

Response to Global Citizen campaign on the Gavi Alliance replenishment

Thank you for getting in touch, as part of a Global Citizen campaign, about the upcoming Gavi Alliance replenishment to fund the 2016 – 2020 strategic period.

I believe the Gavi Alliance plays a crucial role in the effort to end preventable child deaths. Since its establishment in 2000, Gavi has proven itself to be a high-performing organisation that delivers tangible results. As you rightly note, Gavi averts millions of future deaths across the developing world and has been a major contributor to the decline in child mortality globally. The UK has been the leading donor of the Gavi Alliance since its inception in 2000.

The UK continues to be a strong supporter of the Gavi Alliance. We are working closely with Gavi and the host country, Germany, in the run up to the replenishment conference and are currently considering our own 2016 – 2020 pledge.

I strongly welcome your interest in the Gavi replenishment and look forward to working with civil society, parliamentarians and others to make this next replenishment a great success.
