Subsidy

Introduction

9.00 This section contains Section 4 of the HB/CTB Subsidy Guidance Manual 2009/10. This can also be found on the DWP website at http://www.dwp.gov.uk/local-authority-staff/housing-benefit/performance-and-good-practice/subsidy-guidance-manuals/

Overpaid benefit

9.10 The objective is to encourage LAs to seek to minimise overpayments, as defined by regulation 99 of the HB Regulations 2006, and to recover overpaid benefit wherever appropriate. ‘Overpayments’ in this context should be taken to include excess CTB.

HB Reg 99, CTB Reg 82

9.11 The rates of subsidy that apply to overpayments vary according to the circumstances in which they were made.

i Eligible – this category includes Claimant error, Fraud and Other overpayments.

Claimant error – this is an overpayment that has been caused by the claimant or a person acting on the claimant’s behalf, failing to provide information or report a change of circumstances, in accordance with the regulations, and is not a fraudulent overpayment.

Fraud – this is an overpayment that has occurred after 31 March 1993, when the claimant has, in respect of the overpayment

• been found guilty of an offence
• admitted an offence in an interview under caution, or
• agreed to pay an administrative penalty

Other – this is an overpayment, which does not fit into any of the other categories. Examples could be when an LA makes a payment in good faith, but a change, such as an adverse decision in a judicial review, results in an overpayment; or, an award of benefit does not take into account any income subsequently paid as arrears, for instance when a claimant’s earnings increase retrospectively and they receive a lump sum payment of arrears or as a result of entitlement to another benefit commencing or increasing.

This category of overpayment attracts subsidy at the rate of 40% in 2009/10. For further information, see HB/CTB Overpayments Guide, Classification and recoverability section.
ii LA error – this is an overpayment which has arisen from a mistake being made. This may be in the form of an act or omission made by the LA or someone acting on their behalf, for example when an LA miscalculates the amount of HB or CTB entitlement. This classification is not appropriate if the claimant, their appointee or agent, or the person to whom the benefit was paid, caused or materially contributed to the mistake, act or omission.

iii Administrative (Admin) delay – this is an overpayment arising when

- a person notifies a change of circumstances, and
- the LA does not make a decision on that change of circumstances or suspend the benefit before the claimant’s next payday, and
- the delay was not due to a mistake, whether in the form of an act or omission, made by the LA or someone acting on their behalf, and
- the delay was not caused or contributed to by the claimant, a person acting on the claimant’s behalf, or any other person to whom the benefit was paid.

When all of the information needed to process a change of circumstances that would reduce a claimant’s HB/CTB entitlement is received, the LA must action it before the claimant’s next payday. If it is not actioned before the next payday, any overpayment from the first day of the benefit week following receipt of all of the information should be classified as LA official error or Admin delay (depending on whether the delay was caused by a mistake, in the form of an act or omission).

The subsidy for LA errors and Admin delays are determined by thresholds and may be nil, 40% or 100% subsidy in 2009/10, see LA error/Admin delay thresholds in 2009/10 later in this section.

iv Technical overpayment – this type of overpayment arises when rent rebate or CTB is credited in advance of entitlement accruing where a change of circumstances or a recoverable overpayment causes that entitlement to be removed or reduced. An overpayment that starts in the benefit week following the week in which the change is disclosed to, or the overpayment is identified by, the LA, is a Technical overpayment. Any overpayment covering the period before the ‘technical’ part of the overpayment should be classified in the ‘normal’ way, eg Claimant error/Fraud.

The classifications of LA error and Admin delay take priority over the Technical overpayment classification. This is because LA errors and Admin delays are genuine overpayments on which a decision on recoverability is required, whereas Technical overpayments are just adjustments to the Rent or Council Tax account. An overpayment falling into either of the LA error or Admin delay definitions should be classified accordingly. For example, if a claimant reports a change and the LA makes a mistake or delays in processing the change, which results in CTB or rent rebate being credited against the claimant’s account for a longer period than should have been, this would be an LA error or Admin delay and not a Technical overpayment. The Technical overpayment classification would only begin after the LA has stopped the LA error or Admin delay from continuing. This could be following the claim being suspended or the change being processed.

This category of overpayment is ineligible for subsidy in 2009/10.
v Excess CTB – this type of overpayment arises from the reduction in a claimant’s CT liability, eg a delayed award of transitional relief, a reduction in a property’s banding following an appeal or a late award of discount. It is ineligible for subsidy in 2009/10.

vi Indicative Rent Level (IRL) overpayment – this type of overpayment arises because an IRL exceeded the maximum rent payable. It is eligible for 100% subsidy in 2009/10, see paragraph 9.18.

vii Recovered IRL overpayment – this type of overpayment arises because an IRL exceeded the maximum rent payable, but it has been recovered. It is ineligible for subsidy in 2009/10.

eviii Duplicate overpayment – this type of overpayment arises from a duplicate payment following alleged non-receipt, loss, theft or destruction in cases where the original payment has been cashed. It is eligible for 25% subsidy in 2009/10. See Duplicate overpayments later in this section.

ix Departmental error – this type of overpayment arises from a mistake, whether in the form of an act or omission, made by an officer of the DWP or Her Majesty's Revenue and Customs (HMRC). This classification is not appropriate if the claimant, their appointee or agent, or the person to whom the benefit was paid, caused or materially contributed to the mistake, act or omission. Such overpayments can occur, for example, on initial processing of claims, eg incorrect local office assessment of Income Support (IS) entitlement or incorrect notice of entitlement to the authority. This category of overpayments is eligible for 100% subsidy in 2009/10, see paragraph 9.18.

x Recovered Departmental error – this type of overpayment arises from mistake whether in the form of an act or omission made by an officer of the DWP or HMRC, but it has been recovered. This category of overpayment is ineligible for subsidy.

9.12 It is not necessarily a Departmental error if the DWP fails to pass information on to LAs regarding changes in the claimant’s circumstances. This is because the claimant has a duty to report any changes that may affect their entitlement to HB or CTB to the LA that administers their benefit. Even if a claimant has notified the DWP of a change, they still have a duty to report it to the LA.

9.13 An overpayment arising after the DWP has notified the LA may be classified as LA error or Admin delay, because once the LA is aware of a change they are expected to act on it. However, this will all depend on the information that is sent by the DWP. If further information is still needed from the claimant, they are still contributing to the overpayment and therefore the overpayment would be classified as Claimant error.

9.14 There are however exceptions to the regulations that stipulate that a claimant must notify the LA of a change of circumstances, eg In and Out of Work (IOW) Processes and claimants who are also in receipt of Pension Credit. For further information, see HB/CTB Overpayments Guide, Classification and Recoverability section.
9.15 Subsidy on overpaid benefit in categories i-x of paragraph 9.11 is payable on the total amounts of overpaid benefit identified by the authority within the financial year. Authorities will not be required to deduct from their claim in that year – or refund in subsequent years – any amount of overpaid benefit which is later recovered, with the exception of certain Departmental error overpayments and overpayments arising from using an IRL, see paragraph 9.18.

9.16 It should be noted that subsidy is claimed on netted overpayments calculated in accordance with regulation 104 of the HB Regulations 2006 and regulation 89 of the CTB Regulations 2006. For further information, see Underlying entitlement later in this section.

9.17 In common with LA error overpayments, benefit overpaid as a result of Departmental error is only recoverable when the claimant or person to whom benefit was paid could reasonably have been expected to realise they were being overpaid at the time the overpayment occurred, see HB/CTB Overpayments Guide, Classification & Recoverability section.

9.18 Benefit overpaid because an IRL exceeded the maximum rent payable attracts 100% subsidy, but is recoverable. In both Departmental error and IRL overpayment cases, 100% subsidy is payable on the amount of overpaid benefit less any amount which is recovered, ie not necessarily on the amount which is originally identified. When an amount is recovered in 2009/10 and the overpayment was identified in an earlier year, the amount recovered in 2009/10 should be deducted from total benefit expenditure for 2009/10.

9.19-9.29

The treatment of overpayments on the 2009/10 subsidy claim form

9.30 From 2008/09, the subsidy claim form (MPF720A, B or C as appropriate) records overpayments in a new way, ie according to whether the overpayments relate to the current year or prior years.

Current year overpayments

9.31 Current year overpayments are those identified in the year relating to benefit paid in the year (including benefit paid in the year in respect of an earlier year).

9.32 They should be recorded in the appropriate total expenditure cells and the following overpayment/excess benefit cells

- 024 to 028 (non HRA rent rebate in England and Wales; all rent rebates in Scotland)
- 062 to 066 (HRA rent rebate in England and Wales)
- 106 to 112 (rent allowance), or
- 145 to 150 (Council Tax Benefit)
**Prior year overpayments**

9.33 Prior year overpayments are those identified in the year relating to benefit paid in an earlier year.

9.34 They should be recorded in cells

- 029 to 033 (non HRA rent rebate in England and Wales: all rent rebates in Scotland)
- 067 to 071 (HRA rent rebate in England and Wales)
- 113 to 119 (rent allowance), or
- 151 to 156 (Council Tax Benefit)

Prior year overpayments should not be recorded on the total expenditure cells of the 09/10 claim.

**Example**

£100 is paid in an Old Scheme rent allowance case and is recorded in cell 102 (expenditure on that part of the weekly eligible rent at or below the rent officer’s determination on a claim) of the 2008/09 subsidy claim.

In 2009/10 it is discovered that £40 of the £100 paid was an eligible overpayment.

£40 should be recorded in cell 116 (eligible overpayments from a prior year) of the 2009/10 claim. This will ensure that the £40 correctly attracts 40% subsidy.

The calculation at cell 120s ensures the subsidy claimed in 2008/09 is adjusted.

**LA error/Admin delay thresholds in 2009/10**

9.50 An initiative was introduced from April 2004 to allow LAs to receive subsidy according to the level of their LA error overpayments when compared to the total amount of correct benefit payments they make. This now includes Admin delay overpayments.

9.51 The level of subsidy that LAs may claim for LA error and Admin delay overpayments in 2009/10 is determined by thresholds, expressed as a percentage of total correct payments. The thresholds are

- **Lower threshold** 0.48%
- **Upper threshold** 0.54%

The subsidy rates are shown overleaf.
### Subsidy

(9.51)-9.72

<table>
<thead>
<tr>
<th>(9.51) Where the LA error/Admin delay overpayments are...</th>
<th>Subsidy rate for the total LA error/Admin delay overpayments</th>
</tr>
</thead>
<tbody>
<tr>
<td>...less than or equal to 0.48% of the expenditure attracting 100% subsidy</td>
<td>100%</td>
</tr>
<tr>
<td>...greater than 0.48% but less than or equal to 0.54% of the expenditure attracting 100% subsidy</td>
<td>40%</td>
</tr>
<tr>
<td>...greater than 0.54% of the expenditure attracting 100% subsidy</td>
<td>nil</td>
</tr>
</tbody>
</table>

9.52 For the calculation of the percentage LA error/Admin delay, correct payments are defined as payments for which full (100%) subsidy is payable. This includes Rent Rebates, non-HRA Rent Rebates, Rent Allowances and CTB and incorporates any backdating that has been properly undertaken.

9.53 LA error overpayments are only recoverable if the claimant, or their representative, could reasonably have been expected to realise they were being overpaid. Under these circumstances, LAs entitled to subsidy for LA error overpayments will keep any amount recovered without any loss of subsidy.

* HB Reg 100(2), CTB Reg 83(2) *

9.54-9.69

**Backdated payments and overpayments**

9.70 Backdated payments are sometimes found subsequently to have been overpayments. From April 2004 all backdated payments which are later found to have been overpayments should be recorded, for subsidy purposes, as the appropriate type of overpayment.

9.71 The mechanics of the claim form will effect the deduction of the full amount of overpaid benefit from the total benefit expenditure figure. In the case of Departmental error overpayments, the figure to be deducted will be the amount of any Departmental error overpayments recovered in the financial year.

9.72 Authorities should include the whole amount of overpaid benefit identified in 2009/10 relating to both the current and any previous year(s) in the figure for total overpaid benefit under the relevant overpayments category, eg LA error, so that the appropriate rate of subsidy can be claimed.
9.73 It will often be the case that a portion of the overpaid benefit identified in the year of the subsidy claim (year A) was in fact paid in a previous financial year (year B) and has already attracted subsidy. Authorities should identify the correct overpayment category and claim the appropriate rate of subsidy for the year in which the subsidy claim is made (year A).

9.74-9.89

**Underlying entitlement**

9.90 Regulations state that in calculating the amount of a recoverable overpayment, you must take account of any underlying benefit entitlement that existed throughout the period of the overpayment.

*HB Reg 104, CTB Reg 89*

9.91 When overpayments have occurred, the overpayment equals the difference between the benefit already paid and any underlying entitlement. Subsidy should be claimed on the overpayment at the appropriate rate. In some cases this will be nil. The underlying benefit entitlement will attract subsidy at the rate claimed for correct benefit payments (100% for 2009/10).

9.92 As a general principle, subsidy is not payable twice in respect of the same expenditure over the same period. When an overpayment has arisen and benefit is subsequently awarded for the same period, subsidy in respect of the overpayment should only be claimed on the net overpayment.

9.93 The following examples assume no other relevant factors are involved.

**Example 1**

A claimant is in receipt of £100 HB a week. The LA is then informed that the claimant started full-time work two months ago. Underlying entitlement is considered, but the LA establishes that the claimant would not have been entitled to any HB for the period of the overpayment. The overpayment is therefore £100 a week, which has been classified as ‘Fraud’ error. The subsidy that should be claimed is

<table>
<thead>
<tr>
<th>Subsidy</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Underlying Entitlement</strong></td>
</tr>
<tr>
<td>Overpayment Amount</td>
</tr>
<tr>
<td>40% of £100 = £40</td>
</tr>
<tr>
<td><strong>Total Subsidy</strong></td>
</tr>
</tbody>
</table>

Total Subsidy = £40 per week
Subsidy

Example 2

A claimant is in receipt of £100 HB a week. The LA is then informed that the claimant started work two months ago. Underlying entitlement is considered and it is discovered that the claimant would have been entitled to £50 HB a week. There is an overpayment of £50 a week, which has been classified as ‘Claimant error’. The subsidy that should be claimed is

<table>
<thead>
<tr>
<th>Subsidy</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Underlying entitlement</td>
<td>£50</td>
</tr>
<tr>
<td>Overpayment amount</td>
<td>£50</td>
</tr>
</tbody>
</table>

\[ \text{Total Subsidy} = 100\% \text{ of } £50 = £50.00 \]
\[ \text{Total Subsidy} = 40\% \text{ of } £50 = £20.00 \]

\[ \text{Total Subsidy} = £70.00 \text{ per week} \]

Note: When completing the final subsidy claim form, fraud and claimant error overpayments are to be entered in the appropriate ‘Eligible’ overpayment cell.

Example 3

A claimant is in receipt of £100 HB a week. The claimant informs the LA that he is starting work the following week. The LA does not action the change of circumstances so there is an overpayment. Underlying entitlement is considered and it is discovered that the claimant would have been entitled to £25 HB a week. The overpayment is £75 per week and is classified as ‘LA error’. The subsidy that should be claimed is

<table>
<thead>
<tr>
<th>Subsidy</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Underlying Entitlement</td>
<td>£25</td>
</tr>
<tr>
<td>Overpayment Amount</td>
<td>£75</td>
</tr>
</tbody>
</table>

\[ \text{Total Subsidy} = 100\% \text{ of } £25 = £25.00 \]
\[ \text{Nil due to LA error} = \text{Nil} * \]

\[ \text{Total Subsidy} = £25.00 \]

* The LA error overpayment may attract subsidy under the LA error threshold scheme. However, for illustrative purposes this is omitted from this example.

Nutting spanning two financial years

For netting that spans more than one year, it will be necessary to adjust the 2009/10 subsidy claim to reflect the amount of subsidy already claimed in a previous year. This could occur where an overpayment on review is subsequently found to be

i correctly paid, or

ii a backdated payment
9.101 As correctly paid and backdated payments attract 100% subsidy from April 2004, an overpayment that is subsequently found to be either correctly paid or backdated can be treated, for subsidy purposes, as shown in the example below. In the previous year the reduced rate of subsidy applicable to the category of overpayment will have been claimed. On review in the subsequent year the balance of subsidy up to 100%, will need to be included in the subsidy claim.

9.102 In the case of paragraph 9.100 i and ii, to claim the shortfall in subsidy it will be necessary to reduce the appropriate overpayment cell in the 2009/10 subsidy claim by the amount that was previously claimed as an overpayment, but which is now found to be correctly paid (or backdated) and eligible for 100% subsidy.

**Example**

Overpayment of £100 rent allowance identified in a previous year and 40% subsidy claimed.

In 2009/10 £75 of the overpayment is found to be correctly paid (as a normal payment or a backdated payment), and eligible for 100% subsidy. The appropriate overpayment cell is reduced by £75. The mechanics of the claim form are such that this will result in the shortfall in subsidy between the 40% already claimed and 100% being included in the overall subsidy total.

**Note:** There are unlikely to be instances when an overpayment previously categorised as fraudulent is subsequently found to have been correctly paid, or a backdated payment.

9.103-9.109

**HB paid to Crown tenants**

9.110 HB should not be awarded in cases when the landlord’s interest is held by a Government department. These cases are Crown tenancies and HB is not legally payable. HB paid erroneously to Crown tenants should be classified as an overpayment. The appropriate rate of subsidy depends on the kind of overpayment it is.

9.111-9.119

**Duplicate payments**

9.120 Duplicate payments attract a lower rate of subsidy in cases when the original instrument has been, or is subsequently, encashed. Duplicate payments can be made following

- alleged non-receipt
- loss
- theft
- destruction of an instrument of payment
In such cases, subsidy on the duplicate payment is payable at 25%, the original payment attracts subsidy at the appropriate rate. There may be cases when a duplicate payment is issued and the original instrument is found to be uncashed. Uncashed payments do not receive subsidy, see HB/CTB Subsidy Guidance Manual Section 8: Uncashed payments of HB and CTB.

LAs should ensure that, when a duplicate payment has been issued and the original is found to be uncashed, subsidy at the appropriate rate is claimed on the amount once only.
