## **EXPLANATORY NOTE**

(This Note is not part of the Licence)

1. This licence has been amended to add Cyprus as a permitted destination. Schedule 2 (Destinations concerned) specifically lists destinations that are not permitted under the licence (ie 'all destinations other than an in'). Therefore, Cyprus has been removed from this listing. This change to the permitted destinations is in preparation for the UK's implementation of the European Union Directive 2009/43/EC of 6 May 2009 (also known as the 'Intra-Community Transfer' or ICT Directive).
  
2. This Open General Export Licence permits, without further authority but subject to certain conditions, the export of goods specified in Schedule 1 to the licence, for demonstration in any country other than those listed in the Schedule 2 to the Licence.
  
3. The goods may only be exported under this Licence if they satisfy certain conditions. These include;
  - remain under the control of the exporter or its agent at all times or other arrangements agreed in advance via MOD;
  - goods must be returned within 12 months of their exportation or in the case of software made time limited;
  - exporter must have obtained in writing approval from the Ministry of Defence to demonstrate the goods.

4. Advice on approval for associated technology transfers in intangible form at a protective marking of RESTRICTED or above may be obtained from DEF SY, Level 1, Zone 1, Main Building, MOD, Whitehall, London SW1A 2HB.

5. An exporter who exports goods under the authority of this Licence must before his first exportation under the Licence, inform the Secretary of State of his intention to export goods under this Licence and of the address where copies of the said records may be inspected.

This notification must be made via the Export Control Organisation's electronic licensing system, SPIRE, at [www.spire.bis.gov.uk](http://www.spire.bis.gov.uk).

6. The Secretary of State has the power to suspend or revoke licences at any time and in such circumstances and on such terms as he thinks fit. If an exporter receives written notice to this effect, he will be prevented from relying on this Licence. The power to suspend may be used in addition to criminal prosecution or as an alternative. Suspension may occur for example where an exporter is being investigated or prosecuted in relation to a possible

criminal offence, or has been found guilty of a criminal offence under the export control legislation. It may also be used in situations where an exporter has breached the conditions of the Licence and failed to take corrective action within a reasonable period (see condition 3(9)).

7. Where, the ECO identifies failures in compliance with licence conditions or the legislation during a compliance visit, the ECO may send a warning letter to the exporter listing the improvements that need to be made to ensure compliance. The letter will set out the timeframe within which these improvements must be completed. Failure to complete these improvements may lead to the exporter's ability to use the licence being suspended for a period of time.

8. The exporter may apply for Standard Individual Export Licences during the period of suspension. Suspension will not automatically prevent him from using another OGEL so long as he meets all its terms and conditions and that he has not received a letter suspending or revoking his ability to use that licence.

9. The provisions of this Licence only apply for the purposes of the Export Control Order 2008, in particular, this Licence does not extend to prohibitions in other legislation implementing United Nations sanctions.
