

Appendix figures and tables. Lessons from London schools for attainment gaps and social mobility

Figure A1 Change in proportion of pupils eligible for FSM achieving eight or more GCSEs at A*-B including English and maths, across local authorities, 2002–12

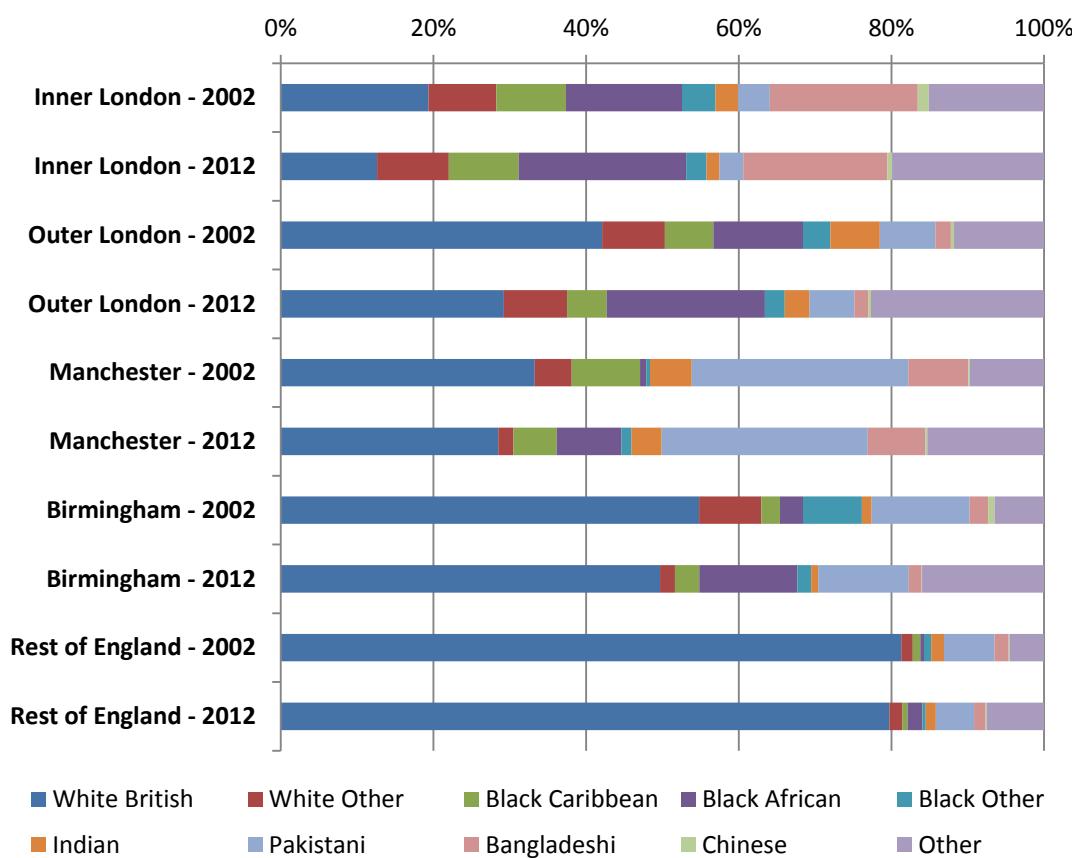

Source: Authors' calculations using National Pupil Database 2002 and 2012.

Figure A2 Interquartile range in Key Stage 4 standardised points score, by local authority

Source: Authors' calculations using National Pupil Database 2002 and 2012.

Figure A3 Ethnic mix of pupils eligible for FSM across London, Manchester, Birmingham and the rest of England, 2002 and 2012

Source: Authors' calculations using National Pupil Database 2002 and 2012.

Figure A4(a) Estimated effect of being in London or other large cities on proportion of pupils eligible for FSM achieving eight or more GCSEs at A*-B including English and maths (or equivalent), 2002–12, with and without controls (relative to rest of England)

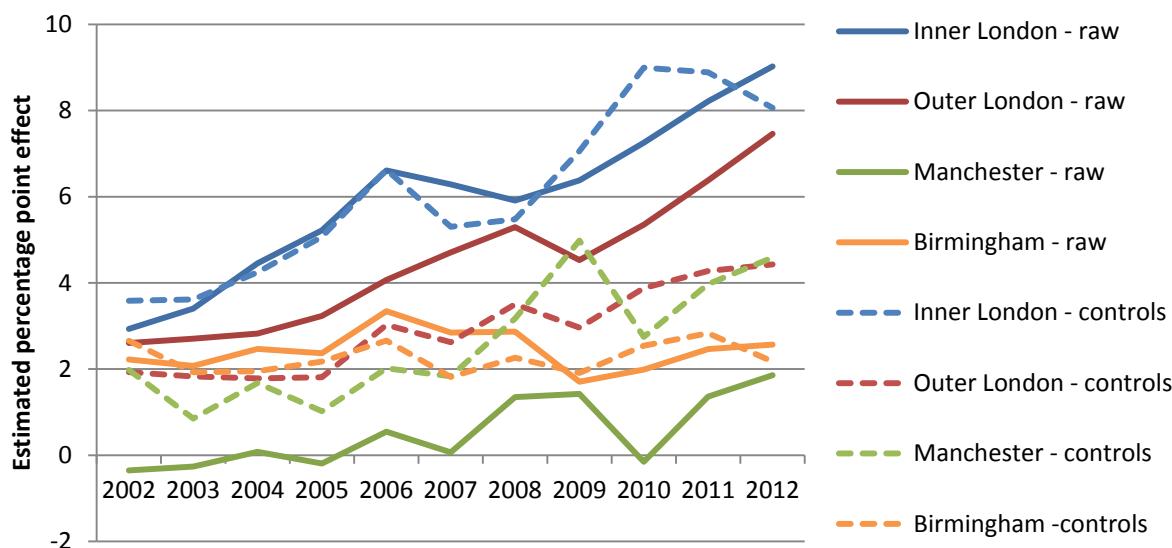

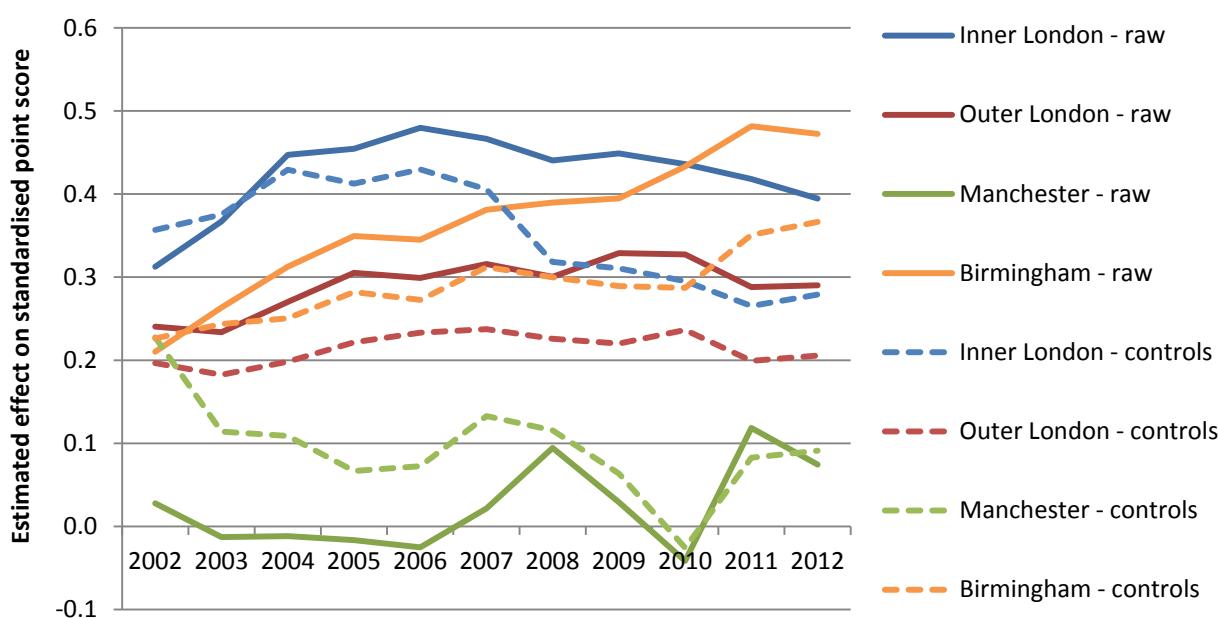

Figure A4(b) Estimated effect of being in London or other large cities on average standardised GCSE capped points score amongst pupils eligible for FSM, 2002–12, with and without controls (relative to rest of England)

Source: Authors' calculations using National Pupil Database 2002–12.

Figure A5(a) Estimated effect of being in London or other large cities on proportion of pupils eligible for FSM achieving eight or more GCSEs at A*-B including English and maths (or equivalent), 2002–12, with controls and prior attainment (relative to rest of England)

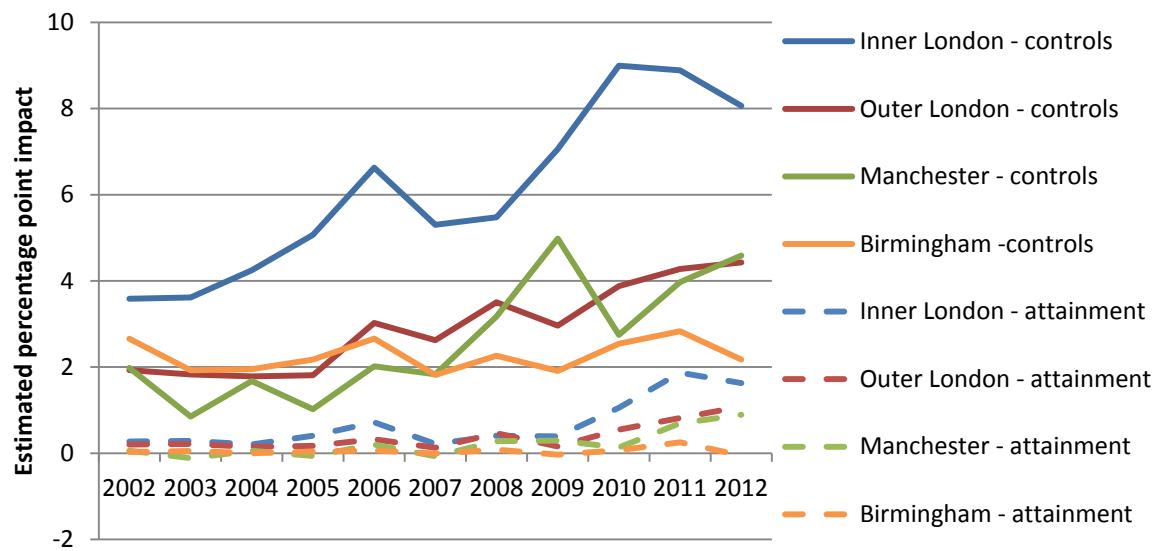

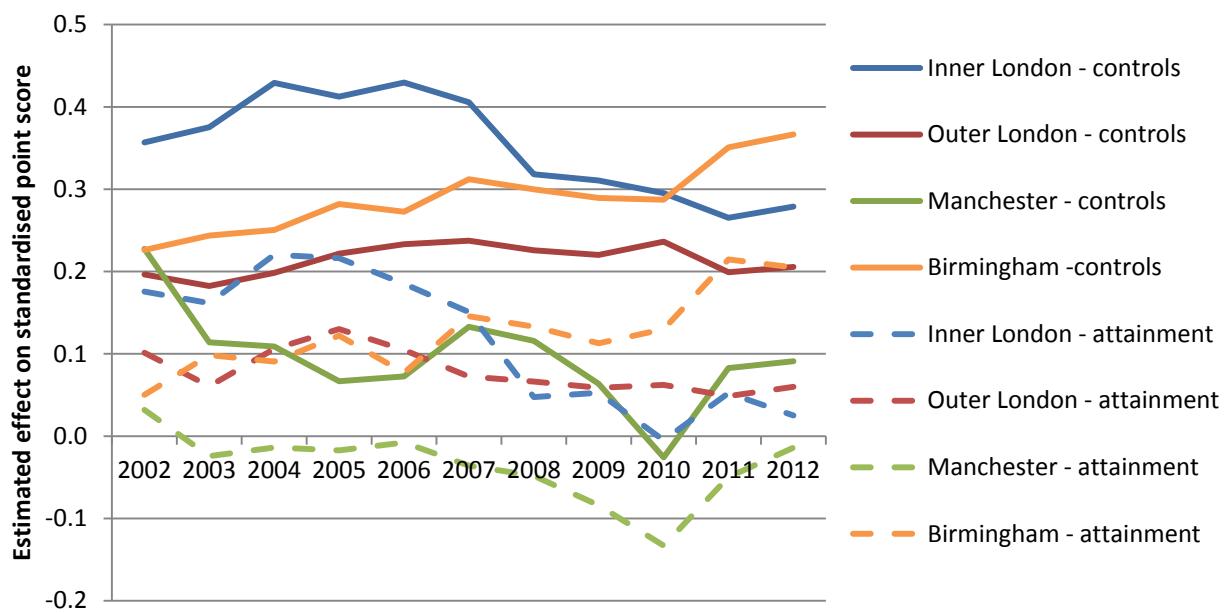

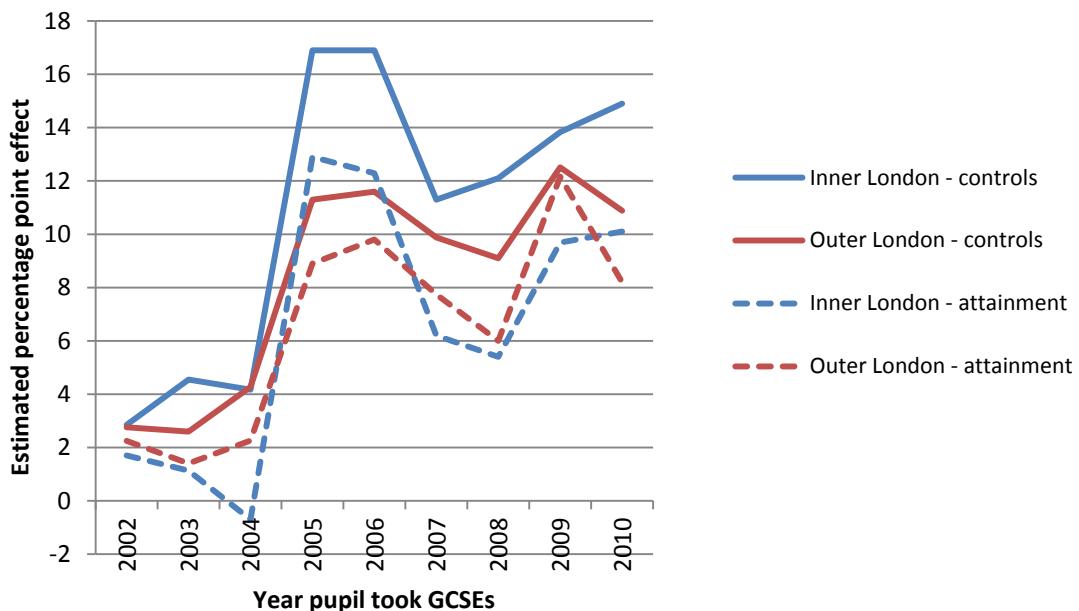

Figure A5(b) Estimated effect of being in London or other large cities on average standardised GCSE capped points score amongst pupils eligible for FSM, 2002–12, with controls and prior attainment (relative to rest of England)

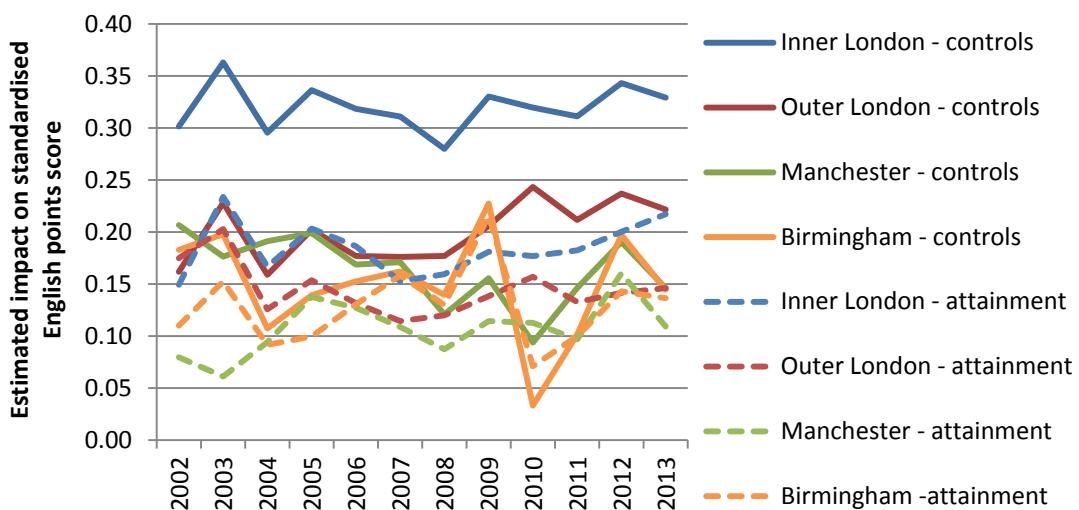

Source: Authors' calculations using National Pupil Database 2002–12.

Figure A6 Estimated effect of being in London on the proportion of pupils achieving two or more A levels at A*-E amongst pupils eligible for FSM who took KS4 2002–10, with controls and with controls for KS4 prior attainment (relative to rest of England)

Source: Authors' calculations using National Pupil Database 2002–12.

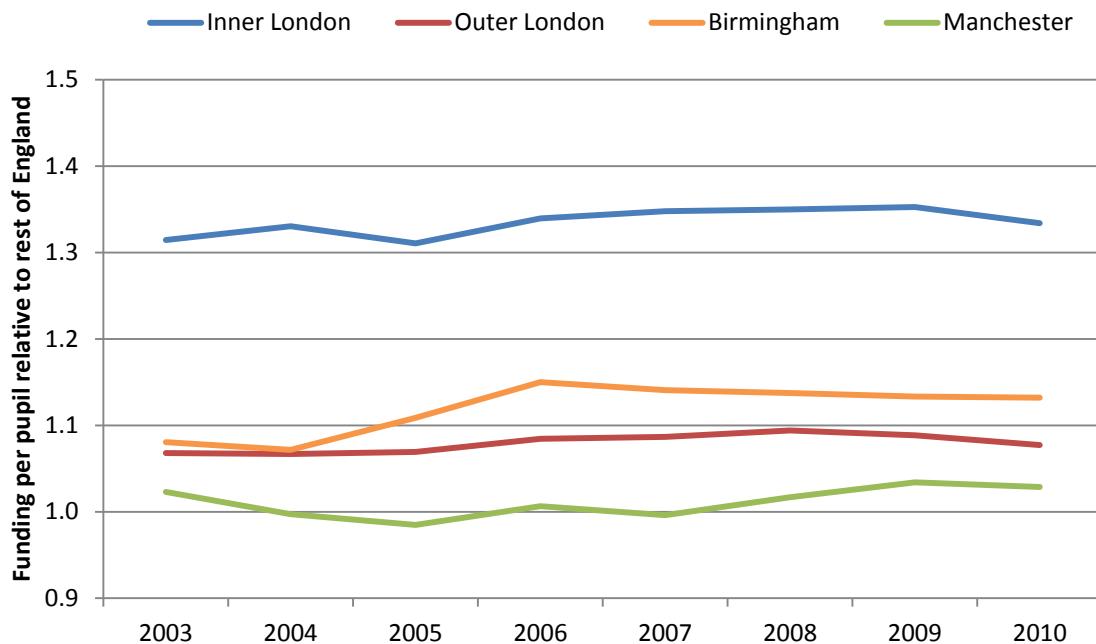

Figure A7 Estimated effect of being in London or other large cities on average standardised KS2 English points score amongst pupils eligible for FSM, with controls and with controls for KS1 teacher assessments

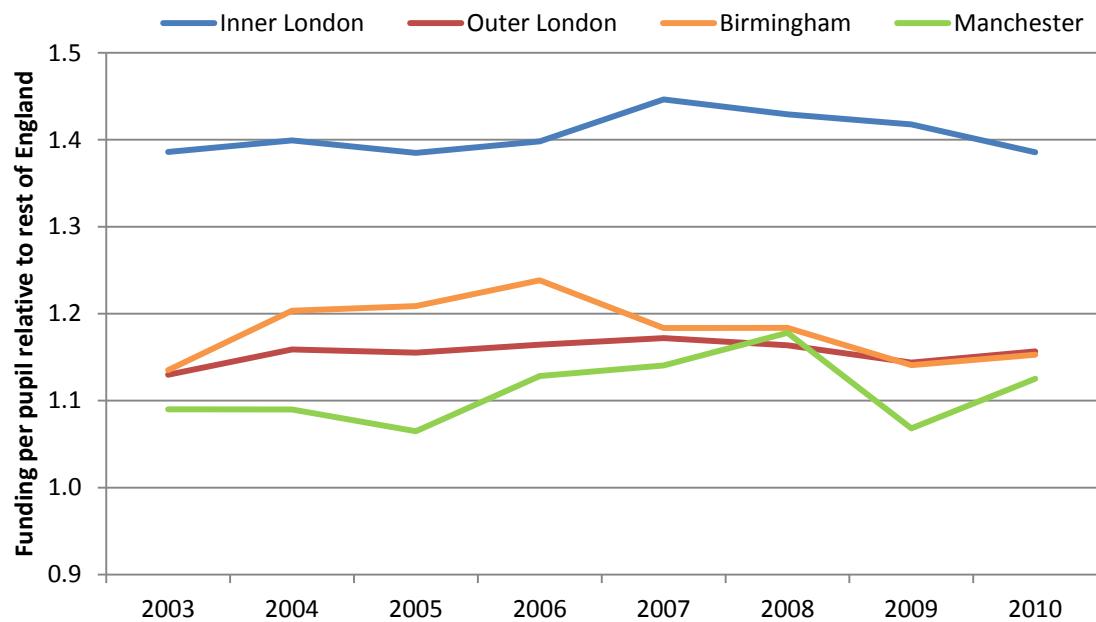

Source: Authors' calculations using National Pupil Database 2002–13.

Figure A8 Funding per pupil for London, Birmingham and Manchester relative to the rest of England, 2003–10

(a) Primary schools

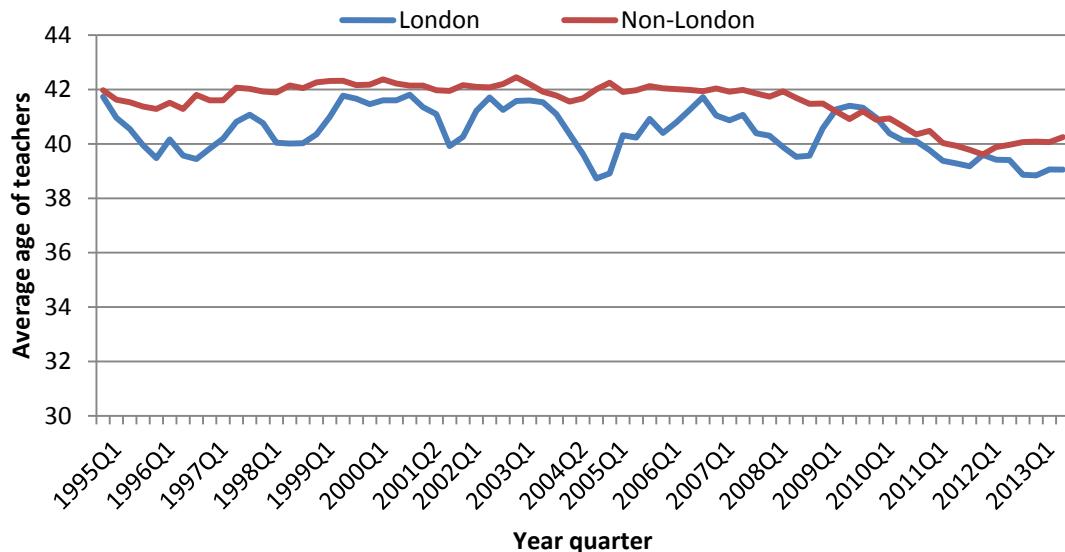

(b) Secondary schools

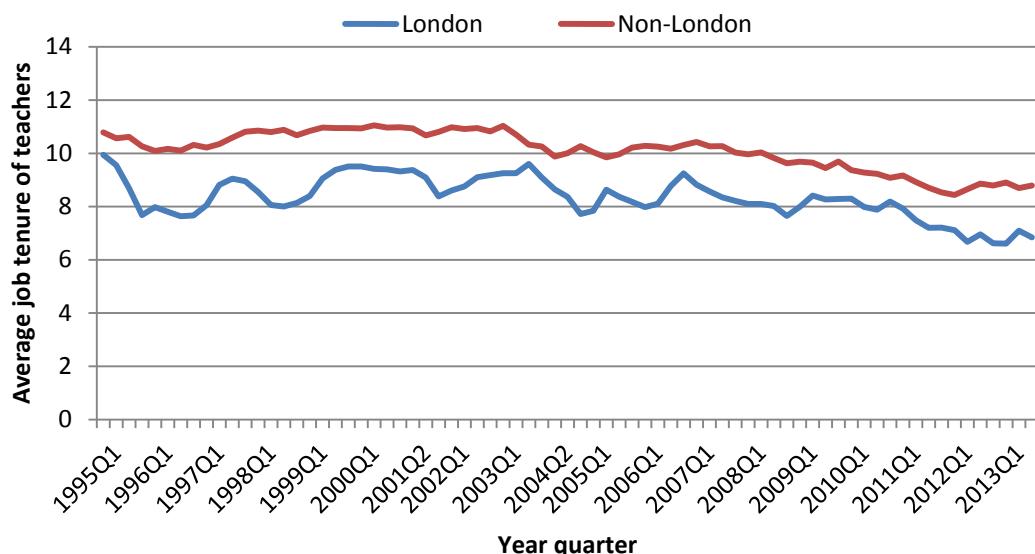

Source: Authors' calculations using Section 251 Returns 2003–10.

Figure A9 Average age of teachers in London and outside London, over time

Source: Authors' calculations using the Labour Force Survey 1994–2013.

Figure A10 Average job tenure of teachers in London and outside London, over time

Source: Authors' calculations using the Labour Force Survey 1994–2013.

Table A1 Estimated effect of being in London or other large cities on proportion of pupils eligible for FSM achieving five or more GCSEs at A*–C including English and maths (or equivalent), 2002–12 (relative to rest of England)

Notes: *** denotes statistical significance at the 1% level. ** denotes statistical significance at the 5% level. * denotes statistical significance at the 10% level. The set of pupil characteristics we control for is as follows: gender; ethnicity (eight non-white minority groups, as in Figure A3); IDACI score; whether pupils have a statement of special educational needs (SEN); whether pupils have English as an additional language. The set of school characteristics is as follows: school type; number of pupils; proportion of pupils in their year group eligible for FSM; proportion of pupils in their year group with EAL; proportion of pupils in their year group with SEN; proportion of pupils in their year group in each quintile of IDACI; proportion of pupils in their year group from a non-white background. Prior attainment includes controls for KS2 maths and English fine points scores (with quadratic terms).

Table A2 Estimated effect of being in London or other large cities on Key Stage 2 maths standardised fine points score, by year in which pupils took or will take their GCSEs (relative to rest of England)
