Part 1 (for issue to User Community)

INTRODUCTION *(Not more than 250 words)*

Part 1 Section 6 Clause 6.5 has software requirements, Software requirements in general are detailed in Part 13 Section 1.7

The removed text is considered to be duplication of the general requirement placed by Part 13 Clause 1.7; three sub-clauses have been retained which are appropriate to system level activities (DO-178C does not operate at the system level).

In the three retained sub-clauses, wording has been updated to reflect that it is not possible to demonstrate that a system containing all but the simplest of software is free

from software errors.

The new text will be clearly identifiable within Annex A.
