-----------------------------------	----------------

until further notice or unless revoked by the Secretary of State.

Dated: 24 February 2010

A handwritten signature in black ink, consisting of several loops and a long horizontal stroke.

Officer of the Department for
Environment, Food and Rural Affairs

Conditions attached to this authorisation

1. This authorisation is valid for multiple consignments and the net weight of the imported material per consignment must not exceed 15 kg.
2. Each consignment must be accompanied by:
 - a copy of this authorisation
 - commercial/shipping documents providing the name and address of consignor and consignee, type of product and quantities;
3. Each consignment must be accompanied by a declaration (see note i) signed by a veterinarian or director of the laboratory/establishment confirming that:
 - the products are **not** derived from animals known or suspected to be infected with a pathogen which causes a notifiable disease to which the animals are susceptible according to European legislation* or the animal health legislation of the exporting country;
 - nor do the products originate from animals in a premises or region or zone of a country that is subject to official restrictions due to a notifiable disease to which the animals are susceptible according to European or other national animal health legislation;

*Council Directive 82/894/EEC of 21 December 1982 (as amended) on the notification of animal diseases within the Community.
4. The packaging must be clearly labelled to indicate the general authorisation number under which the product is imported. The label should also state that material is for importation into the UK for research purposes.
5. The products must remain in their original wrapping at all times until their arrival at destination premises.
6. All packages must be taken directly from the point of entry into the UK to the destination premises.
7. The consignment, or its packaging, must not be allowed to come into contact with any ruminating animals, swine, poultry or horses.
8. None of the material to which this authorisation relates shall be used for human consumption under any circumstances.
9. On completion of the testing, any residues of the material and the remainder of the packaging must be either incinerated at a premises that has been approved for the disposal of animal by-products (see note 5), autoclaved or re-exported (see note 7).

10. If there is an outbreak of a notifiable/reportable disease in the exporting country/countries, the conditions of this authorisation may change. In this event, you should contact Animal Health at the address below. For information on animal diseases please see:
<http://www.defra.gov.uk/foodfarm/farmanimal/diseases/atoz/notifiable.htm>
11. If the product is to be supplied to another establishment for further research, the importer must make the recipient aware of the requirement to destroy or re-export the residues of the product (see notes 5 and 7).
12. Products imported under this authorisation are for research, education or museum use only. A complete record/audit trail must be kept by all parties that handle the material. Products must NOT under any circumstances be supplied to a third party as a commercial transaction.
13. If at any time you are unable to meet the conditions on the authorisation; or any unlicensed animal pathogen is discovered in the imported material, work must be suspended immediately and the facts reported at once to the local Animal Health Office. <http://www.defra.gov.uk/animalhealth/about-us/contact-us/search/>
14. The importer is responsible for ensuring that the person(s) sending the material to the UK are aware of the conditions of this authorisation.
15. You must inform the local Animal Health Office if you intend to use this authorisation (see note 8).
16. Any products and records relating to the product imported under this authorisation shall be made available if so required for inspection by an Officer of Animal Health at any place nominated by him/her for such inspection. The importer or his agent shall afford all assistance necessary to such an officer to enable him/her to carry out the inspection in such a manner as he/she shall determine and the importer shall be responsible for meeting any costs of carrying out such an inspection.

NOTES

- i. Please see guidance and the declaration template
- ii. It is the responsibility of the importer to ensure that the exporter provides the necessary declaration referred to above.

GENERAL NOTES ON USING GENERAL AUTHORISATIONS

1. Nothing in this authorisation gives exemption from any prohibition or restriction imposed by any other legislation including: the Official Feed and Food Control (England) Regulations 2006, the provisions of the Food Safety Act 1990 and Regulations made under it, the Animal By-Products (Identification) Regulations 1995, the Marketing Authorisations for Veterinary Medicinal Products Regulations 1994 the Control of Substances Hazardous to Health, International Air Transport Association, the Convention on International Trade in Endangered Species or by any regulation superseding or amending the same.

2. This authorisation is granted under animal health import legislation and gives no exemption from any prohibition, regulation or restriction imposed by any other Government Department or Agency.
3. Please note that while this authorisation is current at the time of its issue, conditions can be subject to frequent change and importers are advised to check the latest position with the Animal Health Import Team (see below).
4. A list of approved incineration premises is available on our website:
<http://www.defra.gov.uk/foodfarm/byproducts/incinerators/index.htm>
5. Further information on the importation of Specified Animal Pathogens is available from the Defra website at:
<http://www.defra.gov.uk/foodfarm/farmanimal/diseases/pathogens/index.htm#list>
A copy of the Specified Animal Pathogens Order 2008 can be obtained from the following website:
http://www.opsi.gov.uk/si/si2008/uksi_20080944_en_1
6. This authorisation only deals with animal products. If you wish to import live animals of the species listed above, you should contact Animal Health at address below.
7. If the material is to be re-exported, you should ensure that the importing country will permit entry and that you have the correct paperwork to accompany the consignment.
8. Notification procedures are under review and may be subject to change. Please see guidance note for current process.

CAUTION

It is the importer's responsibility to ensure that any import covered by this authorisation complies with the terms and conditions as set out.

Any breach of any conditions attached to this authorisation will constitute an offence against the Animal Health Act 1981.
