Interviews may be conducted concurrently with the on-site audit.

MAA will determine the degree of re-examination required dependent upon content of the audit findings; this may require a complete re-audit of the facilities.

Continuing surveillance will normally involve a rolling programme of on site inspections (including "out of hours" and "unannounced" visits over a period of 24 months

1 Week

4 - 8 weeks

2 - 5 days dependent upon scope of work

Times in red are indicative of timescales to conduct MAA approval activities.
