The Future of the Energy Company Obligation

Presentation to Steering Group 21 February 2014

The consultation: what's next

- Publishing the consultation shortly - 8 week consultation.
- Ofgem to publish early response outlining how they intend to implement proposed changes from March 2014
- Legislation laid before summer recess.
- Number of stakeholder events across the country and further engagement opportunities during the consultation period.

Location	Date	Availability
Glasgow	25 February	Space available
Birmingham	12 March	Fully booked
London	17 March	Fully booked
Bristol	25 March	Bookings to be opened shortly
Newcastle	31 March	Bookings to be opened shortly

- Please ensure you respond to the consultation.

Ensuring accurate communication of information across supply chain

- Would be concerned if there were incidences of inaccurate and misleading information channeled through the supply chain.
- **Supply chain and stakeholders should refer to published Govt information in the first instance, and then to talk to us directly.**
- Contact details and link to proposals (the December blog) can be found at the back of this slide pack.
- A link to the consultation will be circulated upon publication.

New targets are proposed for 2017

- Proposal to set **NEW** targets for 2017 for all three ECO sub obligations.
- Proposed levels for the 2017 targets will be contained in the consultation.
- No diminishing ambition for ECO elements targeted at low income and vulnerable consumers.

Sub obligation	2015 Targets	Enforceability at 2015
CSCO	No change proposed	Remains an enforceable compliance deadline at 2015
Affordable Warmth (HHCRO)	No change proposed	Remains an enforceable compliance deadline at 2015
CERO	Proposal to reduce by 33%	Proposal to allow supplier to under deliver at 2015, but their 2017 CERO target will be increased by 1.1 times the carbon shortfall at 2015
