Fire and Rescue

## Operational Statistics Bulletin for England: 2013-14

- As at 31 March 2014, the number of full-time equivalent (FTE) fire and rescue authority staff in England was 45,632, 3.6 per cent lower than in March 2013.
- At 31 March 2014, in England, the total firefighters' strength (full time equivalent wholetime and 24 hour units of cover retained duty system) was 37,161, 3.6 per cent less compared to the year before.
- During 2013-14, 4,228 staff left Fire and Rescue Authorities – 8.7 per cent of all personnel, slightly more than the 7.9 per cent of staff who left in 2012-13.
- Time spent on community fire safety campaigns and initiatives has declined by 9 per cent between 2012-13 and 2013-14.
- Fire and Rescue Authorities carried out 67,266 Fire Safety audits in 2013-14 (5 per cent of premises known to the authorities). These audits resulted in over 20,000 informal and formal enforcement actions being taken.

# Introduction

This Bulletin contains operational statistics relating to the fire and rescue authorities in England for the financial year 1 April 2013 to 31 March 2014, and is focussed on Personnel, Health and Safety, Fire Safety and Prevention activities. Unless stated, data are sourced from annual returns from the 46 fire and rescue authorities in England.

Detailed tables accompanying this bulletin are provided in spreadsheet appendices. These can be downloaded from:

[www.gov.uk/government/publications/fire-and-rescue-authorities-in-england-operational-statistics-bulletin-for-2013-to-2014](http://www.gov.uk/government/publications/fire-and-rescue-authorities-in-england-operational-statistics-bulletin-for-2013-to-2014)

## Notes:

Includes revisions since the publication of the Operational Statistical Bulletin for England 2009-10

1. In full time equivalents (FTEs) except retained duty system firefighters
2. In 24-hour units of cover

\*Figures may not add to totals due to rounding

- 1.1 As at 31 March 2014, the number of full-time equivalent (FTE) fire and rescue authority staff in England was 45,632, 3.6 per cent lower than in March 2013.
- 1.2 The numbers of wholetime firefighters, retained duty system and support staff were all around 3 to 4 per cent lower at March 2014 compared to March 2013, with fire control showing a higher reduction at 6 per cent.

## Firefighter strength by role (FTE)

<b>Table 2: Firefighter strength (FTE) by role in England at 31 March 2014</b>			
<b>Role</b>	<b>Wholetime</b>	<b>Retained duty System</b>	<b>Total</b>
Brigade Manager	133	0	<b>133</b>
Area Manager	194	0	<b>194</b>
Group Manager	514	0	<b>514</b>
Station Manager	1,399	34	<b>1,433</b>
Watch Manager	4,088	899	<b>4,987</b>
Crew Manager	3,593	1,924	<b>5,517</b>
Firefighter	16,256	8,128	<b>24,383</b>
<b>All Firefighters</b>	<b>26,176</b>	<b>10,985</b>	<b>37,161</b>

Source: Appendix Table 3

Notes:

1. In 24-hour units of cover

\* Totals may not add up due rounding

1.3 At 31 March 2014, in England, total firefighters strength (full time equivalent for wholetime, and 24 hour units of cover for retained duty system) was 37,161, 3.6 per cent lower than the year before.

## Firefighter numbers by gender and ethnicity

1.4 Firefighters in England are predominantly male and white. However, the proportion of women firefighters (wholetime and retained) has increased from 2.4 per cent in 2004 to 4.5 per cent in 2014.

Source: Appendix Table 6

1.5 The percentage of firefighters (wholetime and retained) from minority ethnic backgrounds has also increased from 2.1 per cent in 2004 to 3.4 per cent in 2014.

**Table 3: Firefighters by gender and ethnicity in England on 31 March 2004–2014**

	<u>Gender</u>		<u>White<sup>1</sup></u>	<u>Ethnicity</u>	
	<u>Men</u>	<u>Women</u>		<u>Ethnic minority</u>	<u>Not stated</u> <i>per cent</i>
2004	97.6	2.4	94.7	2.1	3.2
2005	97.5	2.5	94.3	2.2	3.4
2006	97.2	2.8	92.7	2.5	4.8
2007	96.9	3.1	90.7	2.6	6.7
2008	96.7	3.3	90.8	2.8	6.4
2009	96.4	3.6	88.6	2.9	8.5
2010	96.1	3.9	88.0	3.1	8.9
2011	95.9	4.1	86.8	3.2	10.0
2012	95.7	4.3	89.2	3.3	7.5
2013	95.7	4.3	88.1	3.3	8.6
2014	95.5	4.5	87.4	3.4	9.2

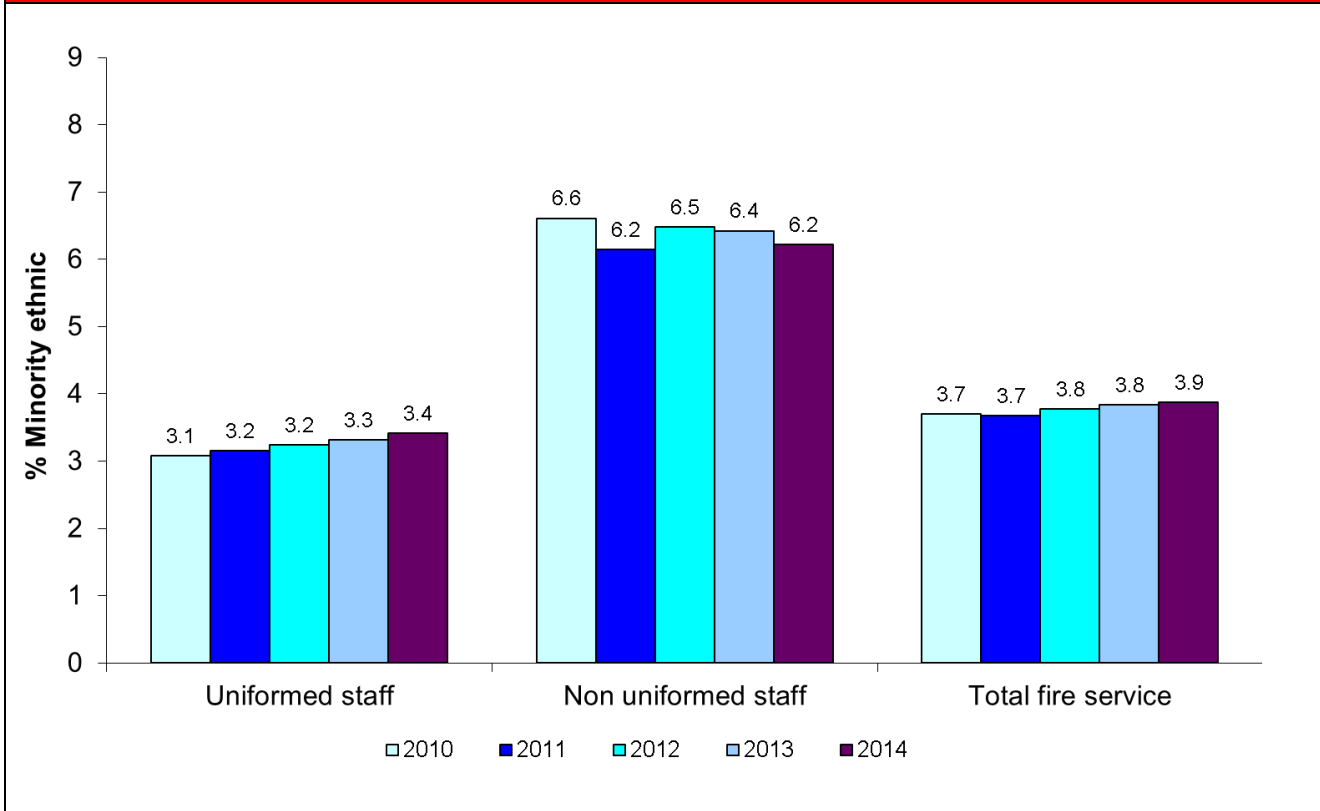

Source: Appendix Tables 6 and 7

Notes:

1. Includes 'Other White'

## All FRA Staff Ethnicity

**Figure 2: Proportion of all FRA minority ethnic staff in England 2010–2014**

Source: Appendix Table 7

Notes:

Ethnic minority staff excludes 'Other White'

- 1.6 The proportion of ethnic minority across all staff in Fire and Rescue Authorities increased from 3.7 per cent in 2010 to 3.9 per cent in 2014.
- 1.7 The numbers of uniformed staff<sup>1</sup> from ethnic minority background increased from 1,281 staff on 31 March 2008 to 1,393 in 2014 – from 2.8 to 3.4 per cent of all uniformed staff (Table 7 in the statistical appendices).

<sup>1</sup> Wholetime, retained and fire control

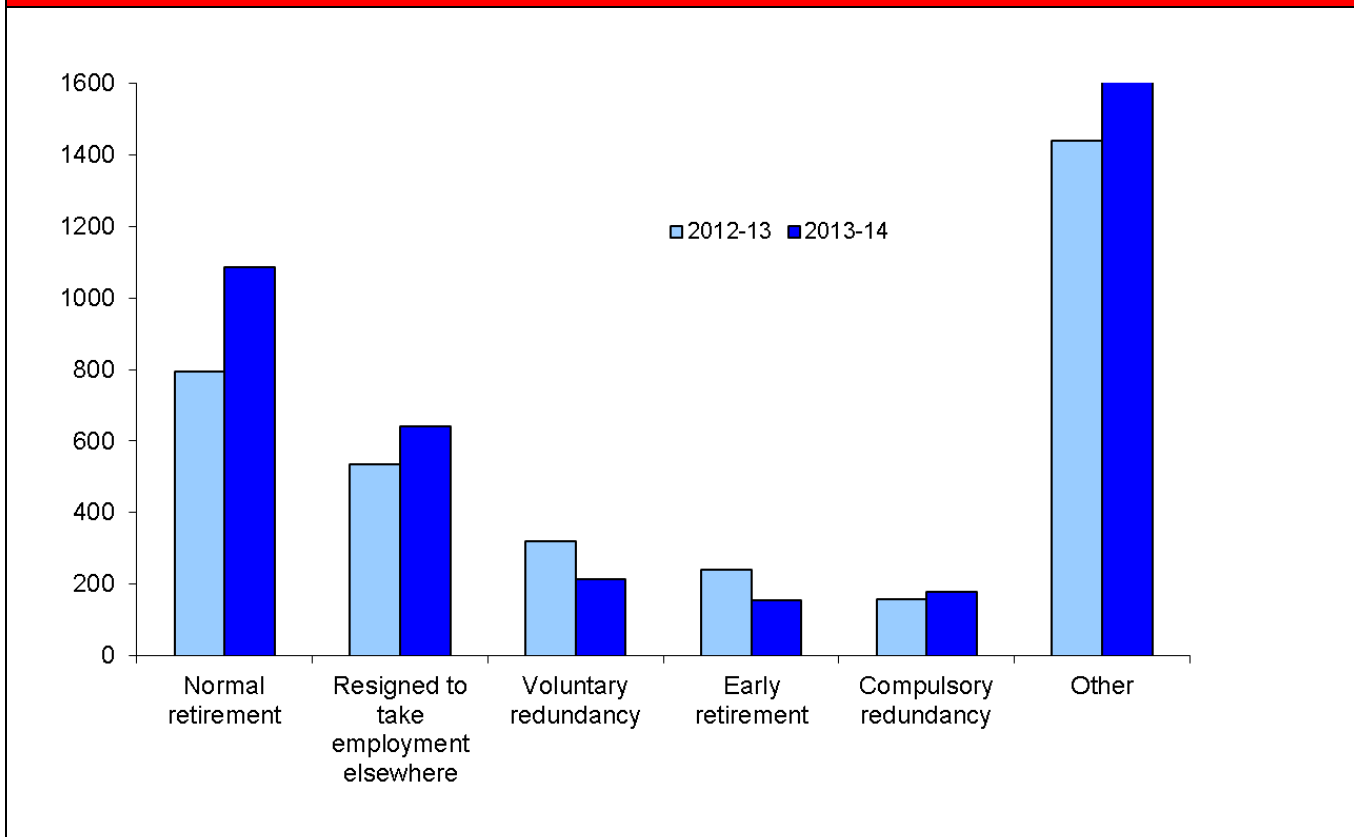

## Leavers

1.8 During 2013-14, 4,228 staff left Fire and Rescue Authorities<sup>2</sup> – 8.4 per cent of all personnel, slightly more than the 7.4 per cent of staff who left in 2012-13.

1.9 The most common reason for leaving varied greatly by type of staff, for example:

- Of the 392 redundancies, 55 per cent were non-uniformed staff
- Of the 415 staff who resigned to take other employment, over two thirds were retained duty system firefighters
- Two thirds (67%) of wholetime firefighters who left, did so on retirement, compared to 10 per cent of other staff.

**Figure 3: Reasons for staff leaving FRA employment in England, 2012-13 to 2013-14**

1.10 In total, 1,569 retained duty system firefighters and 1,463 wholetime firefighters left Fire and Rescue Authorities during 2013-14, compared to 1,190 and 1,500, respectively, during 2012-13.

<sup>2</sup> Includes 415 staff re-employed by another Fire and Rescue Service or employed as non-uniformed by the same Fire and Rescue Service

<b>Table 4: FRS leavers by reasons for leaving in England in 2013-14</b>					
<b>Reasons for leaving</b>	<b>Number of staff leaving</b>				<b>Total</b>
	<b>Wholetime</b>	<b>Retained duty system</b>	<b>Fire control</b>	<b>Non-uniformed</b>	
Dismissal on disciplinary grounds	20	30	2	10	<b>62</b>
Medical discharge	41	34	4	8	<b>87</b>
Resignation due to harassment or discrimination	0	0	1	0	<b>1</b>
Poor performance/efficiency	5	17	6	10	<b>38</b>
Compulsory redundancy	88	23	4	62	<b>177</b>
Voluntary redundancy	26	5	30	154	<b>215</b>
Early retirement	104	24	5	23	<b>156</b>
Normal retirement	870	98	9	109	<b>1,086</b>
Resignation to take other employment outside the Fire and Rescue Service	98	492	37	13	<b>640</b>
Deceased	14	4	0	4	<b>22</b>
Other reasons	153	828	24	324	<b>1,329</b>
<b>Total staff leaving (excluding re-employment)</b>	<b>1,419</b>	<b>1,555</b>	<b>122</b>	<b>717</b>	<b>3,813</b>
Re-employment by another Fire and Rescue Service	42	5	41	312	<b>400</b>
Re-employment as support personnel within the same Fire and Rescue Service	2	9	4	-	<b>15</b>
<b>Total staff leaving (including re-employment)</b>	<b>1,463</b>	<b>1,569</b>	<b>167</b>	<b>1,029</b>	<b>4,228</b>

Source: Appendix Tables 4 and 5

Notes:

1. Other reasons include end of fixed term contract, personal/work commitments and moving from area

## Retirements

1.11 Ill-health retirements of Fire and Rescue Authority staff remained much lower than just a few years ago. In 2013-14, there were 1.8 ill-health retirements per 1,000 employees, slightly lower than in 2012-13 (when there were 2.2 ill-health retirements per 1,000 employees), but still much lower than prior to 2007-08 (See Figure 4).

1.12 Normal retirements<sup>3</sup> in 2013-14 increased to around 26.3 per 1,000 employees. The previous marked increase in normal retirements in 2008-09 which is believed to be largely due to the addition, nationally, of an extra watch at the end of the 1970s. Many of the people recruited at that time have been reaching retirement age.

**Figure 4: Retirements per 1,000 employees in England, 2003-04 to 2013-14**

Source: Appendix Table 8

### Notes:

1. Average strength figure taken over 2 years

<sup>3</sup> Includes early retirement

## Section 2

# Health and safety

## Firefighters' injuries

2.1 The numbers and types of injuries reported by each Fire and Rescue Authority are shown in Appendix Tables 9a-d.

**Table 5: Injuries sustained by wholetime and retained firefighters during training, operational incidents and routine activities in England, 2008-09 to 2013-14**

Year	RIDDOR <sup>1</sup>		Fatalities	All personnel injured
	Major injuries <sup>2</sup>	Other over 3 day injuries <sup>3</sup>		
2008-09	83	828	1	3,828
2009-10	78	785	3	3,840
2010-11	74	747	2	3,495
2011-12	60	665	0	3,383
2012-13	74	521	1	3,228
2013-14	70	566	1	3,146

Source: Appendix Tables 9a-d

Notes:

1. Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR)
2. A list of 'major' injury types can be found at: <http://www.hse.gov.uk/riddor/guidance.htm>
3. Injuries which are not classified as 'major' but as a result of which an individual was off work or unable to do their full range of normal duties for more than 3 days

2.2 In 2013-14, one firefighter in Greater Manchester died whilst attending a fire.<sup>4</sup>

2.3 The overall number of injuries sustained by firefighters (during training, operational incidents and routine activities) during 2013-14 was 3,146 – 2.5 per cent fewer compared to 2012-13 (3,228).

2.4 The total number of RIDDOR<sup>5</sup> reportable injuries was 636 in 2013-14, 6.9 per cent higher than 2012-13 (595). The RIDDOR guidance was updated in 2013 with category amendments. This may explain some of the noted increase. Overall, 70 'major' injuries were reported during 2013-14, which is a similar number to the four preceding years. 'Over three day' injuries were higher than the previous year (Appendix Tables 9a,b,c,d).

<sup>4</sup> [http://authority.manchesterfire.gov.uk/Published/C00000121/M00000462/AI00002278/\\$AppendixA.doc.pdf](http://authority.manchesterfire.gov.uk/Published/C00000121/M00000462/AI00002278/$AppendixA.doc.pdf)

<sup>5</sup> Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) <http://www.hse.gov.uk/riddor>. An injury must be reported to the Health and Safety Executive if it is of a type listed by RIDDOR, or if it results in the injured person being away from work or unable to do their full range of their normal duties for more than three days.

2.5 Figure 5 illustrates the downward trend in numbers of firefighters injured during operational incidents, training and routine work. During 2013-14 just over one third of firefighter injuries occurred during operational incidents (see Appendix Table 9). There were 1,097 injuries at operational incidents. This was an increase of 15 per cent from 2012-13, however this is still 68 percent lower than the number of injuries ten years ago in 2003-04.

**Figure 5: Firefighters injured during operational incidents, training and routine work in England, 2002-03 to 2013-14**

Source: Appendix Tables 9a-d

## Section 3

# Community fire safety

## Campaigns and initiatives

3.1 Fire and Rescue Authorities have a duty to undertake community fire safety campaigns and initiatives. Typical activities include: home fire safety checks, arson prevention, promotional work with young people and other vulnerable groups.

3.2 Time spent on campaigns and initiatives declined between 2006-07 and 2011-12. There was a small increase in 2012-13, however personnel hours spent on campaigns and initiatives has since decreased by 9 per cent compared to 2012-13.

**Figure 6: Total personnel hours spent on community fire safety activities in England<sup>1</sup>, 2002-03 to 2013-14**

Source: Appendix Table 11

### Notes:

1. Full campaigns and initiatives data for London are not available for 2009-10 onwards

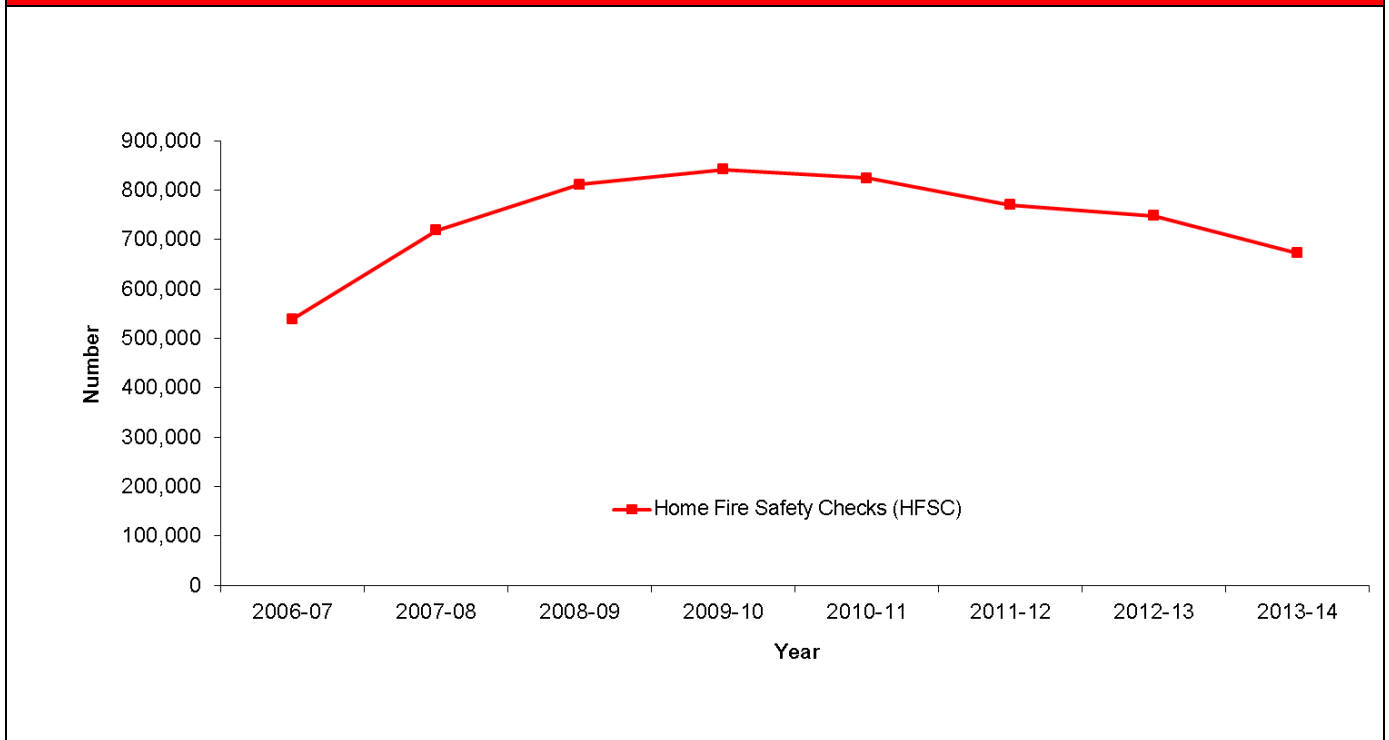

## Home fire safety checks

3.3 Home Fire Safety checks are carried out on a targeted basis with various members of the community, including vulnerable groups and can result in the installation of fire prevention equipment, such as smoke alarms (See Appendix Table 12).

3.4 In 2013-14 Fire and Rescue Authorities and partner organisations undertook over 672,019<sup>6</sup> home fire safety checks, 10 per cent fewer than in 2012-13.

**Figure 7: Home Fire Safety Checks carried out by FRS and partners in England, 2006-07 to 2013-14**

Source: Appendix Table 12

<sup>6</sup> Including checks carried out by partners

## Section 4

# Fire safety audits

- 4.1 Fire and Rescue Authorities deliver their enforcement duties under the Regulatory Reform (Fire Safety) Order 2005 (the FSO)<sup>7</sup> through locally determined, risk-based programmes of audit/inspection visits to non-domestic premises. These audits form part of each authority's Integrated Risk Management Plan (IRMP)<sup>8</sup>.
- 4.2 Fire and Rescue Authorities carried out 67,266 audits in 2013-14 (5 per cent of premises known to the authorities), 11 per cent fewer than in 2012-13 when 75,543 audits were conducted. However in previous years Staffordshire FRA had been over reporting the number of audits by around 3,500, the actual drop in Audits therefore is more likely to be around 6%.
- 4.3 Fire and Rescue Authorities reported spending 309,221 personnel hours on audits in 2013-14, 10 per cent less than the 343,561 personnel hours in 2012-13 (See Appendix Tables 13 and 15).
- 4.4 The proportion of audits in residential or care buildings that were found to have a satisfactory level of compliance with the FSO was 67 per cent in 2013-14, up from 60 per cent in 2012-13. Meanwhile satisfactory compliance in non-residential buildings was 63 per cent in 2013-14, up from 62 per cent in 2012-13.

---

<sup>7</sup> <https://www.gov.uk/government/organisations/department-for-communities-and-local-government/series/fire-safety-law-and-guidance-documents-for-business>

<sup>8</sup> <https://www.gov.uk/government/publications/integrated-risk-management-planning-guidance-for-fire-and-rescue-authorities-community-safety>

**Figure 8: Fire Safety notices (informal and formal) issued in England, 2013-14**

- 4.5 Audits identifying an unsatisfactory level of compliance led to 18,733 informal notifications, 2,059 enforcement notices, 392 prohibition notices, 44 alteration notices and 71 prosecutions under article 32 (failure to comply with the Order), Table 7 shows these by type of building.
- 4.5 Table 6 illustrates that FRAs are focusing their audit activities so that premises which are considered to represent the highest risks (as identified by the Fire Service Emergency Cover toolkit<sup>9</sup>) are more likely to be audited. The highest proportions were care homes (27 per cent were audited during 2013-14), followed by hostels (22 per cent) and hospitals and hotels (both 15 per cent).
- 4.7 The articles of the Fire Safety Order where premises were mostly non-compliant were: article 9 (Risk assessment), 14 (Emergency routes and exits) and 17 (Maintenance) (See Fire Safety Appendix Table 15).

<sup>9</sup> <http://www.fsec.fire.gov.uk/>

1. Houses in multiple occupation (HMO), purpose built flats and houses converted to flats may also be audited by the local authority under different legislation. Those audits do not appear here

2. Other includes premises such as garages, road haulage, storage depots, stores and other industrial/commercial locations

Source: Appendix Tables 13 and 19

Notes:

This information refers to the outcome from Fire Safety audits reported by Fire and Rescue Authorities in England.

<sup>1</sup> Houses in multiple occupation (HMO), purpose built flats and houses converted to flats may also be audited by the local authority under different legislation. Those audits do not appear here.

<sup>2</sup> This category includes instances where an audit is initially recorded as unsatisfactory and enforcement action subsequently leads to a satisfactory outcome. In these cases, the fire safety officer is expected to carry out a new audit to reflect the reduced risk. This activity is not counted as a separate audit, but as part of the time accumulated against the initial audit.

<sup>3</sup> Other includes premises such as garages, road haulage, storage depots, stores and other industrial/commercial locations

# Accompanying tables

Accompanying tables are available to download alongside this release. These are:

## Appendices 1-13

**Appendix 1:** Headcount of uniformed personnel, number of stations, number of appliances

**Appendix 2:** Number of full time equivalent staff in fire and rescue authorities

**Appendix 3a:** Number of wholetime full time equivalent firefighters by role

**Appendix 3b:** Number of retained duty system firefighters in 24 units of cover by role

**Appendix 3c:** Number of fire control full time equivalent personnel by role

**Appendix 4:** Personnel (headcount) leaving the fire and rescue authority by duty system

**Appendix 5:** Personnel leaving the fire and rescue authority by duty system and reason

**Appendix 6:** Staff by gender and duty system

**Appendix 7:** Ethnic origin of fire service by personnel by duty system

**Appendix 7a:** Ethnic origin of wholetime firefighters

**Appendix 7b:** Ethnic origin of retained duty system firefighters

**Appendix 7c:** Ethnic origin of fire control staff

**Appendix 7d:** Ethnic origin of non uniformed staff

**Appendix 8:** Retirements (normal and ill health)

**Appendix 9a:** Injuries sustained by wholetime and retained duty system firefighters during operational, training and routine activities

**Appendix 9b:** Injuries sustained by wholetime and retained duty system firefighters during operational activities

**Appendix 9c:** Injuries sustained by wholetime and retained duty system firefighters during training for operational incidents

**Appendix 9d:** Injuries sustained by wholetime and retained duty system firefighters during routine activities

**Appendix 10:** Incidents to fire and rescue authority vehicles

**Appendix 11:** Personnel hours spent on campaigns and initiatives

**Appendix 12:** Home fire safety checks carried out by fire and rescue authority personnel

**Appendix 13:** Fire safety audits

## Appendix 14

Fire prevention return (campaigns and initiatives; home fire safety checks) for each fire and rescue authority

## Appendix 15

Fire safety return for each fire and rescue authority

## Appendix 16

Health and safety return for each fire and rescue authority

**Appendix 17**

HR return for each fire and rescue authority

**Appendix 18**

Vehicle incidents return for each fire and rescue authority

**Appendices 19 to 23**

**Appendix 19:** Staff numbers (FTE and headcount) in England 2001-02 to 2011-12

**Appendix 20:** Headcount of women firefighters and minority ethnic staff in England, 2001-02 to 2011-12

**Appendix 21:** Headcount of staff leaving the fire and rescue authority in England, 2001-02 to 2011-12

**Appendix 22:** Injuries sustained by wholetime and retained duty system firefighters at fires, special service incidents, training and routine activities in England 2001-02 to 2011-12

**Appendix 23:** Community Fire Safety campaigns and initiatives and Home Fire Safety Checks in England 2001-02 to 2011-12

# Definitions

## **Wholetime firefighter**

Staff whose main employment is a firefighter regardless of their role

## **Retained duty system (RDS) firefighter**

Personnel contracted to be available for agreed periods of time for fire-fighting purposes, but who could have an alternative full-time employment.

## **Fire control staff**

Uniformed personnel who are employed to work in fire and rescue service control centres to answer emergency calls and deal with mobilising, communications, and related activities, regardless of rank.

## **Support/Non-uniformed staff**

Generally support/administrative staff employed by a Fire and Rescue Authority (FRA).

## **Operational personnel**

Wholetime and retained firefighters irrespective of role.

# Technical notes

## Data collection

This Fire and Rescue Operational Statistics Bulletin has been produced annually since the 2002/03 edition. The coverage of the publication has been for England since 2005/06 edition.

For the three years of 2002/03 to 2004/05 the publication included data for both England and Wales, with the accompanying spreadsheets showing data for each and for their constituent fire and rescue authorities separately.

Prior to 2002-03, similar data were collected by Her Majesty's Fire Service Inspectorate and published in the statistical annex to the HM Chief Inspector's Annual Report.

The data collected has been chosen to provide useful and relevant information on the level and trends in the fire and rescue service.

Data are provided to DCLG by the 46 Fire and Rescue Authorities in England who each complete six individual forms covering separate areas of the statistics. The analysis carried out by DCLG aggregates the raw data and calculates percentages so as to allow comparison between authorities and between different years.

## Data quality

All returns submitted by Fire and Rescue Authorities undergo thorough validation and checks. Inconsistent data highlighted during validation and checks are verified by contacting the relevant FRA. Validation checks are done at the point of data entry when the FRA are filling in the returns and further validation checks done once the data are received.

Late returns are pursued to ensure the overall response rate is as high as possible. Where a response rate of 100% is not achieved estimates are imputed for non-responding Fire and Rescue Authorities. In the year 2013-14 all 46 FRAs provided the returns

## Revisions policy

There are no scheduled revisions for this data. Where a substantial inaccuracy is discovered the statistical release, live tables and other accompanying releases will be updated with a correction notice as soon as is practical. Minor inaccuracies will be corrected at the time of the next issue of this publication.

This policy has been developed in accordance with the UK Statistics Authority Code of Practice for Official statistics and the Department for Communities and Local Government Revisions Policy (found at <https://www.gov.uk/government/publications/statistical-notice-dclg-revisions-policy>).

## User engagement

Users are encouraged to provide feedback on how these statistics are used and how well they meet user needs. Comments on any issues relating to this statistical release are welcomed and encouraged. Responses should be addressed to the "Public enquiries" contact given in the "Enquiries" section below.

The Department's engagement strategy to meet the needs of statistics users is published here: <https://www.gov.uk/government/publications/engagement-strategy-to-meet-the-needs-of-statistics-users>
