	Business representative organisation/trade body
	Central government
	Charity or social enterprise
	Individual
	Large business (over 250 staff)
	Legal representative
	Local Government
✓	Medium business (50 to 250 staff)
	Micro business (up to 9 staff)
	Small business (10 to 49 staff)
	Trade union or staff association
	Other (please describe)

Extractive Companies

The following information will help us to better understand the impact of this reporting requirement on your company or group of companies:

	Oil	Minerals	Gas	Logging of primary forests
Please indicate in which of the extractive industries your company is engaged (NB: this question is relevant only to those companies actively engaged in extraction and not to those providing support or ancillary services)	✓		✓	

Is your company listed on:	Yes	No
• the London Stock Exchange?		✓
• AIM?		✓
• another recognised exchange within the EU? (if yes, please state which)		✓
• another international exchange? (if yes, please state which)		✓
• are any of your subsidiaries listed on an exchange? (If yes, please provide details)		✓

	Yes	No
Will your company be responsible for the preparation of the consolidated report on payments to governments for your group?		✓

	Micro	Small	Medium	Large
Please indicate the number of subsidiaries within your group that are active in the extractive industries			4	

(1) We propose that the first report should be prepared in respect of financial years commencing on or after 1 January 2015 (Para 5.3 – 5.4)

Question 1.1 Do you agree that companies should only be required to produce whole year reports and should not be required to provide a partial year report for the period between the regulations coming into force and 31 December 2014?

☒ Yes ☐ No ☐ Not sure

If no, please indicate:

(a) The minimum period you think should be provided between the regulations coming into force and the date from which reporting of payments made to governments commences:

Minimum period.....

and (b) How information from a partial year report will be used and the benefits that would arise from this approach.

Please provide comments on any difficulties/cost that might arise from requiring a partial report for 2014.

Fairfield believes the additional time to understand the new requirements and to implement a new process at such short notice is impractical. We believe also, that a report for just one quarter may lead to an inaccurate view being represented, as it will not follow the normal annual reporting cycle.

Question 1.2 Do you agree that the first reports should relate to financial years commencing on or after 1 January 2015?

☐ Yes ☒ No ☐ Not sure

If no, please indicate your preference for the date from which reports should be required and provide an explanation for your preference. (Please note that UK-registered large extractives companies must report on in respect of financial years commencing on or after 20 July 2015 i.e. the deadline for transposition of the Directive.)

Preferred date – On or after 1 January 2016

Reasons for preferred date:

Fairfield does not have the systems currently set up to meet the requirements and hence the additional compliance burden, therefore we need time to resource this.

(2) We propose that UK registered companies are required to publish the extractive report no later than 11 months after the end of their financial year. (Para 5.5 – 5.7)

Question 2.1 Do you agree that UK registered companies should be allowed a maximum of 11 months after the end of their financial year in which to prepare and publish their extractive reports?

☒ Yes ☐ No ☐ Not sure

If no, please indicate:

(a) The maximum period, if any, you think should be permitted after the (financial) year end for companies to prepare and publish their extractive reports:

Maximum period.....

and (b) Indicate the benefits that would arise from this approach below.

Question 2.2 If a shorter period for reporting was imposed, what impact would this have on UK-registered extractives companies?

This would likely lead to further cost and potentially incomplete or inaccurate data having to be submitted to meet an accelerated timeline.

Question 2.3 If this approach would impose costs on business, please provide an estimate of the costs with an explanation of how these are derived.

Fairfield has a small Tax & Finance dept, with significant compliance burdens early in the year. An acceleration of the timeline may lead to this exercise having to be performed in the same timeframe and hence the need for additional consultancy resource.

Would such costs be recurring costs or transitional costs in the first year only?

☒ Recurring ☐ Transitional ☐ Not sure

(3) Comments are invited on any issues, such as changes to costs or benefits, that may arise from a later transposition deadline for the Transparency Directive. (Para 5.8)

Question 3.1 What issues might arise from a later transposition of the Transparency Directive? Please describe any possible impacts and, if appropriate, provide details of any costs or benefits that might result from this.

We are not entirely sure on how Chapter 10 and the Transparency Directive fully interact in terms of timing, however due the size of our business and the need not to overstaff, we would ask that the timetable follows a 12 monthly reporting process, based on the Company's year end.

(4) Subsidiaries of overseas-registered companies will be unable to take advantage of the exemption until their parent company fulfils the obligation to report in either the UK or another EU Member State. Comments are invited on any issues that may arise from this approach. Comments are particularly welcome from subsidiaries of overseas registered companies which may not be able to take advantage of this exemption until their parent companies are obliged to produce a consolidated report under rules imposed by another Member State. (Para 5.9 – 5.10)

Question 4.1 Please provide information on any issues that arise for UK-registered subsidiaries of EU-registered companies. If appropriate please provide details of any costs that arise as a consequence of being unable to (fully) exercise the exemption in 2015. (All EU Member States are required to implement the reporting requirements by July 2015.) Please use this space for any general comments that you may have, comments on the layout of this consultation would also be welcomed.

N/A - wholly owned UK Group

(5) We propose that extractive reports should be published (filed) electronically with Companies House in a format which complies with industry developed best practice (to be determined as part of the systems development). (Para 5.11 – 5.14)

Question 5.1 Do you agree that it is appropriate that industry should be encouraged to lead in the production of best practice guidance to support the production of extractive reports and encourage consistency?

☒ Yes ☐ No ☐ Not sure

If no, please provide supporting reasons for your view.

Question 5.2 Do you agree that reports should be published (filed) electronically with Companies House only i.e. the submission of paper reports is not required or permitted?

☒ Yes ☐ No ☐ Not sure

If no, please provide supporting reasons for your view.

(6) We propose that the penalty regime for non-compliance with the obligation placed on large extractive companies to prepare and publish annually reports on the payments they make to governments should reflect that in place for failure to prepare and file statutory annual reports.

We welcome views on whether the proposed penalty scheme is effective, proportionate and dissuasive. In particular, we would welcome views on:

- the imposition of an offence for filing a report containing misleading, false or deceptive information,**
- on how the penalty regime should apply in cases where external factors affect the preparation of a report or prevent a company from filing a report.**

Question 6.1 Do you agree that it is appropriate for the penalty regime here to reflect that in place for failure to prepare and file statutory annual reports?

☒ Yes ☐ No ☐ Not sure

If no, please indicate your preferred option and provide an explanation for your suggested approach.

Question 6.2 Do you consider that the proposed penalty regime is effective, proportionate and dissuasive?

☐ Yes ☐ No ☒ Not sure

If no, please explain why you do not consider the regime would be effective, proportionate and dissuasive. Please provide any suggestions you may have as to how the regime could be improved.

If your suggestions relate to an existing regime, please provide appropriate references.

Refer to 6.4

Question 6.3 Are there any special circumstances that the Government should take in to account when determining the penalty regime?

☒ Yes ☐ No ☐ Not sure

If so what are they, and do you have any suggestions about how these might be dealt with within the penalty regime?

Our main concern with this Directive is that we are likely to give away commercially confidential information when reporting at a Project level. We believe penalties should take into account the commercial sensitivity of the disclosures.

Question 6.4 Are there any other issues that the Government should consider in developing the penalty regime?

☒ Yes ☐ No ☐ Not sure

If yes, please provide an explanation and supporting evidence where appropriate.

We would appreciate a ‘light touch’ in the first reporting period’

There is currently no consideration of the materiality and we believe a threshold should be included.

(7) A copy of the draft regulations implementing Chapter 10 has been included within the consultation document.

Question 7.1 Do you have any comments on the draft regulations included at Annex 4?

☐ Yes ☒ No ☐ Not sure

If yes, please provide details. Please note that the UK does not have the discretion to amend the requirements set out in the Directive. As such comments should relate to matters of understanding or those areas where the UK has discretion in determining an option e.g. the timeframe within which an annual report must be published.

(8) The Government would like to gather information which is directly relevant to UK registered companies on the anticipated costs of implementing this reporting requirement. (Para 7.1)

Question 8.1 We would welcome views on the impacts (costs and benefits) arising on business from this new reporting obligation. It would be particularly helpful if you could provide monetised information relating to any additional costs or benefits you identify. Where possible, please indicate if these additional costs are transitional or recurring costs.

In responding to this question, please note:

- (i) *where a company voluntarily produces a similar or related report already, the costs identified for this purpose should represent only the additional costs necessary to comply with this requirement and not the total cost of production.*

- (ii) BIS is happy to receive information considered to be commercially sensitive separately from the consultation response or, if requested, to remove such information from a response prior to its publication on the consultation website.

The cost impact to our business will be circa £25,000-£50,000, which is purely around the need for additional resource, potentially external. Given the public nature of the disclosure this will also require Board approval and hence key shareholders and their compliance depts. Will likely need to ensure they are comfortable with the disclosure, which means this will be a lengthy process.

This cost will be significantly increased where a Company has overseas interests (as previously noted, we only have UK interests)

Question 8.2 Please describe any other issues associated with this requirement that you would like to draw to our attention.

The benefit of this can only truly be gained when a co-ordinated approach to transparency is achieved. With Chapter 10 and EITI requiring potentially different disclosures there is significant potential for confusion and hence less benefit for any user.

(9) The same reporting requirements apply to listed extractives companies under the amended *Transparency Directive*. The Government would like to gather information which is directly relevant to these companies on the anticipated costs of implementing this reporting requirement.

Question 9.1 Please outline any quantifiable costs and benefits specifically relating to the following issues:

- Economic impact
- Legal implications
- Practical implications
- Competitiveness impact including the position of the UK as a centre for international listings

Economic impacts

Legal implications:

Practical implications:

Systems changes will have to be made

Competitiveness impact including the position of the UK as a centre for international listings

(10) The Government would welcome any other comments on the implementation of Chapter 10 within the scope of this consultation

Do you have any other comments that might aid the consultation process as a whole?

Please use this space for any general comments that you may have, comments on the layout of this consultation would also be welcomed.

Industry must be conscious of the need to derive a consistent treatment for payments made as the operator of a joint venture, initially on behalf of the non-operated partners.

Thank you for taking the time to let us have your views. We do not intend to acknowledge receipt of individual responses unless you tick the box below.

Please acknowledge this reply ☐

At BIS we carry out our research on many different topics and consultations. As your views are valuable to us, would it be okay if we were to contact you again from time to time either for research or to send through consultation documents?

☒ Yes

☐ No
