- Hereford (Traditional/Orig<sup>1</sup>)
- Highland
- Irish Moiled/Maol<sup>2</sup>
- Jersey (Island<sup>4</sup>)
- Lincoln Red (Including Orig<sup>1</sup>)

---

<sup>1</sup> “Orig” means pedigree-registered animals listed as being part of an ‘Original Population’ of that breed, usually in a separate ‘closed’ sub-register within the relevant breed society’s herdbook.

<sup>2</sup> Native breeds at risk in both the UK and in the Republic of Ireland/Eire.

<sup>3</sup> “Galloway” includes pedigree-registered Black, Dun, and Riggitt Galloways.

<sup>4</sup> “Island” means pedigree-registered animals listed as being part of the ‘Island’ population of that breed, usually in a separate ‘closed’ sub-register within the relevant breed society’s herdbook.

<sup>5</sup> Northern Dairy Shorthorn cattle are registered as separately-identified animals within the Dairy Shorthorn breed of cattle.

<sup>6</sup> “Section A semi-feral” refers to a particular and separately identified sub-population of pedigree ponies that are registered within the studbook of the Welsh Pony and Cob Society (in accordance with their approved rules). To retain their semi-feral status they are required to remain within their designated environment and have individual passports officially annotated to show their semi-feral status. Confirmation as to their individual eligibility should be checked with the Welsh Pony and Cob Society which retains lists of all potentially eligible “Section A semi-feral” ponies.

- Longhorn
- Luing
- Northern Dairy Shorthorn<sup>5</sup>
- Red Poll
- Shetland
- Sussex
- Vaynol
- Welsh Black
- White Park
