

Annex C2 Post-mortems and follow-up actions for non-observed badgers

Area	Type	PM date	Carcase No	Evidence of Multiple Hits?	'Major' firearm injury identified in Thorax?	Recommendation	Head	Neck	Front leg	Abdomen/pelvis	Hind leg	Tail	Follow-up action/resolution	
WG	Company data	23/09/2014	WG00046	Yes	Yes	Follow-up required due to evidence of multiple hits.	No	No	Yes	Yes	Yes	No	Follow-up prompted by Company raw data - two shots were reportedly taken to despatch. Satisfactory explanation provided. HM visits were conducted on 11-09-2014, 17-09-2014 and 01-10-2014; Contractor was found to be compliant on these visits. Three carcasses (WG00042, WG00047 and WG00041) also despatched by this Contractor were subject to random post-mortems; 'major' firearm injury was identified in the Thorax of all. No further action required.	
WG	Random PM	10/09/2014	WG00081	No	No(No damage)	Follow-up required due to absence of severe injury in the recommended target area.	Yes	Yes	No	No	No	No	Follow-up prompted by the results of a random post-mortem. Satisfactory explanation provided. To complete the follow-up, a HM visit was scheduled for 18-09-2014 and a post-mortem was to be conducted on the next carcass despatched by this Contractor (see line below).	
WG	PM request	15/09/2014	WG00082	Yes	No (Minor/moderate damage)	Follow-up required due to evidence of multiple hits and absence of severe injury in the recommended target area.	No	Yes	Yes	Yes	No	No	Follow-up prompted by the results of a requested post-mortem (see line above). Satisfactory explanation provided. HM visits were conducted on 18-09-2014 and 22-09-2014; Contractor was found to be compliant on these visits. To complete the follow-up, a further HM visit was scheduled for 25-09-2014 with the view of witnessing a despatch.	
WG	Random PM	22/09/2014	WG00085	No	No(No damage)	Follow-up required due to absence of severe injury in the recommended target area.	No	No	No	Yes	No	No	Follow-up prompted by the results of a random post-mortem. Satisfactory explanation provided. HM visits were completed on 18-09-2014, 22-09-2014 and 25-09-2014; Contractor was found to be compliant on these visits. Two BPG compliant despatches (WG00087 and WG00088) were also witnessed on the most recent visit. Since the last follow-up, three carcasses (WG00083, WG00084 and WG00086) also despatched by this Contractor were also subject to random post-mortems; 'major' firearm injury was identified in the Thorax of all. No further action required.	
WG	Company data	N/A	WG00093	no PM undertaken						Follow-up prompted by Company raw data - two shots were reportedly taken to despatch. Satisfactory explanation provided. HM visits were completed on 18-09-2014, 22-09-2014 and 25-09-2014, and an IFA was completed on 13-10-2014; Contractor was found to be compliant on these visits and a BPG compliant despatch was observed during the IFA (WG00094). Since the last follow-up, three carcasses (WG00089, WG00090 and WG00091) also despatched by this Contractor were also subject to random post-mortems; 'major' firearm injury was identified in the Thorax of all. No further action required.				
WG	Random PM	16/09/2014	WG00100	No	No (Minor/moderate damage)	Follow-up required due to absence of severe injury in the recommended target area.	No	No	No	Yes	Yes	No	Follow-up prompted by the results of a random post-mortem. Satisfactory explanation provided. HM visits were completed on 09-09-2014, 16-09-2014 and 30-09-2014; Contractor was found to be compliant on these visits. No further action required.	

WG	Random PM	07/10/2014	WG00129	No	No(No damage)	Follow-up required due to absence of severe injury in the recommended target area.	No	No	No	Yes	Yes	No	Follow-up prompted by the results of a random post-mortem. Satisfactory explanation provided. An IFA was completed on 17-09-2014 and HM visits were completed on 15-09-2014, 18-09-2014, 24-09-2014, 01-10-2014 and 17-10-2014. Contractor was found to be compliant on these visits. Three carcasses (WG00126, WG00127 and WG00128) also despatched by this Contractor were also subject to random/requested post-mortems; 'major' firearm injury was identified in the Thorax of all. No further action required.
WG	Company data	23/09/2014	WG00152	No	Yes	No follow-up required.	No	No	No	Yes	No	No	Follow-up prompted by Company raw data - two shots were reportedly taken to despatch. Satisfactory explanation provided. HM visits were completed on 09-09-2014, 16-09-2014 and 30-09-2014; Contractor was found to be compliant on these visits. One carcass (WG00151) also despatched by this Contractor was also subject to a random post-mortem; 'major' firearm injury was identified in the Thorax. No further action required.
WG	Random PM	24/09/2014	WG00200	No	No(No damage)	Follow-up required due to absence of severe injury in the recommended target area.	No	No	No	Yes	No	No	Follow-up prompted by the results of a random post-mortem. Satisfactory explanation provided. HM visits were completed on 17-09-2014, 29-09-2014 and 13-10-2014; Contractor was found to be compliant on these visits. One carcass (WG00199) also despatched by this Contractor was also subject to a random post-mortem; 'major' firearm injury was identified in the Thorax. No further action required.
WG	Random PM	29/09/2014	WG00242	No	No (Minor/moderate damage)	Follow-up required due to absence of severe injury in the recommended target area.	No	Yes	Yes	No	No	No	Follow-up prompted by the results of a random post-mortem. Satisfactory explanation provided. HM visits were completed on 05-10-2014, 09-10-2014 and 12-10-2014; Contractor was found to be compliant on these visits. One carcass (WG00241) also despatched by this Contractor was also subject to a random post-mortem; 'major' firearm injury was identified in the Thorax. No further action required.
WG	Random PM	01/10/2014	WG00261	No	No (Minor/moderate damage)	Follow-up required due to absence of severe injury in the recommended target area.	No	Yes	Yes	No	No	No	Follow-up prompted by the results of a random post-mortem. Satisfactory explanation provided. HM visit was completed 24-09-2014 and an IFA (scheduled as a result of this follow-up) was completed on 07-10-2014; Contractor was found to be compliant on these visits. One carcass (WG00262) also despatched by this Contractor was also subject to a random post-mortem; 'major' firearm injury was identified in the Thorax. No further action required.
WG	Random PM	23/09/2014	WG00271	No	No(No damage)	Follow-up required due to absence of severe injury in the recommended target area.	Yes	Yes	No	No	No	No	Follow-up prompted by the results of a random post-mortem. Satisfactory explanation provided. HM visits were completed on 15-09-2014 and 01-10-2014 and an IFA was completed on 23-09-2014; Contractor was found to be compliant on these visits. Two carcasses (WG00278 and WG00270) also despatched by this Contractor were also subject to random/requested post-mortems; 'major' firearm injury was identified in the Thorax. No further action required.
WG	Random PM	26/09/2014	WG00301	No	No (Minor/moderate damage)	Follow-up required due to absence of severe injury in the recommended target area.	No	No	No	Yes	No	No	Follow-up prompted by the results of a random post-mortem. Satisfactory explanation provided. An IFA (scheduled as a result of this follow-up) was completed on 06-10-14; Contractor was found to be compliant on this visit. No further action required.

WG	Company data	23/09/2014	WG00709	No	Yes	No follow-up required.	No	Yes	Yes	No	No	No	
WG	Company data	24/09/2014	WG00710	Yes	No(No damage)	Follow-up required due to evidence of multiple hits and absence of severe injury in the recommended target area.	Yes	No	No	Yes	No	No	Follow-up prompted by Company raw data - two shots were reportedly taken to despatch. Satisfactory explanation provided. HM visits completed on 23-09-2014 and 25-09-2014; Contractor was found to be compliant on both visits. No further action required.
WG	Company data	23/09/2014	WG00712	No	Yes	No follow-up required.	No	No	No	Yes	No	No	Follow-up prompted by Company raw data - two shots were reportedly taken to despatch. Satisfactory explanation provided. Subsequent post-mortem of the carcass in question (WG00712) revealed a BPG compliant despatch. One carcass (WG00711) also despatched by this Contractor was also subject to a random post-mortem; 'major' firearm injury was identified in the Thorax. No further action required.
WG	Random PM	22/09/2014	WG00011	No	No(No damage)	Follow-up required due to absence of severe injury in the recommended target area.	Yes	Yes	No	No	No	No	Follow-up prompted by the results of a random post-mortem. Contractor was temporarily suspended and the Cull Company was informed. HM visits were completed on 22-09-2014 and 07-10-2014; an IFA was completed on 02-10-2014. Contractor was found to be compliant on these visits. To complete the follow-up, it was decided that all despatches by this contractor would be subject to further post-mortems. No further despatches were made by this Contractor and no further post-mortems were received.
WG	Random PM	17/09/2014	WG00721	No	No (Minor/moderate damage)	Follow-up required due to absence of severe injury in the recommended target area.	No	No	No	Yes	No	No	Follow-up prompted by the results of a random post-mortem. Satisfactory explanation provided. HM visit (scheduled as a result of this follow-up) was completed on 22-09-2014; Contractor was found to be compliant. No further action required.
WG	Random PM	07/10/2014	WG00333	No	No(No damage)	Follow-up required due to absence of severe injury in the recommended target area.	No	No	No	Yes	No	No	Follow-up prompted by the results of a random post-mortem. Satisfactory explanation provided. HM visits were completed on 15-09-2014, 08-10-2014 and 15-10-2014 (scheduled as a result of this follow-up); Contractor was found to be compliant on these visits. Two carcasses (WG00331 and WG00332) also despatched by this Contractor were also subject to random post-mortems; 'major' firearm injury was identified in the Thorax of both. A BPG compliant despatch (WG00335) was also witnessed on the most recent HM visit. No further action required.
WG	Random PM	10/09/2014	WG00353	Yes	No(No damage)	Follow-up required due to evidence of multiple hits and absence of severe injury in the recommended target area.	No	Yes	Yes	Yes	No	No	Follow-up prompted by the results of a random post-mortem. Satisfactory explanation provided. An IFA was completed on 09-09-2014; Contractor was found to be compliant and a despatch was observed. Post-mortem of this carcass (WG00356) revealed 'major' firearm injury in the Thorax. To complete the follow-up, a HM visit was scheduled for 18-09-2014 and a post-mortem was to be conducted on the next carcass despatched by this Contractor (see line below).

WG	PM request	12/09/2014	WG00357	No	No (Minor/moderate damage)	Follow-up required due to absence of severe injury in the recommended target area.	No	Yes	Yes	No	No	No	Follow-up prompted by the results of a requested post-mortem (see line above). Satisfactory explanation provided. An IFA with BPG compliant despatch observed was completed on 09-09-2014 and HM visits were completed on 18-09-2014 and 13-10-2014; Contractor was found to be compliant on these visits. Eight carcasses also despatched by this Contractor were also subject to random post-mortems; 'major' firearm injury was identified in the Thorax of all. No further action required.
WG	Random PM	11/09/2014	WG00370	No	No (Minor/moderate damage)	Follow-up required due to absence of severe injury in the recommended target area.	No	Yes	Yes	No	No	No	Follow-up prompted by the results of a random post-mortem. Satisfactory explanation provided. HM visits were completed on 11-09-2014, 16-09-2014 (BPG compliant despatch witnessed on this night), 18-09-2014 and 16-10-2014; Contractor was found to be compliant on these visits. Post-mortem conducted on observed despatched (WG00372) revealed 'major' firearm injury in the Thorax. No further action required.
WG	Random PM	16/09/2014	WG00373	Yes	No (Minor/moderate damage)	Follow-up required due to evidence of multiple hits and absence of severe injury in the recommended target area.	No	Yes	Yes	Yes	No	No	Follow-up prompted by the results of a random post-mortem. Satisfactory explanation provided. HM visits completed on 11-09-2014, 16-09-2014 (BPG compliant despatch witnessed on this night - see line above), 18-09-2014 and 16-10-2014; Contractor was found to be compliant on these visits. Eight carcasses also despatched by this Contractor were also subject to random post-mortems; 'major' firearm injury was identified in the Thorax of all. No further action required.
WG	Random PM	22/09/2014	WG00751	No	No(No damage)	Follow-up required due to absence of severe injury in the recommended target area.	Yes	Yes	Yes	No	No	No	Follow-up prompted by the results of a random post-mortem. Satisfactory explanation provided. HM visits were completed on 24-09-2014 (BPG compliant despatch witnessed on this night) and 14-10-2014. Contractor was found to be compliant on these visits. Post-mortem conducted on observed despatched (WG00753) and one carcass (WG00754) also despatched by this Contractor revealed 'major' firearm injury in the Thorax. No further action required.
WG	Random PM	24/09/2014	WG00752	No	No(No damage)	Follow-up required due to absence of severe injury in the recommended target area.	No	No	No	Yes	Yes	No	Follow-up prompted by the results of a random post-mortem. Satisfactory explanation provided. HM visits were completed on 24-09-2014 (BPG compliant despatch witnessed on this night) and 14-10-2014. Contractor was found to be compliant on these visits. Post-mortem conducted on observed despatched (WG00753) and one carcass (WG00754) also despatched by this Contractor revealed 'major' firearm injury in the Thorax. No further action required.
WG	Random PM	12/09/2014	WG00420	No	No(No damage)	Follow-up required due to absence of severe injury in the recommended target area.	Yes	Yes	No	No	No	No	Follow-up prompted by the results of a random post-mortem. Satisfactory explanation provided. HM visit was completed on 07-10-2014; Contractor was found to be compliant on this visit. Three carcasses (WG00416, WG00417 and WG00418) also despatched by this Contractor were also subject to random post-mortems; 'major' firearm injury was identified in the Thorax of all. No further action required.

WG	Random PM	17/10/2014	WG00437	No	No(No damage)	Follow-up required due to absence of severe injury in the recommended target area.	Yes	Yes	No	No	No	No	Follow-up prompted by the results of a random post-mortem. Satisfactory explanation provided. HM visits were completed on 06-10-2014 and 13-10-2014; Contractor was found to be compliant on these visits. No further action required.
WG	Random PM	18/09/2014	WG00473	No	No (Minor/moderate damage)	Follow-up required due to absence of severe injury in the recommended target area.	Yes	Yes	Yes	No	No	No	Follow-up prompted by the results of a random post-mortem. Satisfactory explanation provided. HM visits were completed on 15-09-2014 and 17-09-2014 (BPG compliant despatch witnessed on this night); Contractor was found to be compliant on these visits. Post-mortem conducted on observed despatch WG00474 revealed 'major' firearm injury in the Thorax. No further action required.
WG	Company data	25/09/2014	WG00476	Yes	No (Minor/moderate damage)	Follow-up required due to evidence of multiple hits and absence of severe injury in the recommended target area.	No	Yes	Yes	Yes	Yes	No	Follow-up prompted by Company raw data - two shots were reportedly taken to despatch. Satisfactory explanation provided. HM visits were completed on 15-09-2014, 17-09-2014 (BPG compliant despatch witnessed on this night - see line above) and 25-09-2014; Contractor was found to be compliant on these visits. No further action required.
WG	Random PM	02/10/2014	WG00477	Yes	Yes	Follow-up required due to evidence of multiple hits.	No	No	Yes	Yes	No	No	Follow-up prompted by the results of a random post-mortem. Satisfactory explanation provided. HM visits were completed on 15-09-2014, 17-09-2014 (BPG compliant despatch witnessed on this night - see line above) and 25-09-2014; Contractor was found to be compliant on these visits. No further action required.
WG	Company data	N/A	WG00479	no PM undertaken								Follow-up prompted by Company raw data - two shots were reportedly taken to despatch. Satisfactory explanation provided. HM visits completed on 15-09-2014, 17-09-2014 (BPG compliant despatch witnessed on this night - see line above), 25-09-2014 and 16-10-2014 (despatch witnessed on this night); Contractor was found to be compliant on these visits. No further action required.	
WG	Company data	14/10/2014	WG00511	Yes	Yes	Follow-up required due to evidence of multiple hits.	No	Yes	Yes	No	No	No	Follow-up prompted by Company raw data - two shots were reportedly taken to despatch. Satisfactory explanation provided. Subsequent post-mortem of the carcass in question (WG00511) revealed 'major' firearm injury in the Thorax. HM visit completed on 09-10-14; Contractor was found to be compliant. No further action required.
WS	Random PM	12/09/2014	WS00025	1	No (Minor/moderate damage)	Follow-up required due to absence of severe injury in the recommended target area.	No	Yes	Yes	No	No	No	Satisfactory explanation provided. HM visit conducted on 18-09-2014. Contractor found to be compliant. One previous carcass PM with 'major' firearm injury to thorax. No further action required.

WS	Random PM	24/09/2014	WS00028		1 No(No damage)	Follow-up required due to absence of severe injury in the recommended target area.	No	Yes	Yes	No	No	No	Satisfactory explanation provided. HM visits conducted on 18-09-2014 and 25-09-2014. Contractor found to be compliant. Seven previous carcasses had PM, of which six had 'major' firearm injury to thorax, WS00025 followed-up as above. No further action required. Subsequently, five more carcasses had PM of which all had 'major' firearm injury to thorax. Three further HM visits conducted on 30-09-2014, 02-10-2014 and 10-10-2014 and Contractor found to be compliant. Note: WS00272 followed-up and found to have been shot by CWS056 (see below).
WS	Company data		WS00088			No PM conducted but follow up required due to company reporting 2 shots were taken on 12-10-2014 to despatch carcass WS00088.							Satisfactory explanation provided. HM visits completed on 22-09-2014, 24-09-2014, 09-10-2014, 13-10-2014 and 14-10-2014, during which two despatches were witnessed. Contractor found to be compliant. Four carcasses had PM of which all had 'major' firearm injury to thorax. No further action required. Subsequently, three carcasses had PM of which all had 'major' firearm injury to thorax. Two further HM visits completed on 16-10-2014 and 18-10-2014, during which two despatches were witnessed and Contractor found to be compliant.
WS	Company data	16/09/2014	WS00127			Uninterpretable due to post mortem change.							Satisfactory explanation and observed by Monitor. HM visits conducted on 08-09-2014, 09-09-2014 and 10-09-2014, during which nine shots were witnessed for seven despatches. Contractor found to be compliant. Six carcasses had PM of which all had 'major' firearm injury to thorax. No further action required. Subsequently, three further carcasses had PM of which all had 'major' firearm injury to thorax. One further HM visit conducted on 18-10-2014, during which two despatches were witnessed and Contractor found to be compliant.
WS	Random PM	12/09/2014	WS00131		1 No (Minor/moderate damage)	Follow-up required due to absence of severe injury in the recommended target area.	No	Yes	Yes	No	No	No	Satisfactory explanation provided. HM visits conducted on 08-09-2014 and 17-09-2014. Contractor found to be compliant. No further action required.
WS	Company data	06/10/2014	WS00135		1 Yes	No follow-up required.	No	Yes	Yes	No	No	No	Satisfactory explanation provided. HM visits conducted on 08-09-2014, 17-09-2014, 29-09-2014 and 30-09-2014. Contractor found to be compliant. Four previous carcasses had PM of which three had 'major' firearm injury to thorax and one followed-up as above. No further action required. One further HM visit was conducted on 08-10-2014 and Contractor found to be compliant.
WS	Random PM	17/09/2014	WS00144		1 No(No damage)	Follow-up required due to absence of severe injury in the recommended target area.	No	No	No	Yes	Yes	No	Satisfactory explanation provided. IFA/HM visit conducted on 15-09-2014. Contractor found to be compliant. One previous carcass had PM and had 'major' firearm injury to thorax. Further HM visit planned for 23-09-2014. No further action required.
WS	Random PM	17/09/2014	WS00145		1 No(No damage)	Follow-up required due to absence of severe injury in the recommended target area.	No	No	No	Yes	Yes	No	Satisfactory explanation provided. IFA/HM visit conducted on 15-09-2014. Contractor found to be compliant. Two previous carcasses had PM, of which one had 'major' firearm injury to thorax and one followed-up as above. Further HM visit planned for 23-09-2014. No further action required.

WS	Random PM	17/10/2014	WS00657		1 No(No damage)	Follow-up required due to absence of severe injury in the recommended target area.	No	No	No	Yes	Yes	Yes	Satisfactory explanation provided. IFA/HM visit conducted on 15-09-2014 and HM visits conducted on 23-09-2014, 01-10-2014, 06-10-2014, 13-10-2014, 14-10-2014, 17-10-2014 and 18-10-2014, during which two despatches and one shot without retrieval were witnessed. Contractor found to be compliant. Nine previous carcasses had PMs, of which seven had 'major' firearm injury to thorax and two were followed-up up as above. No further action required.
WS	Random PM	15/09/2014	WS00199		1 No (Minor/moderate damage)	Follow-up required due to absence of severe injury in the recommended target area.	No	Yes	Yes	No	No	No	Satisfactory explanation provided. HM visit conducted on 08-09-2014. Contractor found to be compliant. No further action required. Subsequently, seven further carcasses had PMs of which all had 'major' firearm injury to thorax. Further HM visits conducted on 25-09-2014, 30-09-2014, 09-10-2014, 15-10-2014 and 16-10-2014 during which two despatches were witnessed and Contractor found to be compliant.
WS	Random PM	23/09/2014	WS00228		2 No (Minor/moderate damage)	Follow-up required due to evidence of multiple hits and absence of severe injury in the recommended target area.	Yes	Yes	No	Yes	No	No	Satisfactory explanation provided. IFA/HM visit conducted on 22-09-2014 and HM visits conducted on 10-09-2014 and 15-09-2014, during which one despatch was witnessed. Contractor found to be compliant. Two previous carcasses had PMs of which all had 'major' firearm injury to thorax. No further action required. Subsequently, one further carcass had PM and had 'major' firearm injury to thorax. Two further HM visits were conducted on 08-10-2014 and 13-10-2014. Contractor found to be compliant.
WS	Random PM	16/09/2014	WS00272		1 No (Minor/moderate damage)	Follow-up required due to absence of severe injury in the recommended target area.	No	Yes	Yes	No	No	No	Satisfactory explanation provided. IFA/HM visit conducted on 23-09-2014 during which three despatches were witnessed. Contractor found to be compliant. No further action required. Subsequently, twelve further carcasses had PMs, of which eleven had 'major' firearm injury to thorax and WS00571 despatch was observed and target dopped to shot. Five further HM visits were conducted on 29-09-2014, 08-10-2014, 09-10-2014, 12-10-2014 and 15-10-2014, during which five shots were witnessed for four despatches and Contractor found to be compliant. Note: WS00272 recorded against CWS004 but found to have been despatched by CWS056.
WS	Random PM	14/10/2014	WS00316		1 No(No damage)	Follow-up required due to absence of severe injury in the recommended target area.	Yes	Yes	No	No	No	No	Satisfactory explanation provided. Three shifts worked, no other despatches. No further action required
WS	Company data	07/10/2014	WS00342		1 Yes	No follow-up required.	No	No	No	Yes	No	No	Satisfactory explanation provided. HM visit conducted on 10-09-2014. Contractor found to be compliant. Company data indicated multiple shots to despatch target. PM results indicated 'major' firearm injury to thorax and no follow-up recommended. Two previous carcasses had PMs of which both had 'major' firearm injury to thorax. No further action required.

WS	Company data	22/09/2014	WS00377		2 No(No damage)	Follow-up required due to evidence of multiple hits and absence of severe injury in the recommended target area.	No	No	No	Yes	Yes	No	Satisfactory explanation provided. HM visits conducted on 09-09-2014 and 11-09-2014. Contractor found to be compliant. one previous carcass had PM and had 'major' firearm injury to thorax. No further action required. Subsequently, one further carcass had PM and had 'major' firearm injury to thorax. Three further HM visits conducted on 22-09-2014, 06-10-2014 and 07-10-2014. Contractor found to be compliant.
