23 December – Duty Provider Crime Contracts - notice to potential bidders

The High Court has issued a temporary injunction which suspends the 2015 Duty Provider Crime Contract tender process. From today, potential bidders will be unable to access the tender documentation directly from the Bravo e-tendering platform and while the injunction is in place. However, all relevant documentation, including the FAQ will remain available for you to view online.

Accordingly, we intend to set the closing date for any resumed tender by reference to the period of suspension of the tender process, thereby maintaining an overall nine week tender window for this stage of the procurement process.

The LAA will issue further guidance to bidders in due course.
