Experts involved in the work and reviewers

The Office of Science and Technology would like to acknowledge the following individuals who contributed to or reviewed the work of Phase2. Experts who led the main packages of work are listed in bold:

Experts and reviewers involved in the work		
Prof Nigel Arnell	Tyndall Centre for Climate Change Research	University of Southampton
Prof Richard Ashley	School of Engineering and Design Technology	Pennine Water Group, University of Bradford
Prof David Ball	School of Health and Social Sciences	Middlesex University
John Blanksby	School of Engineering and Design Technology	Pennine Water Group, University of Bradford
Dr Simon Brown	Manager of Extreme Events	Met Office Hadley Centre
Kevin Burgess	Technical Director (Coastal)	Halcrow Group Ltd
Prof David Butler	Department of Civil and Environmental Engineering	Imperial College, London
Adrian Cashman	Department of Civil and Structural Engineering	Pennine Water Group, University of Sheffield
Dr Matt Charlton	School of Geography	University of Nottingham
Dr John Chatterton	Consultant	John Chatterton Associates
Annabel Coker	School of Health and Social Sciences	Middlesex University
Dr Kieran Conlan	Consultant	Cascade Consulting
Dr Nick Cooper	Head of Coastal Processes Team	ABP Marine Environmental Research
Rob Deakin	Market Sector Manager (Geographic Information Systems)	Halcrow Group Ltd
Andrew Drinkwater	Sewerage Operations, Water Research Centre	WRc Group
Prof Edward Evans	Visiting Professor, School of Civil Engineering, University of Glasgow	Lead technical consultant to the project
Dr Jennifer Gill	NERC Research Fellow	University of East Anglia
Prof Colin Green	Professor of Water Economics, Flood Hazard Research Centre	Middlesex University
Vincent Grimm	Researcher	Formerly HR Wallingford
Dr Jim Hall	Department of Civil Engineering	University of Bristol
Dr Claire Hinton	Coastal Processes team	ABP Marine Environmental Research
Jonathan Hinks	Chief Engineer (Dams)	Halcrow Group Ltd
Dr Joe Howe	School of Planning and Landscape	University of Manchester
Dr Stephen Huntington	Managing Director	HR Wallingford
Richard Kellagher	Water Department	HR Wallingford
Prof Stuart Lane	School of Geography	University of Leeds
Laure Ledoux	Director	Environmental Futures
Prof Glenn Lyons	Centre for Transport and Society	University of the West of England
Jamie Marshall	Utilities, Water Research Centre	WRc Group

Experts involved in the work (continued)		
Prof Joe Morris	Institute of Water and Environment	Cranfield University
Prof Robert Nicholls	School of Civil Engineering and the Environment	University of Southampton (formerly Middlesex)
Prof Julian Orford	School of Geography	Queens University, Belfast
Mike Panzeri	Senior Environmental Informatics Scientist	HR Wallingford
Prof Tim O'Riordan	School of Environmental Sciences	University of East Anglia
Prof Dominic Reeve	School of Engineering	University of Plymouth (formerly Nottingham)
Prof Edmund Penning-Rowsell	Professor and Pro Vice Chancellor for Research, Head of Flood Hazard Research Centre	Middlesex University
Dr Nick Reynard	Head of Risk Analysis and Trends	CEH Wallingford
Prof Keith Richards	Department of Geography	University of Cambridge
Prof Adrian Saul	Department of Civil and Structural Engineering	Pennine Water Group, University of Sheffield
Paul Sayers	Group Manager	HR Wallingford
Dr David Sear	Department of Geography	University of Southampton
Jonathan Simm	Technical Director, Engineering	HR Wallingford
Prof Heidi Smith	School of Engineering, Design and Technology	Pennine Water Group, University of Bradford
Stuart Suter	Chief Engineer (Irrigation and Drainage)	Halcrow Group Ltd
Prof Colin Thorne	Chair of Physical Geography	University of Nottingham
Dr Robert Tinch	Director	Environmental Futures
Ian Townend	Managing Director	ABP Marine Environmental Research
Prof Kerry Turner, CBE	School of Environmental Sciences	University of East Anglia
Prof Andrew Watkinson	Tyndall Centre for Climate Change Research	University of East Anglia
Prof Alan Werritty	Department of Geography	University of Dundee
Prof Howard Wheeler	Head of Environmental and Water Resource Engineering	Imperial College, London
Phillip Wildbore	Sewerage Operations, Water Research Centre	WRc Group
Science editor:		
Michael Kenward		Kenward Words Ltd

The Office of Science and Technology would also like to acknowledge the contributions made by the members of the High-Level Stakeholder Group led by Elliot Morley MP, specifically:

High Level Stakeholder Group: members and deputies	
Elliot Morley MP – Chair	Minster for Environment and Agri-Environment
Sir David King	Chief Scientific Adviser to HM Government
Richard Bird	Director, Water Directorate, Defra
Mridul Brivati	Team Leader, Environment, Food and Rural Affairs Team, HM Treasury
Alasdair Coates	Operations Director, Halcrow Group Ltd
Sir Martin Doughty	Chair, English Nature
Professor Chris Fleming	Group Board Director, Halcrow Group Ltd
Sir Edward Greenwell	Former President, Country Land and Business Association
Judicaelle Hammond	Environment Food and Rural Affairs, HM Treasury
Brian Hackland	Director Town and Country Planning, ODPM
Sir John Harman	Chairman, Environment Agency

High Level Stakeholder Group: members and deputies (continued)	
Lester Hicks	Divisional Manager, Minerals and Waste Planning Division, ODPM
Antonia King	Team Leader, Environment, Food and Rural Affairs Team, HM Treasury
Cheryl Miller	Chief Executive Officer, East Sussex County Council representing the Local Government Association
Anna Longman	Team Leader, Environment, Food and Rural Affairs Team, HM Treasury
Sarah Mullen	Team Leader, Environment, Food and Rural Affairs Team, HM Treasury
David Noble, OBE	Chief Executive, Association of Drainage Authorities
John Parker	Head of General Insurance, Association of British Insurers
Donald Ritchie	Deputy Chairman, Environment Agency
Bill Stow	Director General, Environment, Defra
Anna Walker	Director General, Land Use and Rural Affairs, Defra
Chris Walker	Assistant Director, Operations, East Sussex County Council representing the Local Government Association
Peter Watts	Chair, Severn Trent Regional Flood Defence Committee

The Office of Science and Technology would also like to acknowledge the contributions of the group of expert technical advisors, specifically:

Expert advisors	
Dr Mervyn Bramley	Policy Manager, Environment Agency
Dave Brook OBE	Head of Branch, Mineral and Waste Planning, ODPM
Dr Simon Brown	Manager of Extreme Events, Hadley Centre, Met Office
Alan Burdekin	The Scottish Executive Environment and Rural Affairs Department
Dr Ann Calver	Head of Hydrological Risks Division, Centre for Ecology and Hydrology
John Clarke	Rivers Agency, Department of Agriculture and Rural Development, Northern Ireland
Phil Gelder	Sewer Flooding Manager, Severn Trent Water
Peter Jones	Transport Planning and Environment Group, Welsh Assembly Government
Andrew Jackson	Deputy Director Foresight, Office of Science and Technology
Dr Geoff Jenkins	Met Office Hadley Centre
James Marsden	Head of Policy, English Nature
Ian Meadowcroft	Risk Analyst, Environmental Policy-Risk and Forecasting, Environment Agency
Reg Purnell	Chief Engineer, Defra
Dr Suresh Surendran	Risk Analyst, Environmental Policy-Risk and Forecasting, Environment Agency

Flood and Coastal Defence project team:	
Robert Bernard	Project Co-ordinator
Derek Flynn	Project Leader
Jon Parke	Project Manager
Neil Pitter	Project Administrator
Robert Thornes	Project Co-ordinator

List of project reports:

The following project reports and documents are available from the OST or from the Foresight website – www.foresight.gov.uk :

1. *Executive Summary*
2. *Key messages for stakeholders*: this is a series of information sheets for researchers, skills providers, local and regional government, and the insurance and financial services.
3. An overview of the science used may be found in:
Scientific Summary: Volume I – Future risks and their drivers
Scientific Summary: Volume II – Managing future risks
4. *Scotland*. This is a detailed technical report analysing the extent and nature of future risks specifically for Scotland.
5. A series of technical papers detailing the work of the project.
6. *'FloodRanger'* flooding simulator: this computer based educative tool enables the operator to explore the interaction of many issues relating to future flood defence for an imaginary part of the UK – including climate change, planning, infrastructure provision and flood defences. It is of potential interest to educators and professionals engaged in flooding and its interaction with society, the environment and the economy. Further details of FloodRanger are available from the developers: www.discoverysoftware.co.uk
