## Overall Assessment
GREEN

The IA is fit for purpose. The issues raised in the previous RPC Opinion have been addressed.

**Identification of costs and benefits, and the impacts on small firms, public and third sector organisations, individuals and community groups and reflection of these in the choice of Options**

The issues raised in the previous RPC Opinion of 08/07/2011 have been addressed.

**Have the necessary burden reductions required by One-in, One-out been identified and are they robust?**

The IA says this is an OUT with an equivalent annual net cost to business (EANCB) of -£140.1m. This appears reasonable.
