Local summary of Legionnaires’ disease in residents of England and Wales, 2010 – 2012
Devon, Cornwall and Somerset

This report provides a short summary of Legionella activity in residents of Devon, Cornwall and Somerset, with particular emphasis on cases with onset of symptoms during 2012. Data for years 2010 and 2011 and in some tables and graphs, for years 2003 to 2011, are presented for comparative purposes.

Figure 1: Cases of legionellosis (confirmed and presumptive) in residents of Devon, Cornwall and Somerset by year of onset of symptoms; 2003 – 2012
