Housing affordability

- The UK median ratio of new borrowers’ mortgages to earnings in January 2014 was 3.18, up from 3.03 in the same month one year before.
- Median new borrowers’ mortgage repayments were 18.9% of net income in January 2014, down from 19.3% one year before (CML). [http://www.cml.org.uk/cml/media/press/3859](http://www.cml.org.uk/cml/media/press/3859)

Homelessness

- During the October-December 2013 quarter, 12,890 households in England were ‘accepted’ by their local authorities as homeless and in ‘priority need’. This is 5% lower than in the same period one year before (DCLG). House price indicators vary depending on their individual methodology and sampling process:

- ONS and the Land Registry are based on completions data, so record later in the house buying process.
- The Land Registry data is the most comprehensive, as it includes all property sales, including cash buyers.
- The Nationwide and Halifax indices are based on mortgage offers approved by them. Rightmove is based on asking prices from its website. Hometrack is based on a survey of estate agents which includes the agents’ opinion of achievable selling prices.
- Seasonal variation occurs in the market. Halifax, Nationwide and Land Registry data are seasonally adjusted, the others are not.
HOUSING TRANSACTIONS

Transactions
- There were 74,400 residential property transactions in England in February 2014. Transactions totalled 965,400 over the last 12 months. This is 19.7% more than the previous 12 month period, to February 2013 (HMRC).

Supply and demand
- The volume of new buyers registering with agents in February increased by 17.1% from the previous month, the volume of properties listed was up 11.2%, and sales agreed rose by 28.2% (Hometrack).
  http://www.hometrack.co.uk/our-insight/monthly-national-house-price-survey
- Surveyor sentiment in February suggests that price momentum remains strong across all UK regions and expectations for price and sales growth at the 12 month horizon remain optimistic. Sales-to-stock ratios hit a post-crisis high (RICS).

Employment and Unemployment
- The employment rate for November 2013 to January 2014 was 72.3% (of people aged 16 to 64), up 0.3 percentage points from August to October 2013. 30.19 million people were in employment (aged 16+), up 105,000 from August to October.
- The unemployment rate was 7.2% (aged 16 to 64), down 0.2 percentage points from August to October 2013. 2.33 million people were unemployed (aged 16+), down 63,000 from August to October.
- The number of people claiming Jobseeker’s Allowance (the Claimant Count) was 1.17 million in February, down 363,200 from one year before.
- Over the past year total pay for employees in Great Britain rose by 1.4% and regular pay rose by 1.3% (ONS).

Inflation
- CPI annual inflation grew by 1.7% in the year to February 2014, down from 1.9% in January.
- The largest contribution to the fall in the rate came from transport (principally motor fuels) with other smaller effects from the housing & household services and clothing & footwear sectors. These were partially offset by upward contributions from furniture & household goods and recreation & culture.
- CPIH, the new measure of consumer price inflation which includes owner occupiers’ housing costs, grew by 1.6% in the year to February 2014, down from 1.8% in January (ONS).
