

STRATEGIC EXPORT CONTROLS

Country Pivot Report

1st October 2010 - 31st December 2010

EXPORT CONTROL ORGANISATION

Countries: All countries

Case Types: All case types

All Cases / Incorporation Cases Only: All cases

Ultimate Destinations: All countries

Licence Statuses: All licence statuses

Reasons for Refusal: All reasons for refusal

Case Summaries: All case summaries

Ratings: All control entries

This report covers export licensing decisions made by Her Majesty's Government between 1st October 2010 and 31st December 2010. All the information relating to a destination is shown together, and the reader will find all (if any) information on SIELs, OIELs, SITLs, SITCLs and OITCLs all in one place. This enhances the readability of the report.

The information within the report covers those licences Issued, Refused or Revoked within the period for the following categories:

- Standard Individual Export Licences (SIELs) (including information on incorporation and Standard Individual Transshipment Licences)
- Open Individual Export Licences (OIELs)
- Open Individual Trade Control Licences (OITCLs)
- Standard Individual Trade Control Licences (SITCLs)
- Council Regulation 1236/2005 (concerning trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment).

There have been some major changes made to the content and layout of the report, and these take into account the commitment the Government made to the Committee on Arms Export Controls. The changes that have been implemented in this report are as follows:

- A breakdown of the overall value of SIELs issued, into military and non-military totals
- A split in the list of items between military and non-military items
- The inclusion of the control entry list with a breakdown as to how many items were licensed under that category and the value
- The addition of the ultimate destination for items that are being incorporated
- The addition of the case summary for SIELs that have been refused

General Information

SIELs

SIELs generally allow shipments of specified items to a specified consignee up to the quantity specified by the licence. Licences permitting permanent export are generally valid for 2 years from date of issue. Where the export is temporary, for example for the purposes of demonstration, trial or evaluation, the licence is generally valid for one year only and the items must be returned before the licence expires. A licence is not required for the majority of transshipments through the UK en-route from one country to another, providing certain conditions are met. Most other transshipments can be made under one of the Open General Transshipment Licences, provided in all cases that the relevant conditions are met. Where this is not the case, a Standard Individual Transshipment Licence (SITL) is required.

The information on SIELs included in this Report has been compiled using the Export Control Organisation's computer databases. The databases were interrogated during the compilation of this Report to identify the status of all applications on which a decision was taken during the period covered by this Report. In a small number of cases there may be a subsequent change of status. There are two main reasons for such changes: a licence issued during the period may have been revoked, for example because of the imposition of trade sanctions or an arms embargo; or a decision during the period to refuse a licence might be overturned because the applicant later appealed successfully.

During the period 3156 SIELs were issued, 111 were refused and none were revoked.

OIELs

OIELs are specific to an individual exporter and cover multiple shipments of specified items to specified destinations and/or, in some cases, specified consignees. OIELs covering the export of items entered on the Military List are generally valid for two years, while OIELs covering other items are generally valid for three years. There are no Open Individual Export Licences for transshipments. During this reporting period 62 OIELs were

issued. In addition, none were amended during the period to exclude particular destinations and/or items, 5 were refused and none were revoked. It should be noted that the refusal of an application for an OIEL, amendment to exclude a particular destination(s) and/or item(s), or the revocation of an OIEL, does not prevent a company from applying for a SIEL covering some or all of the items concerned to specified consignees in the relevant destinations. Clearly, however, the factors that led to the original decision would be taken into account in the decision on any such application.

A summary description is provided for all items covered by SIELs and OIELs issued for this period. The Report also gives information on the number of small arms covered by SIELs issued in the period.

However, this information is not provided in cases where, under the Code of Practice on Access to Government Information, the arguments for publication of the information are otherwise outweighed by the harm that this would cause to commercial confidentiality and/or legitimate security interests in the recipient country. no such exclusions were made in this Report.

In the case of SIELs refused or revoked, only the rating of the goods is provided. Likewise for OIELs, only details of ratings are provided for licences revoked, refused in full or whose coverage was amended during the period by the exclusion of the destination (including items excluded in 2011 by the amendment of 2011 and pre-2011 licences).

TRADE LICENCES

Standard Individual Trade Control Licences (SITCLs)

A Standard Individual Trade Control Licence (SITCL) is specific to a named trader and covers involvement in trading of a set quantity of specific goods between a specific source and destination country with a specified consignor, consignee and end-user. SITCLs will normally be valid for two years. Upon expiry either by time or because the activity has taken place, the licence ceases to be valid and must be returned to the Export Control Organisation. Should further similar activity take place, a further licence must be applied for. During the period 19 SITCLs were issued, none were refused and none were revoked.

Open Individual Trade Control Licences (OITCLs)

An Open Individual Trade Control Licence (OITCL) is specific to a named trader and covers involvement in trading of specific goods between specific source and destination countries and/or specified consignors, consignees and end-users. OITCLs are generally valid for 2 years. During the period 4 OITCLs were issued, 1 was refused and none were revoked.

A lower level of information is provided on both OITCLs and SITCLs as the release of further information at this stage may have an adverse commercial effect on some of the activities being undertaken. However, more detailed information should be included in the full Strategic Export Controls Annual Report.

INFORMATION ON SIELS, SITLS AND OIELS

The entry for each destination contains the following information:

For SIELs:

- The value of all applications in respect of which a SIEL was issued for the export of items to the destination concerned during the period, whether the export concerned was permanent or temporary. Values are shown to nearest pound, and are also broken down by the control list entry.

It should be noted that the actual value of exports made under the licences is likely to be less than shown

because some of these licences will not be used to make all of the exports authorised and others will not be used at all. In addition, some items are exported only temporarily and are later returned to the UK.

- The number of licences issued, including numbers of licences for items on the Military List, for other items and for both.

- A summary description of the items covered by the licences issued during the period, with the items that were allowed for temporary export indicated by a "T" preceding the description. The data on refused SIEL applications does not include those refused during this period following an appeal against an earlier refusal. It does include applications refused during this period that, at the end of it, were pending a decision on an appeal. The SIELs data also does not cover goods that were removed from an application before a licence was issued, applications that were withdrawn or stopped before a decision was reached, or applications where it was determined that no licence was required or that the goods could be exported to the destination concerned under an Open General Export Licence (OGEL).

In a small number of cases SIELs may be issued identifying more than one destination. This normally arises where a licence is issued for the temporary export of items for exhibition or demonstration in more than one destination. Details of these licences are included in the information for each relevant destination. This means that the total number of SIELs issued, as shown above, is slightly lower than the sum of all SIELs issued shown on the destination pages.

For Incorporation:

Information on incorporation is provided in the same format as for SIELs, and includes the same level of information. Information is also included on the ultimate destination for incorporated items. Also included is the final destination of the items that are to be incorporated.

For SITLs:

Information on SITLs is provided in the same format as for SIELs. The licensing information can be found within each destination, under the heading 'SIELs - Transhipment'. However, the items covered by issued SITLs merely pass through the UK and it would therefore be misleading to compare the 'value' for these licences in the report with the value of items originating in the UK.

For OIELs:

- The number of licences issued also includes additional items authorised in 2007 through amendment to a pre-2007 licence.

- A summary description of the items covered by each OIEL the relevant OIELs issued during the period is shown by destination, with the items that were allowed for temporary export indicated by a "T" preceding the description.

- Information is also provided on the relevant destination pages for OIEL applications refused in full or for licences which were revoked or where coverage was amended during the period by the exclusion of the destination or by the exclusion of items in this quarter by amendment to licences issued in 2007 or earlier.

The destination coverage of an OIEL may be amended for a variety of reasons, but mainly in the light of recommendations received from advisory departments. Sometimes amendments follow the imposition of an arms embargo, but they may also reflect general concerns about the destination or a relevant change in circumstances there. A decision to exclude a particular country from the coverage of an OIEL does not mean that country is permanently excluded. Where the concerns that led to the original decision are no longer relevant, it might be decided to reinstate that destination.

The OIELs data does not cover applications from which specific items or destinations were removed before an OIEL was issued, or applications withdrawn before a decision was reached, those for which it was determined that no licence was required or that the items could be exported to the destination concerned under an OGEL.

The information does not cover OIELs whose period of validity was extended temporarily during the period pending a decision on an application for a new OIEL. Such cases amount to a temporary extension of an OIEL granted in an earlier period. The decision on the new application will be covered in this or a future report, as the case may be. As OIELs cover multiple shipments of specified goods to specified destinations or specified consignees, exporters holding OIELs are not asked to provide details of the value of goods they propose to ship under an OIEL and it is therefore not possible to provide information on the total value of OIELs issued.

Special OIELs:

There are four special categories of licences:

Media OIELs:

Media OIELs authorise the export of military helmets, body armour, non-military 4WD civilian vehicles with ballistic protection and specially designed components for any of these items, mainly for the protection of aid agency workers and journalists in areas of conflict. The licence permits these goods to be exported to all destinations on a temporary basis only, i.e. the goods must be returned to the United Kingdom when no longer required. During this reporting period, no Media OIELs were issued.

Continental Shelf OIELs:

Continental Shelf OIELs authorise the export of controlled goods to the UK sector of the Continental Shelf for the use only on, or in connection with, offshore installation and associated vessels. During this reporting period, no Continental Shelf OIELs were issued.

Global Project Licences (GPL)

This is a form of export licence that has been introduced by Framework Agreement (FA) partners (UK, France, Italy, Sweden, Spain and Germany) to streamline the arrangements for licensing military goods and technologies between them, where these transfers relate to their participation in specific collaborative defence projects. In relation to the collaborative project, each Partner state will, as appropriate, issue their own GPLs to permit transfers of specified goods and technology where these are required for that programme. The GPLs operate on a similar basis to UK Open Individual Export Licences. In the UK, applications for GPLs are assessed against the Consolidated Criteria. During this reporting period, no GPLs were issued.

Transfer of Technology and Technical Assistance

These OIELs are issued for the transfer of technology and provision of technical assistance under Articles 8, 9 and 10 of the Export of Goods, Transfer of Technology and Provision of Technical Assistance (Control) Order 2002. During this reporting period no licences were issued, none were refused and none were revoked.

Overall Processing Statistics

Median processing time (SIELs/SITCLs)	17 days
% and number of SIELs/SITCLs completed in 20 working days	61% (2594)
% and number of SIELs/SITCLs completed in 60 working days	95% (4036)
% [as a % of all SIEL/SITCL cases processed] and number of SIELs/SITCLs refused	2% (109)

Median processing time (OIELs/OITCLs)	79 days
% and number of OIELs/OITCLs completed in 20 working days	20% (22)
% and number of OIELs/OITCLs completed in 60 working days	40% (43)
% [as a % of all OIELs/OITCLs cases processed] and number of OIELs/OITCLs refused	5% (26)

Dealer to Dealer (Dealer) Open Individual Export Licences (OIELs)

Dealer OIELs authorise UK registered firearms dealers to export certain categories of firearms and ammunition solely to other registered firearms dealers on the European Union only, provided that copies of valid documentation are forwarded to the Home Office at least 2 working days before each shipment.

The following is a list of the items that have been authorised for export to the following destinations only:

Austria, Belgium, Bulgaria, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden

No of Licences Issued	Goods Summary
2	air guns, ammunition for veterinary/tranquillising rifles, blank ammunition, components for air guns, components for deactivated air guns, components for deactivated pistols, components for deactivated revolvers, components for deactivated rifles, components for deactivated semi-automatic pistols, components for deactivated shotguns, components for deactivated sporting pistols, components for deactivated sporting rifles, components for deactivated veterinary/tranquilising rifles, components for deactivated vintage guns, components for pistols, components for replica air guns, components for replica pistols, components for replica revolvers, components for replica rifles, components for replica semi-automatic pistols, components for replica shotguns, components for replica sporting pistols, components for replica sporting rifles, components for replica veterinary/tranquilising rifles, components for replica vintage guns, components for revolvers, components for rifles, components for semi-automatic pistols, components for shotguns, components for sporting pistols, components for sporting rifles, components for veterinary/tranquilising rifles, components for vintage guns, components for weapon sights, crowd control ammunition, deactivated air guns, deactivated pistols, deactivated revolvers, deactivated rifles, deactivated semi-automatic pistols, deactivated shotguns, deactivated sporting pistols, deactivated sporting rifles, deactivated veterinary/tranquilising rifles, deactivated vintage guns, inert ammunition, pistols, replica air guns, replica pistols, replica revolvers, replica rifles, replica semi-automatic pistols, replica shotguns, replica sporting pistols, replica sporting rifles, replica veterinary/tranquilising rifles, replica vintage guns, revolvers, rifles, semi-automatic pistols, shotguns, small arms ammunition, smoke ammunition,

	sporting gun ammunition, sporting pistols, sporting rifles, training ammunition for veterinary/tranquillising rifles, training blank ammunition, training crowd control ammunition, training inert ammunition, training small arms ammunition, training smoke ammunition, training sporting gun ammunition, veterinary/tranquillising rifles, vintage guns, weapon sights
--	---

Cryptographic (Crypto) Open Individual Export Licences (OIELs)

Cryptographic OIELs authorise the export of specified cryptography hardware or software and the transfer of specified cryptography technology. These licences do not cover hardware, software or technology which includes certain types of cryptanalytic functions.

No of Licences Issued	The following is a list of the items that have been authorised for export to all countries EXCEPT THE FOLLOWING: Afghanistan, Angola, Armenia, Australia, Austria, Azerbaijan, Belgium, Bosnia and Herzegovina, Bulgaria, Burma, Burundi, Canada, China, Congo, Democratic Republic of, Cyprus, Czech Republic, Denmark, Eritrea, Estonia, Ethiopia, Finland, France, Germany, Greece, Hungary, Iran, Iraq, Ireland, Italy, Japan, Korea, North, Latvia, Liberia, Libya, Lithuania, Luxembourg, Malta, Netherlands, New Zealand, Nigeria, Norway, Poland, Portugal, Romania, Rwanda, Sierra Leone, Slovakia, Slovenia, Somalia, Spain, Sudan, Sweden, Switzerland, Tanzania, Uganda, United States of America, Zimbabwe
4	cable systems sensitive to eavesdropping, cryptographic software, equipment employing cryptography, equipment for generating hopping codes, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, software for the development/production/use of equipment or software specified in 5A002 or 5D002 of the Dual-Use Regulation other than 5A002a2 or 5D002c1, software for the use of technology specified in 5E002, technology for the development/production/use of equipment or software specified in 5A002 or 5D002 of the Dual-Use Regulation other than 5A002a2 or 5D002c1

No of Licences Issued	The following is a list of the items that have been authorised for export to all countries EXCEPT THE FOLLOWING: Cryptographic OIEL Countries
1	cable systems sensitive to eavesdropping, cryptographic software, equipment employing cryptography, equipment for generating hopping codes, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, software for the development/production/use of equipment or software specified in 5A002 or 5D002 of the Dual-Use Regulation other than 5A002a2 or 5D002c1, software for the use of technology specified in 5E002, technology for the development/production/use of equipment or software specified in 5A002 or 5D002 of the Dual-Use Regulation other than 5A002a2 or 5D002c1

Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. The UK interpretation of this embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. All exports for this destination were approved in accordance with the sanctions in place.

Country Footnotes

1. Arms sanctions against DRC are currently in place under UN Security Council resolution 1807 (amended by UNSCR 1857, 1896 and 1952 (2010)). The embargo prohibits the supply, sale or transfer of arms and related materiel (and the provision of assistance) to all non-governmental entities and individuals operating in the DRC (subject to strict exemptions for UN/humanitarian end-use).

All exports for this destination were approved in accordance with the sanctions in place.

Continental Shelf: United Kingdom sector

Country Footnotes

1. UNSCR 1929 was adopted on 9 June 2010, imposing a fourth round of sanctions against Iran.

The European Union adopted a Council decision on 26 July that imposed a further range of restrictive measures against Iran. The Decision includes measures in the following areas: dual use goods and further restrictions on trade insurance; the financial sector, including freeze of additional Iranian banks and restrictions on banking and insurance; the Iranian transport sector, in particular the Islamic Republic of Iran

Shipping Line (IRISL) and its subsidiaries and air cargo; key sectors of the gas and oil industry with prohibition of new investment, technical assistance and transfers of technologies, equipment and services related to these areas, in particular related to refining, liquefaction and LNG technology; and new visa bans and asset freezes especially on the Islamic Revolutionary Guard Corps (IRGC). Council Regulation 991/2010 was adopted on 25 October 2010. This implements the provisions of the Council Decision that fall under EU competence.

All exports for this destination were approved in accordance with the sanctions in place.

Country Footnotes

1. General trade sanctions against Iraq, except prohibitions related to the sale or supply of arms and related materiel, were revoked by the UN Security Council resolution 1483 (22 May 2003), implemented in UK legislation on 14 June 2003 by the Iraq (United Nations Sanctions) Order 2003 [S.I. 2003/1519]. UNSCR 1546 (2004) continues the embargo on arms and related materiel against Iraq, but provides exemptions for equipment required by the Government of Iraq to serve the purposes of UNSCR 1546 (2004).

All exports for this destination were approved in accordance with the sanctions in place.

Ireland

Processing Statistics

all-wheel drive vehicles with ballistic protection
components for all-wheel drive vehicles with ballistic protection

Country Footnotes

1. Arms trade sanctions against Lebanon were adopted by UN Security Council resolution 1701, of 11 August 2006 and by European Council Common Position 2006/625/CFSP. Exceptions to the arms embargo cover the supply of arms and related materiel or the provision of assistance authorised by the Government of Lebanon or by UNFIL. All exports for this destination were approved in accordance with the sanctions in place.

Country Footnotes

1. The arms embargo against Liberia was renewed by UN Security Council resolution 1521 (2003) and extended most recently until 17 December 2011 by UNSCR 1961 (2010). Strict exceptions to the embargo exist for certain purposes - e.g. humanitarian purposes, goods and assistance programmes destined for the UN peacekeeping mission (UNMIL) or the Government of Liberia.

All exports for this destination were approved in accordance with the sanctions in place.

Country Footnotes

1. UN Security Council resolution 1940 was adopted on 29 September 2010 lifting all sanctions on Sierra Leone. The United Nations Arms Embargoes (Amendment) Order 1998 (1998/1501) is the domestic implementing legislation and this order will be repealed in due course. Arms trade sanctions against Sierra Leone were adopted by UN Security Council resolution 1171, with exemptions given to the Government of Sierra Leone through named points of entry, the UN, and the Military Observer Group of the Economic Community of West African States.

All exports for this destination were approved in accordance with the sanctions in place.

Country Footnotes

1. Arms trade sanctions against Somalia were adopted by UN Security Council resolution 733 in 1992 and were amended in 2002 by Security Council resolution 1425. Resolutions 1356 (2001), 1772 (2007), 1851 (2008), 1907 (2009) and 1916 (2010) provide for exemptions to the measures for supplies of non-lethal military equipment intended solely for humanitarian or protective use, weapons and military equipment for the support or use of AMISOM or to be used against piracy, supplies and assistance for developing Somali security sector institutions or the TFG. Procedures vary: some exports must be approved in advance by the Sanctions Committee.

All exports for this destination were approved in accordance with the sanctions in place.

% [as a % of all OIELs/OITCLs cases processed] and number of OIELs/OITCLs refused	0% (0)

SIELs

Issued

	Count	Value
Mil	212	£70,782,237
Other	22	£1,285,946
Mil and Other	1	£10,950
Total	235	£72,079,133

Count and value of the number of times a 'Rating' was used on an application for this destination. Please note that more than one 'Rating' can apply to an individual application.

The SIELs issued were granted for the following items (for permanent export except where the entry is preceded by a T, which indicates a Temporary Export):

Mil

Rating	Count	Value
ML1	40	£2,941,760
ML2	6	£556,507
ML3	6	£43,449
ML4	10	£6,912,579
ML5	4	£404,998
ML6	6	£297,550
ML7	5	£88,568
ML8	1	£7,627
ML9	2	£1,274,500
ML10	63	£54,626,579
ML11	29	£2,301,950
ML13	2	£152,000
ML14	8	£58,999
ML15	4	£108,500
ML16	2	£105,912
ML17	4	£380,684
ML18	6	£231,534
ML21	14	£129,370
ML22	13	£31,622
PL5001	1	£903
PL5017	11	£126,647

anti-riot/ballistic shields
 assault rifles (1)
 ballistic test equipment
 chemical agent detection equipment
 combination rifle-shotguns (2)
 components for aircraft military communications equipment
 components for artillery (6 licences)
 components for assault rifles
 components for body armour
 components for bombs
 components for combat aircraft (4 licences)
 components for combat aircraft (2 licences)
 components for combination rifle-shotguns
 components for command communications control and intelligence equipment

T

	components for decoying/countermeasure equipment (2 licences)
	components for electronic warfare equipment
T	components for electronic warfare equipment
	components for launching/handling/control equipment for missiles (3 licences)
	components for machine guns (500)
	components for machine guns (11 licences)
	components for military aero-engines (10 licences)
T	components for military aero-engines
	components for military airborne equipment
	components for military combat vehicles
	components for military communications equipment (7 licences)
	components for military electronic equipment (2 licences)
	components for military helicopters (2 licences)
	components for military infrared/thermal imaging equipment
T	components for military radars
	components for military support aircraft (20 licences)
	components for military support vehicles
	components for military training equipment (2 licences)
	components for military transport aircraft
	components for military utility helicopters
	components for munitions navigation equipment
	components for NBC detection equipment (2 licences)
	components for NBC respirators (2 licences)
	components for rifles (3 licences)
	components for shotguns
	components for simulators for combat aircraft (2 licences)
	components for sporting guns
	components for sporting rifles
	components for submarines
	components for surface-to-air missiles
	components for surface-to-surface missiles
	components for test equipment for combat aircraft
	components for test equipment for military guidance/navigation equipment
	components for unmanned air vehicles (10 licences)
	components for weapon night sights
	constructions for ballistic protection of military systems
	ejector seats (2 licences)
	equipment for the development of attack alerting/warning equipment
	equipment for the development of NBC respirators
	equipment for the production of combat aircraft
T	equipment for the production of military aircraft head-up/down displays
	equipment for the production of small arms ammunition
	equipment for the production of unmanned air vehicles

SIELs - Incorporation

Issued

	Count	Value
Mil	17	£26,656,003
Other	0	£0
Mil and Other	0	£0
Total	17	£26,656,003

Count and value of the number of times a 'Rating' was used on an application for this destination. Please note that more than one 'Rating' can apply to an individual application.

The SIELs issued were granted for the following items (for permanent export except where the entry is preceded by a T, which indicates a Temporary Export):

Mil

Rating	Count	Value
ML1	1	£32,704
ML4	1	£10,650,000
ML5	1	£7,685
ML9	2	£46,684
ML10	8	£15,546,365
ML11	4	£372,566

components for bombs
 components for military aero-engines (3 licences)
 components for military navigation equipment
 components for military support aircraft (3 licences)
 components for military training aircraft
 components for military transport aircraft
 components for naval engines
 components for weapon night sights
 general naval vessel components
 military aircraft navigation equipment (3 licences)
 rangefinding equipment

The items being incorporated in this destination are ultimately destined for all or some of the following:

Australia

Belgium
 Bulgaria
 Canada
 Denmark
 Egypt
 Greece
 Hungary
 India
 Iraq
 Israel
 Italy
 Japan
 Korea, South
 Kuwait
 Morocco
 Norway
 Oman
 Qatar
 Saudi Arabia
 Tunisia
 United Arab Emirates

OIELs

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for airborne electronic warfare equipment, components for aircraft military communications equipment, components for aircraft radars, components for electronic countermeasures equipment, components for electronic warfare equipment, components for ground based radars, components for ground vehicle military communications equipment, components for military aircraft navigation equipment, components for military communications equipment, components for missile navigation equipment, components for naval communications equipment, components for naval electronic warfare equipment, components for naval radars
2	P	air-to-air missiles, bombs, components for air-to-air missiles, components for bombs, components for handling equipment for air-to-air missiles, components for handling equipment for bombs, components for launching equipment for air-to-air missiles, components for launching equipment for bombs, handling equipment for air-to-air missiles, handling equipment for bombs, launching equipment for air-to-air missiles, launching equipment for bombs, simulators for air-to-air missiles, simulators for bombs, software for the development of air-to-air missiles, software for the development of anti-armour missiles, software for the development of bombs, software for the production of air-to-air missiles, software for the production of anti-armour missiles, software for the production of bombs, software for the use of air-to-air missiles, software for the use of anti-armour missiles, software for the use of bombs, technology for the development of air-to-air missiles, technology for the development of anti-armour missiles, technology for the development of bombs, technology for the production of air-to-air missiles, technology for the production of anti-armour missiles, technology for the production of bombs, technology for the use of air-to-air missiles, technology for the use of anti-armour missiles, technology for the use of bombs, test equipment for air-to-air missiles, test equipment for bombs, test equipment for handling equipment for air-to-air missiles, test equipment for handling equipment for bombs, test equipment for launching equipment for air-to-air missiles, test equipment for launching equipment for bombs, test models for the development of air-to-air missiles, test models for the development of bombs
3	P	accessories for training equipment for biological agent detection equipment, accessories for training equipment for chemical agent detection equipment, accessories for training equipment for nuclear radiation detection equipment,

		components for military electronic equipment, components for training equipment for biological agent detection equipment, components for training equipment for chemical agent detection equipment, components for training equipment for nuclear radiation detection equipment, military electronic equipment, software for the use of training equipment for biological agent detection equipment, software for the use of training equipment for chemical agent detection equipment, software for the use of training equipment for nuclear radiation detection equipment, technology for the use of training equipment for biological agent detection equipment, technology for the use of training equipment for chemical agent detection equipment, technology for the use of training equipment for nuclear radiation detection equipment, training equipment for biological agent detection equipment, training equipment for chemical agent detection equipment, training equipment for military improvised explosive device detection equipment, training equipment for nuclear radiation detection equipment
4	P	equipment for the use of test equipment for aircraft missile protection systems, software for the use of test equipment for aircraft missile protection systems, test equipment for aircraft missile protection systems
5	P	airborne electronic warfare equipment, airborne refuelling equipment, aircraft radars, aircrew protective masks, anti-g/pressure suits, automatic piloting systems for parachuted loads, bomb handling equipment, chaff equipment, components for airborne electronic warfare equipment, components for airborne refuelling equipment, components for aircraft radars, components for aircrew protective masks, components for anti-g/pressure suits, components for automatic piloting systems for parachuted loads, components for ejector seats, components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of military aero-engines, components for equipment for the use of military training aircraft, components for helmet mounted display equipment, components for liquid oxygen converters, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft navigation equipment, components for military aircraft pressure refuellers, components for military aircraft pressurised breathing equipment, components for military flying helmets, components for military parachutes, components for military parachutist equipment, components for military training aircraft, control equipment for air-to-air missiles, control equipment for bombs, control equipment for decoy flares, control equipment for fragmentation rockets, control equipment for practice bombs, ejector seats, equipment for the operation of military aircraft in confined areas, equipment for the use of military aero-engines, equipment for the use of military training aircraft, handling equipment for air-to-air missiles, handling equipment for bombs, handling equipment for decoy flares, handling equipment for fragmentation rockets, handling equipment for practice bombs, helmet mounted display equipment, launching equipment for air-to-air missiles, launching equipment for bombs, launching equipment for decoy flares, launching equipment for fragmentation rockets, launching equipment for practice bombs, liquid oxygen converters, military aero-engines, military aircraft ground equipment, military aircraft navigation equipment, military aircraft pressure refuellers, military aircraft pressurised breathing equipment, military flying helmets, military parachutes, military parachutist equipment, technology for the use of military training aircraft, test equipment for military training aircraft
6	P	air guns
7	P	toxins
8	P	components for constructions for ballistic protection of military systems, technology for the production of constructions for ballistic protection of military systems
9	P	software for the simulation of military operation scenarios
10	P	ballistic shields, body armour, bomb suits, civil body armour, components for ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military helmets, improvised explosive device disposal equipment, military helmets
11	P	air guns, pistols, semi-automatic pistols, shotguns, sporting pistols, sporting rifles, weapon sights

12	P	components for combat aircraft, components for military aircraft ground equipment, components for military aircraft head-up displays, components for military aircraft navigation equipment, components for military support aircraft, components for military training aircraft, components for night vision goggles, components for test equipment for military aircraft head-up displays, components for test equipment for military aircraft navigation equipment, components for test equipment for night vision goggles, military aircraft ground equipment, military aircraft head-up displays, military aircraft navigation equipment, night vision goggles, test equipment for military aircraft head-up displays, test equipment for military aircraft navigation equipment, test equipment for night vision goggles
13	P	components for uranium isotope separation equipment, technology for the use of uranium isotope separation equipment
14	P	components for sporting guns, sporting guns
15	P	toxins
16	P	components for flash suppressers, components for gun mountings, components for gun silencers, equipment for the use of sporting rifles, flash suppressers, gun mountings, gun silencers, sporting guns, weapon sights
17	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, general military aircraft components, general military vehicle components, general naval vessel components
