ul style="list-style-type: none"> • Photography competition launched in April 2009 for Under 16s to promote the value of water Publication of leaflets to publicise and promote participation in consultations • Quarterly newsletters produced since spring 2007, each circulated to 100-200 stakeholders for onward distribution
Public meetings/drop in events, other	<p>Examples include:</p> <ul style="list-style-type: none"> • Papers and attendance to provide updates to Environment Agency Advisory Committees 2005 – 2008, including support for cross-committee discussion of WFD consultations • Regular updates to South West Regional Environment Network (SWREN) • Papers and attendance to provide updates to the Consumer Council for Water (previously Watervoice) 2006 & 2007 • Quarterly South West Liaison Panel meetings (since 2006) • 4 local workshops to seek views on early thinking on the River Basin Management Plan and contribute to the development of the programme of measures (>125 attendees) • Other presentations to interested audiences (e.g. Wiltshire Fisheries Forum, Dorset Coast Forum, local Chartered Institute for Water & Environment Management) • A series of six workshop events have been held throughout the South West Region during February and March to raise awareness of the Water Framework Directive and the draft South West River Basin Management Plan. Over 120 people were spoken to through these events, which were advertised and promoted through the local press and via the WFD mailing list. <p>These workshops were held at the following locations:</p> <ul style="list-style-type: none"> ○ Environment Agency Regional Office, Exeter on 26th March

Means of dissemination

Activities

2009

- Woodhouse Garden Pavilion, Blandford on 24th March 2009
 - Bournemouth Natural Science Society on 23rd March 2009
 - Peter Chalk Centre at University of Exeter on 2nd February 2009 (low numbers attended due to blizzard conditions)
 - Lanhydrock War Memorial Hall, Bodmin on 9th March 2009
 - Albemarle Centre, Taunton on 24th February 2009 (covering both the South West and the Severn River Basin Districts)
- A number of sector specific workshops and meetings were attended during the consultation period. These included:
 - The Regional Environment Network held in Exeter on 1st June 2009
 - The Devon Maritime Forum held in Brixham on 20th May 2009
 - Additionally, a workshop to advise Local Authority's on their role in delivering sustainable water management was due to be held in Exeter on 19th May 2009 but unfortunately had to be cancelled due to lack of uptake
 - The Somerset Internal Drainage Boards meeting held on 31st April 2009
 - The Somerset Water Partnership meeting held in Taunton on 28th April 2009
 - A Water Framework Directive session held with representatives of the Ports Industry held in Exeter on 20th April 2009 (hosted in conjunction with the Finding Sanctuary Project)
 - The Water and Woodlands Seminar held in Exeter on 31st March 2009
 - The Consumer Council for Water Public Meeting held in Bournemouth on 12th February 2009
 - The Environment Agency Cross-Committee sub-group meeting held in Exeter on 3rd March 2009
 - The Rivers Association Council Meeting held in Lifton on 2nd March 2009

Other

- Offer for translations of documents to be made available on request
- Use of South West Environmental Observatory website (www.swenvo.org) to promote consultations

Department for Environment, Food and Rural Affairs

Publication of background documents on the economic aspects of implementation

- Scoping study for Water Framework Directive Annex III (economic analysis)
- Regulatory Impact Assessment on potential costs and benefits associated with new environmental standards
- Report on economic importance and dynamics of use of River Basin Characterisation led by the Department for Environment, Food and Rural Affairs, Welsh Assembly Government involved
- Report on cost recovery and incentive pricing led by the Department for Environment, Food and Rural Affairs, Welsh

Means of dissemination	Activities

L.3 Consultations

Title	Brief description of document	Key outputs of consultation and actions	Period of consultation
Led by the Environment Agency			
Draft South West River Basin Management Plan	<p>This document presented the main issues for the South West River Basin District and briefly set out the actions that we proposed should be taken to deal with them. The annexes to the document gave much more detail on the conditions in the River Basin District, the actions proposed and the mechanisms that can be used to take these actions forward.</p>	<p>There were received 85 responses specifically about our plan and over 30 in relation to River Basin Plans more generally from organisations and individuals in the South West. The main comments we received were Size and presentation of the draft plan</p> <ul style="list-style-type: none"> • Level of ambition in the first cycle, i.e. how many of our waters will be improved by 2015 • Queries on our assessment of the health of water bodies • The need to engage a wider range of sectors, organisations and people in the delivery of the plan • The need to secure funding for those unfunded measures (scenario C) that were included in the plan • The need to present a clear view of the links between all the different legal requirements that apply to the water environment and how these link to other plans • The need to provide more information on the links between 	December 2008 – June 2009

Title	Brief description of document	Key outputs of consultation and actions	Period of consultation
		<p>WFD and other legislation such as Habitats Directive, Water Resources Acts and the Marine Bill</p> <p>As a result of the comments made, we have:</p> <ul style="list-style-type: none"> • Increased the number of water bodies that will improve to good status from 41 to 93 • Updated and reviewed the current status and future objective for every water body • Reviewed the local and national measures including feedback from consultation responses • Reviewed the content and presentation of the main document and annexes changing Annex E to include more information on how we have set alternative objectives and added a new Annex J to explain links to other plans including Catchment Flood Management Plans and Spatial Planning. <p>Further detail is provided in 'draft River Basin Management Plans, a consultation response for the South West River Basin District'</p>	

Title	Brief description of document	Key outputs of consultation and actions	Period of consultation
Strategic Environmental Assessment Environmental Reports for the draft River Basin Management Plans	The Water Framework Directive requires the production of River Basin Management Plans across the United Kingdom. These plans require assessment under the Strategic Environmental Assessment (SEA) Directive (2001/42/EC) to identify wider effects on the environment. The environmental report presented the methodology we used in the SEA, an explanation of how environmental factors have been considered within the decision-making, and the results and conclusions of the SEA process.	<p data-bbox="794 331 1129 465">http://wfdconsultation.environment-agency.gov.uk/wfdcms/en/southwest/Intro.aspx</p> <p data-bbox="794 499 1129 696">No comments were received relating directly to the South West Plan. A summary of comments across all river basin districts included:</p> <ul data-bbox="842 707 1129 2009" style="list-style-type: none"> <li data-bbox="842 707 1129 1339">• The importance of ensuring the maintenance of water supplies to canals and the need to maintain canals open for navigation and at suitable depth. Concerns were also raised about measures that may require the screening of abstractions and transfers to supply water to reservoirs and canals. <li data-bbox="842 1350 1129 1944">• The importance of river basin management process in delivering habitat creation, green infrastructure, reinstatement of habitat, and the enhancement of protected and UK Biodiversity Action Plan, Local Biodiversity Action Plan and other locally important species. <li data-bbox="842 1955 1129 2009">• Concerns were raised about how 	December 2008 – June 2009

Title	Brief description of document	Key outputs of consultation and actions	Period of consultation
		<p>the SEA has considered the historic environment (including historic landscape character, historic built environment, archaeological remains and deposits). Sensitivities include: changes in water quality, water levels, habitat restoration schemes, managed realignment and pollution.</p> <ul style="list-style-type: none"> • Respondents wished to see further evidence of how the SEA had influenced the Plan process and how it may be possible to influence other future plans and strategies. <p>Further detail and the action the Environment Agency has taken to all comments is provided in the 'Strategic Environmental Assessment Statement of Particulars'.</p> <p>http://wfdconsultation.environment-agency.gov.uk/wfdcms/en/southwest/Intro.aspx</p>	
Strategic Environmental Assessment Scoping Reports consultation	The Water Framework Directive requires the production of River Basin Management Plans across the United Kingdom. These	The results of the consultation were considered in finalising the approach to the Strategic Environmental Assessment. Further	October to November 2007 (extended to January 2008)

Title	Brief description of document	Key outputs of consultation and actions	Period of consultation
	plans require assessment under the Strategic Environmental Assessment Directive (2001/42/EC) to identify wider effects on the environment. The Scoping Reports set out the information to be included in this assessment	details for each river basin district can be obtained on the Environment Agency website.	
River Basin Planning – Summary of Significant Water Management Issues [South West River Basin District]	This document set out what the Environment Agency believes to be the most significant issues that face the South West River Basin District. The Environment Agency has worked together with the members of the South West River Basin District liaison panel to identify the significant water management issues. To identify the significant issues for this report, a list of pressures or 'potential issues' was assessed.	The majority of responses agreed with the proposals. As a result of the comments made, the Environment Agency amended the way they discuss the significant issues, particularly in relation to the role of forestry. Further detail is provided in 'River basin planning: Summary of significant water management issues, a consultation response for the South West River Basin District'	July 2007 to January 2008
River Basin Planning – Working Together [South West River Basin District]	This document presented information and proposals about the way river basin planning could work in the South West River Basin District and how and when people interested in participating in this process could do so.	The majority of responses agreed with the proposals. As a result of the comments made, the Environment Agency have: <ul style="list-style-type: none"> • Amended their lists of key stakeholders • Committed to integrate engagement on WFD with existing effort as far as possible • Committed to offer hard copies of all the communication materials in addition to using the internet 	December 2006 to June 2007

Title	Brief description of document	Key outputs of consultation and actions	Period of consultation
		Further detail is provided in 'River basin planning: working together, a consultation response for the South West River Basin District'	
Water for life and livelihoods – a strategy for River Basin Planning in England and Wales	This document set out proposals for how the Environment Agency was planning to work to develop River Basin Management Plans and implement the Water Framework Directive. In particular how it would engage with and encourage participation from stakeholders at national, regional and local level; and how it would integrate different aspects of managing the water environment	Responses were received from many different stakeholders. These contributed to refining the planned approach to river basin management, particularly in relation to the terms of reference for stakeholder engagement. This consultation process also helped the process of aligning the thinking about implementation of the Directive between the Department for Environment, Food and Rural Affairs, the Welsh Assembly Government and key stakeholders.	January to April 2005
River Basin Characterisation	District based consultation on River Basin Characterisation (Water Framework Directive Article 5)	<p>There were many varied and constructive responses received, with many suggesting improvements to the proposals. As a result of these comments, the Environment Agency have:</p> <ul style="list-style-type: none"> • made method statements clearer; • refined and corrected the assessments for authorised point and diffuse sources, where necessary; • updated morphological pressure assessments where new information was available; • improved assessment of non-native species risks to surface 	September to November 2004

Title	Brief description of document	Key outputs of consultation and actions	Period of consultation
The Water Framework Directive – Guiding Principles on the Technical Requirements	<p>This document presented the Environment Agency's interpretation of the technical requirements from Annex II and V of the Water Framework Directive. Aspects covered by these annexes included the characterisation of surface and groundwater body types; identification of pressures and impacts; review of impacts of human activity; classification of surface water and groundwater bodies; and the design of monitoring programmes.</p>	<p>waters; and chemical and quantitative risks to ground water.</p> <p>Responses were received from a number of the main stakeholders. These allowed a common understanding of the technical requirements of the Directive to be achieved and informed the work undertaken to complete the Characterisation Reports; the design of the monitoring programmes; and the approach to status classification for water bodies.</p>	June to September 2002
Led by the Department for Environment, Food and Rural Affairs and Welsh Assembly Government			
Consultation on the Draft Flood and Water Management Bill	<p>The draft Flood and Water Management Bill will:</p> <ul style="list-style-type: none"> • deliver improved security, service and sustainability for people and their communities • it will be clear who is responsible for managing flood risk • protect essential water supplies • modernise the law for managing flood risk and reservoir safety • encourage more sustainable forms of drainage • enable water 	<p>http://www.defra.gov.uk/corporate/consult/flood-water-bill/index.htm</p>	April to July 2009

Title	Brief description of document	Key outputs of consultation and actions	Period of consultation
	<p>companies to control more non-essential uses of water during droughts</p> <ul style="list-style-type: none"> • make it easier to resolve misconnections to sewers <p>The overall effect will be a healthier environment, better service and greater protection for people, their communities and businesses.</p>		
<p>Consultation on the second phase of Environmental Permitting Programme (EPP2)</p>	<p>EPP2 is a Better Regulation initiative designed to reduce costs for operators and the regulator by cutting unnecessary red tape, while continuing to protect the environment and human health. This consultation proposes to extend the single EP system formed under EPP1 to create a common system of risk-based environmental permitting and compliance for an extended range of regimes. These include:</p> <ul style="list-style-type: none"> • Water Discharge consents: Permits to control certain discharges to surface water; • Groundwater Authorisations: Permits to control the disposal of specific substances into groundwater, and; • Radioactive Substances 	<p>http://www.defra.gov.uk/corporate/consult/env-permitting/letter.htm</p>	<p>February to May 2009</p>

Title	Brief description of document	Key outputs of consultation and actions	Period of consultation
	Regulation: permits for keeping and use of radioactive materials; and for accumulation and disposal of radioactive waste.		
Consultation on new arrangements for establishing Water Protection Zones	For England, the principle of new Water Protection Zone arrangements was included in all options for the consultation on Catchment Sensitive Farming. A Welsh consultation will consider the need for new Water Protection Zone arrangements alongside other agricultural diffuse pollution measures.	http://www.defra.gov.uk/consult/water-protection-zones/index.htm http://wales.gov.uk/consultations/environmentandcountryside/waterprotectionzones/?lang=en&status=closed	Catchment Sensitive Farming consultation in England ended in November 2007 December 2008 to March 2009
Consultation on Directions to the Environment Agency on Classification of Water Bodies	This consultation is the final stage in a process of developing the environmental quality standards and other criteria recommended for use in classification in the first river basin planning cycle. It also includes recommendations on methodologies for the use of those standards and criteria to classify all WFD water bodies.		October to December 2008
Ministerial Guidance - Consultation on River Basin Planning Guidance Volume 2	Consultation seeks views upon draft guidance in relation to standards, objectives, emerging policy trends, issues around technical feasibility and disproportionate cost; and impact assessments associated with the Water Framework Directive.	http://www.defra.gov.uk/environment/quality/water/wfd/documents/consult-guidance-response-letter.pdf	February to May 2008

Title	Brief description of document	Key outputs of consultation and actions	Period of consultation
Consultation on Implementation of European Union Legislation in England and Wales: Aquatic Animal Health Directive	<p>This paper asks to:</p> <ul style="list-style-type: none"> • note the provisions in the Directive which are obligatory; • comment on the interpretation; • respond on the proposals relating to the areas of choice. <p>The Directive and the implementing proposals generally cover the aquatic animals when they are caught, kept or moved by humans. There are also some obligations in relation to aquatic animals in the wild.</p>	<p>http://www.defra.gov.uk/corporate/consult/khv/khv-consultation-doc.pdf</p>	December 2007 to March 2008
Consultation on the implementation of the revised Bathing Water Directive	<p>The purpose of this Consultation paper was to seek views on:</p> <ul style="list-style-type: none"> • the number and type of bathing waters where measures should be taken to improve the water quality; • the development of a prediction and discounting system; and • the development of public information for beach signage. 	<p>http://www.defra.gov.uk/environment/quality/water/waterquality/bathing/documents/summary-responses.pdf</p>	November 2007 to February 2008
Consultation on the review of schedule 9 to the Wildlife and Countryside Act 1981 and a ban on the sale of certain species	<p>This consultation sought comments on proposals for a prohibition on the sale of certain species. The prohibition will be achieved by an Order made under section 14ZA of the Wildlife and Countryside Act 1981.</p>	<p>http://www.defra.gov.uk/wildlife-pets/wildlife/management/non-native/documents/consultation.pdf</p>	November 2007 to January 2008
Consultation on Non-Agricultural Diffuse Pollution	<p>General binding rules for non-agricultural diffuse pollution; Control on phosphates</p>	<p>Various steps are being considered and the Consultation on options for controls on</p>	February to May 2007

Title	Brief description of document	Key outputs of consultation and actions	Period of consultation
	in laundry detergents; Sustainable Urban Drainage Systems: permeable surfaces, filter strips and swales, infiltration devices, basins and ponds.	phosphates in domestic laundry cleaning products in England has been launched.	
Consultation on mechanisms to deliver Water Framework Directive Requirements on hydromorphology	This document looks at the range of legislative, economic and voluntary mechanisms that are available in England and Wales for delivering measures to avoid or reduce effects resulting from hydromorphological pressures, and whether they are sufficient to meet Water Framework Directive requirements.	<p>The majority who responded welcomed the consultation and most provided practical and constructive comments.</p> <p>Various options are being considered with the Environment Agency taking on board responses to recent consultation. Any new powers that might be needed would have to be in place by the end of 2009.</p> <p>The idea of a catchment restoration fund is being actively considered to address the physical restoration of a number of water bodies.</p>	February to May 2007
Article 5 economic analysis of water use supporting document	Article 5 (characterisation) requirement for River Basin District based assessments of the 'Economic analysis of water use'.	<p>Reports summarising, for each River Basin District, the analysis required by Article 5 of the Directive have been reported by the Department for Environment, Food and Rural Affairs (on behalf of the United Kingdom) to the European Commission.</p> <p>http://www.defra.gov.uk/environment/quality/water/wfd/characterisation.htm</p>	March 2005
Consultation on Guidance for River Basin Planning	This guidance set out the expectations of the Department for Environment, Food and	Set out in two parts. See Ministerial Guidance Consultation.	December 2004 to March 2005

Title	Brief description of document	Key outputs of consultation and actions	Period of consultation
Second consultation on the Water Framework Directive	<p>Rural Affairs in relation to river basin planning.</p> <p>This second consultation invited views on the key issues arising from transposition and implementation of the Water Framework Directive into national legislation.</p>	<p>The summary of responses and the response to them is detailed in the document below, from pages 14 – 53.</p> <p>http://www.freshwaterlife.org/servlet/BinaryDownloaderServlet?filename=1060944568091_WFD_consult3_chapters_only.pdf</p>	<p>October 2002 to January 2003</p>
First consultation on the Water Framework Directive	<p>This consultation invited views on key issues arising from the implementation of the Water Framework Directive. It was the first step, including discussions with the principal affected parties. It also served as an introduction to the Directive's provisions and principal obligations.</p>	<p>In addition to the main themes, the role of wetlands and the degree to which they could be protected under the Water Framework Directive and the definition and timing of the “no deterioration” in status requirement were discussed.</p> <p>As a result of the comments made the Department for Environment, Food and Rural Affairs and Welsh Assembly Government:</p> <ul style="list-style-type: none"> agreed that its important to develop techniques to trace and monitor diffuse sources of pollution. gave their intention to implement the Water Framework Directive by means of secondary legislation (regulations). 	<p>March to June 2001</p>

Title	Brief description of document	Key outputs of consultation and actions	Period of consultation
Led by the Department for Environment, Food and Rural Affairs			
Consultation on proposals for time limiting of water abstraction licenses	This consultation is gather views on proposals for time limiting of water abstraction licenses. The time limiting of existing abstraction licenses is vital in ensuring water resources can be managed and allocated efficiently, in order to cope with the anticipated impacts of climate change and achieve water quality objectives set out in the UK Government's 2008 water strategy for England <i>Future Water</i> .	http://www.defra.gov.uk/corporate/consult/water-abstraction/consultation.pdf	May to August 2009
Consultation on implementing the abstraction elements of the Water Act 2003	This consultation is to seek views on draft proposals from Defra and the Welsh Assembly Government on the removal and creation of various exemptions from license control. The proposed new Regulations to bring these proposals into force will implement the remaining abstraction provisions of the Water Act 2003.	http://www.defra.gov.uk/corporate/consult/water-act/index.htm	April to July 2009
Environmental Standards for Farming - Consultation on proposed changes to standards in cross compliance Good Agricultural and Environmental Condition (GAEC)	This consultation is to seek your views on a range of proposed changes to cross compliance following the conclusion of the review of the Common Agricultural Policy (CAP Health Check). These proposals relate to cross compliance standards and related	http://www.defra.gov.uk/corporate/consult/gaec/index.htm	February to May 2009

Title	Brief description of document	Key outputs of consultation and actions	Period of consultation
and related measures in England	measures in England, including recapturing the environmental benefits of set-aside.		
Consultation on modernisation of salmon and freshwater fisheries legislation; new order to address the passage of fish	Proposals to improve the free passage of fish and to allow free access to breeding, nursery and feeding grounds for fish in England and Wales. These proposals follow recommendations made in the Salmon and Freshwater Fisheries Review, published in 2000, and were included in the consultation which started in February 2007 on "Mechanisms to Deliver Water Framework Directive Requirements on Hydro-morphology" and in the new water strategy for England, Future Water on 7 February 2008.	http://www.defra.gov.uk/corporate/consult/fisheries-legislation/letter.htm	January to April 2009
Consultation on Draft Statutory Instrument to amend provisions of the Water Resources Act 1991 for Water Protection Zones, and related Draft Statutory Guidance for the Environment Agency	This consultation follows on from one on diffuse water pollution from agriculture that was conducted in 2007. Defra concluded in the light of that earlier consultation that the need to provide a power to regulate where necessary to implement the Water Framework Directive would be best met by simply updating the existing power to designate Water Protection Zones. This power would be available for use where appropriate under the River Basin Management Plans	http://www.defra.gov.uk/corporate/consult/water-protection-zones/	December 2008 to March 2009

Title	Brief description of document	Key outputs of consultation and actions	Period of consultation
	<p>now being developed by the Environment Agency with the aim of achieving good chemical and ecological status in inland and coastal waters by 2015. Parts of this consultation will also apply in Wales.</p>		
<p>Consultation on improving surface water drainage</p>	<p>This consultation develops some of the key policy proposals set out in the Government's new Water Strategy, <i>Future Water</i>. The strategy sets out a vision for more effective drainage of surface water, in order to resolve existing problems and prepare for the impacts of climate change. The floods last summer brought into sharp focus the real damage that surface water flooding can cause. The interim report from the Pitt Review on lessons learned has urged early action to improve the way that surface water is managed, particularly in high risk areas.</p>	<p>http://www.defra.gov.uk/environment/flooding/documents/manage/surfacewater/swmp-consult.pdf</p> <p>http://www.defra.gov.uk/environment/flooding/documents/manage/surfacewater/swmp-consult-sum.pdf</p>	<p>February to April 2008</p>
<p>Consultation on the future of the Pesticides Safety Directorate (PSD)</p>	<p>This consultation paper sought views on the future of the Pesticides Safety Directorate, following recommendations made by the 2005 Hampton Review, which aimed to make Government's inspection and enforcement functions simpler and more customer focussed.</p>		<p>November 2007 to January 2008</p>

Title	Brief description of document	Key outputs of consultation and actions	Period of consultation
Protection of Waters Against Pollution from Agriculture	<ul style="list-style-type: none"> The purpose of this Consultation paper was to seek views on: proposals for revised Action Programme measures to control pollution caused by nitrogen from agricultural sources. whether to apply these measures within discrete Nitrate Vulnerable Zones (as revised) or throughout the whole of England. 	http://www.defra.gov.uk/environment/quality/water/waterquality/diffuse/nitrate/documents/consultation-supportdocs/consultation.pdf	August to December 2007
Consultation on the revised Code of Good Agricultural Practice to protect water, soil and air quality.	This consultation invited views on the draft revised Code of Good Agricultural Practice.	http://www.defra.gov.uk/foodfarm/landmanage/cogap/documents/summary-responses.pdf	August to November 2007
Catchment Sensitive Farming Programme: Consultation on diffuse sources of water pollution from agriculture.	Three policy packages are presented for consideration for inclusion in Programme of Measures: supportive, regulatory and economic. Also whether Water Protection Zones should be merged with Nitrate Vulnerable Zones.	Government response: http://www.defra.gov.uk/foodfarm/landmanage/water/csf/documents/diffuse-consult-govresponse.pdf	August to November 2007
Consultation on options for controls on phosphates in domestic laundry cleaning products in England	This consultation paper covers the need to take action on phosphates in the water environment and the contribution that controls on domestic laundry cleaning products might make to that process.		February 2007 to April 2008
Consultation on draft statutory social and	This consultation delivers on a commitment made by		February 2007 to April 2008

Title	Brief description of document	Key outputs of consultation and actions	Period of consultation
environmental guidance to the Office of Water Services (Ofwat)	the Government in the Regulatory Impact Assessment which accompanied the Water Act 2003, that a full public consultation would take place on the draft Guidance.		
Partial Regulatory Impact Appraisal	This Regulatory Impact Assessment concerns environmental quality standards for implementation of the Water Framework Directive. The Directive requires the United Kingdom administrations to introduce environmental standards and conditions to help with the classification and objective setting process that will form the basis for the river basin management planning required to meet the Directive objectives.	http://www.defra.gov.uk/environment/quality/water/wfd/documents/pdf-ria-draft/ria-wfd-excludingannexes.pdf Note: the United Kingdom Water Framework Directive Technical Advisory Group issued their initial proposals for standards for stakeholder review in early 2006. This Regulatory Impact Assessment takes into account the changes proposed as a result of the stakeholder review and reflects the final recommendations made.	2007
Consultation: <i>Making Space for Water:</i> Environment Agency strategic overview – strengthening our strategic approach to sea flooding and coastal erosion risk management	This consultation paper seeks views on the proposals of the Department for Environment, Food and Rural Affairs for the way in which the Environment Agency will exercise a strategic overview in relation to sea flooding and coastal erosion risk management. A separate consultation will take place at a later stage regarding the Environment Agency's strategic overview in relation to inland sources of flooding.	<i>Making space for water</i> has identified the need to explore a greater range of delivery mechanisms for flood and coastal erosion risk management, with a view to developing more sustainable approaches which maximise the environmental, social and economic benefits achieved and which may also deliver wider benefits.	August to November 2006

L.4 Involvement in the planning process

Sectors, Groups and networks	Activity
River Basin District Level	

The liaison panel was created as a new forum for co-deliverers to discuss and influence the development of the River Basin Management Plan and assist with its implementation. The panel works on a representational system and core membership will be based around the key organisations that are responsible for implementation, and others who can both represent the public and other sectors.

The liaison panel is made up of representatives from key stakeholder sectors :

Sector	Key Representative	Organisation (Role)
Ports	Dick Appleton	British Ports Association
Consumers	Richard Lacey	Consumer Council for Water
Environment Agency	Richard Cresswell	Regional Director
Local authority	Graham Smith	Teignbridge District Council
Business & industry	Anna Govey	Chair of the Confederation of British Industry (CBI) Environment Committee
Farming	Paul Cottington	National Farmers Union
Natural England	Janette Ward	Regional Director
Regional Development Agency	Rob Hatt	Head of Food and Rural Affairs
Water Companies	Martin Ross David Elliot	South West Water Wessex Water
Landowners	Mark Walsingham	National Trust
Minerals and Aggregates	Hugh Lucas	
Coast	Ken Buchan	Coastal policy manager, Dorset County Council
Freshwater Fisheries and Riparian Owners	Roger Furniss	
Environmental Non-Governmental Organisations	Roger Martin	Campaign to Protect Rural England (CPRE)

South West River Basin District Liaison Panel

13 meetings of the liaison panel were held in different venues within the river

Sectors, Groups and networks	Activity
------------------------------	----------

basin district as at June 2009. Minutes are available online

Business Sector	Environment Agency Regional Director presentation to CBI Environment Committee Update presentations by the Environment Agency to local branch of the Chartered Institute of Water and Environmental Management (CIWEM)
Water Industry	Regular meetings with Water companies to keep updated in the context of periodic review work and longer term planning
Ports	Presentation by Ben Bunting to South West Ports Group in 2006. Regular communications between Dick Appleton as Ports Liaison Panel Member and Ports contacts on WFD developments. Environment Agency led work on Heavily Modified Waterbodies and Good Ecological Potential with the British Ports Association and UK Major Ports Groups
Farming	Regular liaison between the Environment Agency and the England Catchment Sensitive Farming Delivery Initiative initiative Agriculture group convened June 2009
Natural England	Close contact between Natural England and key partners in developing the revised Higher Level Stewardship Scheme and the delivery of the England Catchment Sensitive Farming Delivery Initiative initiative and associated work. Regular contact with Environment Agency particularly in reference to Protected Areas
Catchment groups	WFD Presentation by the Environment Agency to the Wiltshire Fisheries Association AGM 4 stakeholder workshops were held in Bodmin, Exeter, Glastonbury and Blandford during April 2008 to review the developing programme of measures. Around 150 people attended the four events. These were followed with the meetings outlined in section L.2

Other groups that had a direct involvement with the planning process:

Sub-groups were established by the liaison panel were established to discuss the Significant Water Management Issues reports. Separate group met up to three times each to develop measures around the following headings:

- Abstraction & Flow Issues
- Agriculture and Forestry
- Biological effects
- Industrial Legacy
- Nutrients from Wastewater
- Physical Modification
- Urban and transport impacts

National and European level

Department for Environment, Food and Rural Affairs Water Framework Stakeholder Group	Chaired by the Department for Environment, Food and Rural Affairs. This group was established to promote stakeholder participation in the implementation of the Water Framework Directive. Members of the group are able to raise issues of concern and provide input. The Environment Agency leads on items and provides a detailed Water Framework Directive Programme update for each. Examples of members of the Stakeholder Group are given below. Members

networks**

Activity

include people representing the water industry, land management, environmental Non-Governmental Organisations and government organisations.

- Water United Kingdom
- Natural England
- Office of Water Trading
- British Waterways
- Forestry Commission
- National Trust
- Country Landowners Association
- National Farmers Union
- Royal Society for the Protection of Birds

National
Liaison Panel
for England

Chaired by the Environment Agency. The National Liaison Panel for England has been set up to complement the river basin district liaison panels. The panel consists of around 20 members based around the key co-deliverers, that is, organisations that are responsible for carrying out actions and others who can both represent the public and help drive changes in behaviour. The panel works on a representational system. This means the panel members are expected to represent the views of the whole of their sector and act as a two-way channel between the panel and their sector. Five meetings of the liaison panel were held between July 2007 and June 2009. Meeting papers and minutes are available on the website www.environment-agency.gov.uk/wfd. Members of the public are welcome to attend meetings as observers, by appointment with the Chair.

Wales
Stakeholder
Group

Chaired by the Welsh Assembly Government. The Environment Strategy for Wales contains a commitment from Welsh Assembly Government to establish a Water Framework Directive Stakeholder Group for Wales. The aim of the group is to provide a focus for communication and consultation on a broad range of Water Framework related issues.

The first meeting of the Stakeholder Group took place in Cardiff on 5th March, 2007, and it convenes approximately every 6 months. It brings together a wide-ranging group of Welsh stakeholders: local government, business, agricultural and fisheries interests, land managers, statutory bodies, consumer representatives and the Assembly Government.

The group provides strategic support to Welsh Assembly Government for implementation of the Water Framework Directive in Wales. It focuses on national-level policy and planning issues.

The group will continue as long as necessary, at least up to the completion of the first River Basin Management Plans in 2009.

Minutes and presentations from these meetings are hosted at http://www.euwfd.com/html/england_and_the_wfd.html

Collaborative
research
programme on

The Collaborative Research Programme provided a consistent UK-wide basis for the environmental economics assessments for Water Framework Directive implementation. It was managed by the Department for
