RA 4600 - Aircraft Assisted Escape Systems - Safety Precautions

Rationale
Inadvertent operation of an Aircraft Assisted Escape System (AAES) or Crew Escape System (CES) has the potential to cause serious injury or death.

Contents
4600(1): Movement of AAES
4600(2): AAES Safety Precautions
4600(3): Storage of AAES Components

Regulation
4600(1) Movement of AAES safety devices shall be strictly controlled.

4600(2) All personnel required to maintain or operate aircraft fitted with an AAES shall be conversant with the safety devices, safety conditions and safety precautions for that AAES.

4600(3) Armed Ejection Seats and canopies or CES fitted with miniature detonating cord, which have been removed for aircraft maintenance, shall be stored in authorized locations in accordance with JSP 482.

Acceptable Means of Compliance
1. Acceptable Means of Compliance is contained within MAP Chapter 13.1.

Guidance Material
2. Guidance Material and associated processes are contained within MAP Chapter 13.1.
