

# Implementation of International Tax Compliance (United States of America) Regulations 2013

## Guidance Notes

## **Guidance Contents**

### **1. Background**

- 1.1 The purpose of these Guidance notes
- 1.2 Scope of FATCA
- 1.3 Interaction with US Regulations

### **2. Financial Institutions**

- 2.1 Introduction
- 2.2 UK Financial Institutions (UKFIs)
- 2.3 Subsidiaries and Branches
- 2.4 Related Entities
- 2.5 Non-Participating Financial Institutions (NPFIs)
- 2.6 Non-Financial Foreign Entities (NFFE's)
- 2.7 Exempt Beneficial Owners
- 2.8 UK Government or UK Governmental Organisations
- 2.9 Central Banks
- 2.10 International Organisations
- 2.11 Retirement Funds
- 2.12 Deemed Compliant Financial Institutions
- 2.13 Local Client Base Financial Institutions
- 2.14 US Regulations Exemption
- 2.15 Registered Deemed Compliant Financial Institutions
- 2.16 Non-reporting members of Participating Foreign Financial Institution Groups
- 2.17 Qualified Collective Investment Vehicles
- 2.18 Restricted Funds
- 2.19 Qualified credit card issuers
- 2.20 Sponsored Investment Entities
- 2.21 Certified Deemed Compliant Financial Institutions
- 2.22 Non-Registering local bank
- 2.23 Financial Institutions with only Low Value Accounts
- 2.24 Sponsored closely held Investment Vehicles
- 2.25 Owner Documented Foreign Financial Institutions
- 2.26 Depository Institution
- 2.27 Custodial Institution
- 2.28 Investment Entity
- 2.29 Specified Insurance Company
- 2.30 Holding Companies and Treasury Centres of Financial Groups
- 2.31 Collective Investment Schemes
- 2.32 Platforms and other distributors of funds

- 2.33 Fund Nominees - Distributors in chain of legal ownership
- 2.34 Advisory only distributors
- 2.35 Identification and reporting on interest in a Collective Investment Scheme
- 2.36 Trusts
- 2.37 Partnerships
- 2.38 Central Securities Depository
- 2.39 Personal Investment Companies
- 2.40 Securitisation Vehicles

### **3. Financial Accounts**

- 3.1 Introduction
- 3.2 Account Holders
- 3.3 Depository Account
- 3.4 Custodial Account
- 3.5 Insurance Contract
- 3.6 Cash Value Insurance Contract
- 3.7 Annuity Contract
- 3.8 An Equity or Debt Interest in an Investment Entity
- 3.9 An Equity or Debt Interest in a Holding Company or Treasury Centre of a Financial Group
- 3.10 Debt or Equity Interests regularly traded on an established securities market
- 3.11 Products exempt from being Financial Accounts
- 3.12 Retirement Accounts and Products
- 3.13 Certain Other Tax Favoured Accounts or Products
- 3.14 Accounts of Deceased Persons
- 3.15 Intermediary Account (Escrow accounts)
- 3.16 Undesignated/Designated Accounts
- 3.17 Segregated Accounts
- 3.18 Dormant Accounts
- 3.19 Rollovers

### **4. Due Diligence**

- 4.1 General Requirements
- 4.2 Acceptable Documentary Evidence
- 4.3 Withholding Certificates
- 4.4 Non-IRS forms for individuals
- 4.5 Validity of Documentation
- 4.6 Retention of Documentary Evidence
- 4.7 Document sharing
- 4.8 Self Certification

- 4.9 Confirming the Reasonableness of Self Certification
- 4.10 Self Certification for New Individual Accounts
- 4.11 Self Certification for Pre-existing Individual Accounts
- 4.12 Self Certification for New Entity Accounts
- 4.13 Self Certification for Pre-existing Entity Accounts
- 4.14 Aggregation
- 4.15 Aggregation of Sponsored funds
- 4.16 Currency Conversion
- 4.17 Tax Identification Numbers (TINs)
- 4.18 Change of Circumstance
- 4.19 Mergers or Bulk Acquisitions of accounts

## **5. Pre-existing Individual Accounts**

- 5.1 Threshold Exemptions that apply to Pre-existing Individual Accounts
- 5.2 Pre-existing Cash Value Insurance Contracts or Annuity Contracts unable to be sold to US residents
- 5.3 Reportable Accounts
- 5.4 Lower Value Accounts
- 5.5 Electronic Searches and Lower Value Accounts
- 5.6 Identification of the account holder as a US citizen or resident
- 5.7 Unambiguous US Place of Birth
- 5.8 Current US mailing address/residence address
- 5.9 One or more US telephone numbers associated with the account
- 5.10 Standing Instructions to transfer funds to an account maintained in the US
- 5.11 Effective Power of Attorney or Signatory Authority
- 5.12 High Value Accounts
- 5.13 Electronic Record searches and High Value Accounts
- 5.14 Paper Record search and High Value Accounts
- 5.15 Exceptions
- 5.16 Relationship Manager
- 5.17 Effects of Finding US Indicia
- 5.18 Timing of reviews

## **6. New Individual Accounts**

- 6.1 Threshold Exemptions that apply to New Individual Accounts
- 6.2 Reportable Accounts
- 6.3 New Accounts for holders of Pre-existing Accounts
- 6.4 Identification of New Individual Accounts
- 6.5 Group Cash Value Insurance Contracts or group Annuity Contracts

6.6 Accounts held by beneficiaries of a Cash Value Insurance Contract that is a Life Insurance Contract

6.7 Reliance on Self Certification and Documentary evidence

## **7. Pre-existing Entity Accounts**

7.1 Threshold Exemptions that apply to Pre-existing Entity Accounts

7.2 Reportable Accounts

7.3 Standardised Industry Codes and US Indicia for Pre-existing Entities

7.4 Identification of an entity as a Specified US Person

7.5 Identification of an entity as a Financial Institution

7.6 Identification of an entity as a Non-Participating Financial Institution (NRFI)

7.7 Identification of an entity as a Non-Financial Foreign Entity (NFFE)

7.8 Timing of reviews

## **8. New Entity Accounts**

8.1 Exemptions that apply to New Entity Accounts

8.2 Reportable Accounts

8.3 Identification of an entity as a Financial Institution

8.4 Identification of an entity as a Non-Participating Financial Institution

8.5 Identification of an entity account holder as a Specified US Person

8.6 Identification of an entity as a Non-Financial Foreign Entity (NFFE)

## **9. Reporting**

9.1 Information Required

9.2 Explanation of information required

9.3 Timetable for reporting

9.4 Reporting on Non-Participating Financial Institutions

9.5 Withholding on US Source Withholdable Payments paid to Non-Participating Financial Institutions

9.6 Reporting payments of US Source Withholdable Payments to Non-Participating Financial Institutions

9.7 Format

9.8 Transmission

9.9 Penalties

## **10. Compliance**

10.1 Minor errors

10.2 Significant Non-Compliance

10.3 Tax Compliance Risk Management Process

10.4 Anti avoidance

## 11. Registration

## **1. Background**

The Foreign Account Tax Compliance provisions (commonly known as FATCA) are contained in the HIRE Act 2010. These provisions are US legislation aimed at reducing tax evasion by US citizens.

It requires Financial Institutions outside the US to pass information about their US customers to the US tax authorities, the Internal Revenue Service (IRS). A 30% withholding tax is imposed on the US source income of any Financial Institution that fails to comply with this requirement.

On 12 September 2012 the UK and the US signed a Treaty to implement FATCA in the UK ("The UK-US Agreement to Improve International Tax Compliance and to Implement FATCA") referred to hereafter as the Agreement. The Agreement and the legislation introduced to enact it will remove some of the implementation problems faced by UK Financial Institutions, for instance the legal difficulty of complying without breaching data protection restrictions. As such UK based Financial Institutions should not be subject to a 30% withholding tax on US source income, unless they fail to meet the requirements set out in the Agreement and UK legislation.

Under the terms of the Treaty, UK Financial Institutions will provide HMRC with the required information. HMRC will then forward that information to the US Internal Revenue Service.

The UK legislation bringing into effect the implementation of the UK-US Treaty is contained at clause 219 of the 2013 Finance Bill. This clause provides HM Treasury with powers to make Regulations to give effect to the Agreement (and other similar Agreements). The Regulations (The International Tax Compliance (United States of America) Regulations 2013) can be accessed on HMRC's website at <http://www.hmrc.gov.uk/fatca/index.htm>

## **1.1 The purpose of these Guidance notes**

The Guidance is for use by businesses, their advisers and HMRC staff who deal with entities affected by The International Tax Compliance (United States of America) Regulations 2013 and applies to:

- UK Financial Institutions
- UK entities that will need to certify their entity “classification” for the purposes of FATCA; **and**
- Entities that undertake FATCA obligations on behalf of Financial Institutions.

The application of the provisions in any further similar Agreements entered into by the UK will be covered in separate guidance.

## **1.2 Scope of FATCA**

FATCA and the UK legislation implementing the Agreement signed on the 12th September 2012, applies to Financial Institutions located in the UK. In the Agreement and in this Guidance these are referred to as “UK Financial Institutions”. In order to determine how the legislation applies it will be necessary for a Financial Institution to consider a number of questions, namely:

- Am I a Financial Institution?
- Do I hold Financial Accounts?
- Are there indicators that any of the account holders’ are Specified US Persons?
- After applying the relevant due diligence, do I have any Reportable Accounts?

## **1.3 Interaction with US Regulations**

In policy terms a UK Financial Institution should not be at a disadvantage from applying the legislation implementing the Agreement, as compared to the position that they would have been in if applying the US Regulations.

However a Financial Institution **must** apply the UK Regulations in force at the time with reference to the published HMRC Guidance. Where a Financial Institution identifies an alternative element of the US Regulations or alternative element of a different Intergovernmental Agreement that it feels it would like to apply then it should contact HMRC to discuss the issue.

If the US authorities subsequently amend the underlying US Regulations to introduce additional or broader exemptions, HMRC will consider whether to incorporate these changes into its Regulations or Guidance. HMRC will publish any updates on its dedicated FATCA webpage <http://www.hmrc.gov.uk/fatca/index.htm> and make any subsequent changes to the Regulations or Guidance as required.

## **2. Financial Institutions**

### **2.1 Introduction**

The first step to be undertaken by an entity or its representative is to establish whether, for the purposes of the Agreement, the entity is a Financial Institution. This will determine the extent of the obligations that need to be undertaken.

FATCA introduces through the US Regulations the concept of a Foreign Financial Institution (FFI). This term applies to non-US entities that meet the definition of a Financial Institution. Under the Agreement UK entities are regarded as United Kingdom Financial Institutions (UKFI's) if they fall within any of, or more than one of, the following categories.

- Depository Institution - Section 2.26
- Custodial Institution - Section 2.27
- Investment Entity - Section 2.28
- Specified Insurance Company - Section 2.29
- Holding Companies and Treasury Centres of Financial Groups - Section 2.30

Each category of Financial Institution is determined by set criteria, which must be met. Where an entity does not meet the definition of a Financial Institution then the entity will be regarded as a Non-Financial Foreign Entity (NFFE). (See Section 2.6)

Under the Agreement UK Financial Institution's will be classified either as a Reporting UK Financial Institution or a Non-Reporting UK Financial Institution.

As long as UK Financial Institutions are in compliance with the UK legislation then they will not be subject to any withholding tax on their US source income under S1471 of the US Internal Revenue Code.

### **Non-Reporting UK Financial Institutions**

A Non-Reporting UK Financial Institution is any Financial Institution specifically identified as such in Annex II of the Agreement; or one which otherwise qualifies under Article 1. 1. q) of the Agreement as:

- a Deemed Compliant Financial Institution,
- an Owner Documented Financial Institutions,
- an Exempt Beneficial Owner, **or**
- an Excepted Financial Institution.

A Non-Reporting Financial Institution will **not** need to obtain a Global Intermediary Identification Number (GIIN) or carry out the due diligence and reporting obligations under the Agreement.

However there is one scenario in which an entity which is treated as Deemed Compliant under Annex II could still have some reporting obligations. That is where an entity meets the criteria of a Financial Institution with a Local Client Base, and has US Reportable Accounts. (See Section 2.13)

A Registered Deemed Compliant Financial Institution will need to obtain a GIIN. (See Section 2.15)

### **Reporting UK Financial Institutions**

Any UK Financial Institution that is not a Non-Reporting Financial Institution will be a Reporting UK Financial Institution. They will be responsible for ensuring that the due diligence requirements are met and for reporting to HMRC under the terms of the legislation.

### **2.2 UK Financial Institutions (UKFIs)**

The Agreement applies to UK Financial Institutions. Under the Agreement a UK Financial Institution is any Financial Institution resident in the UK, as well as any branch of a non-resident Financial Institution located in the UK.

In many cases whether or not a Financial Institution is resident in or located in the UK will be clear, but there may be situations where this is less obvious. In these cases HMRC will look to determine the entity's status under the Agreement from the tax residence of the entity. If the Financial Institution is resident for tax purposes in the UK, then HMRC will regard the Financial Institution as within the scope of the UK Agreement. For these purposes resident for tax purposes in the UK means the following:

- For a company or professional Trust company
  - if the company is incorporated in the UK or centrally managed and controlled in the UK.
- For a company not resident in the UK
  - where it is within the charge to corporation tax if, and only if, it carries on a trade in the UK through a permanent establishment in the UK.
- For Trusts
  - if all the trustees are resident in the UK for tax purposes then the Trust is UK resident. Where some of the trustees, but not all are UK resident, then the Trust is UK a resident if the settlor is both resident and domiciled in the UK for tax purposes.
- For partnerships
  - if the control and management of the business of the partnership takes place in the UK.

If an entity is dual resident, such that it is resident in the UK and also in another country, it will still need to apply the UK legislation in respect of any Reportable Accounts maintained in the UK.

Entity Classification Elections (known as check the box elections), made to the IRS, are irrelevant for determining whether an entity is in scope for the UK Agreement.

### **2.3 Subsidiaries and Branches**

Subsidiaries and branches of UK tax resident Financial Institutions that are not located in the UK are excluded from the scope of the UK Agreement and will not be regarded as UK Financial Institutions.

These entities will be covered by the relevant rules in the jurisdiction in which they are located. Those rules will either be the US Regulations or the legislation introduced to bring effect to an Agreement between that jurisdiction and the US.

However, where such subsidiaries and branches act as introducers with regard to a Financial Account and the relevant account is held and maintained in the UK by a UK Financial Institution **and** is subject to UK Regulatory requirements, the account will be within the scope of the UK Agreement. The UK Financial Institution maintaining the account(s) will be required to undertake the appropriate due diligence processes and report the appropriate details to HMRC.

### **Example 1**

Albion Bank PLC, located in London, has within its group the following entities:

- a subsidiary (S) located in Edinburgh,
- a foreign subsidiary (D) located in Partner Jurisdiction 1
- a foreign branch (F) located in Partner Jurisdiction 2
- a foreign branch (X) located in Eurasia and
- a foreign branch (Y) located in New York

Under the terms of the Agreement:

- Albion Bank in London and its subsidiary S will be UK Financial Institutions and report to HMRC.
- D and F will be classified under the Agreement as Partner Jurisdiction Financial Institutions and will report to their respective jurisdictions.
- X will be a Limited FFI and will have to identify itself as a Non Participating Foreign Financial Institution for withholding/reporting purposes **if** Eurasia does not have an Agreement with the US and if X cannot enter into an FFI Agreement directly with the IRS due to legal or other impediments. However X will have to undertake the obligations required under the US Regulations as far as it is legally able to do so.
- Y will report on UK persons who hold accounts to the IRS.

### **Example 2 - Where an overseas bank has a branch located in the UK**

Oceania Bank of Australia has a branch Z located in London.

- Z will be a UK Financial Institution and will therefore fall under the UK Agreement and will need to comply with the UK Regulations and legislation and report information on any reportable Financial Accounts to HMRC.

## **2.4 Related Entities**

For the purposes of FATCA an entity is regarded as being related to another entity if one entity controls the other or the two entities are under common control.

For this purpose control is taken as including the direct or indirect ownership of more than 50 per cent of the vote and value in an entity.

Whether or not there are Related Entities is relevant in the context of the obligations placed on UK Financial Institutions, in respect of any related entities that are Non-Participating Financial Institutions (NPFI).

Where a UK Financial Institution has any Related Entities that as a result of the jurisdictions they operate in, they are unable to comply with FATCA, then the UK Financial Institution must treat the related entity as an NPFI and fulfil obligations in respect of that NPFI as set out in Article 4 of the Agreement. Further guidance on these obligations is set out in more detail at Section 9.4.

### **Exemption for an Investment Entity**

Investment Entities which have been provided with seed capital by a member of a group to which the Investment Entity belongs will not be considered a Related Entity for the purposes of the Agreement.

In general a seed capital investment is an initial capital contribution (that is intended as a temporary investment), made to an Investment Entity. This is generally for purposes of establishing a performance record before selling interests in the entity to unrelated investors, or for purposes otherwise deemed appropriate by the manager.

Specifically, an Investment Entity will not be considered a Related Entity as a result of a contribution of seed capital by a member of the group if:

- the member of the group that provides the seed capital is in the business of providing seed capital to Investment Entities that it intends to sell to unrelated investors;
- the Investment Entity is created in the course of its business;
- any equity interest in excess of 50% of the total value of stock of the Investment Entity is intended to be held for no more than three years from the date of acquisition; **and**
- in the case of an equity interest that has been held for over three years, its value is less than 50% of the total value of the stock of the Investment Entity.

## **2.5 Non-Participating Financial Institutions (NPFIs)**

A Non-Participating Financial Institution (NPFI) is a Financial Institution that is **not** FATCA compliant. This non-compliance arises either where:

- the Financial Institution is located in a jurisdiction that does not have an Intergovernmental Agreement with the US and the Financial Institution has not entered into a FATCA Agreement with the IRS, **or**,
- the Financial Institution is classified by the IRS as being a NPFI following the conclusion of the procedures for significant non-compliance being undertaken. In this case a UK Financial Institution will only be classed as an NPFI where there is significant non-compliance with the UK legislation **and**, after a period of enquiry that non-compliance has not been addressed to HMRC's satisfaction. In such circumstances the UK Financial Institution's details may be published electronically by the IRS and the Financial Institution will cease to be covered by the Agreement.

For further details about compliance with the UK legislation see Section 10.

## 2.6 Non-Financial Foreign Entities (NFFEs)

An NFFE is any non-US entity that is not treated as a Financial Institution.

There are two categories of NFFE,

- an Active NFFE or
- a Passive NFFE.

### Criteria for determining an Active NFFE

An Active NFFE is defined as any NFFE that meets **ONE** of the following criteria:

- Less than 50 per cent of the NFFE's gross income for the preceding calendar year or other appropriate reporting period is passive income and less than 50 per cent of the assets held by the NFFE during the preceding calendar year or other appropriate reporting period are assets that produce or are held for the production of passive income.
- The stock of the NFFE is regularly traded on an established securities market **or** the NFFE is a Related Entity of an entity, the stock of which is traded on an established securities market. See Section 3.10 for how this should be applied under the Agreement.
- The NFFE is organised in a US Territory and all of the owners of the payee are bona fide residents of that US Territory. The definition of US Territory is set out at Article 1 (1) (b) of the Agreement.
- The NFFE is a non-US Government, a political subdivision of such non-US Government (which, for the avoidance of doubt, includes a state, province, county, or municipality), or a public body performing a function of such non-US Government or a political subdivision thereof, a government of a US Territory, an international organisation, a non-US central bank of issue, or an entity wholly owned by one or more of the foregoing.

- Substantially all of the activities of the NFFE consist of holding (in whole or in part) the outstanding stock of, and providing financing and services to, one or more subsidiaries that engage in trades or businesses other than the business of a Financial Institution. However the entity **will not qualify as a NFFE** if it functions (or holds itself out) as an investment fund, such as a Private Equity Fund, Venture Capital Fund, Leveraged Buyout Fund or any Investment Vehicle whose purpose is to acquire or fund companies and then hold interests in those companies as capital assets for investment purposes.
- The NFFE is not yet operating a business and has no prior operating history, but is investing capital into assets with the intent to operate a business other than that of a Financial Institution; provided that the NFFE shall not qualify for this exception after the date that is 24 months after the date of the initial organisation of the NFFE.
- The NFFE was not a Financial Institution in the past five years, and is in the process of liquidating its assets, **or** is reorganising with the intent to continue or recommence operations in a business other than that of a Financial Institution.
- The NFFE primarily engages in financing and hedging transactions with, or for related entities that are not Financial Institutions, and does not provide financing or hedging services to any entity that is not a Related Entity, provided that the group of any such Related Entities is primarily engaged in a business other than that of a Financial Institution.
- The NFFE is an “Excepted NFFE” as described in relevant US Treasury Regulations; **or**

- The NFFE meets **all** of the following requirements:
  - It is established and operated in its jurisdiction of residence exclusively for religious, charitable, scientific, artistic, cultural, athletic, or educational purposes; or it is established and operated in its jurisdiction of residence and it is a professional organisation, business league, chamber of commerce, labour organisation, agricultural or horticultural organisation, civic league or an organisation operated exclusively for the promotion of social welfare;
  - It is exempt from income tax in its country of residence;
  - It has no shareholders or members who have a proprietary or beneficial interest in its income or assets;
  - The applicable laws of the entity's country of residence or the entity's formation documents do not permit any income or assets of the entity to be distributed to, or applied for the benefit of, a private person or non-charitable entity other than pursuant to the conduct of the entity's charitable activities, or as payment of reasonable compensation for services rendered, or as payment representing the fair market value of property which the entity has purchased; **and**
  - The applicable laws of the entity's country of residence or the entity's formation documents require that, upon the entity's liquidation or dissolution, all of its assets be distributed to a governmental entity or other non-profit organisation, or escheat to the government of the entity's country of residence or any political subdivision thereof.

### **Application to General Insurance Companies**

A General Insurance Company should generally **not** be treated as a Financial Institution under FATCA but will instead be classified as a NFFE unless they have Financial Accounts.

## **2.7 Exempt Beneficial Owners**

Such entities do not have any reporting or registration requirements in relation to any Financial Accounts that they maintain, nor will reporting UK Financial Institution's be required to review or report on accounts held by Exempt Beneficial Owners.

Exempt Beneficial Owners are entities that fall within the following categories.

- Foreign Government and any political sub divisions of a Foreign Government or any wholly owned agency or instrumentality of such. See Section 2.8 for how it applies to the UK.
- Foreign Central Bank of Issue. See Section 2.9 as it applies to the UK.
- International Organisations or any wholly owned agency or Instrumentality of such. See Section 2.10 for how it applies to the UK.
- Governments of US Territories
- Certain Retirement Funds. See Section 2.11 for how it applies to the UK.
- Entities Wholly Owned by Exempt Beneficial Owners

UK Exempt Beneficial Owners will **not** need to register for a GIIN.

## **2.8 UK Government and UK Governmental Organisations**

The UK Government and the organisations listed below are Non-Reporting Financial Institutions and will be treated as Exempt Beneficial Owners.

The Devolved Administrations as per:

- the Northern Ireland Act 1998 (updated by The Northern Ireland (St Andrews Agreement) Acts 2006 & 2007, and the Northern Ireland Act 2009)
- the Scotland Act 1998
- the Government of Wales Act 2006

Local Government Authorities as per:

- Section 33 of the Local Government Act 2003
- the Local Government Act (NI) 1972 (as amended by The Local Government (Miscellaneous Provisions) Act (NI) 2010 and Local Government Finance Act (NI) 2011)
- the Local Government etc. (Scotland) Act 1994
- the Local Government (Wales) Act 1994.

## **2.9 Central Banks**

The Bank of England and any of its wholly owned subsidiaries are Non-Reporting Financial Institutions and will be treated as Exempt Beneficial Owners.

## **2.10 International Organisations**

The organisations listed below are Non-Reporting Financial Institutions and will be treated as Exempt Beneficial Owners.

Any UK office of:

- The International Monetary Fund
- The World Bank
- The International Bank for Reconstruction and Development
- The International Finance Corporation
- The International Finance Corporation Order, 1955 (SI 1955 No.1954)
- The International Development Association
- The Asian Development Bank
- The African Development Bank
- The European Community
- The European Coal and Steel Community
- The European Atomic Energy Community
- The European Investment Bank
- The European Bank for Reconstruction and Development
- The OECD Support Fund
- The Inter-American Development Bank

## 2.11 Retirement Funds

Any pension scheme or other retirement arrangement established in the UK and described in Article 3 (General Definitions) of the UK/US Double Tax Convention (2001) will have no reporting obligations and Reporting UK Financial Institutions will not be required to review or report on accounts held by such pension schemes or other retirement arrangements. This exemption includes separate nominee companies of exempt pension schemes.

Under the UK/US Double Taxation Agreement a “pension scheme” is defined as any plan, scheme, Fund, Trust or other arrangement established in the UK which is:

- 1) generally exempt from income taxation in the UK; **and**
- 2) operated principally to administer or provide pension or retirement benefits or to earn income for the benefit of one or more such arrangements.

This will include all UK registered pension schemes including those deemed registered by HMRC, and pension funds or pension schemes covered by IRS Announcement 2005-30, 2005-1 C.B. 988, on the Mutual Agreement on UK Pension Agreements. ([http://www.irs.gov/irb/2005-18\\_IRB/ar10.html#d0e1440](http://www.irs.gov/irb/2005-18_IRB/ar10.html#d0e1440))

### Example 1

A Trust based pension scheme purchases a Trustee Investment Plan (TIP) from a Reporting UK Insurance Company. As the TIP is purchased by an Exempt Beneficial Owner, the Reporting UK Insurance Company is not required to review or report on this account.

## **Example 2 - Management of Registered Personal Pension Schemes**

Where an Insurance Company acting as a pension scheme trustee or administrator invests into a fund on behalf of individual investors a Reporting Financial Institution holding these funds on behalf of the Insurance Company, will not be required to review or report on that account as it will be treated as an account of an Exempt Beneficial Owner.

The Pension Protection Fund is also to be treated as a Non-Reporting Financial Institution.

### **2.12 Deemed Compliant Financial Institutions**

Deemed Compliant Financial Institutions are Financial Institutions within this category in Annex II or ones which otherwise qualify under the US Regulations as:

- Registered Deemed Compliant Financial Institution
- Certified Deemed Compliant Financial Institution,
- Owner Documented Financial Institutions.

Only a Registered Deemed Compliant Financial Institution or in certain circumstances a Local Client Base Financial Institution (See Section 2.13), are required to register with the IRS.

There are two types of entity that can take advantage of this exemption.

Non-profit organisations: Under the Agreement these are to be regarded as Deemed Compliant Financial Institutions and will not have any reporting requirements in relation to any Financial Accounts that they may hold. This applies to:

- Any entity registered as a charity with the Charity Commission of England and Wales
  - Any entity registered with HMRC for charitable tax purposes
  - Any entity registered as a charity with the Office of the Scottish Charity Regulator
  - Any Community Amateur Sports Club if registered as such with HMRC
- Financial Institutions with a Local Client Base will have a reduced reporting requirement if they meet the relevant criteria.

### **2.13 Local Client Base Financial Institutions**

There are 10 criteria that must **all** be met before a Financial Institution can be treated as a Local Client Base Financial Institution. A Financial Institution should self assess whether it meets these criteria and maintain appropriate records to support its assessment. The criteria are listed below:

- a) The Financial Institution must be licensed and regulated under the laws of the UK. For example this would include where a Financial Institution is an Authorised Person under Section 31 FSMA 2000 or where closed ended investment companies qualify as an Investment Trust Company under s1158 of the Corporation Tax Act 2010, or as a Venture Capital Trust under part 6 Income Tax Act 2007.
- b) The Financial Institution must have no fixed place of business outside the UK other than where the location outside of the UK houses solely administrative functions and is not publically advertised to customers.

This applies even if the fixed place of business is within a jurisdiction that has entered into an Agreement with the US with regard to FATCA.

- c) The Financial Institution must not solicit potential Financial Account holders outside the UK. For this purpose, a Financial Institution shall not be considered to have solicited such customers outside of the UK merely because it operates a website, provided that the website does not specifically indicate that the Financial Institution provides accounts or services to non-UK residents or otherwise target or solicit US customers.

A Financial Institution will also not be considered to have solicited potential Financial Account holders outside of the UK if it advertises in either print media or on a radio or television station and the advertisement is distributed or aired outside of the UK, as long as the advertisement does not specifically indicate that the Financial Institution provides services to non-residents.

A Financial Institution issuing a prospectus will not, in itself, amount to soliciting Financial Account holders, even when it is available to US Persons in the UK. Likewise, publishing information such as Reports and Accounts to comply with the Listing Rules, Disclosure Rules and Transparency or AIM rules to support a public listing or quotation of shares will not amount to soliciting customers outside the UK.

- d) The Financial Institution is
- required under the tax laws of the UK to perform information reporting, such as the reporting required under Schedule 23 FA 2011 or the withholding of tax with respect to accounts held by residents of the UK, **or**
  - is required to identify whether account holders are resident in the UK as part of the AML/KYC procedures.

For insurance products the following reporting or taxing regimes will apply to this section:

- Non-qualifying policies subject to the chargeable events reporting regime
- Qualifying policies subject to the reporting requirements that apply on or after 6 April 2013
- Qualifying Investment Life Insurance policies that are subject to Income minus Expense Regime (I-E)

e) At least 98 per cent of the Accounts **by value**, provided by the Financial Institution must be held by people who reside in the UK or another Member State of the European Union.

The 98 per cent threshold can include the Financial Accounts of US Persons if they are resident within the UK. It applies to both Individual and Entity Accounts.

A Financial Institution will need to assess whether it meets this criteria annually. The measurement can be taken at any point of the preceding calendar year for it to apply to the following year, as long as the measurement date remains the same from year to year.

f) Subject to subparagraph g) below, beginning on January 1, 2014, the Financial Institution does not provide Financial Accounts to

- any Specified US Person who is not a resident of the UK (including a US Person that was a resident of the UK when the account was opened, but subsequently ceases to be a resident of the UK),
- a Non-Participating Financial Institution, or
- any Passive NFFE with Controlling Persons who are US citizens or residents.

Where a Local Client Base Financial Institution provides Financial Accounts to US citizens who are resident in the UK, these Financial Accounts do not need to be reported to HMRC unless the account holder subsequently ceases to be a resident of the UK.

- g) On or before 1 January, 2014, the Financial Institution must implement policies and procedures to establish and monitor whether it provides (meaning opens and maintains) Financial Accounts to the persons described in subparagraph (f) above. If any such Financial Account is discovered, the Financial Institution must either report that account as though the Financial Institution were a Reporting UK Financial Institution, or close the account, or transfer the account to a Participating Foreign Financial Institution, Reporting Model 1 Foreign Financial Institution or a US Financial Institution.

This means that even if Financial Accounts have been provided to Specified US Persons, a Non-Participating Financial Institution or any Passive NFFE with Controlling Persons who are US citizens or residents prior to the 1 January 2014, the Financial Institution can still be a Financial Institution with a Local Client Base provided that the appropriate reporting is carried out.

- h) With respect to each Financial Account that is held by an individual who is not a resident of the UK or by an entity, and that is opened prior to the date that the Financial Institution implements the policies and procedures described in subparagraph (g) above, the Financial Institution must review those accounts in accordance with the procedures applicable to Pre-existing Accounts, described in Annex I of the Agreement, to identify any US Reportable Account or Financial Account held by a Non-Participating Financial Institution. Where such accounts are identified, they must be closed, or transferred to a Participating Foreign Financial Institution, Reporting Model 1 Foreign Financial Institution or a US Financial Institution or the Financial Institution must report those accounts as if it were a Reporting UK Financial Institution.

This allows a Financial Institution with a Local Client Base to maintain its status whilst reporting on relevant Financial Accounts that were opened prior to the adoption of the requirements set out in this section.

- i) Each Related Entity, which are themselves Financial Institutions, of the Financial Institution must be incorporated or organised in the UK and must also meet the requirements for a Local Client Base Financial Institution with the exception of a retirement plan classified as an Exempt Beneficial Owner.
- j) The Financial Institution must not have policies or practices that discriminate against opening or maintaining accounts for individuals who are Specified US Persons and who are residents of the UK.

#### **2.14 US Regulations Exemption**

The following sections cover the categories of Deemed Compliant Financial Institutions set out in the US Regulations which are available to UK financial Institutions as permitted by the terms of the Agreement.

- Registered Deemed Compliant Financial Institutions, (Section 2.15)
- Certified Deemed Compliant Financial Institutions (Section 2.21)
- Owner Documented Financial Institutions. (Section 2.25)

#### **2.15 Registered Deemed Compliant Financial Institutions**

Sections 2.16 to 2.20 provide details on the Registered Deemed Compliant categories.

A UK Financial Institution that qualifies for one of the Registered Deemed Compliant categories below will need to obtain a GIIN and will need to submit returns to HMRC.

## **2.16 Non-reporting members of Participating FFI groups (1471-5 (f) (1) (i) (B))**

This allows a Financial Institution to be treated as Registered Deemed Compliant if it meets the following requirements:

- By the later of 31 December 2013 or the date it obtains a GIIN, the Financial Institution implements policies and procedures to allow for the identification and reporting of:
  - Pre-existing US Reportable Accounts
  - US Reportable Accounts opened on or after 1 January 2014
  - Accounts that become US Reportable Accounts as a result of a change of circumstance
  - Accounts held by NPFIs
  
- The Financial Institution must review accounts opened prior to implementing the appropriate policies and procedures and within six months of identification of the account as a US Reportable Account or where it becomes aware of a change in circumstance of the account holder's status. The Financial Institution closes the account or transfers it to a Model 1 Financial Institution, Participating Financial Institution or US Financial Institution or reports the account to HMRC.

## **2.17 Qualified Collective Investment Vehicles (1471-5 (f) (1) (i) (C))**

The Qualified Collective Investment Vehicles category is intended to provide relief for Investment Entities that are owned solely through Participating Foreign Financial Institutions or directly by large institutional investors not typically subject to FATCA withholding or reporting.

A Qualified Collective Investment Vehicle must be an Investment Entity and must be regulated as an Investment Entity in the UK and every other country in which it operates. A Fund is considered to be regulated if its manager is regulated with respect to the fund in all of the countries in which the

investment fund is registered and in all of the countries in which the investment fund operates.

A Qualified Collective Investment Vehicle's investors are limited to equity investors, direct debt investors with an interest greater than \$50,000 and other Financial Account holders are limited to participating Foreign Financial Institutions, Registered Deemed Compliant Foreign Financial Institutions, retirement plans classified as Exempt Beneficial Owners, US Persons that are not Specified US Persons, Non-Reporting IGA Foreign Financial Institutions, or other Exempt Beneficial Owners.

Each member of the group of Related Entities must be a Participating Foreign Financial Institution, a Registered Deemed Compliant Foreign Financial Institution, a sponsored Foreign Financial Institution, a Non-Reporting IGA Foreign Financial Institution or an Exempt Beneficial Owner.

#### **2.18 Restricted Funds (1471-5 (f) (1) (i) (D))**

Restricted fund status is eligible for Investment Entities that impose prohibitions on the sale of units to Specified US Persons, Non-Participating Financial Institutions and Passive NFFEs with Controlling US Persons that meet the following requirements.

The Financial Institution is a Financial Institution solely because it is an Investment Entity, and it is regulated as an investment fund in the UK and in all of the countries in which it is registered and in all of the countries in which it operates. A fund will be considered to be regulated as an investment fund for purposes of this paragraph if its manager is regulated with respect to the fund in all of the countries in which the investment fund is registered and in all of the countries in which the investment fund operates.

Interests issued directly by the fund are redeemed by or transferred by the fund rather than sold by investors on any secondary market.

Interests that are not issued directly by the fund are sold only through distributors that are participating Financial Institutions, Registered Deemed Compliant Financial Institutions, non-registering local banks, or restricted distributors. A distributor includes an underwriter, broker, dealer, or other person who participates, pursuant to a contractual arrangement with the Financial Institution, in the distribution of securities and holds interests in the Financial Institution as a nominee.

The Financial Institution ensures that by the later of 30 June 2014 or six months after the date it registers as a Deemed Compliant Financial Institution, that each agreement that governs the distribution of its Debt or Equity interests, prohibits sales and other transfers of Debt or Equity Interests in the Financial Institution (other than interests that are both distributed by and held through a Participating Financial Institution) to Specified US Persons, Non-Participating Financial Institutions, or Passive NFFEs with one or more substantial US owners.

In addition, by that date, the Financial Institution's prospectus and all marketing materials must indicate that sales and other transfers of interests in the Financial Institution to Specified US Persons, Non-Participating Financial Institutions, or Passive NFFEs with one or more substantial US owners are prohibited unless such interests are both distributed by, and held through, a participating Financial Institution.

The Financial Institution ensures that by the later of 30 June 2014, or six months after the date the Financial Institution registers as a Deemed Compliant Financial Institution, each agreement entered into by the Financial Institution that governs the distribution of its Debt or Equity Interests requires the distributor to notify the Financial Institution of a change in the distributor's Chapter 4 status within 90 days of the change.

The Financial Institution must certify to HMRC with respect to any distributor that ceases to qualify as a distributor, the Financial Institution will terminate its distribution agreement with the distributor, or cause the distribution agreement

to be terminated, within 90 days of notification of the distributor's change in status and, with respect to all Debt and Equity Interests of the Financial Institution issued through that distributor, will redeem those interests, convert those interests to direct holdings in the fund, or cause those interests to be transferred to another compliant distributor within six months of the distributor's change in status.

With respect to any of the Financial Institution's Pre-existing Direct Accounts that are held by the Beneficial Owner of the interest in the Financial Institution, the Financial Institution reviews those accounts in accordance with the procedures (and time frames) applicable to Pre-existing Accounts to identify any US Account or account held by a Non-Participating Financial Institution. Notwithstanding the previous sentence, the Financial Institution will not be required to review the account of any individual investor that purchased its interest at a time when all of the Financial Institution's distribution agreements and its prospectus contained an explicit prohibition of the issuance and/or sale of shares to US entities and US resident individuals. A Financial Institution will not be required to review the account of any investor that purchased its interest in bearer form until the time of payment, but at such time will be required to document the account.

By the later of 30 June 2013, or six months after the date the Financial Institution registers as a Deemed Compliant Financial Institution, the Financial Institution will be required to certify to the HMRC either that it did not identify any US account or account held by a Non-Participating Financial Institution as a result of its review or, if any such accounts were identified, that the Financial Institution will either redeem such accounts, transfer such accounts to an affiliate or other Financial Institution that is a Participating Financial Institution, reporting Model 1 Financial Institution, or US Financial Institution.

By the later of 31 December 2013 or the date that it registers as a Deemed Compliant Foreign Financial Institution, the Foreign Financial Institution implements the policies and procedures to ensure that it either:

- 1) does not open or maintain an account for, or make a withholdable payment to, any Specified US Person, Non-Participating Financial Institution, or Passive NFFE with one or more substantial US owners and, if it discovers any such accounts, closes all accounts for any such person within six months of the date that the Financial Institution had reason to know the account holder became such a person; **or**
- 2) reports on any account held by, or any withholdable payment made to, any Specified US Person, Non-Participating Financial Institution, or Passive NFFE with one or more substantial US owners to the extent and in the manner that would be required if the Financial Institution were a Participating Financial Institution.

For a Financial Institution that is part of a group of related entities, all other Financial Institutions in the group of related entities are Participating Financial Institutions, Registered Deemed Compliant Financial Institutions, sponsored Financial Institutions, Non-Reporting IGA Financial Institutions, or Exempt Beneficial Owners.

#### **2.19 Qualified credit card issuers (1471-5 (f) (1) (i) (E))**

A qualified credit card issuer is an entity that:

- is a Financial Institution solely because it is an issuer of credit cards that accepts deposits only when the customer makes a payment in excess of the outstanding balance due and that does not immediately return the overpayment to the customer; **and**
- implements policies and procedures (by the later of 31 December 2013 or the date it registers as a Deemed Compliant Financial Institution) either to prevent a customer deposit in excess of \$50,000 or to ensure that any customer deposit in excess of \$50,000 is refunded to the customer within 60 days.

## **2.20 Sponsored Investment Entities (1471-5 (f) (1) (i) (F))**

A sponsoring entity (typically a fund manager) is an entity that is authorised to manage the sponsored Financial Institution (typically a fund, or a sub-fund that is an Investment Entity but is not a US Qualified Intermediary, Withholding Foreign Partnership or Withholding Foreign Trust) and to enter into contracts on behalf of the sponsored Financial Institution. A sponsor must register with the IRS as a sponsoring entity, and must register each of the funds or sub-funds it manages (or a subset of these) as sponsored entities.

A sponsor must undertake all FATCA compliance on behalf of the sponsored funds (and, where appropriate, outsource FATCA compliance obligations to third party service providers). This will include, for example, account identification and documentation. A sponsor will need to ensure that new investors in the funds it manages are appropriately documented for FATCA purposes (and this will typically be done by a transfer agent, acting as a third party service provider).

Where a sponsor acts on behalf of a range of funds, the classification of an account as a New Account or a Pre-existing Account can be done by reference to whether the account is new to the sponsor (fund manager) and not the fund (but see comment below in relation to offshore funds and multiple service providers). This will prevent a fund manager from having to seek FATCA documentation from the same account holder repeatedly, where that account holder is invested in more than one of the funds. Where a sponsor is able to link accounts in this manner, the accounts will need to be aggregated for the purpose of determining whether the accounts exceed the de minimis for reporting (see section 4.15 for more details on aggregation of sponsored funds).

Subject to the final reporting schema, a sponsor will then report to HMRC on all the account holders of the funds it manages.

## **Reporting of sponsored offshore funds**

In practice a fund manager will act for funds located in a number of jurisdictions. When acting as sponsor, the fund manager will need to act on behalf of the sponsored fund ranges independently, with respect to each tax authority in which the funds are domiciled.

### **Example 1**

A UK fund manager manages fund ranges in UK and IGA Country 1. The UK manager can register as sponsor for all or some of the funds in each of these jurisdictions. The sponsor would

- report to HMRC on behalf of the UK fund range, **and**
- would report to the tax authorities in IGA Country 1 on behalf of the funds domiciled there.

### **Example 2**

As above, but in addition the UK fund manager manages funds in a non-IGA country. Additionally the fund manager will need to report to the US on behalf of funds domiciled in non-IGA countries.

## **Multiple service providers**

Similarly, a fund manager may use different transfer agents for different fund ranges within the same country. In such cases the fund manager itself cannot know whether an existing account holder in one of the fund ranges opens a New Account in the other fund range. This in itself should not preclude the same fund manager from acting as a sponsor for both fund ranges. It does mean that the full benefits of sponsoring (such as not re-documenting existing account holders when they make new investments) might not be realised where different service providers are used.

## **2.21 Certified Deemed Compliant Financial Institutions**

Sections 2.22 to 2.24 provide details on the Certified Deemed Compliant categories. Certified Deemed Compliant Financial Institutions are not required to register with the IRS and obtain a GIIN.

## **2.22 Non-Registering local bank (1471-5 (f) (2) (i))**

Non-registering local banks are generally small regulated local banks, credit unions and similar entities that are primarily Depository Institutions; they may operate without a profit.

They must not have a fixed place of business outside of the UK; this does not include a location that is not advertised to the public and from which the Financial Institution performs solely administrative support functions.

Non-registering local banks must have policies and procedures prohibiting the solicitation of customers outside the UK. There is also a limit on the total assets that can be held of \$175 million in assets for single entity and (\$500 million total for a group of Related Entities).

Any Related Entities of the non-registering local bank must also satisfy these requirements.

## **2.23 Financial Institutions with only Low Value Accounts (1471-5 (f) (2) (ii))**

The Financial Institution **must not**:

- be an Investment Entity,
- have any Financial Accounts exceeding \$50,000 and must not
- have more than \$50 million in assets on its balance sheet at the end of its most recent accounting year
- have more than \$50 million in assets on its consolidated or combined balance sheet where it is in a group with related entities

## **2.24 Sponsored closely held Investment Vehicles (1.1471-5 (f) (2) (iii))**

This category of Deemed Compliant is very similar to a Sponsored Investment Entity under the Registered Deemed Compliant Financial Institution category. The requirements to qualify are as follows.

The Financial Institution must be an Investment Entity that is not a US Qualified Intermediary, Withholding Foreign Partnership or Withholding Foreign Trust.

The Financial Institution is required to have a contractual arrangement with a sponsoring entity that is a Participating Financial Institution, Reporting Model 1 Financial Institution or US Financial Institution that is authorised to manage the Financial Institution and enter into contracts on its behalf under which the sponsoring entity agrees to all due diligence, withholding and reporting responsibilities that the Financial Institution would have if it were a Reporting Financial Institution.

The sponsored vehicle does not hold itself out as an investment vehicle for unrelated parties; and the sponsored vehicle has 20 or fewer individuals that own its Debt and Equity Interests (disregarding interests owned by Participating Financial Institution, Deemed Compliant Financial Institutions and an equity interest owned by an entity that is 100% owner and itself a sponsored closely held investment vehicle).

The sponsoring entity will have to register with the IRS as a sponsoring entity (it does **not** need to register the sponsored entities) and perform the duties of a Participating or Model 1 Reporting Financial Institution with respect to the sponsored entity.

## **2.25 Owner Documented Foreign Financial Institutions (1.1471-5(f) (3))**

In general, Owner Documented Financial Institution classification is intended to apply to closely held Passive Investment Vehicles that are Investment Entities, where meeting the obligations under the Agreement would be onerous given the size of the entity. The Owner Documented Financial Institution must provide the required documentation and agree to notify the other Financial Institution which is undertaking the reporting on behalf of the Owner Documented Financial Institution if there is a change in circumstances.

An Owner Documented Financial Institution **must** satisfy the following requirements:

- The Financial Institution must not maintain a Financial Account for any Non-Participating Financial Institution;
- The Financial Institution must not be owned by, nor be a member of a group of Related Entities with any Financial Institution that is a Depository Institution, Custodial Institution or Specified Insurance Company.

The Financial Institution undertaking obligations on behalf of the Investment Entity must agree to report the information required on any Specified US Persons but will not need to report on any indirect owner of the owner documented entity that holds its interest through a participating Foreign Financial Institution, Model 1 Financial Institution, a Deemed Compliant Foreign Financial Institution (other than an Owner Documented Foreign Financial Institution), an entity that is a US Person, an Exempt Beneficial Owner, or an Excepted NFFE.

## **2.26 Depository Institution**

While not enough on its own, to be classified as a Depository Institution, an entity must accept deposits in the ordinary course of a banking or similar business.

HMRC will regard a person carrying out an activity that is a regulated activity for the purposes of the Financial Services and Markets Act 2000 by virtue of Article 5 of the Financial Services and Markets Act 2000 (Regulated Activities) Order 2001<sup>1</sup> (accepting deposits) as a Depository Institution.

Entities within this definition will include entities regulated in the UK as a savings or commercial bank, a credit union, industrial and provident societies

---

<sup>1</sup> S.I. 2001/544

and building societies. Insurance brokers and solicitors would not be expected to fall within this definition.

In considering whether an entity is conducting banking or similar business, it will be the actual activities that the entity carries out that will be determinative.

Entities that issue payment cards that can be pre-loaded with funds in excess of \$50,000 to be spent at a later date, such as a pre-paid credit card or “e-money” will also be considered to be Depository Institutions for the purposes of the Agreement, notwithstanding that these entities are exempt from the definition of a Depository provider for the purposes of the provisions of the Electronic Money Issuers Regulations 2011.

Entities that solely provide asset based finance services or that accept deposits solely from persons as collateral or security pursuant to; a sale or lease of property; a loan secured by property; or a similar financing arrangement, between such entity and the person making the deposit with the entity, will not be Depository Institutions. This might for instance apply to a factoring or invoice discounting business.

Entities that complete money transfers by instructing agents to transmit funds will not be considered to be engaged in banking or similar business as this is not seen as accepting deposits.

## **2.27 Custodial Institution**

A Custodial Institution is an institution which holds financial assets for the account of others as a substantial portion of its business.

A substantial proportion in this context means where 20 per cent or greater of the entity's gross income from either its last 3 accounting periods, or since it commenced business, arises from the holding of assets for the benefit of others and from related financial services.

An entity with no operating history as of the date of the determination is considered to hold financial assets for the account of others as a substantial

portion of its business if the entity expects to meet the gross income threshold based on its anticipated functions, assets, and employees, with due consideration given to any purpose or functions for which the entity is licensed or regulated (including those of any predecessor).

Related services are any ancillary service directly related to the holding of assets by the institution on behalf of others and includes

- custody, account maintenance and transfer fees;
- execution and pricing commission and fees from securities transactions;
- income earned from extending credit to customers;
- income earned from CFDs and on the bid-ask spread of financial assets; and
- fees for providing financial advice, clearance and settlement services.

Such institutions could include brokers, custodial banks, Trust companies, clearing organisations and nominees. Insurance brokers do not hold assets on behalf of clients and thus should not fall within the scope of this provision.

## **2.28 Investment Entity**

An Investment Entity is an entity that primarily conducts as a business, or is managed by an entity that conducts as a business, one or more of the following activities, for or on behalf of a customer (for example an account holder):

- trading in money market instruments (cheques, bills, certificates of deposit, derivatives etc.);
- foreign exchange;
- interest rate and index instruments;
- transferable securities and commodity futures trading;
- individual and collective portfolio management;

- otherwise investing, administering or managing funds or money on behalf of other persons.

This definition should be interpreted in a manner consistent with similar language set forth in the definition of “Financial Institution” in the Financial Action Task Force Recommendations.

An Investment Entity “primarily conducts as a business” in this context if the entity’s gross income attributable to such activities is equal to or exceeds 50 per cent of the entity’s gross income during the shorter of:

- The three-year period ending on 31 December of the year preceding the year in which the determination is made; **or**
- The period during which the entity has been in existence.

Where an entity has gross income that is primarily attributable to investing, reinvesting, or trading in financial assets and is managed by a Financial Institution that performs any of the activities, either directly or through another third party service provider, listed above, the managed entity will be an Investment Entity.

Where an entity is managed by an individual who performs the activities described above the managed entity will not be an Investment Entity because an individual is not an Investment Entity.

The entity’s gross income must be primarily attributable to investing, reinvesting, or trading in financial assets. Financial assets are set out in the UK Regulations and include:

- any asset capable of being the subject matter of a specified transaction for the purposes of the Investment Manager (Specified Transactions) Regulations 2009<sup>(2)</sup>,
- an Insurance Contract or an Annuity Contract,
- a commodity; **or**
- a derivative contract within the meaning of Part 7 of the Corporation Tax Act 2009<sup>(3)</sup> (see Section 576 of that Act).

Therefore an Investment Entity whose assets consist of non-debt direct interests in real property, even if managed by another Investment Entity would not be an Investment Entity.

Section 2.31 provides further guidance on Collective Investment Schemes and Section 2.36 provides further guidance on Trusts.

## **2.29 Specified Insurance Company**

An Insurance Company is a Specified Insurance Company when the products written are classified as Cash Value Insurance or Annuity Contracts or if payments are made with respect to such contracts.

Insurance companies that only provide General Insurance or term Life Insurance should not be Financial Institutions under this definition and neither will reinsurance companies that only provide indemnity reinsurance contracts. A Specified Insurance Company can include both an Insurance Company and its holding company. However, the holding company itself will only be a Specified Insurance Company if it issues or is obligated to make payments with respect to Cash Value Insurance Contracts or Annuity Contracts.

As only certain persons are permitted to provide Insurance Contracts or Annuity Contracts, it is unlikely that an insurance holding company will in itself issue, or will be obligated to make payments with respect to Cash Value Insurance or Annuity Contracts.

---

<sup>(2)</sup> S.I. 2009/May.  
<sup>(3)</sup> C. 4.

Insurance brokers are part of the payment chain and should not be classified as a Specified Insurance Company because they are not obligated to make payments under the terms of the Insurance or Annuity Contract.

### **2.30 Holding Companies and Treasury Centres of Financial Groups**

Holding Companies and Treasury Centres which meet the criteria below will be Financial Institutions:

- A Holding Company whose primary activity includes holding of (directly or indirectly) all or part of the outstanding stock of one or more related entities that are Financial Institutions.
  
- A Treasury Centre whose primary activity includes entering into hedging and financing transactions with or for Related Entities that are Financial Institutions for one or more of the following reasons:
  - Managing the risk of price changes or currency fluctuations with respect to property that is held or to be held by Related Entities.
  - Managing the risk of interest rate changes, price changes, or currency fluctuations with respect to borrowings made or to be made by held by Related Entities.
  - Managing the risk of interest rate changes, price changes, or currency fluctuations with respect to assets or liabilities to be reflected in financial statements of Related Entities.
  - Managing the working capital of held by related entities by investing or trading in financial assets solely for the account and risk of such Related Entities.
  - Acting as a financing vehicle for borrowing funds for use by Related Entities.

### 2.31 Collective Investment Schemes

References in this Guidance to Collective Investment Scheme, unless otherwise specified, should be read as defined in the UK Regulations. This has the same meaning as it has for the purpose of the Financial Services and Markets Act 2000, except that it also includes any UK resident company that is:

- an Investment Trust for the purposes of the Corporation Taxes Acts (see Section 1158 of the Corporation Tax Act 2010),
- a Venture Capital Trust within the meaning of Part 6 of the Income Tax Act 2007, **or**

For the purposes of the Agreement, Investment Entity includes the following types of entities:

- Collective Investment Schemes within the meaning in the Financial Services and Markets Act 2000.
- closed ended investment companies
- fund managers
- investment managers
- fund administrators
- transfer agents
- depositories and trustees of Unit Trusts.

However, the only Financial Accounts that are relevant to the Agreement are the Equity and Debt Interests in Collective Investment Schemes.

The UK Regulations state that where the Investment Entity is a Collective Investment Scheme constituted by a person, only the Collective Investment Scheme will have reporting responsibilities in relation to the Financial Accounts (the Equity and Debt Interests) of that Collective Investment Scheme.

For example, a fund administrator or a trustee of a Unit Trust will not be a Reporting Financial Institution by virtue of acting for a Collective Investment Scheme. (However, by exception, a fund manager may be regarded as a Reporting Financial Institution by virtue of Regulation 4(3) where it acts on behalf of a Collective Investment Scheme that is not constituted by a person, for example a Unit Trust.)

Therefore any Investment Entity other than:

- a Collective Investment Scheme
- or a manager or operator of a Collective Investment Scheme that is not constituted as a person,

will not have any reporting responsibilities in relation to the interests in the Collective Investment Scheme.

Nevertheless an entity may have reporting responsibilities if it maintains Financial Accounts other than those of the Collective Investment Scheme – see the section on fund distributors below.

### **2.32 Platforms and other distributors of funds**

Fund distributors which may include:

- Financial Advisers (FA's - previously referred to as Independent Financial Advisors IFA's),
- fund platforms,
- wealth managers,
- brokers (including execution-only brokers),
- banks,
- building societies; and
- members of an Insurance group,

may fall within the definition of Investment Entity because of their role in distributing a Collective Investment Scheme as defined for the purposes of the Agreement.

There are two different types of fund distributors:

- those that act as an intermediary in holding the legal title to the Collective Investment Scheme (such as a nominee); and
- those that act on an advisory only basis.

### **Example 1**

Fund platforms typically hold legal title to Collective Investment Scheme interests on behalf of their customers (the investors) as nominees. The customers access the platform in order to buy and sell investments and to manage their investment portfolio. The platform will back the customers' orders with holdings in the Collective Investment Scheme, and possibly other assets. But only the platform will appear on the shareholders' register of the Collective Investment Scheme. Where this is the case the platform will be responsible for reporting on its Financial Accounts.

Where FA's act in an advisory only capacity and simply advise their customers on a range of investments and intermediate between the Collective Investment Scheme, or fund platform and the customer, they will not hold legal title to the assets and therefore are not in the chain of legal ownership of a Collective Investment Scheme and will not be regarded as a Financial Institution in respect of any Financial Accounts they advise on.

If the customer appears on the Collective Investment Scheme's register, the responsibility to report on the customer lies with the fund. If the customer invests in the fund via a fund platform, the responsibility to report on the customer lies with the platform.

### **2.33 Fund nominees - Distributors in the chain of legal ownership**

Distributors that hold legal title to assets on behalf of customers and are part of the legal chain of ownership of interests in Collective Investment Schemes are Financial Institutions. In most cases they will be Custodial Institutions because they will be holding assets on behalf of others.

In considering whether such a distributor meets the condition requiring 20 per cent of the entity's gross income to derive from holding financial assets and from related financial services, consideration should be given as to whether the income derived from acting as nominee arises in another group company, or whether income is derived from commission, discounts or other sources.

Fund nominees, fund intermediaries and fund platforms will nevertheless still be Financial Institutions because they would otherwise be within the definition of Investment Entity. In this case the Financial Accounts will be the Financial Accounts maintained by the distributor, and the distributor will be responsible for ensuring it meets its obligations in respect of those accounts.

HMRC will treat fund nominees, fund intermediaries and fund platforms as Custodial Institutions unless specific factors indicate that their businesses are better characterised as falling within the definition of an Investment Entity. Normally, the primary business of a fund nominee, fund intermediary or fund platform will be to hold financial assets for the accounts of others.

For the purpose of aggregating accounts to determine whether any Pre-existing Custodial Accounts are below the de minimis threshold, a Custodial Institution will need to consider all the Financial Accounts of its customers without reference to whether the customers underlying interests are in different Collective Investment Schemes.

### **2.34 Advisory only distributors**

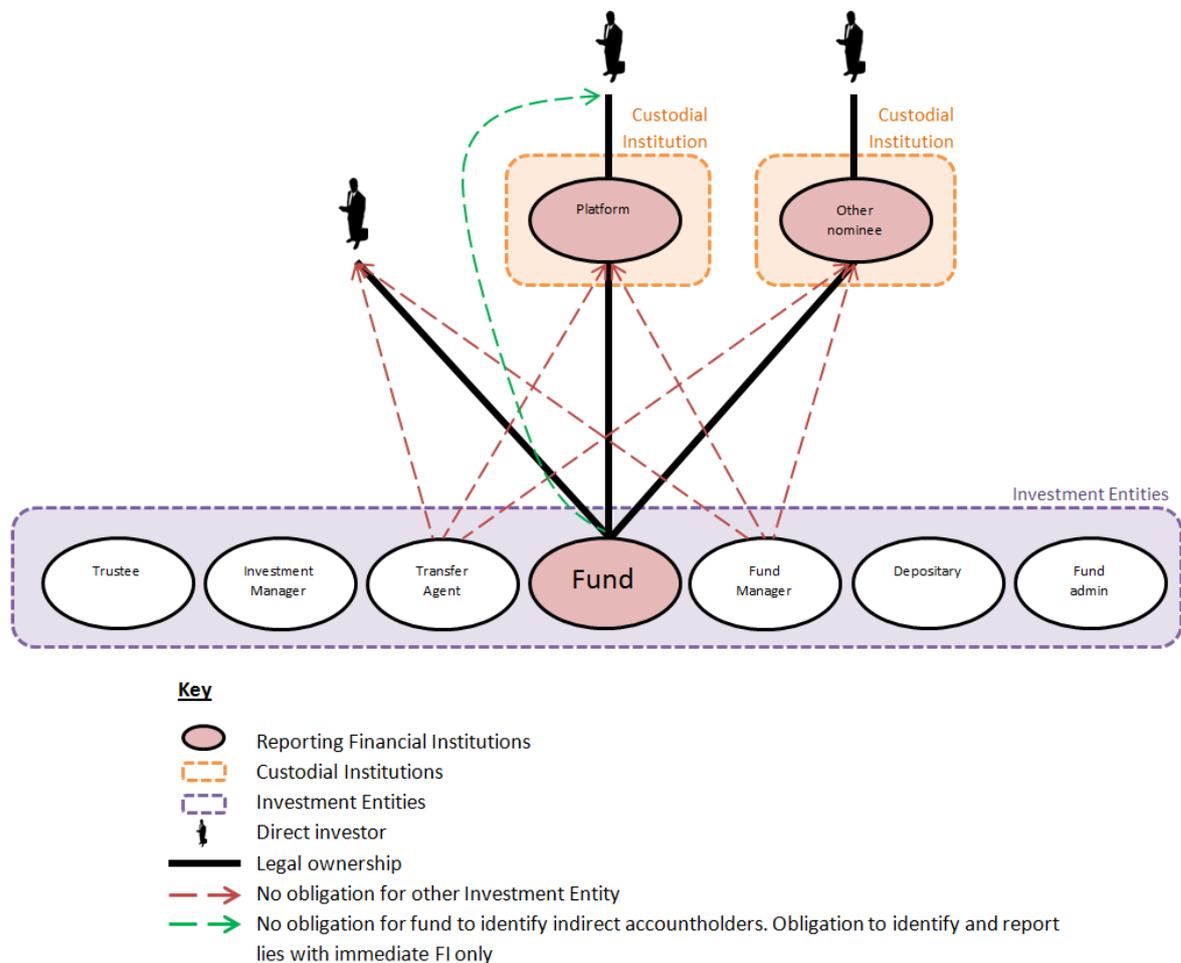

Such distributors, which may include, some FA's may nevertheless be asked by Financial Institutions to provide assistance in identifying account holders and obtaining self certifications (See Section 4.7).

For example, FA's will often have the most in-depth knowledge of the investor and direct access to the customer so will be best placed to obtain self certifications. However, HMRC does not regard such advisory only distributors as Financial Institutions and they will only have obligations pursuant to contractual agreements with those Financial Institutions where they act as a third party service provider in relation to those Financial Accounts.

In practice HMRC believes that reliance on third parties for account identification and self certification in FATCA should work in a similar manner to Regulation 17 of the Money Laundering Regulations 2007. As with this Regulation, Financial Institutions should have no obligation to use distributors to comply with their FATCA obligations, and may instead obtain self certifications directly.

## 2.35 Identification and reporting on interest in a Collective Investment Scheme

The diagram below illustrates how HMRC believes the account identification and reporting obligations under the Regulations should work for Collective Investment Schemes.

Depending on how the fund is structured, various entities may fall within the definition of Investment Entity. However, as set out at 2.31 above, provided the fund is a Collective Investment Scheme, only the fund has obligations under the Regulations. The fund itself will need to determine which entity carries out the obligations to identify, verify and report on account holders that are Specified US Persons, by reference to its own governance structure and contractual arrangements.

### **Example 1**

Authorised funds in the UK (which are Authorised Unit Trusts, Open-Ended Investment Companies, and Tax-Transparent Funds) are required to have a fund manager that acts as operator of the fund and is normally assigned responsibility for fulfilling the regulatory obligations of the fund.

Therefore, the fund manager will normally have responsibility for compliance with the obligations in relation to the Financial Accounts of the Fund under the UK legislation. In turn, fund operators typically use third party service providers to provide fund administration, including maintaining records of investors, account balances and transaction services provided by the transfer agent. In these cases the fund manager might appoint the third party service provider to fulfil account identification and reporting requirements as they will have the necessary records.

The fund's account identification and reporting obligations apply only to its immediate account holders. It is required to identify all direct individual account holders pursuant to the due diligence obligations outlined in this Guidance. Any indirect individual account will be held through a Financial Institution (for example a platform or other nominee), and the fund's obligation is to identify the direct account holder (such as the Financial Institution) only. In turn the intermediary Financial Institution will have its own obligation to identify and report on its account holders.

In the diagram the fund would only need to identify any direct individual account holders (shown on left hand side), and the Financial Institutions on the share register. It would be required to report information on any of these that are Specified US Persons.

In turn Custodial Institutions that act as distributors (and not the fund) would be required to identify and report on their direct account holders. The fund has no obligation to identify and report on accounts held indirectly through other Financial Institutions.

## **Investment Trust Companies and Venture Capital Trusts**

ITC and VCT shares and securities are invariably listed on the London Stock Exchange and so meet the requirement of “regularly traded on an established securities market” (See Section 3.10). This means that shares of ITC’s and VCT’s will not constitute “Financial Accounts”.

Although the ITC or VCT will be a Reporting UK Financial Institution, it will not need to report on its shares and securities which are regularly traded on an established securities market as these will not be Financial Accounts.

Accordingly, in many scenarios it will simply need to file a nil return with HMRC unless it maintains other Financial Accounts. .

### **2.36 Trusts**

#### **Trusts as an Investment Entity**

A Trust will be an Investment Entity and therefore a Financial Institution where the Trust or Trustee engages another Financial Institution to manage the Trust or Financial Assets on its behalf. A Trust simply holding a Financial Account with a Financial Institution, such as a Depository Account, where the Financial Institution does not participate in the management of the Trust or Financial Assets, would not make the Trust an Investment Entity.

#### **Trusts that are not Investment Entities**

Where a Trust is not an Investment Entity it will be a NFFE. Where the Trust is a Passive NFFE, the Financial Institutions where the Trust holds Financial Accounts will be required to undertake the necessary due diligence procedures to determine if any of these accounts are Reportable Accounts.

#### **Registration - Trustee documented Trust**

For Trusts that are Investment Entities where the **Trustee** of the Trust is a Reporting Model 1 Foreign Financial Institution, Participating Foreign Financial Institution or Reporting US Financial Institution, and the trustee reports all information required with respect to all US Reportable Accounts of the Trust, the Trust itself will be treated as a Non-Reporting UK Financial Institution and will not be required to register with the IRS.

Where the Trust is an Investment Entity because it is managed by a Financial Institution, but that Financial Institution is not the Trustee, the Trust will be required to register as an Investment Entity unless the Trust is able to take advantage of the Sponsored Investment Entity, Owner Documented Financial Institution categories.

## **Reporting**

Trusts that are Investment Entities but are not in a position to take advantage of the Trustee Documented Trust, Sponsored Investment Entity or Owner Documented Financial Institution categories can use a third party service provider to meet their obligations under the Agreement.

The information to be reported in relation to Trusts that are Investment Entities will be the Equity Interest in the Trust.

This applies to interests held by:

- a person who is a Beneficial Owner of all or of a portion of the Trust;
- a beneficiary that is entitled to a mandatory distribution (either directly or indirectly) from the Trust;
- a beneficiary that receives a discretionary distribution from the Trust in the calendar year.

The information required on Specified US Persons will be:

- Name
- Address
- TIN (where applicable)
- Account number or functional equivalent

### **Balance or Value**

The balance or value in terms of a person who is the Beneficial Owner of a portion or all of the Trust will be the most recent value calculated by the Financial Institution.

The balance or value for a beneficiary that is entitled to a mandatory distribution (either directly or indirectly) from the Trust will be the net present value of amounts payable in the future.

### **Reportable Payments**

Payments to be reported are the total gross amounts paid or credited to any Beneficial Owner and beneficiaries who receive mandatory or discretionary distributions during the calendar year or appropriate reporting period, including aggregate payments in redemption (in whole or in part) of the account.

### **2.37 Partnerships**

For the purposes of the Agreement, partnerships are regarded as an entity. The type of entity will depend on the activities undertaken by the partnership but a partnership may fall into any of the categories of Financial Institution. Where a partnership is a Financial Institution it will need to identify any Financial Accounts it holds, including any equity interest in the partnership itself. This means that a partnership will be required to identify and where necessary report on the capital or profits interest of any of the partners who are Specified US Persons.

### **2.38 Central Securities Depository**

Members of the CREST securities settlement system operated by Euroclear UK & Ireland Limited (**EUI**), or the Financial Institution that accesses EUI on their behalf, are responsible for any reporting required by the Agreement in respect of any securities held by means of EUI. EUI is not required to undertake any reporting required by the Agreement in respect of such securities. Notwithstanding the foregoing, in accordance with Article 5, paragraph 3 of the Agreement, EUI may report on behalf of such members.

### **2.39 Personal Investment Companies**

Personal Investment Companies will need to consider whether they are within the definition of Investment Entity. Where a Personal Investment Company is managed by a Financial Institution it will be an Investment Entity.

### **2.40 Securitisation Vehicles**

Securitisation structures are in many instances legally remote from the Financial Institution in relation to which the risks and rewards of the structure are associated. Typically, a securitisation structure will include an issuing entity, funding entity, seller, mortgage trustee and often counterparties.

The common principles (as set out in Section 2) as to whether an entity meets the definition of a Financial Institution should be applied to all entities within a securitisation structure. More specifically, the expectation would be that issuing entities are likely to be classified as Investment Entities on the basis of their activities, Trusts should be classified in accordance with the Trust principles set out within Section 2.36 and holding and funding entities will likely be treated as Financial Institutions in their own right. A securitisation vehicle that is a Financial Institution will need to consider if it has any Financial Accounts that may be reportable. If there are no Financial Accounts a nil return is still required.

## **3. Financial Accounts**

### **3.1 Introduction**

Under the Agreement Reporting UK Financial Institutions (UKFIs) must provide information to HMRC on an annual basis in relation to Financial Accounts held by Specified US Persons. In the Agreement these are referred to as US Reportable Accounts.

A Financial Institution, unless otherwise exempt, and therefore a Non-Reporting UK Financial Institution must therefore identify:

- whether it holds any Financial Accounts
- the type of Financial Accounts held, **and**
- whether the account holder of those Financial Accounts are Specified US Persons or Controlling Persons.

For the purposes of the Agreement the term Financial Account is broadly defined and therefore may include products or obligations that would not normally be regarded as a Financial Account in either other UK legislation or in everyday commercial use.

For the purposes of the Agreement a Financial Account is an account maintained by a Financial Institution. However not all accounts will be Financial Accounts for the purposes of FATCA. For example ISA Accounts are exempt.

There are 5 categories of Financial Account:

- Depository Accounts (Section 3.3)
- Custodial Accounts (Section 3.4)
- Cash Value Insurance Contracts (Section 3.6)
- Annuity Contracts (Section 3.7)
- Equity and Debt Interests (Section 3.8)

Each category of Financial Account is subject to exclusions and exemptions and further details can be found in the relevant sections indicated above.

For the purpose of reporting to HMRC, under the Agreement, the Financial Account must be a US Reportable Account and in relation to a Depository, Custodial, Insurance or Annuity Account be maintained by a UK Financial Institution.

The definition of a Financial Account does not extend to shareholdings on an issuer's share register nor debenture/loan stock holdings (including shareholdings which have been the subject of an acquisition, as a result of which the original share register no longer exists).

However shareholdings and loan/debenture stock holdings can be 'financial instruments/contracts' and are reportable if held in a Custodial Account (See Section 3.4).

### **Accounts maintained by Financial Institutions**

In relation to each type of Financial Account, "maintained" has the following meaning:

- A Depository Account is maintained by the Financial Institution, which is obliged to make payments with respect to the account.
- A Custodial Account is maintained by the Financial Institution that holds custody over the assets in the account (including a Financial Institution that holds assets in the name of the broker ("in street name") for an account holder.
- An Insurance Contract or an Annuity Contract is maintained by the Financial Institution that is obligated to make payments with respect to the contract.
- Any Equity or Debt Interest in a Financial Institution, where that Equity or Debt Interest constitutes a Financial Account, is treated as being maintained by that Financial Institution where that Financial Institution is an Investment Entity.

A Financial Institution may maintain more than one type of Financial Account. For example a Depository Institution may also maintain Custodial Accounts as well as Depository Accounts.

When a Financial Account is created will depend on the type of the account. An account will be created when the Financial Institution is required to recognise the account based on existing operating procedures or regulatory or legal requirements of the jurisdiction in which it operates.

### **Reportable Accounts**

A Financial Account is a US Reportable Account where it is held by one or more Specified US Persons, or by a non-US entity with one or more Controlling Persons that are Specified US Persons. Reporting Financial Institutions with no Reportable Accounts will still be required to make a nil return to HMRC.

Section 4 and subsequent sections set out the due diligence procedures that must be followed by a Financial Institution, or by a third party on behalf of the Financial Institution, in order to identify Reportable Accounts.

### **3.2 Account Holders**

In order to identify the person or entity that is the account holder under the terms of the Agreement, a Financial Institution may need to consider the type of account and the capacity in which it is held.

### **Trusts and Estates**

Where a Trust or Estate is listed as the holder of a Financial Account then they are to be treated as the account holder, rather than any owner or beneficiary.

This doesn't remove the requirement to identify the Controlling Persons of a Trust or Estate, where say the Trust is a Passive NFFE.

In relation to a share register, where an issuer's share register has been the subject of an acquisition, (for example a takeover by Company A of Company B) and shareholders of Company B have not responded and accepted the offer, they become known as dissenters or dissenting shareholders. On completion of the takeover, the consideration is transferred to a trustee to be

held on the dissenters' behalf until they claim the proceeds and it is paid to them, however the trustee does not become the account holder. This is because the original shareholdings (equity interests) are not Financial Accounts unless Section 3.8 applies.

### **Partnerships**

Where a Financial Account is held in the name of the partnership it will be the partnership that is the account holder rather than the partners in the partnership.

### **Accounts held by persons other than a Financial Institution.**

A person, other than a Financial Institution, that holds a Financial Account for the benefit of another person, as an

- agent,
- custodian,
- nominee,
- signatory,
- investment advisor, or
- intermediary,

is not treated as an account holder with respect to such account for purposes of the Agreement. Where the Financial Account does not meet the conditions relating to Intermediary Accounts (Section 3.15) then the person on whose behalf the account is held is the account holder.

### **Example 1**

Where a parent opens an account for a child, the child will be the account holder.

## **Joint Accounts**

Where a Financial Account is jointly held, the balance or value in the account is to be attributed in full to all joint holders of the account. This will apply for both aggregation and reporting purposes.

If an account is jointly held by an individual and an entity, the Financial Institution will need to apply separately both the individual and entity due diligence requirements in relation to that account.

## **Cash Value Insurance Contracts and Annuity Contracts**

An Insurance or Annuity Contract is held by each person entitled to access the contract's value (for example, through a loan, withdrawal, surrender, or otherwise) or with the ability to change a beneficiary under the contract.

Where no person can access the contract's value or change a beneficiary, the account holders are any person named in the contract as an owner and any person who is entitled to receive a future payment under the terms of the contract. When an obligation to pay an amount under the contract becomes fixed, each person entitled to receive a payment is an account holder.

## **Joint life second death Cash Value Insurance Contracts**

Joint life second death Cash Value Insurance Contracts are sometimes taken out by spouses. Such policies insure both parties, but do not pay out on the death of the first person. Instead the policy remains in force until the other person has died or the policy is surrendered.

Where one of the policyholders whose life is assured is a US Person (and the other is not a US person) this will be a Reportable Account which is reported annually. If the US Person dies first, there will be a reporting requirement at the end of the year in which the US Person dies. This will be the case where there is a withdrawal from the policy in the year before the US Person died. However, upon death there is no longer a US account holder and it will cease to be a US Reportable Account.

### **3.3 Depository Account**

A Depository Account is any commercial current account, and savings account evidenced by a certificate of deposit, investment certificate, certificate of indebtedness, or other similar instrument where cash is placed on deposit with an entity engaged in a banking or similar business.

The account does not have to be an interest bearing account.

A Depository Account will include any credit balance on a credit card (a credit balance does not include credit balances in relation to disputed charges, but does include credit balances resulting from refunds of purchases) issued by a credit card company engaged in banking or similar business. Where a Financial Institution elects to apply the threshold for Depository Accounts this will mean that a credit card account will only be reportable where, after applying the aggregation rules (See Section 4.14):

- there are no other accounts and the balance exceeds \$50,000
- the total balance on all aggregated Depository Accounts (including the credit card balance) exceeds \$50,000

See Section 2.19 for information in respect of entities that are credit card issuers.

The definition also includes an amount held by an Insurance Company under an agreement to pay or credit interest. However, amounts held by an Insurance Company awaiting payment in relation to a Cash Value Insurance Contract where the term has ended will not constitute a Depository Account.

### **3.4 Custodial Account**

A Custodial Account is an account (other than an Insurance Contract or Annuity Contract) for the benefit of another person that holds any financial instrument or contract held for investment.

Financial instruments/contracts which can be held in such accounts can include, but are not limited to:

- a share or stock in a corporation
- a note, bond, debenture, or other evidence of indebtedness
- a currency or commodity transaction
- a credit default swap
- a swap based upon a non-financial index
- a notional principal contract (in general, contracts that provide for the payment of amounts by one party to another at specified intervals. These are calculated by reference to a specified index upon a notional principal amount in exchange for specified consideration or a promise to pay similar amounts)
- an Insurance Contract or Annuity Contract, and
- any option or other derivative instrument for the benefit of another person.

A Cash Value Insurance Contract or an Annuity Contract is not considered to be a Custodial Account, but these could be assets held in a Custodial Account. Where they are assets in a Custodial Account, the Insurer will only need to provide the Custodian with the cash/surrender value of the Cash Value Insurance Contract.

A Custodial Account does not include financial instruments/contracts (for example, a share or stock in a corporation) held in a nominee sponsored by the issuer of its own shares, which are in every other respect analogous to those held on the issuer's share register.

## **Collateral**

Notwithstanding the above, the Custodial Accounts definition includes all accounts which are maintained for the benefit of another, or arrangements pursuant to which an obligation exists to return cash or assets to another. Transactions which include the collection of margin or collateral on behalf of a counterparty may fall within the definition of Custodial Account. The exact terms of the contractual arrangements will be relevant in applying this interpretation, however, any obligations to return equivalent collateral at conclusion of the contract, and potentially make interim payments (such as interest) to counterparties during the contract term will constitute a Custodial Account for FATCA purposes.

### **3.5 Insurance Contract**

An Insurance Contract is a contract, other than an Annuity Contract, under which the issuer agrees to make payments upon the occurrence of a specified contingency involving mortality, morbidity, accident, liability, or property risk.

### **3.6 Cash Value Insurance Contract**

This is an Insurance Contract where the cash surrender or termination value (determined without reduction of any surrender charges or policy loan) or the amount the policyholder can borrow under (or with regard to) the contract, is greater than \$50,000. It is most likely that the type of UK insurance products that will be caught by this are those currently subject to the UK chargeable event regime. For example:

- Investment bonds
- Capital redemption policies
- Deferred annuities in the accumulation phase
- MIPs and savings back life assurance policies

A Cash Value Insurance Contract does not include:

- Indemnity reinsurance contracts between two insurance companies
- term life and pure protection Insurance Contracts, including any a refund of any policy premium, due to cancellation or termination of the policy, a reduction in amount insured, or a correction of an error in relation to the premium due and any policyholder bonus.

In determining the cash/surrender value of a Cash Value Insurance Contract it does not include an amount payable on the death of an individual insured under a Life Insurance Contract.

When a policy becomes subject to a claim and an amount is payable this does not create a New Account, it is still the same policy.

### **3.7 Annuity Contract**

An Annuity Contract is a contract under which the Financial Institution agrees to make payments for a period of time, determined in whole or in part by reference to the life expectancy of one or more individuals. For UK purposes this covers all annuities as outlined in IPTM4000 Purchased Life Annuities.

The following are not considered to be an Annuity Contract for FATCA purposes.

- Pension annuities – as per Section 3.11 these are exempt products
- Immediate needs annuities - see IPTM6205.
- Periodic payment orders.

Reinsurance of Annuity Contracts between two Insurance Companies are excluded from this definition.

### **3.8 An Equity or Debt Interest in an Investment Entity**

Where an Investment Entity is an asset manager, investment advisor or other similar entity then their Debt and Equity Interests are excluded from being a Financial Account. This mirrors the treatment of Debt and Equity interests in entities that are solely Depository or Custodial Institutions.

Debt and Equity Interests (other than regularly traded interests) are only Financial Accounts in relation to those entities that are Investment Entities because:

- the entity's gross income is attributable to investing, reinvesting or trading in financial assets, **and** they are managed by a Financial Institution including another Investment Entity, **or**
- the entity functions or holds its self out as a Collective Investment Vehicle, mutual fund, exchange traded fund, private equity fund, hedge fund, venture capital fund, leveraged buyout fund, or any similar investment vehicle established with an investment strategy of investing, reinvesting or trading in financial assets.

In the case of a partnership that is a Financial Institution, the term Equity Interest means either a capital or profits interest in the partnership.

In the case of a Trust that is a Financial Institution, an Equity Interest means either an interest held by any person treated as a settlor or beneficiary of all or a portion of the Trust, or any other natural person exercising ultimate effective control over the Trust.

A Specified US Person shall be treated as being a beneficiary of a Trust if such person has the right to receive directly, or indirectly a mandatory or discretionary distribution from the Trust.

### **3.9 An Equity or Debt Interest in a Holding Company or Treasury Centre of a Financial Group**

Any Equity or Debt Interest (other than regularly traded interests) in a Holding Company or Treasury Centre described in Section 2.30 will be a Financial Account where:

- Its related entities include one or more Investment Entities or Passive NFFEs, and the income derived by such Investment Entities or Passive NFFEs is 50 per cent or more of the aggregate income earned by the related entity group
- The redemption or retirement amount or return earned on the interest is determined, directly or indirectly, primarily by reference to one or more Investment Entities or one or more Passive NFFEs that are members of the entity's the related entity group
- The value of the interest is determined, directly or indirectly, primarily by reference to assets that give rise (or could give rise) to withholdable payments; **or**
- The interest is issued with a principal purpose of avoiding the reporting or withholding requirements of Section 4.

### **3.10 Debt or Equity Interests regularly traded on an established securities market.**

For the purposes of the Agreement the term listed on a recognised stock exchange, in respect of shares and securities, will take its meaning from Section 1005(3) ITA 2007. Any Equity or Debt Interest will be considered "regularly traded" if it is listed on a recognised stock exchange. There is no need to check annually if any transactions have been undertaken. This provides consistency with existing HMRC treatment and "recognised stock exchange" includes the London Stock Exchange, AIM and PLUS.

The main markets of the London Stock Exchange and the PLUS Listed market meet the US Established Securities Market definition in their own right because they are EU Regulated Markets under Title III MiFID and are included in the FSA list of Regulated Markets.

The AIM, PLUS Quoted and PLUS Traded Markets are not Regulated Markets under Title III MiFID. However HMRC view these as also meeting the requirement as they are all markets of exchanges that have been designated as recognised investment exchanges by the FSA, and are recognised stock exchanges for the purposes of the US/UK Double Tax Convention (Article 23 uses the term listed or admitting to dealings on a recognised stock exchange) and are within Section 1005 ITA.

### **3.11 Products exempt from being Financial Accounts**

Annex II of the Agreement sets out certain products that have been agreed as low risk (in terms of the likelihood of being used for tax evasion) and which are exempt from being treated as Financial Accounts.

The Agreement also provides the capacity for Annex II to be updated, either to allow for other low risk products to be added or to remove products that are no longer deemed low risk.

Sections 3.12 to 3.13 detail identified UK accounts that are exempt from being a Financial Account and which are contained in Annex II of the Agreement.

### 3.12 Retirement Accounts and Products

All retirement accounts or products established under a:

- UK registered pension scheme under Part 4 of the Finance Act 2004;
- Non-registered pension arrangements where
  - Annual contributions are limited to £50,000; **and**
  - The funds contributed cannot be accessed before the age of 55, except in circumstances of serious ill health

are not Financial Accounts and therefore a Financial Institution will have no reporting obligations under FATCA in respect of these accounts or products. For clarification this applies to both the accumulation and decumulation phases of a pension scheme, contract or arrangement.

#### **Registered pension scheme**

A registered pension scheme is a pension scheme or contract that is registered with or deemed registered with HMRC. Any pension scheme or contract which had tax approval on 5 April 2006 (or whose tax approved status was granted on or after 6 April 2006, but was backdated so that the scheme was in effect approved on 5 April 2006) automatically became a registered pension scheme from 6 April 2006.

A deferred annuity “buy-out” contract which secures benefits which have arisen under a registered pension scheme is treated as a registered pension scheme from the date it is purchased.

## **Accumulation phase**

The accumulation phase is the accumulation of savings (or accrual of benefit) in a registered pension scheme or other pension arrangement. For registered pension schemes this includes:

- Individual Personal / Stakeholder Pension Policy
- Group Personal / Stakeholder Pension Policy
- Self Invested Personal Pension Arrangement
- Free Standing Additional Voluntary Contribution Schemes
- Defined Benefit Schemes
- Defined Contribution Occupational Schemes
- Group Money Purchase Schemes
- Executive Pension Schemes

## **Decumulation phase**

The decumulation phase is the use of those accumulated funds to take a pension for the remainder of the individual's or their dependant's life.

"Pension" is defined under Section 165 (2) Finance Act 2004, to include an annuity or income withdrawal as well as a pension that is paid directly from the pension scheme.

The following types of annuities are commonly pension annuities (that is to say funded with the accumulated savings from a registered pension scheme):

- Lifetime Annuity
  - A lifetime annuity is a contract between Insurance Company and a pension scheme member under which the member hands over all or part of their pension fund to the Insurance Company which agrees to pay out a regular income to the scheme member for the remainder of that person's life. This includes all types of annuity that meet the requirements for being a Lifetime Annuity in paragraph 2 of Schedule 29 of Finance Act 2004.

- Scheme Pension
  - A scheme administrator may secure their liability to pay the member a scheme pension by purchasing an Annuity Contract from an Insurance Company or the pension may be paid direct from the scheme.
  
- Impaired Life Annuity
  - An impaired life annuity pays an income for life in the same way as a lifetime annuity or scheme pension. However, it pays a higher income to those suffering with certain medical conditions on the basis that they have a reduced life expectancy.
  
- Enhanced Annuity
  - An enhanced annuity also pays an income for life in the same way as a lifetime annuity or scheme pension.
  
- Short term annuity
  - A short term annuity is a contract between an Insurance Company and a pension scheme member under which the member hands over part of their drawdown pension fund to the Insurance Company which agrees to pay out a regular income to the scheme member for term of up to five years.

## **Cross border pensions**

When a UK Financial Institution (regulated in the UK and subject to UK laws) writes pension business outside of the UK directly (though not through a permanent establishment in the country the person is resident in) this will not be a Financial Account if:

- the pension is excluded from the definition of Financial Account under another FATCA Agreement between the US and another Partner Jurisdiction, **and**
- the account or product written by the UK Financial Institution is subject to the same requirements and oversight under the laws of such other Partner Jurisdiction as if such account or product were established in that Partner Jurisdiction and maintained by a Partner Jurisdiction Financial Institution in that Partner Jurisdiction.

### **Example 1**

A UK Insurance Company directly writes pension business into the Netherlands but it has no permanent establishment in the Netherlands. The pension account that is offered fully complies with Dutch pension and tax law, and consequently would be exempt under the Dutch/US IGA if the Financial Account was held by a Dutch based Insurance Company.

If the account or product does not meet these criteria then this will be a non registered pension in the UK. It may still be an exempt account if:

- Annual contributions are limited to £50,000; and
- The funds contributed cannot be accessed before the age of 55, except in circumstances of serious ill health.

### **3.13 Certain Other Tax Favoured Accounts or Products**

The following accounts or products are not to be treated as Financial Accounts for the purposes of the legislation:

- Individual Savings Accounts (ISAs) - as defined in the Individual Savings Account Regulations 1998 (SI 1998 No.1870) and subsequent Amendment Regulations.
- Junior ISAs - as defined in the Individual Savings Account Regulations 1998 No.1870, and subsequent Amendment Regulations.
- Child Trust Funds - as defined in the Child Trust Funds Act 2004 and subsequent Amendment Regulations.
- Premium Bonds - where issued by NS&I (UK National Savings and Investments).
- Children's Bonus Bonds - where issued by NS&I (UK National Savings and Investments).
- Fixed Interest Savings Certificates - where issued by NS&I (UK National Savings and Investments).
- Index Linked Savings Certificates - where issued by NS&I (UK National Savings and Investments).
- Tax Exempt Savings Plans - where issued by a Friendly Society within the meaning of the Friendly Societies Act 1992 (c. 40).
- Save As You Earn Share Option Schemes - approved by HMRC under Schedule 3 Income Tax (Earnings and Pensions) Act 2003.
- Share Incentive Plans - approved by HMRC under Schedule 2 Income Tax (Earnings and Pensions) Act 2003.
- Company Share Option Plans - approved by HMRC under Schedule 4 Income Tax (Earnings and Pensions) Act 2003.
- Immediate Needs Annuities.

These accounts will not therefore be subject to the due diligence procedures and are not Reportable Accounts.

### **3.14 Accounts of Deceased Persons**

Accounts of deceased persons will not be treated as Financial Accounts on the condition that the UK Financial Institution has received and is in possession of a formal notification of the account holder's death (for example a copy of the deceased's death certificate, a copy of the coroner's interim certificate, a copy of the will). Such an account will not be reportable in the year of the account holder's death.

### **3.15 Intermediary Accounts (Escrow Accounts)**

Accounts that meet the conditions below will not be Financial Accounts.

Accounts held by a UK Financial Institution for a non-Financial Intermediary (such as a firm of solicitors or estate agents) and established for the purposes of either:

- a court order, judgement or other legal matter on which the non-Financial Intermediary is acting on behalf of their underlying client; **or**
- a sale, exchange, or lease of real or personal property where it also meets the following conditions:
  - The account holds only the monies appropriate to secure an obligation of one of the parties directly related to the transaction, or a similar payment, or with a financial asset that is deposited in the account in connection with the transaction.
  - The account is established and used solely to secure the obligation of the parties to the transaction.
  - The assets of the account, including the income earned thereon, will be paid or otherwise distributed for the benefit of the parties when the transaction is completed.
  - The account is not a margin or similar account established in connection with a sale or exchange of a financial asset; and
  - The account is not associated with a credit card account.

Where the Financial Account does not meet the above conditions then please refer to Section 3.16.

### **3.16 Undesignated/Designated Accounts**

Where a Financial Account held by a non-Financial Intermediary such as a solicitor does not meet any of the conditions set out in Section 3.15, but is an account holding, on a pooled basis, the funds of underlying clients of the non-Financial Intermediary where:

- the only person listed or identified on the Financial Account with the Financial Institution is the non-Financial Intermediary; **and**
- the non-Financial Intermediary is not required to disclose or pass their underlying client or clients' information to the Financial Institution for the purposes of AML/KYC or other regulatory requirements,

then the Financial Institution is only required to undertake the due diligence procedures in respect of the non-Financial Intermediary.

A designated client account is an account held with a Financial Institution, operated by a non-Financial Intermediary but where the underlying client or clients of the intermediary are listed or can be identified by the Financial Institution.

### **3.17 Segregated Accounts**

Where an investment manager is appointed to provide investment management services directly by the legal owner of assets as segregated accounts, then these are not Financial Accounts of the investment manager, but instead they will be Custodial Accounts of a Custodian (who will need to treat the investors as their account holders as there is no interposing fund). Note that in cases where a discretionary investment manager also holds assets on behalf of clients (by acting as Custodian), reporting will be required on those accounts by virtue of the investment manager falling within the definition of a Custodial Institution.

This also applies to discretionary investment managers who arrange for custody as agent on their clients' behalf, where the custody accounts are pooled nominee accounts.

### **Fully disclosed clearing and settlement (Model B)**

This refers to arrangements designed to facilitate the clearing and settlement of security transactions utilising a third party provider's existing information technology infrastructure 'IT' systems, specifically those that interface with the international securities settlement and clearing systems (clearing firms).

A tri-partite relationship between the underlying customer, the broker and the clearing firm (the 'tripartite relationship') is created, by virtue of the fact that the broker has entered into a fully disclosed clearing relationship with the clearing firm on his own behalf, and, acting as the agent of its underlying client.

For the avoidance of doubt where a broker has opened an account (or sub-accounts) with the clearing firm, in the name of its underlying client and fulfils all verification and due diligence requirements on its underlying clients the Financial Accounts remain those of the broker and not the clearing firm.

Therefore, reporting and classification in respect of the underlying client required under the Agreement and the relevant legislation is the responsibility of the broker.

The clearing firm however will treat the broker as its client and consequently as the person for which it maintains a Financial Account and will undertake reporting and classification with respect to such broker accordingly.

The term broker in respect of fully disclosed clearing and settlement would include any Financial Institution who acts on behalf of the underlying investor in respect of executing, placing or transmitting orders and would therefore include FA's if their business is more than simply advisory.

### **3.18 Dormant Accounts**

A UK Financial Institution may apply its existing normal operating procedures to classify an account as dormant. Where normal operating procedures are not applicable, then the UK Financial Institution is to classify an account as dormant for the purposes of the Agreement where:

- there has been no activity on the account in the past three years,
- the account holder has not contacted the Financial Institution regarding that account or any other account in the past six years,
- the account is not linked to an active account belonging to the same account holder.

The UK Financial Institution should classify the account based upon existing documentation it already has in its possession for the account holder. Where this review determines that the dormant account is reportable, then the UK Financial Institution should make the appropriate report notwithstanding that there has been no contact with the account holder.

An account will no longer be dormant where:

- under normal operating procedures the account is not considered dormant.
- the account holder contacts the Financial Institution in relation to that account or any other account held by the account holder with that Financial Institution.
- the account holder initiates a transaction with respect to the dormant account or other any other account held by the account holder with that Financial Institution.

The Financial Institution would then have to ensure it establishes the account holders' status as if the account were a New Account.

## **Dormant Funds**

When a fund is closed but there remain residual debtors and recovery actions are being pursued, the fund will be not an Investment Entity for the purposes of this Agreement.

### **3.19 Rollovers**

Where some or all of the proceeds of a maturing fixed term product are rolled over, automatically or with the account holder's interaction, into a new fixed term product this shall not be deemed to be the creation of a New Account.

## **4. Due Diligence**

### **4.1 General Requirements**

The Agreement sets out that Financial Institutions are responsible for the identification and reporting of Financial Accounts held by Specified US Persons.

A Financial Institution can rely on a third party service provider to fulfil its obligations under the legislation, but the obligations remain the responsibility of the Financial Institution and so any failure will be seen as a failure on the part of the Financial Institution.

#### **Example 1**

A fund may use a transfer agent, or other person such as a FA to fulfil its due diligence requirements or a company may use a business process outsourcing provider to fulfil its due diligence requirements. However, in the event of any irregularities or failure to meet the legislative requirements the Financial Institution will be held accountable.

A Financial Institution will need to follow one or more of the following three processes for identification of account holders:

- Indicia search
  - the Financial Institution can identify Reportable Account's by searching for US indicia by reference to documentation or information held or collected in accordance with maintaining or the opening of an account; this may include for example information held for the purposes of compliance with UK AML/KYC rules.
  
- Self certification
  - by obtaining a self certification from an account holder or Controlling Person of a Passive NFFE where applicable.
  
- Publicly available information (for entities only)
  - a Financial Institution may be able to determine, using information publically available, the FATCA status of an entity account holder

#### **4.2 Acceptable Documentary Evidence**

A Financial Institution (or the third party service provider acting on behalf of the Financial Institution) can accept documentary evidence to support an account holder's status provided the documentation meets one of the following criteria:

- A Certificate of Residence issued by an appropriate tax official of the country in which the account holder claims to be resident. For example a certificate in relation to a person's tax residence issued by HMRC.
- Any valid identification issued by an authorised Government body (for example, a government or agency thereof, or a municipality), that includes the individual's name and is typically used for identification purposes. For example a passport or driving licence.
- Any financial statement, third party credit report, bankruptcy filing, or US Securities and Exchange Commission report.
- Any of the documents referenced in the UK's attachment to the QI Agreement as being acceptable in addition to Forms W-8 or W-9.

The documents included in the UK's attachment to the QI Agreement are:

- 1) For natural persons (one or more of the following documents):
  - a) Passport
  - b) National identity card
  - c) Armed Forces identity card
  - d) Driving licence
  - e) Shotgun certificate issued by a UK police authority
  
- 2) For legal persons:
  - a) For partnerships: a copy of the partnership agreement,
  - b) For corporations: a copy of the Certificate of Incorporation or the Memorandum and Articles of Association,
  - c) For Trusts: either a copy of the Trust deed and any subsidiary deed evidencing the appointment and powers of trustees, or certified copies of extracts from the deeds.

### **4.3 Withholding Certificates**

Withholding certificates issued by the IRS such as the W-8 and W-9 series are acceptable in establishing an account holder's status.

A Financial Institution may rely upon a pre-FATCA W-8 form, where one is required to establish the account holder's status, in lieu of obtaining an updated version of the form until such time that the W-8 is required to be renewed.

#### **4.4 Non-IRS forms for individuals**

Financial Institutions can use their own form instead of an official IRS form **only** where the replacement form contains the following information:

- The name and permanent residence address of the individual  
City/town and country of birth.
- All countries that the individual is resident in for tax purposes.
- Tax identification number(s) if available for each country listed.

The form must be dated and signed and should be accompanied by documentary evidence that supports the individual's status. (See Section 4.2)

The form can also request other information required either for other purposes, such as AML due diligence. Forms may be in either paper or electronic format.

A Financial Institution can use its own forms to cure any US indicia found in order to determine the account holder's status. (See Sections 5.6 to 5.11)

#### **4.5 Validity of Documentation**

A withholding certificate or other documentary evidence, including a self certification, used to establish an account holder's status will remain valid indefinitely subject to a change in circumstance which results in a change of the account holder's status.

#### **4.6 Retention of Documentary Evidence**

A Financial Institution or a third party undertaking due diligence procedures for a Financial Institution must retain records of the documentary evidence, **or**

a notation or record of documents reviewed and used to support an account holder's status for six years following the end of the year in which the status was established.

The documentary evidence can be retained as originals, photocopies or in an electronic format.

A Financial Institution that is not required to retain copies of documentation reviewed under AML due diligence procedures will be treated as having retained a record of such documentation if it retains a record in its files noting:

- the date the documentation was reviewed,
- each type of document,
- the document's identification number where present (for example, a passport number), **and**
- whether any US indicia were identified.

For High Value Pre-existing Accounts where a Relationship Manager enquiry is required, records of electronic searches, requests made and responses to Relationship Manager enquiries should also be retained for six years following the end of the year in which the due diligence was undertaken. Guidance on the identification and role of a Relationship Manager can be found at 5.17.

#### **4.7 Document sharing**

Documentation is required to support the status of each Financial Account held. However in the following circumstances documentation obtained by a Financial Institution can be used in relation to more than one Financial Account.

### **Single Branch System**

Where an existing customer opens a new Financial Account with the same Financial Institution and both accounts are treated as a single account or obligation. See Section 6.

### **Universal account systems**

A Financial Institution may rely on documentation furnished by a customer for an account held at another branch location of the same Financial Institution or at a branch location of a related entity of the Financial Institution if:

- the Financial Institution treats all accounts that share documentation as a single account or obligations, **and**
- the Financial Institution and the other branch location or related entity are part of a universal account system that uses a customer identifier that can be used to retrieve systematically all other accounts of the customer.

In this scenario a Financial Institution must be able to produce to HMRC the necessary records and documentation relevant to the status claimed (or a notation of the documentary evidence reviewed, if the Financial Institution is not required to retain copies of the documentary evidence for AML purposes).

### **Shared account systems**

A Financial Institution may rely on documentation provided by a customer for an account held at another branch location of the same Financial Institution, or at a branch location of a member of the expanded affiliated group of the Financial Institution, if:

- the Financial Institution treats all accounts that share documentation as consolidated accounts, **and**
- the Financial Institution and the other branch location or expanded affiliated group member share an information system, electronic or otherwise, that is described below.

A shared account system must allow the Financial Institution to easily access data about the nature of the documentation, the information contained in the documentation (including a copy of the documentation itself), and the validity status of the documentation.

If the Financial Institution becomes aware of any fact that may affect the reliability of the documentation, the information system must allow the Financial Institution to easily record this data in the system.

Additionally the Financial Institution must be able to show how and when it transmitted data regarding such facts into the information system and demonstrate that any data it has transmitted to the information system has been processed and the validity of the documentation subjected to appropriate due diligence.

A Financial Institution that opts to rely upon the status designated for the account holder in the shared account system, without obtaining and reviewing copies of the documentation supporting the status, **must** be able to produce upon request by HMRC all documentation (or a notation of the documentary evidence reviewed, if the Financial Institution is not required to retain copies of the documentary evidence for AML purposes) relevant to the status claimed.

#### **4.8 Self Certification**

Self certification may be used by a Financial Institution in relation to individual account holders as follows:

- To establish whether a holder of a New Individual Account is a US citizen or US resident for tax purposes,
- To obtain a US TIN from a New Individual Account holder who is a US resident for tax purposes, **or**
- In order to show that an individual is not in fact a US citizen or US resident for tax purposes, even if US indicia are found in respect of a Lower Value or High Value Pre-existing Individual Account that they hold.

Self certification is required in relation to entities as follows:

- To establish the status of an entity where a Financial Institution cannot reasonably determine that the account holder is not a Specified US Person based on information in its possession or that is publicly available.
- To establish the status of a Financial Institution that is neither a UK Financial Institution nor a Partner Jurisdiction Financial Institution, unless a Financial Institution's status can be established from an IRS published list.
- To establish whether an entity is a Passive NFFE.
- To establish the status of a Controlling Person of a Passive NFFE and whether or not they are a resident in the US for tax purposes.

Self certification can be in any format and can include the use of withholding certificates or other similar agreed forms.

A self certification provided by an account holder cannot be relied upon if a Financial Institution has reason to know that it is incorrect, unreliable or there is a change in circumstance which changes the account holder's status.

#### **4.9 Confirming the Reasonableness of Self Certification**

A Financial Institution receiving a self certification, must consider other information it has obtained concerning the individual to check whether the self certification is reasonable.

##### **Example 1**

Where an account holder provides one of the US indicia, such as a US address, to the Financial Institution but then provides a self certification confirming they are not US resident for tax purposes, the Financial Institution would need to make further enquiries to establish whether or not the self certification is reasonable.

Where a Financial Institution relies on AML procedures performed by other parties and no self certification is provided directly to the Financial Institution, the Financial Institution may request that the third party should obtain a self certification for the purposes of the legislation. The third party should then confirm the reasonableness of the self certification based on information that it has obtained.

For the avoidance of doubt, where self certification is received directly by the Financial Institution, there is no requirement to ensure that any third party that carried out AML/KYC procedures has confirmed its reasonableness. The Financial Institution is required to confirm this based on any other information it alone has obtained or holds. So where a Financial Advisor (FA) has performed AML checks, the Financial Institution is not deemed to have seen any documentation the FA has seen, unless the documentation is also provided to the Financial Institution.

##### **Example 2**

A Financial Institution has received a New Account opening instruction from an individual (this may have been by telephone) which includes a self certification regarding the account holder's residence status. The Financial Institution has performed AML procedures by checking the identity of the

individual (name, address and date of birth) against the records of, for example a credit reference agency. The check confirmed the identity of the individual.

The Financial Institution can satisfy its obligations under the legislation by confirming the reasonableness of the self certification against other information in the account opening instruction and any other information it has on the individual. Where no other information exists, the reasonableness is confirmed based on information in the account opening instruction alone.

If the account opening instruction is received by phone, the account holder receives paperwork that includes their response to the self certification question and other questions asked. The account holder is requested to contact the Financial Institution in the event that any of the information is not correct within a specified period (say, 30 days). Provided the Financial Institution does not receive any other information from the account holder within the specified time, and provided the self certification is otherwise reasonable, then the requirements are met.

### **Example 3**

A Financial Institution has received New Account opening documentation from an individual who has been advised by a Financial Adviser (FA). The Financial Institution is unaware of any previous contact with the individual and has not delegated the FA to carry out the FATCA due diligence procedures on its behalf. However, the Financial Institution can rely on the introducing FA to perform the necessary AML checks to identify the individual and is provided with a confirmation by the FA that they have done so.

The Financial Institution must therefore ensure it identifies the account holder's status for FATCA purposes. The documents received regarding the account opening contains information about the individual (name, address, date of birth, contact details including telephone number and email address), and a self certification that the individual is not resident in the US for tax purposes, and is not a citizen of the US.

The Financial Institution can satisfy its requirements under the Agreement by confirming the reasonableness of the self certification against other information contained in the account opening instruction and any other information it has on the individual. Where no other information exists the reasonableness is confirmed based on the information in the account opening instruction alone. The Financial Institution is not deemed to have seen any documentation the FA has seen.

#### **Example 4**

As per example 2, but the Financial Institution has delegated the FA to perform the FATCA due diligence procedures on its behalf.

The introducing FA carries out the AML checks and obtains a self certification from the individual confirming their FATCA status. The Financial Institution can satisfy its requirements under the Agreement by obtaining confirmation from the FA that they have confirmed the reasonableness of the self certification.

#### **Example 5**

As per example 1, but the individual has been introduced by an FA, although the Financial Institution has not placed reliance on the FA's AML procedures and instead has performed its own AML procedures.

The Financial Institution can satisfy its requirements under the Agreement by confirming the reasonableness of the self certification against other information contained in the account opening instruction and any other information it has on the individual. Where no other information exists the reasonableness is confirmed based on the information in the account opening instruction alone.

### **4.10 Self Certification for New Individual Accounts**

The Guidance regarding self certification for New Individual Accounts reflects the fact that there may be further exchange of information agreements

between the UK and other countries. Therefore, the requirements for self certification for New Individual Accounts are focused on establishing the tax residency or residencies of the account holder, and for the specific purposes of the Agreement whether or not the account holder is a US citizen.

### **Obtaining a self certification**

Unless the Financial Account is of a type that does not need to be reviewed, identified or reported, a Financial Institution is required to obtain a self certification to enable it to determine where the account holder is tax resident and whether or not they are a US citizen. The self certification process and documentation should allow for cases where the account holder is a tax resident of more than one country.

Citizenship is important when considering the Agreement as a US citizen is considered a US resident for tax purposes even if they are also tax resident elsewhere.

For the purposes of the Agreement, where a self certification determines that a New Individual Account holder is a US resident for tax purposes, there is also a requirement to obtain a US Taxpayer Identification Number (TIN) from the account holder. (See Section 4.17)

### **Wording of self certification**

A Financial Institution can choose the form of wording it uses to determine the tax residence of a New Individual Account holder. However the wording must be sufficient for an account holder to confirm the country or countries where they are tax resident and if they are a US citizen.

### **Format of the self certification**

Financial Institutions may permit individuals to open accounts in various ways. For example individuals can make investments or purchase financial products by telephone, online or on paper application forms. They may even invest without using any of the Financial Institution's set application processes and instead send a payment with a covering letter (which is then followed up with

required documentation). The method of self certification does not necessarily have to follow the account application method.

Self certifications can be obtained in any of these account opening procedures. The following examples are intended to illustrate how these may operate, but are not exhaustive.

#### **Example 1 - Telephone Applications**

An individual makes a telephone call to a Financial Institution, asking to open an account in line with the Financial Institution's normal account opening procedures.

The Financial Institution asks the account holder to state the countries in which they are tax resident and whether they are a US citizen. The individual provides this information on the phone and the Financial Institution records the confirmation on its system. The paperwork sent to the investor to confirm the account opening should include their response to these self certification questions and require them to contact the Financial Institution in the event that it is not correct.

#### **Example 2 - Online Applications**

An individual accesses the website of a Financial Institution to open an account in line with the Financial Institution's normal account opening procedures. On the account opening web page, along with information about the individual such as name and address, the individual is asked to select the appropriate country or countries in which they are tax resident and whether they are a US citizen.

#### **4.11 Self Certification for Pre-existing Individual Accounts**

If, US indicia are found suggesting that the account holder is potentially a US citizen or US resident for tax purposes, then the Financial Institution must treat the account as a Reportable Account.

However, if the Financial Institution obtains a self certification from the account holder confirming their non-US status and obtains or has previously reviewed and recorded details of any other documents required under the applicable procedures, then the account would not be treated as reportable.

#### **4.12 Self Certification for New Entity Accounts**

Unless a Financial Institution can identify or rely on information it holds or that is publically available, it should obtain a self certification from the Entity Account holders who are identified as one of the following:

- a Specified US Person.
- a Financial Institution that is neither a UK Financial Institution nor a Partner Jurisdiction Financial Institution (Participating FFI, a Deemed Compliant FFI, an Exempt Beneficial Owner, or an Excepted FFI, as those terms are defined in relevant US Treasury Regulations).
- a Passive NFFE.

For entities that are Passive NFFEs, the Financial Institution must identify the Controlling Persons and obtain a self certification from the account holder or any Controlling Persons to determine whether they are a US citizen or are resident of the US for tax purposes.

This determination can be achieved in the same way as described for New Individual Accounts in Section 4.10 above.

#### **4.13 Self Certification for Pre-existing Entity Accounts**

Self certification is required for Pre-existing Entity Accounts in the following situations.

##### **An entity account holder is identified as a Specified US Person.**

Then the Financial Institution will be required to treat the account as reportable unless it obtains a self certification showing that the account holder is not a Specified US Person.

**The entity account holder is not a UK Financial Institution or Partner Jurisdiction Financial Institution.**

Then a self certification is required to identify if the entity is a Certified Deemed Compliant FFI, an Exempt Beneficial Owner or an Excepted FFI, as these terms are defined in relevant US Treasury Regulations.

**The entity account holder is a Passive NFFE (an entity account holder will be a Passive NFFE if it is not an Active NFFE).**

The Financial Institution must obtain a self certification from the account holder to establish its status, unless it has information in its possession or that is publicly available, based on which it can reasonably determine that the entity is an Active NFFE.

If the account balance held by one or more **Passive** NFFEs exceeds \$1,000,000, a self certification is required from the account holder or Controlling Person.

#### **4.14 Aggregation**

To identify whether the accounts are reportable a Financial Institution will need to consider aggregation of accounts of both individuals and entities in certain circumstances.

**When do the aggregation rules apply?**

Aggregation is required where the Financial Institution has elected under the UK legislation to apply the thresholds in relation to Reportable Accounts set out in Annex 1 of the Agreement.

A Financial Institution is required to aggregate all Financial Accounts maintained by it or by a Related Entity, but only to the extent that the Financial Institution's current computerised systems link the Financial Accounts by reference to a data element, for example a customer or taxpayer identification number.

Where accounts can be linked by a data element and details of the balances are provided, but the system does not provide an aggregated balance of the accounts, the Financial Institution will still be required to carry out the aggregation process.

### **Relationship Manager**

Where the aggregate balance of all Financial Accounts linked by a common data element as belonging to an individual or entity exceeds \$1,000,000 then the Financial Institution must make enquiry of any Relationship Manager(s) assigned to that individual or entity to establish whether the Relationship Manager(s) knows of any additional accounts that are directly or indirectly owned, controlled or established (other than in a fiduciary capacity) by the same person.

### **Exempt Products**

If a product is exempt from being treated as a Financial Account, it does not need to be included for the purposes of aggregation. So where an individual holds an ISA as well as several Depository Accounts with the same Financial Institution and their systems allow these to be linked, then the Depository Accounts would be aggregated, but not the ISA.

### **Related Entities**

Where a computer system links accounts across related entities, irrespective of where they are located, the Financial Institution will need to aggregate in considering whether any of the reporting thresholds apply. However, once it has considered the thresholds, the Financial Institution will only be responsible for reporting on the accounts it holds. The following example sets out how this could work in practice.

### **Example 1**

Bank A is a UK Financial Institution and has a related entity Bank C which is also a UK Financial Institution. Bank A can link the Depository Account of US Person X to another Depository Account in the name of US Person X with Bank C, by virtue of the taxpayer identification number. The aggregation exercise shows that US Person X is above the Depository Account threshold for reporting.

Bank A and Bank C must each report individually on the accounts they hold for US Person X.

If Bank C is located in another jurisdiction it would have to report on the account it holds if it is a Reporting Financial Institution under the FATCA arrangements of that jurisdiction.

### **Aggregation of Pre-existing Individual Accounts**

The following examples provide illustrative outcomes that could occur from the aggregation process.

#### **Example 1 – Application of the \$50,000 threshold**

Bank A has elected to apply the relevant thresholds in Annex 1. It can link the following accounts of US Person X by a taxpayer identification number.

A Depository Account with a balance of \$25,000

A Custodial Account with a balance of \$20,000.

The aggregated total is below \$50,000; therefore regardless of the types of account neither account will be reportable.

### **Example 2 – Application of the \$50,000 threshold**

In this scenario the account balances of US Person X are:

A Depository Account with a balance of \$45,000

A Custodial Account with a balance of \$7,000.

As the aggregated balance or value is \$52,000 then the accounts are potentially reportable. However, the Depository Account balance is below the \$50,000 threshold for Depository Accounts and is therefore not reportable.

The Custodial Account in this example is reportable because the aggregated total exceeds \$50,000 and there is no Custodial Account exemption that can apply.

### **Example 3 – Application of the \$250,000 Cash Value Insurance Contract threshold**

Company B is a UK Financial Institution and has elected to apply the relevant thresholds in Annex 1. It can link the following accounts of US Person Y by a client number:

A Cash Value Insurance Contract with a value of \$230,000

A Custodial Account with a balance of \$30,000

The aggregated balance or value indicates the accounts are potentially reportable (aggregated value above \$50,000); however, as the Cash Value Insurance Contract is below the threshold that applies to that type of account, it is not reportable.

There is no Custodial Account exemption; therefore the Custodial Account is reportable.

#### **Example 4 – Aggregation involving joint accounts**

Two US Persons have three accounts between them, one deposit account each and a jointly held deposit account with the following balances:

US Person A	\$35,000
US Person B	\$25,000
Joint Account	\$30,000

A data element in the Financial Institution's computer system allows the joint account to be associated with both A and B. The system shows the individual balances of the accounts; however, it does not show a combined balance. The fact that there is not a combined balance does not prevent the aggregation rules applying.

The balance on the joint account is attributable in full to each of the account holders. In this example the aggregate balance for A would be \$65,000 and for B \$55,000. As the amounts after aggregation are in excess of the \$50,000 threshold, both account holders will be reportable.

If A was not a US Person then only B would be reportable following an aggregation exercise.

#### **Example 5 – Aggregation of negative balances**

Two US Persons have three accounts between them, one account each and a jointly held account, all with the same Financial Institution with the following balances:

US Person A	\$53,000
US Person B	\$49,000
Joint Account	(\$ 8,000) – treated as nil

The accounts can be linked and therefore must be aggregated, but for the purposes of aggregation the negative balances should be treated as nil.

Therefore the only reportable account after applying the thresholds would be that for A.

### **Reporting**

Once aggregation has taken place and it is determined that the accounts are reportable, the accounts should be reported individually. A Financial Institution should not consolidate the accounts for reporting purposes.

### **Example 6 – Separate account reporting**

Person Y (a Specified US Person) holds three Depository Accounts with bank Z. The balances are as follows:

Account 0001	\$ 3,000
Account 0002	\$32,000
Account 0003	\$25,000

The aggregated balances total \$60,000 and all the accounts are reportable. Bank Z should report on the three accounts individually and not consolidate the information into a single entry for reporting purposes.

### **Aggregation of Pre-existing Entity Accounts**

For purposes of determining the aggregate balance or value of accounts held by an entity, all accounts held by the entity will need to be aggregated where the Financial Institution has elected under the UK legislation to apply the thresholds set out in Annex 1 of the Agreement and the Financial Institution's computerised system can link the accounts by reference to a common data element.

### **Example 7- Aggregation of Pre-existing Entity Accounts**

Person A (a Specified US Person) has an individual Depository Account with Bank X. Person A also controls 100 per cent of entity Y and 50% of entity Z both of which also have Depository Accounts with Bank X. The balances are as follows:

Individual Depository Account	\$ 35,000
Entity Y Depository Account	\$130,000
Entity Z Depository Account	\$110,000

Bank X has elected to apply the relevant thresholds in Annex 1 and both of these accounts can be linked in Bank X's system.

The individual Depository Account is not reportable as it is below the \$50,000 threshold.

Entity Y's and Entity Z's Depository Accounts are also non reportable as the aggregated balances are below the \$250,000 threshold that applies to Pre-existing Entity Accounts.

#### **4.15 Aggregation of Sponsored funds**

The sponsor of a range of funds acts on behalf of the funds and stands in their place in relation to meeting the FATCA obligations of the funds. Aggregation is required across the range of funds that have the same sponsor, where the sponsor or its service provider uses the same computerised systems to link the accounts.

In practice a sponsor (typically the fund manager) will use a service provider (the transfer agent) to manage the client relationships of the account holders (the investors in the funds). Where different service providers are used by the same sponsor, the systems might not link account information across service providers and aggregation would only be required at the level of the service provider (transfer agent).

For example, where a sponsor manages all the client relationships through a single transfer agent, aggregation should happen at the level of the sponsor (to the extent that the system links accounts).

Where a sponsor has two fund ranges each using a different transfer agent, in practice aggregation is possible only at the fund range/transfer agent level, as this is where the client relationship is held. The sponsor would aggregate at the level of the transfer agent (to the extent that the system links accounts).

#### **4.16 Currency Conversion**

Where accounts are denominated in a currency other than US dollars then the threshold limits must be converted into the currency in which the accounts are denominated before determining if they apply.

This should be done using a published spot rate of the 31 December of the year being reporting upon, or in the case of an insurance contract or annuity contract, the most recent contract anniversary date when applicable.

In the case of closed accounts the spot rate to be used is the rate on the date the account was closed.

##### **Example 1**

The threshold to be applied to GBP denominated Pre-existing Individual Depository Accounts when a published spot rate as of 31 December 2013 is 1.6500 would be £30,303. ( $\$50,000/1.6500$ )

##### **Example 2**

A Pre-existing Insurance Contract is valued at £155,000 as of 30 April 2013. In order to be measured against the \$250,000 threshold, the Financial Institution can use the spot rate at 30 April 2013.

Alternatively a Financial Institution could convert non-US dollar balances into US dollars and then apply the thresholds. Regardless of the method of conversion, the rules for determining the spot rate apply.

The method of conversion must be applied consistently.

Examples of acceptable published exchange rates include, Reuters, Bloomberg, Financial Times and exchange rates published on the HMRC website. ([www.hmrc.gov.uk](http://www.hmrc.gov.uk))

#### **4.17 Tax Identification Numbers (TINs)**

Where it has been established that an account holder is a US Person, a Financial Institution is required to obtain a US TIN in several instances. When referred to, a US TIN means a US Federal Taxpayer Identifying Number.

For Pre-existing Individual Accounts that are Reportable Accounts a US TIN need only be provided if it held by the Reporting Financial Institution. In the absence of a record of the US TIN, a date of birth should be provided, but again only where that is held by the Reporting Financial Institution.

In line with the Agreement, HMRC has introduced legislation to require Reporting Financial Institutions to obtain the US TIN for relevant Pre-existing Individual Accounts from 1 January 2017.

For all New Individual Accounts that are identified as Reportable Accounts from 1 January 2014 onwards, the Reporting Institution **must ask for** a self certification including a US TIN from account holders identified as resident in the US.

Where for a New Individual Account the account holder fails to provide a US TIN, the account is to be treated as reportable.

There is no requirement for a Financial Institution to verify that any US TIN provided is correct. A Financial Institution will not be held accountable where information supplied by an individual proves to be inaccurate and the Financial Institution had no reason to doubt that the veracity of the information provided.

A Financial Institution is not restricted by the manner which it records a TIN, for example it is not necessary to retain a withholding certificate as the means of recording the TIN.

#### **4.18 Change of Circumstance**

A change in circumstances includes any change to or addition of information in relation to the account holder's account (including the addition, substitution, or other change of an account holder) or any change to or addition of information to any account associated with such account.

A change of circumstance will only have relevance if the change to or addition of information affects the status of the account holder for the purposes of the Agreement.

Associated accounts are those accounts that are associated through the aggregation rules or where a New Account is treated as being a pre-existing obligation. See Section 4.14 for aggregation and 6 for pre-existing obligation rules.

##### **Example 1**

Where an account holder with a Pre-existing Account opens a New Account that is linked to the Pre-existing Account in the Financial Institution's computer systems and, as part of the account opening process, a US telephone number is provided, then this is a change in circumstance with respect to the Pre-existing Account.

The change will only be relevant if it indicates that an account holder's status has changed, that is, it either indicates that they are a US Person or that they are no longer a US Person.

If there is a change of circumstances that causes the Financial Institution to know or have reason to know that the original self certification (such as one obtained on the opening of a New Individual Account) is incorrect or unreliable, the Financial Institution can no longer rely on the original self certification.

The Financial Institution should then obtain a new self certification that establishes whether the account holder is a US citizen or US tax resident. In the event that there is a change in circumstance which indicates a change in the account holder's status, the Financial Institution should verify the account holder's actual status in sufficient time to allow it to report the account, if required, in the next reportable period.

If the account holder fails to respond to a Financial Institution's requests for a self certification or for other documentation to verify the account holder's status, then the Financial Institution should treat the account as a US Reportable Account until such time as the Financial Institution is given the necessary information to be able to correctly verify the status.

#### **4.19 Mergers or Bulk Acquisitions of Accounts**

Where a Financial Institution acquires accounts by way of a merger or bulk acquisition of accounts, the Financial Institution can rely on the status of account holders as determined by a predecessor that is a Reporting Model 1 Financial Institution, US withholding agent, or a Participating Financial Institution for a period of six months. This is provided that the predecessor Financial Institution has met its due diligence obligations.

The Financial Institution may continue to rely on the due diligence work of the predecessor beyond the six month period where the documents that it holds, including any documentation (or copies of documentation) that was acquired as part of the merger or acquisition, continues to support the claimed status of account holders. An account holder's status will need to be verified by the acquiring Financial Institution in accordance with the due diligence procedures should the acquirer have reason to know that it is incorrect or if there is a change in circumstance.

Where a Deemed Compliant Financial Institution becomes part of a group as the result of a merger or acquisition, the status of any account maintained by the Deemed Compliant Financial Institution can be relied upon unless there is a change in circumstance in relation to the account.

## **Mergers of Investment Entities**

Mergers of Investment Entities can be different to mergers of Custodial Institutions or Depository Institutions. Because the Financial Accounts of Investment Entities are its Equity and Debt Interest, the merger of two such entities creates a series of New Accounts in the surviving entity.

Mergers of Investment Entities will normally involve a surviving fund taking over the assets of the merging fund in exchange for issuing shares or units to the investors of the merging fund. The shares or units in the merging fund are then extinguished. The new shares in the surviving fund will be New Accounts except where both funds are sponsored by the same sponsor – see below.

So that fund mergers are not impeded, or held up by the requirement to perform due diligence on a series of New Accounts, special rules apply to the documentation of New Accounts on a merger of Investment Entities. There are a number of potential scenarios depending upon whether the merging fund (the investors of which will create the New Accounts in the surviving fund) is a UK Financial Institution and whether it is a Reporting or Participating Financial Institution Deemed Compliant Financial Institution or Non-Participating Financial Institution. These are considered below.

### **More than one fund sponsored by the same UK sponsor**

Where both funds are sponsored UK funds with the same UK sponsor, no New Accounts are created. This is because for Sponsored Financial Institutions, whether a Financial Account is a New Account or not is determined by reference to whether it is new to the sponsor (for example the fund manager), and not whether it is new to the Sponsored Financial Institution (the fund).

### **Merging fund is a Reporting Financial Institution**

Where the merging fund is a Reporting Financial Institution (including a Sponsored Financial Institution, but where the funds do not share the same sponsor), a FATCA Partner Jurisdiction Financial Institution or a

Participating Foreign Financial Institution, the surviving fund can rely on the account identification and documentation performed by the merging fund and will not need to undertake any further account due diligence in order to comply with its FATCA obligations. The surviving fund can continue to use the same account classification as the merging fund until there is a change in circumstances for the Financial Account.

### **Merging fund is not a Reporting Financial Institution**

Where the merging fund is not a Reporting Financial Institution, a FATCA Partner Jurisdiction Financial Institution or a Participating Foreign Financial Institution (because it is a Deemed Compliant fund, a Non-Participating UK Financial Institution or a Non-Participating Foreign Financial Institution), the surviving fund will need to undertake account identification procedures on the New Accounts. However, in these circumstances the account identification procedures will be limited to those that are required for Pre-existing Accounts (See Sections 5 and 7) and should be carried out at the latest by the 31 December following the date of the merger or 31 December of the year following the year of the merger, if the merger takes place after 30 September of any calendar year.

### **Mergers and Acquisitions in relation to Pre-existing Cash Value Insurance Contracts**

It is fairly common for Insurance Companies in the UK to sell off “backbooks” of business to another company, especially when the Insurance Company no longer sells that type of business. Where this relates Pre-existing Accounts, the transferor can continue to rely on the original identification of the transferee company. Therefore provided the transferee company was prohibited from selling the business into the US (See Section 5.1) the policies will remain out of scope, and the transferor company does not need to undertake any further due diligence checks.

## **5. Pre-existing Individual Accounts**

A Pre-existing Individual Account is a Financial Account maintained by a Financial Institution as of 31 December 2013. Pre-existing Accounts will fall into one of four categories depending on the balance or value of the account. These are:

- Financial Accounts exempt by threshold
- Cash Value Insurance Contracts and Annuity Contracts unable to be sold to US residents
- Lower Value Accounts
- High Value Accounts.

### **5.1 Threshold Exemptions that apply to Pre-existing Individual Accounts**

The legislation allows for Financial Institutions to elect to apply the threshold exemptions when reviewing and identifying Pre-existing Individual Accounts. The election can apply to all Financial Accounts or to a clearly identifiable group of accounts, such as by line of business or the location of where the account is maintained.

The form the election will take and rules governing such elections are yet to be decided and HMRC will consult with business on the most suitable approach.

The following accounts do not need to be reviewed, identified or reported to HMRC where the election is made by the Financial Institution.

- Any Depository Accounts with a balance or value of \$50,000 or less.
- Pre-existing Individual Accounts with a balance not exceeding \$50,000 at the 31 December 2013, unless the account subsequently becomes a High Value Account.
- Pre-existing Individual Accounts that qualify as Cash Value Insurance Contracts or Annuity Contracts with a balance or value of \$250,000 or less at the 31 December 2013, unless the account subsequently becomes a High Value Account.

If a Financial Institution **does not make** an election to apply the threshold exemptions, then it will need to review all Pre-existing Individual Accounts.

## **5.2 Pre-existing Cash Value Insurance Contracts or Annuity Contracts unable to be sold to US residents**

Pre-existing Cash Value Insurance Contracts or Annuity Contracts that are unable to be sold to US residents because of legal or regulatory restrictions do not need to be reviewed, identified or reported. This also applies to Insurance policies written in Trust or assigned to a Trust on or before 31 December 2013.

This exemption only applies where both of the following conditions are met:

- The Financial Institution's Cash Value Insurance Contracts and Annuity Contracts cannot be sold into the US without legal or regulatory authority, **and**
- UK law requires reporting or withholding in respect of these products.

No existing UK law prevents the sale of Cash Value Insurance products or Annuity Contracts to US residents. However, the sale of contracts to US residents will be considered effectively prevented if the issuing Specified Insurance Company (not including any US branches) is not licensed to sell insurance in any state of the US and the products are not registered with the Securities and Exchange Commission.

Under UK law there will either be reporting or withholding on such Pre-existing Contracts through one of the following mechanisms:

- Chargeable events reporting regime.
- Income minus Expense Regime (I-E).
- Basic rate tax deducted from the interest portion of a Purchased Life Annuity.

### **Assignment of Pre-existing Insurance Contracts**

When a Pre-existing Cash Value Insurance Contract or Annuity Contract is assigned to another person then this will be treated as a New Account. This is to ensure that Pre-existing Insurance Contracts assigned after 1 January 2014 to US Persons are correctly identified and reported where necessary.

Once the Insurance Company becomes aware that an assignment has been made, the Insurance Company will need to carry out checks on the New Account holder within the timescales for New Accounts. If the policyholder is reluctant to self certify their status or provide relevant documentation, the UK Insurance Company will assume the person to be a US Person and will provide the relevant reports to HMRC on an annual basis.

### **5.3 Reportable Accounts**

Pre-existing Accounts will be reportable if they are not exempt and the Financial Institution has identified US indicia, (See Section 5.5) and those indicia have not been cured or repaired.

Where a Pre-existing Lower Value or High Value Account closes prior to the Financial Institution carrying out its due diligence procedures, the account still needs to be reviewed. Where, following the due diligence procedures the account is found to be reportable, the Financial Institution must report the information for the closed account as required under Section 9.

Once an account is identified as a Reportable Account (unless it is a Depository Account) the account will remain reportable for all subsequent years unless the account holder ceases to be a US Person (including death).

Whether a Depository Account is a Reportable Account is dependent on whether the balance or value is above the reporting threshold of \$50,000. A Depository Account is the only type of account where the reporting requirement can alter annually even where the account holder remains a US Person.

### **Example 1**

A Depository Account belonging to a US Person with a balance of \$65,000 at 31 December will need to be reported. The following year there is a large withdrawal from the account bringing the balance down to \$20,000 at 31 December. As the balance is now below the \$50,000 threshold the account does not need to be reported.

### **5.4 Lower Value Accounts**

These are Pre-existing Individual Accounts with a balance or value that exceeds \$50,000 or \$250,000 for Cash Value Insurance Contracts and Annuity Contracts, but does not exceed \$1,000,000.

### **5.5 Electronic Record Searches and Lower Value Accounts**

A Financial Institution must review its electronically searchable data for any of the following US indicia.

- Identification of the account holder as a US citizen or resident.
- Unambiguous indication of a US place of birth.
- Current US mailing or residence address (including PO Box).
- Current US telephone number.
- Standing instruction to transfer funds to an account maintained in the US.

- Current effective power of attorney or signatory authority granted to a person with a US address.
- An 'in care of' or 'hold mail' address that is the sole address the Financial Institution holds for the account holder. An 'in care of' or 'hold mail' address is **not** treated as US indicia for the purposes of electronic searches, but is a US indicia where a review of paper records is required.

Where none of the indicia listed above are discovered through an electronic search, no further action is required in respect of Lower Value Accounts, unless there is a subsequent change of circumstance that results in one or more US indicia being associated with the account. Where that happens the account will become reportable unless further action is taken by the Financial Institution to attempt to cure or repair the indicia. (See Sections 5.6 to 5.11)

A Financial Institution will not be treated as having reason to know that an account holder's status is incorrect because it retains information or documentation that may conflict with its review of the account holder's status if it was not necessary under the procedures described in this section to review that information or documentation.

### **Example 1**

For Lower Value Accounts, where only an electronic search is required and no US indicia are identified, the Financial Institution will not have reason to know that the account holder was a US Person even if it held a copy of a US passport for the account holder. This applies only if the Financial Institution was not required to or had not previously reviewed that documentation or information.

Where a Financial Institution has started its review, found indicia and attempted to verify or cure the indicia by contacting the account holder, but the account holder does not respond, the account should be treated as reportable 90 days after initiating contact. The 90 day limit is to allow the

account holder sufficient time to respond to requests for information and does not alter the timings set out in Section 5.19.

### **Qualified Intermediaries**

A UK Financial Institution that has previously established an account holder's status in order to meet its obligations under a Qualified Intermediary, Withholding Partnership or Withholding Trust Agreement, or to fulfil its reporting obligations as a US payor under Chapter 61 of the IRS Code, can rely on that status for the purposes of the Agreement where the account holder has received a reportable payment under those regimes. The Financial Institution is not required to perform the electronic search in relation to those accounts. It will however have to apply the appropriate due diligence procedures to all other Pre-existing Individual Accounts it maintains.

### **5.6 Identification of the account holder as a US citizen or resident**

Where the indicia found indicates that the account holder is a US citizen or resident by birth, the account needs to be reported unless the Financial Institution obtains or currently maintains a record of **all** of the following:

- a self certification showing that the account holder is neither a US citizen nor a US resident for tax purposes, **and**
- evidence of the account holder's citizenship or nationality in a country other than the US (for example passport or other government issued identification).

### **5.7 Unambiguous US Place of Birth**

Where the indicia found is an unambiguous US place of birth then the account needs to be reported unless the Financial Institution obtains or currently maintains a record of **all** of the following:

- a self certification showing that the account holder is neither a US citizen nor a US resident for tax purposes,
- evidence of the account holder's citizenship or nationality in a country other than the US (for example passport or other government issued identification); **and**
- a copy of the account holder's Certificate of Loss of Nationality of the United States or a reasonable explanation of the reason the account holder does not have such a certificate or the reason the account holder did not obtain US citizenship at birth.

### **5.8 Current US mailing address/residence address**

Where the indicia found is a current US mailing address, and/or is a current permanent residence address in the US, the account must be reported unless the UK Financial Institution obtains or currently maintains a record of the following:

- a self certification that the account holder is neither a US citizen nor a US resident for tax purposes; **and**
- a form of acceptable documentary evidence which establishes the account holder's non-US status. See Section 4.2.

### **5.9 One or more US telephone numbers associated with the account**

Where the indicia found is one or more US telephone numbers associated with the account, then the account must be reported unless the UK Financial Institution obtains or currently maintains a record of the following:

- a self certification that the account holder is neither a US citizen nor a US resident for tax purposes; **and**
- a form of acceptable documentary evidence which establishes the account holder's non-US status. See Section 4.2.

In the case of any uncertainty as to whether a phone number is US or not, for example a mobile phone number, the number should not be treated as a US indicia, as long as reasonable steps have been taken to establish whether or not the number is a US number.

#### **5.10 Standing Instructions to transfer funds to an account maintained in the US**

Where at the time of review there are current standing instructions to transfer funds to an account maintained in the US, the account must be reported unless the UK Financial Institution obtains or currently maintains a record of:

- a self certification that the account holder is neither a US citizen nor a US resident for tax purposes; **and**
- a form of acceptable documentary evidence which establishes the account holder's non-US status. See Section 4.2.

There will be a standing instruction if the account holder has mandated the Financial Institution to make repeat payments without further instruction from the account holder, to another account that can clearly be identified as being an account maintained in the US.

Instructions to make an isolated payment will not be a standing instruction even when given significantly in advance of the payment being made.

#### **5.11 Effective Power of Attorney or Signatory Authority**

Where the indicia found is a current effective power of attorney or signatory authority granted to a person with a US address, or an 'in care of' or 'hold mail' address in the US is the sole address the Financial Institution holds for the account holder, the account must be reported unless the UK Financial Institution obtains or currently maintains a record of **one** of the following:

- a self certification showing that the account holder is neither a US citizen nor a US resident for tax purposes. This may be an IRS W-8 form or other similar agreed form; **or**
- a form of acceptable documentary evidence which establishes the account holder's non-US status. See Section 4.2.

### **5.12 High Value Accounts**

These are Pre-existing Individual Accounts with a balance or value that exceeds \$1,000,000 at 31 December 2013 or at 31 December of any subsequent year.

### **5.13 Electronic Record Searches and High Value Accounts**

A Financial Institution must review its electronically searchable data in the same manner as for Lower Value Accounts.

If a Financial Institution has previously obtained documentation from a Pre-existing Individual Account holder to establish the account holder's status:

- in order to meet its obligations under a Qualified Intermediary, Withholding Partnership or Withholding Trust Agreement, **or**
- to fulfil its reporting obligations as a US payor under Chapter 61 of the Code,

it will not have to carry out either the electronic search or the paper record search) in respect of such accounts.

Any UK Financial Institution that falls into this category is required, however, to perform the Relationship Manager enquiry (See Section 5.16) where the accounts are High Value Pre-existing Individual Accounts.

#### 5.14 Paper Record Search and High Value Accounts

A paper record search will not be required where all the following information is electronically searchable:

- the account holder's nationality or residence status;
- the account holder's residence address or mailing address currently on file;
- the account holder's telephone number(s) currently on file;
- whether there are standing instructions to transfer funds to another account;
- whether there is a current "in-care-of" address or "hold mail" address for the account holder; and
- whether there is any power of attorney or signatory authority for the account.

The paper record search, where necessary, should include a review of the current customer master file and, to the extent they are not contained in the current master file, the following documents associated with the account and obtained by the Financial Institution within the last 5 years.

- The most recent documentary evidence collected with respect to the account;
- the most recent account opening contract or documentation;
- the most recent documentation obtained by the Financial Institution for AML/KYC procedures or for other regulatory purposes;
- any power of attorney or signature authority forms currently in effect;  
**and**
- any standing instructions to transfer funds currently in effect.

These should be reviewed for any US indicia as set at Section 5.5.

A Financial Institution can rely on the review of High Value Accounts performed by third party distributors, for example financial advisers, on their behalf where there is a contract obligating the distributor to perform the review.

### **5.15 Exceptions**

A Financial Institution is not required to perform the paper record search for any Pre-existing Individual Account for which it has retained a withholding certificate and acceptable documentary evidence (See Section 4.2) which establishes the account holder's non-US status.

### **5.16 Relationship Manager**

In addition to the electronic and paper searches, the Financial Institution must also consider whether any Relationship Manager associated with the High Value Account (including any accounts aggregated with such account) has knowledge that would identify the account holder as a Specified US Person.

If the Relationship Manager knows that the account holder is a Specified US Person then the account must be reported unless the indicia can be cured.

For these purposes a Relationship Manager is assumed to be any person who is an officer or other employee of the Financial Institution assigned responsibility for specific account holders on an ongoing basis, and who advises the account holders regarding their accounts and arranges for the overall provision of financial products, services and other related assistance.

A person is only considered a Relationship Manager for these purposes with respect to an account with a balance or value exceeding \$1,000,000, taking into account the aggregation rules.

A Financial Institution must also ensure that it has procedures in place to capture any change of circumstance in relation to a High Value Individual Account made known to the Relationship Manager in respect of the account holder's status.

### **Example 1**

If a Relationship Manager is notified that the account holder has a new mailing address in the US, this would be a change in circumstance and the Financial Institution would either need to report the account or obtain the appropriate documentation to cure or repair that indicia.

The electronic search and paper search only need to be done once for each account identified as a High Value Account, but the responsibilities of Relationship Managers to ensure that any knowledge regarding the account holder's status or aggregation of accounts is captured are constant and ongoing.

### **5.17 Effects of Finding US Indicia**

Where one or more indicia are discovered through the enhanced review procedures and none of the cures or repairs can be applied, the Financial Institution must treat the account as a US Reportable Account for the current and all subsequent years.

Where no indicia are discovered in the electronic search, the paper record search or by making enquiries of the Relationship Manager, no further action is required unless there is a subsequent change in circumstances.

If there is a change in circumstances that results in one or more of the indicia listed in this section being associated with the account and none of the cures or repairs can be applied, it must be treated as a US Reportable Account for the year of change and all subsequent years. This applies for all accounts except Depository Accounts (See Section 5.3), unless the account holder ceases to be a Specified US Person.

Where a Financial Institution has started its review, indicia are found and attempts made to verify or cure those indicia by contacting the account holder, but the account holder does not respond, the account should be treated as reportable 90 days after initiating contact. The 90 day limit is to allow the account holder sufficient time to respond to requests for information.

## **5.18 Timing of reviews**

### **Lower Value Accounts**

The review of Pre-existing Accounts that are Lower Value Accounts at 31 December 2013 must be completed by 31 December 2015.

Pre-existing Lower Value Accounts that are identified as reportable are only reportable from the year in which they are identified as such.

#### **Example 1**

The due diligence procedures are carried out on a Lower Value Account during March 2015 and the account is determined as reportable. The Financial Institution is only required to report on the account information for the year ending 31 December 2015 onwards.

### **High Value Accounts**

The review of Pre-existing Accounts that are High Value Accounts at 31 December 2013 must be completed by 31 December 2014.

Once an account is identified as reportable because it has a balance over \$1,000,000 at 31 December 2013, the Financial Institution must report the account for both the year ending 31 December 2013 and the year ended 31 December 2014.

#### **Example 2**

The due diligence procedures are carried out on a High Value Individual Account during April 2014 and the account is determined as reportable. The Financial Institution is required to report on the account for both calendar years 2013 and 2014.

Where the balance or value of an account does not exceed \$1,000,000 as of 31 December 2013, but does as of the last day of a subsequent calendar year, the Financial Institution must perform the procedures described for High Value Accounts by 30 June of the year following the year in which the balance or value exceeded \$1,000,000.

## 6. New Individual Accounts

A New Individual Account is an account opened on or after 1 January 2014.

### 6.1 Threshold Exemptions that apply to New Individual Accounts

The UK legislation allows for Financial Institutions to elect whether to apply the threshold exemptions when reviewing and identifying New Individual Accounts.

The election can apply to all Financial Accounts or to a clearly identifiable group of accounts, such as accounts held by a line of business.

The form the election will take and rules governing such elections are yet to be decided and HMRC will consult with business on the most suitable approach.

The threshold exemptions for New Individual Accounts are:

- Depository Accounts do not need to be reviewed, identified or reported unless the account balance exceeds \$50,000.
- Cash Value Insurance Contracts do not need to be reviewed, identified or reported unless the cash value exceeds \$50,000.

If a Financial Institution **does not make** an election under the Regulations to apply the threshold exemptions to Reportable Accounts, then it will need to review and identify the status of all of its New Individual Account holders.

### 6.2 Reportable Accounts

Where it is established that the holder of a New Individual Account is a US citizen or resident in the US for tax purposes then the account must be treated as a Reportable Account.

In this instance the Financial Institution is required to retain a record of an IRS form W-9 or US TIN. The US TIN may be retained in any manner and does not need to be on an IRS form.

### **6.3 New Accounts for holders of Pre-existing Accounts**

Where a Pre-existing Account holder wishes to open a New Account with the same institution, there will be no need to re-document the account holder as long as:

- the appropriate due diligence requirements have already been carried out, or are in the process of being carried out for the Pre-existing Account; **and**
- the accounts are treated as linked or as a single account or obligation for the purposes of applying any of the due diligence requirements.

This means that the standards of knowledge to be applied, the change of circumstances rules and aggregation requirements will apply to all accounts held by the account holder.

Therefore where there is a change of circumstance or where the Financial Institution has reason to know that the account holder's status is inaccurate in relation to one account, this will apply to all other accounts held by the account holder.

Where the Financial Institution has elected to apply thresholds, the accounts must be treated as linked for aggregation purposes.

This can also be applied on a group basis where documentation is shared within the group. See Section 4.7.

### **6.4 Identification of New Individual Accounts**

For accounts that are not exempt, and for accounts that previously qualified for the threshold exemption, but now have a balance or value above the

threshold, the Financial Institution can carry out the following procedures to determine the account holder's status.

- Obtain a self certification (See Section 4.8) that allows the Financial Institution to determine whether the account holder is US tax resident;
- and**
- Confirm the reasonableness of this self certification based on the information the Financial Institution obtains in connection with the opening of the account, including any documentation obtained for AML/KYC procedures.

For these purposes a US citizen is considered to be resident in the US for tax purposes even where they are also tax resident in another country.

In the absence of a valid self certification being provided by the account holder, the account would become reportable.

Alternatively the Financial Institution can retain documentary evidence of the type identified in Section 4.2 and confirm the reasonableness of the documentary evidence based on the information the Financial Institution obtains in connection with the opening of the account, including any documentation obtained for AML/KYC or other regulatory procedures.

If the information provided during the account opening process contains any of the indicia described in Section 5.5 then the account will become reportable unless further action is taken by the Financial Institution to attempt to cure or repair the indicia. (See Sections 5.8 to 5.11).

The identification of these accounts should be completed as soon as practicable after the account has been opened. The expectation would be that this would follow AML/KYC time limits. For accounts that were previously exempt because of the threshold exemptions being applied but no longer are, the Financial Institution must determine the account holder's status in

sufficient time to report the account, if necessary, for the year in which the account ceased to be exempt.

### **6.5 Group Cash Value Insurance Contracts or group Annuity Contracts**

A Financial Institution can treat an account that is a group Cash Value Insurance Contract or a group Annuity Contract, and that meets the requirements set out below, as a non-US account until the date on which an amount is payable to an employee/certificate holder or beneficiary, provided the Financial Institution obtains a certification from an employer that no employee/certificate holder (account holder) is a US Person.

A Financial Institution is not required to review all the account information collected by the employer to determine if an account holder's status is unreliable or incorrect.

The requirements are that:

- the group Life Insurance Contract or group Annuity Contract is issued to an employer and covers twenty-five or more employees/certificate holders; **and**
- the employee/certificate holders are entitled to receive any contract value; and to name beneficiaries for the benefit payable upon the employee's death; **and**
- the aggregate amount payable to any employee/certificate holder or beneficiary does not exceed \$1,000,000.

### **6.6 Accounts held by beneficiaries of a Cash Value Insurance Contract that is a Life Insurance Contract**

A Financial Institution can treat an individual beneficiary (other than the owner) who receives a death benefit under a Cash Value Insurance Contract that is a Life Insurance Contract as a non-US Person and treat such account

as a non-US account unless the participating Financial Institution has knowledge or reason to know that the beneficiary is a US Person.

### **6.7 Reliance on Self Certification and Documentary evidence**

Where information already held by a Financial Institution conflicts with any statements or self certification, or the Financial Institution has reason to know that the self certification or other documentary evidence is incorrect, it may not rely on that evidence or self certification.

A Financial Institution will be considered to have reason to know that a self certification or other documentation associated with an account is unreliable or incorrect if, based on the relevant facts; a reasonably prudent person would know this to be the case.

## **7. Pre-existing Entity Accounts**

Pre-existing Entity Accounts are those accounts that are in existence at 31 December 2013.

### **7.1 Threshold Exemptions that apply to Pre-existing Entity Accounts**

The UK legislation allows for Financial Institutions to elect whether to apply the threshold exemptions when reviewing and identifying Pre-existing Entity Accounts.

The election can apply to all Financial Accounts or to a clearly identifiable group of accounts, such as accounts held by a line of business.

- If the threshold exemption is applied and where the account balance or value does not exceed \$250,000 at 31 December 2013 there is no requirement to review, identify or report the account until the account balance exceeds \$1,000,000, at 31 December of a subsequent calendar year.

If a Financial Institution **does not make** an election under the Regulations to apply the threshold exemption, it will need to review and identify all Pre-existing Entity Accounts.

The form the election will take and rules governing such elections are yet to be decided and HMRC will consult with business on the most suitable approach.

## **7.2 Reportable Accounts**

An Entity Account is only reportable where the account is held by one or more entities that are Specified US Persons or by Passive NFFEs with one or more Controlling Persons who are US citizens or residents.

Where a Pre-existing Entity Account closes prior to the Financial Institution carrying out its due diligence procedures, then the account is still required to be reviewed. Where following the due diligence procedures the account is found to be reportable, the Financial Institution must report the information as required under Section 9. This will not apply to accounts that are closed prior to 31 December 2013.

If the account holder is a Non-Participating Financial Institution (NPFI), payments made to the NPFI will be reportable (See Section 9.4).

Controlling Persons are defined as natural persons who exercise control over an entity. In the case of a Trust this means:

- the settlor,
- the trustees,
- the protector (if any),
- the beneficiaries or class of beneficiaries, **and**
- any other natural person exercising ultimate effective control over the Trust.

In the case of a legal arrangement other than a Trust, it means persons in equivalent or similar positions. The term “Controlling Persons” must be interpreted in a manner consistent with the Recommendations of the Financial Action Task Force.

An entity account will also be reportable where a self certification is not provided or the entity’s status cannot be determined from information held or that is publically available. In this situation the account should continue to be reported until such time that the entity’s status is correctly identified.

### **7.3 Standardised Industry Codes and US indicia for Pre-existing Entities**

A Financial Institution can rely on information previously recorded in its files in addition to standardised industry codes, in determining the status of an entity. For these purposes, a standardised industry code may be any coding system employed by the Financial Institution.

The term standardised industry code means a code that is part of a coding system used by the Financial Institution to classify account holders by business type and was in use by the later of 1 January 2012, or six months after the date the Financial Institution was formed or organised.

#### **Example**

A Financial Institution has a coding system that has been in existence since 2010. This can be used to determine the status of account holders for all New and Pre-existing accounts.

Where a standardised industry code is used, the Financial Institution is unable to rely on this to determine the entity’s status if there are US indicia, as described below, and these indicia have not been cured.

The term US indicia, when used with respect to an entity, includes any of the following:

- Classification of an account holder as a US resident in the current customer files.
- A current US residence address or US mailing address.
- Standing instructions to pay amounts to a US address or an account maintained in the US.
- A current telephone number for the entity in the US, but no telephone number for the entity outside of the US.
- A current telephone number for the entity in the US in addition to a telephone number for the entity outside of the US.
- A power of attorney or signatory authority granted to a person with a US address.
- An “in-care-of” address or “hold mail” address that is the sole address provided for the entity.

**Documentary evidence required to cure US indicia in relation to Standard industrial Codes**

If there are US indicia as described above, the Financial Institution may treat the entity as non-US only if the Financial Institution obtains a self certification for the entity and one form of acceptable documentary evidence which establishes the entity’s non-US status such as a Certificate of Incorporation.

**7.4 Identification of an entity as a Specified US Person**

In order to identify if an entity is a Specified US Person, information maintained for regulatory or customer relationship purposes (including information collected as part of any AML/KYC procedure) can be relied upon.

A US place of incorporation or organisation, a US address, or the US indicia listed above would be examples of information indicating that an entity is a Specified US Person.

If the account holder is found to be a Specified US Person then the account should be treated as reportable unless a self certification is obtained from the account holder which shows that the account holder is not a Specified US

Person or it can be reasonably determined from information held or that is publically available, that the account holder is not a Specified US Person.

Article 1 of the Agreement includes a list of exceptions for Specified US Persons at definition gg. To avoid unnecessary reporting, a self certification may be obtained from any entity that is believed to be within this definition, but where there is insufficient information held by the Financial Institution to allow it to make a correct determination.

### **7.5 Identification of an entity as a Financial Institution**

In order to identify whether an entity is a Financial Institution, information maintained for regulatory or customer relationship purposes (including information collected as part of any AML/KYC procedure) or a Global Intermediary Identification Number can be relied upon.

If the entity is a Financial Institution, including Non-Reporting Financial Institutions listed in Annex II that account is not a Reportable Account.

### **7.6 Identification of an entity as a Non-Participating Financial Institution (NPFI)**

If the account holder is a Financial Institution, but not a UK Financial Institution, a Financial Institution in another Partner Jurisdiction or a Participating Financial Institution, then it should be treated as a Non-Participating Financial Institution.

This applies unless the entity provides a self certification stating that it is a Certified Deemed Compliant Financial Institution, an Exempt Beneficial Owner, an Excepted Financial Institution or unless the Reporting Financial Institution is able to verify that the entity is a participating Financial Institution or Registered Deemed Compliant Financial Institution, for instance from its Global Intermediary Identification Number.

A Financial Institution may become a Non-Participating Financial Institution where following significant non-compliance it is regarded as such by the IRS (See Section 10.2).

If the account holder is a Non-Participating Financial Institution then the Reporting Financial Institution will need to report on payments made to it (See Section 9.4).

### **7.7 Identification of an entity as a Non-Financial Foreign Entity (NFFE)**

When an entity account holder is not identified as either a US Person or a Financial Institution, the Financial Institution must consider whether the entity is a Passive NFFE and if any of the Controlling Persons of that entity are a US citizen or tax resident of the US.

An entity will be a Passive NFFE if it is not an Active NFFE (See Section 2.6). To determine whether the entity is a Passive NFFE, the Financial Institution must obtain a self certification from the account holder establishing its status; unless it has information in its possession or that is publicly available that enables the Financial Institution to reasonably determine whether or not the entity is an Active NFFE.

To identify the Controlling Persons of an entity, a Financial Institution may rely on information collected and maintained pursuant to AML/KYC procedures.

To determine whether the Controlling Persons of a Passive NFFE are citizens or residents of the US for tax purposes, Financial Institutions may rely on:

- Information collected and maintained pursuant to AML/KYC procedures in the case of an account held by one or more Passive NFFEs, with a balance that does not exceed \$1,000,000.
- A self certification from an account holder or Controlling Person in the case of an account held by one or more Passive NFFEs, with a balance that exceeds \$1,000,000.

## **7.8 Timing of reviews**

The review of Pre-existing Entity Accounts with an account balance or value that exceeds \$250,000 at 31 December 2013 must be completed by 31 December 2015.

The review of Pre-existing Entity Accounts with a balance or value that does not exceed \$250,000 at December 31, 2013, but exceeds \$1,000,000 as of December 31 of any subsequent year, must be completed by 30 June of the following year.

## **8 New Entity Accounts**

A New Entity Account is an account opened by or for an entity on or after 1 January 2014.

Where a New Account is opened by an entity account holder who already has a Pre-existing Account the Financial Institution may treat both accounts as one account for the purposes of applying AML/KYC due diligence. In these circumstances, the Financial Institution may choose to apply the identification and documentation procedures for either Pre-existing or New Accounts to derive the FATCA classification for any New Account or Accounts opened on or after 1 January 2014 by the same entity.

### **8.1 Exemptions that apply to New Entity Accounts**

There are no threshold exemptions that apply to New Entity Accounts so there will be no need to apply any aggregation or currency conversion rules.

However, where a Financial Institution maintains credit card accounts, these do not need to be reviewed, identified or reported where the Financial Institution has policies or procedures that prevent the account holder establishing a credit balance in excess of \$50,000.

## 8.2 Reportable Accounts

An account holder of a New Entity Account must be classified as either:

- a Specified US Person;
- a US Person other than a Specified US Person;
- a UK Financial Institution or other Partner Jurisdiction Financial Institution ;
- a Participating FFI, a Deemed Compliant FFI, an Exempt Beneficial Owner, or an Excepted FFI, as those terms are defined in relevant US Treasury Regulations; **or**
- an Active NFFE or Passive NFFE;
- a Non-Participating Financial Institution.

New Entity Accounts **will be** reportable where there is an account holder who is:

- a Specified US Person;
- or there is a Passive NFFE with one or more Controlling Persons who are citizens or residents of the US.

If the account holder is one of those listed below then the account **is not** a US Reportable Account:

- a US Person other than a Specified US Person;
- a UK Financial Institution or other Partner Jurisdiction Financial Institution;
- a Participating FFI, a Deemed Compliant FFI, an Exempt Beneficial Owner, or an Excepted FFI, as those terms are defined in relevant US Treasury Regulations; **or**
- an Active NFFE;
- a Passive NFFE where none of the Controlling Persons are US citizens or resident in the US.

### **8.3 Identification of an entity as a Financial Institution**

A Financial Institution may rely on publicly available information, a GIIN or information within the Financial Institution's possession to identify whether an account holder is an Active NFFE, Participating FFI or a UK or Partner Jurisdiction Financial Institution. In all other instances the Financial Institution must obtain a self certification from the account holder to establish the account holder's status.

### **8.4 Identification of an entity as a Non-Participating Financial Institution**

If the entity is a UK Financial Institution or a Financial Institution in another Partner Jurisdiction, no further review, identification or reporting will normally be required. The exception to this is if the Financial Institution becomes a Non-Participating Financial Institution following significant non-compliance.

If the account holder is a Financial Institution, but not a UK Financial Institution, Financial Institution in another Partner Jurisdiction or a Participating Financial Institution, then the entity is treated as a Non-Participating Financial Institution.

This applies unless the Reporting Financial Institution:

- obtains a self certification from the entity stating that it is a Certified Deemed Compliant Financial Institution, an Exempt Beneficial Owner, or an Excepted Financial Institution; **or**
- verifies its status as a Participating Financial Institution or Registered Deemed Compliant Financial Institution for instance by obtaining a GIIN.

If the account holder is a Non-Participating Financial Institution, then reports on certain payments made to such entities will be required. (See Section 9.4)

## **8.5 Identification of an entity account holder as a Specified US Person**

If the Financial Institution identifies the account holder of a New Entity Account as a Specified US Person, the account will be a US Reportable Account and the Financial Institution must obtain a self certification that includes a US TIN. The self certification could be, for example on IRS form W-9.

## **8.6 Identification of an entity as Non-Financial Foreign Entity (NFFE)**

If on the basis of a self certification the holder of a New Entity Account is established as a Passive NFFE, the Financial Institution must identify the Controlling Persons of the entity as determined under AML/KYC procedures.

To determine whether the Controlling Persons of a Passive NFFE are citizens or residents of the US for tax purposes the Reporting Financial Institution must obtain a self certification from the account holder or Controlling Person. If they are a citizen or resident of the US, the account shall be treated as a Reportable Account.

## **9. Reporting**

Once a Financial Institution has applied the procedure and due diligence in respect of the accounts it holds and has identified Reportable Accounts then it must report certain information regarding those accounts to HMRC in accordance with the timetable in Section 9.3.

### **9.1 Information Required**

#### **Specified US Persons and Controlling Persons of Entity Accounts**

In relation to each Specified US Person that is the holder of a Reportable Account and in relation to each Controlling Person of an Entity Account who is a Specified US Person, the information to be reported is:

- 1) Name
- 2) Address
- 3) US TIN (where applicable)
- 4) The account number or functional equivalent
- 5) The name and identifying number of the Reporting Financial Institution
- 6) The account balance or value as of the end of the calendar year or other appropriate period.

### **Custodial Accounts**

In addition to 1 to 6 above, where the account is a Custodial Account the following information is also required in relation to the calendar year or other appropriate reporting period:

- The total gross amount of interest paid or credited to the account
- The total gross amount of dividends paid or credited to the account
- The total gross amount of other income paid or credited to the account
- The total gross proceeds from the sale or redemption of property paid or credited to the account.

### **Depository Accounts**

In addition to 1 to 6 above, where the account is a Depository Account the following information is also required:

- The total amount of gross interest paid or credited to the account in the calendar year or other appropriate period.

### **Cash Value Insurance Contracts**

In addition to 1 to 5 above and **if the account is still in existence at the end of the year** the following information must be reported each year:

- the annual amount reported to the policyholder as the "surrender value" of the account; **or**

- The amount calculated by the Specified Insurance Company as at 31 December; **and**
- Any part surrenders taken throughout the policy year.

### **Purchased Life Annuities (PLA's)**

As UK Purchased Life Annuities do not have a cash/surrender value, there is no account balance to report. A Specified Insurance Company will only be required to report the amount paid out or credited to the policy holder.

### **Deferred Annuities**

In the UK, deferred annuities have two stages:

- The accumulation phase where the product is similar to a Cash Value Insurance Contract and should be treated as such for reporting as set out above.
- The pay-out phase where the annuity becomes a PLA and should be treated as such for reporting as set out above.

When a deferred annuity is ending its accumulation phase, some contracts provide the option for the account holder to take the surrender value of contract, instead of converting the account into a PLA; this is the amount that should be reported. .

### **Other accounts**

In addition to 1 to 6 above, for other accounts the following information is also required:

- The total gross amount paid or credited to the account including the aggregate amount of any redemption payments made to the account holder during the calendar year or other appropriate reporting period.

### **Account closures and transfers**

In addition to 1 to 5 above, in the case of a Depository or Custodial Account closed or transferred in its entirety by an account holder during a calendar year the payments made with respect to the account shall be:

- The payments and income paid or credited to the account that are described earlier in this section for Custodial, Depository and Other Accounts.
- The amount or value withdrawn or transferred from the account in connection with the closure or transfer of the account.

In the case of a Cash Value Insurance Contract that has been **fully surrendered during the calendar year** the Specified Insurance Company will need to report:

- the total amount paid out to the account holder or nominated person at the close of the account. This will include any amount of interest following maturity where the amount is awaiting payment.

In the case of a Purchased Life Annuity, if the annuitant has died or the term has ended, the Specified Insurance Company will have no further reporting requirement if the annuitant died at a time before the annual payment has been made.

## **9.2 Explanation of information required**

### **Address**

The address to be reported with respect to an account held by a Specified US Person is the residence address recorded by the Reporting Financial Institution for the account holder or, if no residence address is associated with the account holder, the address for the account used for mailing or other purposes by the Reporting Financial Institution.

In the case of Controlling Persons of a Passive NFFE, the address required will be the address of each Controlling Person who is reportable.

### **Taxpayer Identification Numbers (TINs)**

Where it has been established that an account holder is a US Person a Financial Institution is required to obtain a US TIN in several instances. When referred to, a US TIN means a US Federal Taxpayer Identification Number.

For Pre-existing Individual Accounts that are Reportable Accounts then a US TIN need only be provided if it exists in the records of the Reporting Financial Institution. In the absence of a record of the US TIN, a date of birth should be provided, but again only where it is held by the Reporting Financial Institution. In line with the Agreement, HMRC has introduced legislation to require Reporting Financial Institutions to obtain the US TIN for relevant Pre-existing Individual Accounts from the 1 January 2017.

For all New Individual Accounts that are identified as Reportable Accounts from 1 January 2014 onwards, the Reporting Institution **must** obtain a self certification from account holders identified as resident in the US that includes a US TIN. This self certification could be on for example, IRS forms W-9 or on an other similar agreed form.

Where for a New Individual Account the proposed account holder fails to provide a US TIN or evidence of non-US status and the account becomes active, the account is to be treated as reportable.

There is no requirement for a Financial Institution to verify that any US TIN provided is correct. A Financial Institution will not be held accountable where information supplied by an individual proves to be inaccurate and the Financial Institution had no reason to know.

**Account Number**

The account number to be reported with respect to an account is the identifying number assigned to the account or other number that is used to identify the account within the Financial Institution.

**Account balance or value**

The account balance or value of an account may be reported in US dollars or in the currency in which the account is denominated.

**Depository Accounts**

The balance or value will be that shown on the 31 December, unless the account is closed on a date before that.

**Example 1**

For a reportable Depository Account the balance or value to be reported will be the balance or value as of the 31 December 2014. This will be reported in 2015.

**Other Financial Accounts**

The balance or value will either be that shown on 31 December of the year to be reported or where it is not possible to or usual to value an account at 31 December, the normal valuation point for the account that is nearest to 31 December is to be used.

**Example 2**

When a Specified Insurance Company has chosen to use the anniversary date of a policy for valuation purposes, if for example the policy was opened on 3 June 2013, it will be valued on 2 June 2014. If it exceeds the reporting threshold then it is the 2 June 2014 value that will be reported for the year ending 31 December 2014. This will be reported to HMRC in 2015.

Where the 31 December falls on a weekend or non working day, the date to be used is the last working day before the 31 December.

The balance or valuation of a Financial Account is the balance or value calculated by the Financial Institution for purposes of reporting to the account holder.

The balance or value of an Equity Interest is the value calculated by the Financial Institution for the purpose that requires the most frequent determination of value, and the balance or value of a Debt Interest is its principal amount.

The balance or value of the account is not to be reduced by any liabilities or obligations incurred by an account holder with respect to the account or any of the assets held in the account and is not to be reduced by any fees, penalties or other charges for which the account holder may be liable upon terminating, transferring, surrendering, liquidating or withdrawing cash from the account.

### **Joint Accounts**

For Joint Accounts the balance or value to be attributed is the entire balance or value of the account. This will be attributable to each holder of the account.

### **Example 3**

Where a jointly held account has a balance or value of \$100,000 and one of the account holders is a Specified US Person then the amount to be attributed to that person would be \$100,000.

If both account holders were Specified US Persons then each would be attributed the \$100,000 and reports would be made for both.

### **Account Closures**

The process for closing accounts will differ between institutions and between different products and accounts. The intention is to capture the amount withdrawn from the account in connection with the closure process, as opposed to the account balance at the point of closure given there is an expectation the balance will be reduced prior to point of closure. For these purposes it is acceptable for the Financial Institution to:

- record the balance or value within five business days of when they receive instructions from the account holder to close the account; **or**
- record the most recent available balance or value that is obtainable following receipt of instructions to close the account, where a Financial Institution is unable to record the balance or value at the time of receiving instructions to close the account. This may include a balance or value that predates the instructions to close the account if this is the balance or value that is the most readily available.

For accounts that close as a result of switching to another bank, the balance calculated as the transferable balance as part of the new Bacs Account Switching service.

### 9.3 Timetable for reporting

Reporting Year	In respect of	Information to be reported	Reporting date to HMRC
2013	<ul style="list-style-type: none"> <li>Each Specified US Person either holding a Reportable Account</li> </ul>	<ul style="list-style-type: none"> <li>Name</li> <li>Address</li> <li>US TIN (where applicable or DoB for Pre-existing Accounts)</li> <li>Account number or functional equivalent</li> <li>Name and identifying number of Reporting Financial Institution</li> <li>Account balance or value</li> </ul>	31 March 2015
	<p>Or</p> <ul style="list-style-type: none"> <li>as a Controlling Person of an Entity Account</li> </ul>		
2014	As 2013		31 May 2015
2015 As 2014, plus the following:	<ul style="list-style-type: none"> <li>Custodial Accounts</li> </ul>	<ul style="list-style-type: none"> <li>The total gross amount of interest;</li> <li>The total gross amount of dividends;</li> <li>The total gross amount of other income paid or credited to the account</li> </ul>	31 May 2016
	<ul style="list-style-type: none"> <li>Depository Accounts</li> </ul>	<ul style="list-style-type: none"> <li>The total amount of gross interest paid or credited to the account in the calendar year or other reporting period</li> </ul>	
	<ul style="list-style-type: none"> <li>Other Accounts</li> </ul>	<ul style="list-style-type: none"> <li>The total gross amount paid or credited to the account including the aggregate amount of any redemption payments made to the account holder during the calendar year or other appropriate reporting period</li> </ul>	
2016 As 2015, plus the following	<ul style="list-style-type: none"> <li>Custodial Accounts</li> </ul>	<ul style="list-style-type: none"> <li>The total gross proceeds from the sale or redemption of property paid or credited to the account</li> </ul>	31 May 2017
2017 onwards		<ul style="list-style-type: none"> <li>All of the above</li> </ul>	

#### **9.4 Reporting on Non-Participating Financial Institutions**

Where a Reporting Financial Institution makes payments to a Non-Participating Financial Institution, under the Agreement it is required to report the name and the aggregate value of payments made to each Non-Participating Financial Institution for the years 2015 and 2016.

This obligation was included as a temporary solution to the requirement to withhold on 'foreign passthru payments' which is included in the US provisions.

Whether or not this reporting requirement continues will need to be considered alongside any discussion on the longer term solution that delivers the underlying policy objectives of passthru payments, but which removes the legal problems for Financial Institutions outside the US.

The payments that are to be reported are:

- a) Non-US source interest paid on a Financial Account held by a NPFFI
- b) Non-US source dividends paid on a shareholding held in a Financial Account held by a NPFFI
- c) Payments to an NPFFI (whether or not they are paid in respect of a Financial Account) in connection with a securities lending transaction, sale-repurchase transaction, forward, future, option, swap, or similar transaction which are directly or indirectly contingent upon or determined by reference to, the payment of interest or a dividend from US sources; and
- d) Non-US source payments, to a NPFFI, that are the proceeds or benefits of a Cash Value Insurance Contract or Annuity Contract.

## **Exceptions**

The following do not need to be reported:

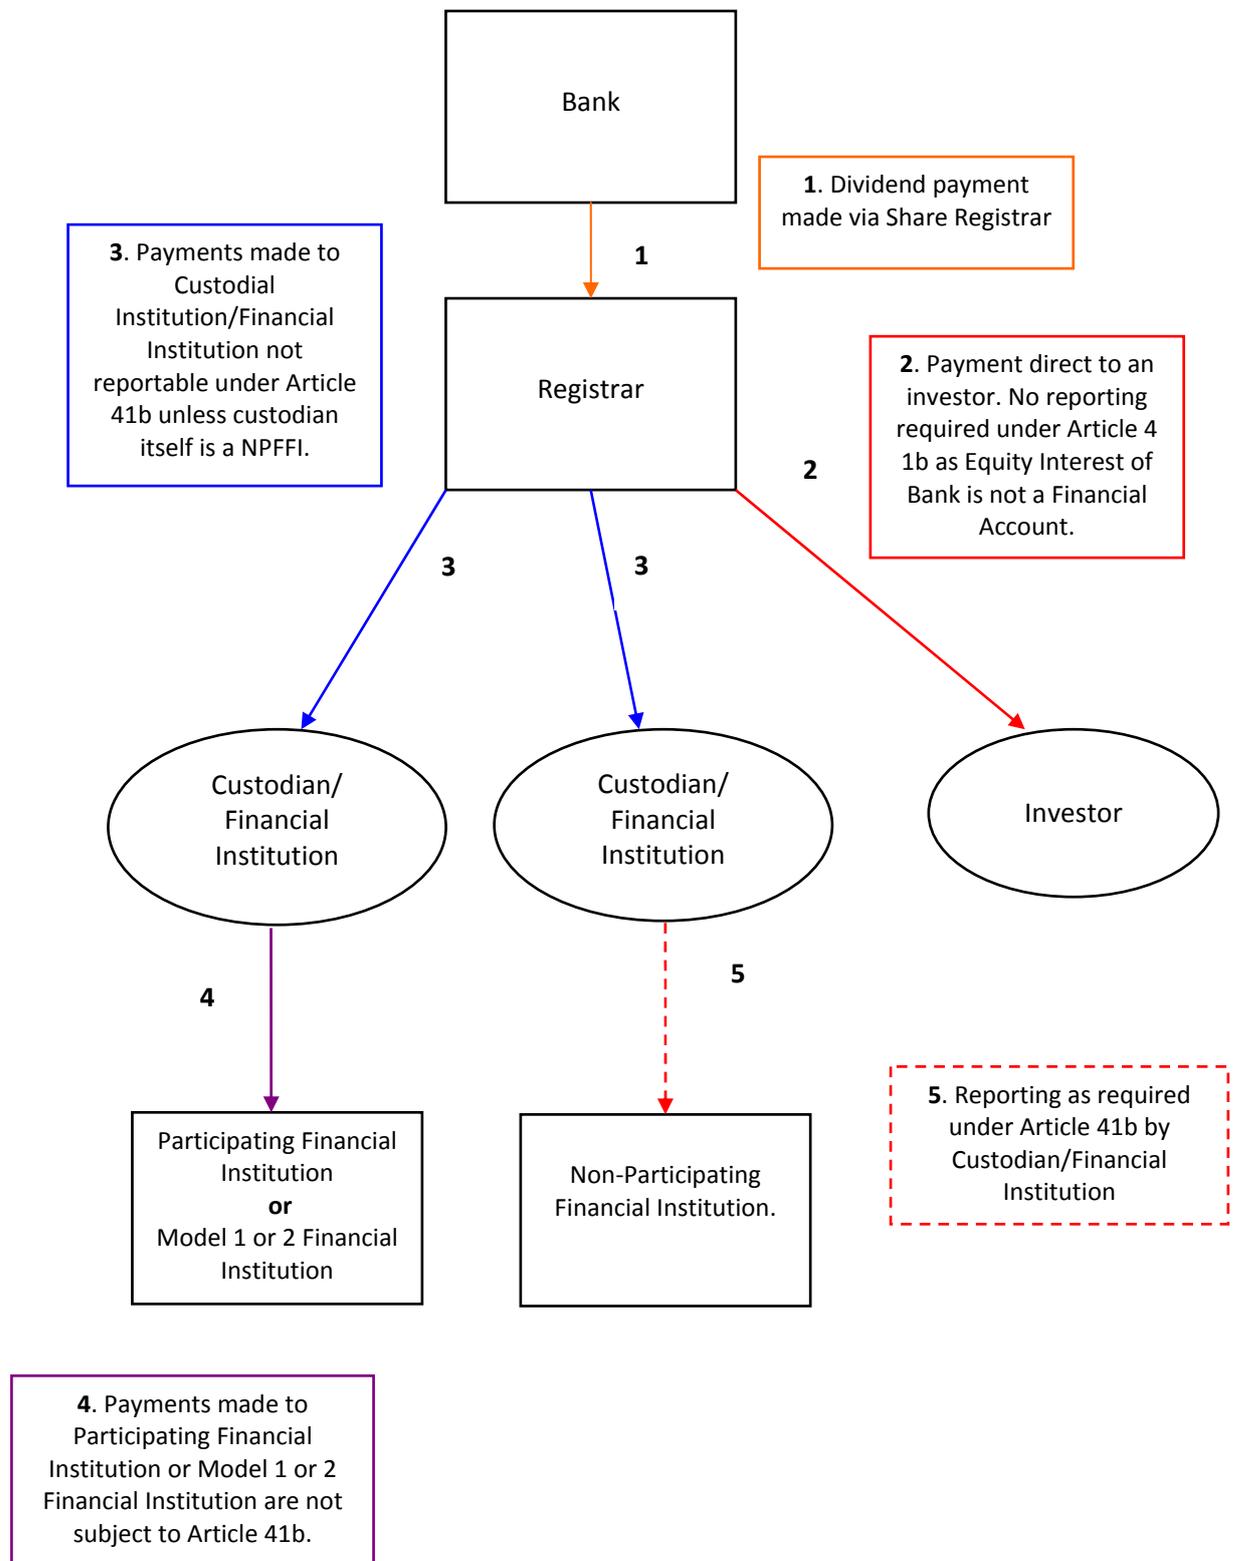

- 1) Payments for the following: services (including wages and other forms of employee compensation (such as stock options)), the use of property, office and equipment leases, software licenses, transportation, freight, gambling winnings, awards, prizes, scholarships, and interest on outstanding accounts payable arising from the acquisition of goods or services.;
- 2) Payments where the Reporting Financial Institution has only a passive role in the payment process and so, alternatively either no knowledge of the facts that give rise to the payment or no control over the payment or no custody of the property which relates to the payment (e.g. processing a cheque or arranging for the electronic transfer of funds on behalf of one of its customers, or receives payments credited to a customer's account) or does not have custody of property which relates to the payment;
- 3) Capital markets payments in c) above that are not directly traceable to a US source
- 4) Payments where the Reporting UK Financial Institution does not hold documentation to identify the payee as a Non-Participating FFI, unless the payee is a prima facie FFI.

## **Payments of Dividends made by a Financial Institution**

Dividend payments made by a Financial Institution to its shareholders will only be reportable where the shareholding is held in a Financial Account, for example where the shareholding is held in a Custodial Account, of an NPFFI.

Shareholdings of a Financial Institution, other than shareholdings or equity interest in certain Investment Entities (See Section 3.8), are not deemed to be Financial Accounts in their own right and as such where a payment is made directly to an Investor who is an NPFFI, the payment will not be reportable.

The diagram below shows where the reporting for dividend payments will apply.

## Reporting

- 1) A payment will be treated as being made when an amount is paid or credited to an NPFPI.
- 2) Only the aggregate amount of payments made to the payee during the calendar year need to be reported.
- 3) Where the payments described in c) above, cannot be separately identified as being the equivalent of a U.S. source interest or dividend income then the entire amount of the payment made in relation to that transaction is to be reported.
- 4) The amount of income to be aggregated is the net amount of the income payment made, there is no requirement to consider amounts withheld.

### **9.5 Withholding on US Source Withholdable Payments paid to Non-Participating Financial Institutions**

Our consultations with business suggest that the UK does not have any Financial Institutions who are Qualified Intermediaries (QIs) **and** have elected to assume primary withholding responsibility. There are a number of QIs in the UK, but any withholding is undertaken by a withholding agent and the primary withholding is not done by the UK Financial Institution itself.

Therefore we do not expect Article 4. 1 (d) of the Agreement to apply to UK Financial Institutions, who should instead fall within the provisions of Article 4. 1 (e). This means that UK Financial Institutions will not have to withhold on US source withholdable payments to a Non-Participating Financial Institution, but they may have to report on such payments to any immediate payor.

## **9.6 Reporting payments of US Source Withholdable Payments to Non-Participating Financial Institutions**

Under Article 4.1 (e), where the Financial Institution makes a payment of, or acts as an intermediary, in respect of a “US source withholdable payment” to any Non-Participating Financial Institution, then the Financial Institution must provide information required for withholding and reporting to occur, with respect to the payment, to “any immediate payor” (only where there is an immediate payor). The information required for withholding and reporting to occur is to be pooled withholding rate information (as would be the case for information reported under the QI regime).

## **9.7 Format**

The format in which reporting will be required is still to be finalised.

## **9.8 Transmission**

The way in which Financial Institutions will submit the information to HMRC is still to be finalised.

## **9.9 Penalties**

The Regulations set out that penalties will be applicable where a Reporting Financial Institution fails to provide the required information and where it provides inaccurate information.

## **10. Compliance**

### **10.1 Minor Errors**

In the event that the information reported is corrupted or incomplete, the recipient country will be able to contact the Reporting Financial Institution directly to try and resolve the problem. Examples of minor errors could include:

- Data fields missing or incomplete;
- Data that has been corrupted;
- Use of an incompatible format.

Where this leads to the information having to be resubmitted this will have to be via HMRC.

Continual and repeated administrative or minor errors could be considered as significant non-compliance where they continually and repeatedly disrupt and prevent transfer of the information.

Where a Reporting UK Financial Institution is concerned that an enquiry from the US extends beyond an enquiry on the quality or format of the data and potentially presents difficulties in respect of their obligations under the Data Protection Act 1988 (DPA), or implementing the requirements of the Data Protection Directive (Directive 95/46/EC) then they should contact the UK Competent Authority.

For more specific enquiries, for instance regarding a specific individual or entity, the US Competent Authority will contact the UK Competent Authority, who will then contact the Financial Institution.

## **10.2 Significant Non-Compliance**

Significant non-compliance may be determined from either an IRS or HMRC perspective. In either event the relevant Competent Authorities will notify the other regarding the circumstances.

Where one Competent Authority notifies the other of significant non-compliance there is an 18 month period in which the Financial Institution must resolve the non-compliance.

Where HMRC is notified of or identifies significant non-compliance by a UK Financial Institution, HMRC will apply any relevant penalties under the legislation.

HMRC will also engage with the Financial Institution to:

- discuss the areas of non-compliance;
- discuss remedies/solution to prevent future non-compliance;
- agree measures and a timetable to resolve its significant non-compliance.

HMRC will inform the IRS of the outcome of these discussions.

In the event that the issues remain unresolved after a period of 18 months then the Financial Institution will be treated as a Non-Participating Financial Institution.

Details of how such an entity can correct its status will be published at later date.

The following are examples of what would be regarded as significant non-compliance include:

- Repeated failure to file a return or repeated late filing.
- Ongoing or repeated failure to register, supply accurate information or establish appropriate governance or due diligence processes.
- The intentional provision of substantially incorrect information.
- The deliberate or negligent omission of required information.

### **10.3 Tax Compliance Risk Management Process**

For those Financial Institutions with a Customer Relationship Manager (CRM), as part of the normal relationship management activity, a CRM should seek to understand how a business intends to meet its obligations under the legislation and the systems and process that it has put in place.

Areas of difficulty or particular risk could form part of the discussions about business systems and governance and the CRM should work with the company/entity to identify and deal with any risks that could lead to non-compliance. It is also envisioned that compliance with the legislation could form part of any Business Risk Review carried out with the business.

CRMs will be able to call on support from Governance Specialists in Large Business Service (LBS) and Audit Specialists in both LBS and Local Compliance to help them to understand and address any issues identified.

For those Financial Institutions where there is no CRM, compliance activity will follow a risk based approach and will focus on those Financial Institutions where information indicates they are potentially in non-compliance with the legislation.

Any audit of systems and processes, of either Customer Relationship Manager (CRM) or non CRM businesses will encompass a review of whether or not a Financial Institution is able to correctly identify its account holders and meets its reporting obligations.

#### **10.4 Anti Avoidance**

The Regulations include an anti avoidance measure which is aimed at arrangements taken by any person to avoid the obligations placed upon them by the Regulations.

It is intended that 'arrangements' will be interpreted widely and the effect of the rule is that the Regulations will apply, as if the arrangements had not been entered into.

#### **11. Registration**

Each Reporting UK Financial Institution and any entity that is Registered Deemed Compliant Entity will be required to register and obtain a Global Intermediary Identification Number (GIIN) from the IRS.

The registration service is expected to be available from July 2013 and GIINs will be assigned to registered entities from the middle of October 2013. The IRS will publish guidance regarding the registration process.

Financial Institutions in a Model 1 jurisdiction are not required to provide a GIIN to in order to establish their FATCA status prior to 1 January 2015. Before that date Model 1 Financial Institutions can confirm their status by either:

- providing a Withholding Certificate
- providing a pre FATCA W-8 with an oral or written confirmation that the Entity is a Model 1 Financial Institution; **or**
- informing the withholding agent that they are a Model 1 Financial Institution.

The following types of entity are **not** required to register and should not seek to do so:

- Non-Reporting UK Financial Institutions
- Deemed Compliant UK Financial Institutions (unless they are Registered Deemed Compliant)
- Active and Passive NFFEs.

Where a Financial Institution with a Local Client Base that has a reporting obligation, because it has some US Reportable Accounts, a GIIN will be required.

Entities that are Reporting Financial Institutions and also acting as a sponsor for other entities will need to register separately for each of these roles.
