RANGE SAFETY NOTICE 4/12

LOCAL RANGE SAFETY INITIATIVES OR ENHANCEMENTS

Reference:

A. JSP 403.

Issue

1. Local range safety initiatives and enhancements are encouraged but are not to be implemented until they have been authorised. The control of significant changes to a range is covered in JSP 403 Vol.2. Other initiatives that may enhance safety of a range must also be controlled to avoid unintentional risk to users and to avoid setting a precedence that should be applied across the MOD range community.

Action

2. Any change to a range or the provision of a device or measure that enhances user safety is to be passed to the Technical Working Group (TWG) for assessment prior to it being implemented. Enhancements that generate cost savings may be eligible for GEMs award. Focal points for the TWG are:

- a. DTE ranges – SO1 Trg Safety
- b. RN ranges - RNRSO
- c. PJHQ, Army and Cadet ranges – DCESO(A)
- d. Air Comd ranges – RAF ESIT

Effective Date

3. The required action is to be taken immediately on receipt of this notice.

Date of Issue: 30 Jul 12, Chairman Land Ranges Safety Sub Committee.
