Dear Sirs

**Protection of Badgers Act 1992, TB Area Control Licence, [REDACTED]**

In accordance with conditions 1 and 2 of your licence I am writing to notify you of our findings in relation to the outstanding items listed in condition 2(a) to (f) as follows:

- (a) On the basis of the information provided by you on 6 August 2014 we are satisfied that sufficient funds have been deposited to cover the cost of completing the cull;
- (b) The dates between which culling may take place this year are from [REDACTED]. If you start on a later date due to operational reasons please inform us and we may revise the start and finish dates accordingly;
- (c) Those persons authorised to take or kill badgers under this licence are listed in the attached list of Additional Authorised Persons, dated 22 August 2014;
- (d) The minimum number of badgers that you should aim to kill within the licence area during this open season is 316;
- (e) The maximum number of badgers which may be killed within the licence area by all permitted methods during this open season is 785;
- (f) We are satisfied that there is access for culling to at least 70% of the total land within the licence area.

**Please note the following important points:**

- (i) In light of the advice provided by the Independent Expert Panel regarding the significant difficulties in achieving accurate estimates of badger populations, Natural England will keep under review all available evidence as to the level of the population and will monitor the culling operations. Natural England will, if appropriate, provide further advice on the level of culling effort and badger removal required to achieve an effective cull.
- (ii) Only those individuals listed in the list of Additional Authorised Persons are permitted to undertake any licensed operations by or on behalf of the Licensee. Any proposed changes to the Additional Authorised Persons schedule (additions or deletions) should also be notified to Natural England in writing for consideration
- (iii) There must continue to be access for culling over at least 70% of the total land area, and that Natural England must be informed immediately, in

writing, about any land that is withdrawn or which otherwise ceases to be eligible to participate in licensed operations.

If you have any queries about this notification please contact the licensing team on 0300 060 0550.

Yours sincerely
