**Update on final Orders under the Care Act 2014**

**Contents**

The final secondary legislation which will underpin the Care Act is due to be completed in advance of implementation in April 2015. This note summarises those final technical legal orders to provide information to local authorities and other interested stakeholders, and annexes or links to the statutory instruments for ease of reference.

The note also provides clarification on certain matters related to the statutory guidance for the Care Act. Following the publication of the final Care and support statutory guidance in October 2014, the Department has received a number of requests for clarification on certain passages. This note clarifies the issues raised and sets out how the statutory guidance will be updated to reflect this in due course. None of these changes amend local authorities’ statutory obligations; they serve only to clarify intent in areas where this has been requested.

Summary of Orders under the Care Act 2014

Transitional Order (see Annex A)

1. Together with the Primary Consequential Order (see below), the transitional order will set out details of how the transition from the old to the new legislative framework will work. The basic approach is that:

   i. People who are already receiving services and support (including direct payments) prior to 1 April 2015 will continue to receive such support and services under the old law until the local authority completes a review of that person’s case, at which point the new law will apply in respect of that person.

   ii. In practice, such a review can have one of two basic outcomes:

      a. the local authority concludes the person does not have care and support needs that they are required to meet under the Care Act (for example because needs do not meet the eligibility criteria), and the authority does not intend to meet any of the person’s other needs; or

      b. the local authority, having concluded that the person does have needs and that they are going to meet some or all of these needs, starts to do so (assuring itself that existing arrangements fully comply with the Care Act, making any adjustments as necessary).

   iii. Reviews of existing care and support plans will usually take place at least annually. Therefore, it will usually be most pragmatic for the transition under the Care Act to take place at the point of the planned, regular review. In any event, local authorities must undertake a review within one year of the implementation of the Care Act (i.e. before 1st April 2016). If they do not, the Care Act will apply as of this date and anyone who has not been reviewed will be treated as having their eligible needs met under the Care Act until the local authority does, in fact, complete a review and reach a decision in accordance with the Care Act. We will make clear in guidance that local authorities will be at risk of increasing violation of their duty to review regularly the longer such a situation continues.

   iv. We will also make clear in guidance that local authorities must not use existing legislation to underpin care and support planning or provision after 1st April 2015 in respect of cases other than these transitional cases. The purpose of the saving in the Order is to enable local authorities only to continue with existing arrangements pending a review, so as to plan a managed transition over the first year.

Commencement Order (see Annex B)

2. This is the fourth commencement order under the Act. We have already commenced certain relevant regulation-making powers in Part 1 of the Care Act in October 2014, in order to make and lay the regulations in Parliament. This order will commence most of the remaining provisions of Part 1 in April as well as provisions relating to care standards, effectively bringing the new care and support system into force from then.
3. The majority of the provisions in the order come into effect on 1 April 2015, but the market oversight provisions commence on 6 April to align with the start of the new financial year, since they impact on business.

4. This order also formalises the previously announced delay to the commencement of section 18(3) of the Act insofar as it creates a duty to meet needs by providing or arranging care home accommodation. Section 18(3), read with section 18(1), gives people with assets above the financial limit (“self-funders”) the right to have their eligible needs met by the local authority. The Department proposes to undertake further work to explore the impact on the social care market of this provision insofar as it relates to care homes, and announced in our response to the consultation on draft regulations and guidance our intention to delay implementation for one year to April 2016 in this regard. The provision in section 18(3) will, however, be commenced on 1 April 2015 in relation to cases where needs are to be met by all other types of care and support.

5. The elements of the Care Act relating to funding reform are intended to come into force from April 2016 and are subject to the outcome of the ongoing consultation, so this will not be the subject of this commencement order.

6. The Order will be made once the Primary Consequential Order has been approved by Parliament (see below).

Primary Consequential Order

7. Broadly speaking, the amendments in this Order come in two forms:
   i. Disapplication of current social care legislation in relation to England which will be replaced by the Care Act;
   ii. Removal of references to current social care legislation in relation to England in other Acts and replacing these with references to reflect the Care Act.

8. There are also some general savings for transitional purposes, although detailed transitional provisions will be in the separate order described above.

9. The Order also makes some amendments further to the Children and Families Act 2014. Because current legislation relating to carers will be partially replaced by each Act, it makes sense to simply do a single order dis-applying this legislation in its entirety.

10. As is usual with orders amending primary legislation, this is subject to the affirmative Parliamentary procedure and so remains subject to Parliamentary approval. The draft order to be considered by Parliament can be found here:
Secondary Consequential Order

11. This is similar to the primary consequential order, but relating to necessary amendments to secondary legislation (e.g. regulations) rather than primary legislation. Broadly speaking, these amendments come in two forms:

i. disapplication of current social care legislation in relation to England which will be replaced by legislation under the Care Act;

ii. removal of references to current social care legislation in other legislation and replacing these with references to reflect the Care Act where relevant.

12. There are also some general savings for transitional purposes, although detailed transitional provisions will be in a separate order.

13. The Order was laid before Parliament on 11 March 2015 and can be found here:
http://legislation.data.gov.uk/uksi/2015/643/made/data.htm?wrap=true

Miscellaneous Amendments Order

14. This is a set of regulations making relatively minor amendments to other regulations already laid under Part 1 of the Care Act 2014. Amendments to five sets of regulations are proposed:

i. Care and Support (Charging and Assessment of Resources) Regulations 2014
Uprating of certain allowances in line with the existing practice on annual uprating of figures, plus some minor corrections of cross references and terminology in two of the provisions and clarification as to the meaning of an expression.

ii. Care and Support (Deferred Payment) Regulations 2014
Change to make clearer that the provisions concerning disposable income do not apply if the local authority ceases to make deferrals.

iii. Care and Support (Direct Payment) Regulations 2014
Change to the list of local authorities which may make a direct payment for accommodation in a care home (to omit three authorities), to reflect developments in the pilot scheme relating to this.

iv. Care and Support (Ordinary Residence) (Specified Accommodation) Regulations 2014
A change to clarify that the ordinary residence deeming principles apply only from the date a person living in specified accommodation receives care and support under the Act. The purpose of the amendment is to ensure that the deeming principles do not apply when a person is living in a specified type of accommodation (such as a care home) before they begin to receive care and support from the local authority. In such a situation the normal ordinary residence rules should apply. That is the position under the current legislation and it has always been the intention that the Care Act should not change this.
v. **Care and Support (Cross-border Placements) (Business Failure Duties of Scottish Local Authorities) Regulations 2014**

A technical change to the definition of “care provider” (in Scotland) for reasons of greater accuracy.

15. The Order was laid before Parliament on 11 March 2015 and can be found here: http://www.legislation.gov.uk/uksi/2015/644/contents/made
Clarifications to statutory guidance under the Care Act 2014

16. This section of the note outlines proposed clarifications to the statutory guidance, which will be made when the guidance is updated later in 2015. The points referred to below do not constitute new policy or a change of statutory obligations on local authorities – they are intended only to clarify the intent of existing provisions, responding to feedback and requests for additional detail.

Transition to the new statute

17. The statutory guidance will be updated to reflect the detail of the temporary legislative framework for transition from old care and support law to the Care Act, set out in the Care Act 2014 and Children and Families Act 2014 (Consequential Amendments) Order 2015 (“the Primary Consequential Order”) and the Care Act 2014 (Transitional Provision) Order 2015 (“the Transitional Order”) and described above.

18. Although the Primary Consequential Order disapplies the old care and support law in England, it does enable those who are in receipt of services immediately before 1st April 2015 to continue to receive those services under the old law until the Care Act applies to them. The Transitional Order sets out the circumstances under which Care Act is to apply to this transitional group; that is, either from the point when the local authority completes a review of that person’s case, or from 1st April 2016, whichever is earlier – see the “Transitional Order” section above for more detail.

19. Regarding transitional matters in relation to ordinary residence we will also clarify that:

- The extension of the deeming provisions to additional types of accommodation such as supported living will only apply from 1 April 2015. Where someone began to live in supported living before that date, the deeming rule in section 39(1) of the Act will not apply and their ordinary residence will be determined according to where they are actually ordinarily resident.
- Regardless of when an ordinary residence determination is made, the determination will be made in accordance with the law that was in force at the relevant date in respect of which ordinary residence falls to be determined. So, if ordinary residence is to be determined in respect of a period which falls before 1st April 2015, then the determination will be made in accordance with the 1948 Act. If, in respect of a period on or after 1st April 2015, then the determination will be made in accordance with the Care Act.
- In respect of any determination to be made on or after 1st April 2015 (whether to be made for the purposes of 1948 Act or Care Act), the new dispute procedure under the Care Act is to be followed.

20. Regarding transitional matters in relation to debt recovery, we will also clarify that:

- For debts that have accrued prior to the commencement of the Care Act 2014 and that would otherwise have been recovered under section 56 of the 1948 Act, the time period for
recovering that debt continues to be three years from the date on which the sum in question became due, as previously set out under section 56 of the 1948 Act. Similarly, the time period for recovering debts under section 17 of the 1983 Act applies in relation to debts that would otherwise have been recovered under that section.

- For any new debts that occur from April 2015, the time period to recover debts has been extended to six years from the date when the sum became due to the local authority. These are the respective “limitation” periods in respect of recovery. Where a debt is taking some time to be recovered, provided recovery proceedings have begun within the limitation period, enforcement can continue; if they have not, the debt must be written off.

**Delegation of powers**

21. We intend to clarify that the power to delegate functions in the Care Act does not supersede the pre-existing ability for NHS and local authorities to enter into partnership arrangements under section 75 NHS Act 2006. This means that local authorities can enter into partnership arrangements with the NHS in respect of their “health-related functions” (under the NHS Bodies and Local Authorities Partnership Arrangement Regulations 2000).

**Ordinary residence**

22. Some authorities have asked for further clarity with regard to local authorities arranging care and support out of area. We will make clearer in the guidance that the principle of ‘deeming’ ordinary residence applies where a local authority considers that an adult’s care and support needs can only be met if they are living in a specified type of accommodation (as currently set out in the guidance and regulations) in the area of another local authority, and that it is not necessary for the local authority to be arranging the accommodation in order for the deeming rules to apply.

23. We have also heard a request for guidance on the stipulation that the ordinary residence provisions apply only where a person’s needs “can only be met” by a specified form of accommodation, to avoid different interpretations amongst local authorities. We will amend the relevant section of the statutory guidance to make clearer that an absence of evidence that needs can *only* be met in a certain way is not the same as proof that there are other viable options.

24. We will also clarify that the local authority responsible for someone’s after-care under s.117(3) of the Mental Health Act 1983 (as amended by the Care Act) will be identified based on where the person is resident immediately before being detained under the Mental Health Act, if the patient’s ordinary residence immediately before being detained cannot be established.

**Charging and financial assessment**

25. To respond to a request for further clarification on capital limits and the minimum threshold, we will include a new paragraph and make changes to paragraph 24 of Annex B (Treatment of Capital) stating that local authorities have discretion to set their own capital limits in relation to adults receiving support in locations other than care homes, provided they are no lower than £23,250 for the higher limit and £14,250 for the lower limit.
26. We will also clarify paragraph 8.37 on the responsibilities of local authorities, stating that they must ensure an individual has a genuine choice when it comes to choice of accommodation. They must also ensure that at least one of the accommodation options provided by the local authority is within that person’s personal budget and they should ensure that there is more than one accommodation option available.

27. Regarding charging for support to carers, we will clarify that local authorities cannot charge the carer for certain services identified in their carer’s assessment, such as services provided to the adult so that the carer can have time away from the person they care for, so that they can stay on top of other aspects of their lives. Such services would be provided direct to the cared-for person, even though they may meet the needs of both parties.

28. Further clarification will be included on requesting local authority support to meet eligible needs, more specifically where the person’s resources are above the financial limit. A person’s entitlement to local authority support in meeting their needs may be dependent on the request having been made. This reinforces the importance of the person, and any carer, advocate or other person they wish to involve, being made aware of this ability and the consequences for their care and support.

29. A number of amendments will be made to Annex C (Treatment of Income) as follows:
   a) paragraph 16 – to state that local authorities are only required to take into account income from the benefits listed in the paragraph where care and support is arranged in a care home;
   b) sub-paragraph 16(n) – to clarify that Working Tax Credit should be disregarded in the calculation of income for care and support arranged other than in a care home;
   c) sub-paragraph 25(b) – to clarify that, in accordance with the treatment of income support claimants, if a person is drawing income from their pension fund which is less than 100% of the annuity the fund would yield, then a local authority should only apply notional income equivalent to 100% of the annuity that would be yielded and any actual income drawn should be disregarded to avoid double counting. This means that where a person draws income that is less than 100% of the annuity that would be yielded, the notional income is the difference between the amount drawn and 100% of the annuity that would be yielded. Where the income drawn is more than 100% of the annuity that would be yielded the actual amount is taken into account.
   d) sub-paragraph 28(b) – to clarify that Child Benefit must be fully disregarded with the exception of where accommodation is arranged under the Care Act in which the cared-for adult and child or young person both live;
   e) paragraph 33 – to clarify the age at which notional income should be applied where a person has a personal pension plan but has not purchased an annuity or is not drawing down the equivalent maximum annuity income that would be available from the plan. This is when the person reaches Pension Credit qualifying age; and,
   f) a new paragraph to state that where people are receiving care and support other than in a care home, any savings credit the adult receives should be fully disregarded.
The Secretary of State makes this Order in exercise of the powers conferred by sections 124 and 125(7) of the Care Act 2014.

Citation, commencement and interpretation

1.—(1) This Order may be cited as the Care Act 2014 (Transitional Provision) Order 2015 and comes into force on the day on which section 1 of the Act comes into force.

(2) In this Order—
   “the Act” means the Care Act 2014;
   “the 1948 Act” means the National Assistance Act 1948;
   “the 1983 Act” means the Health and Social Services and Social Security Adjudications Act 1983;
   “the 2001 Act” means the Health and Social Care Act 2001;
   “the 2015 Order” means the Care Act 2014 and Children and Families Act 2014 (Consequential Amendments) Order 2015;
   “relevant date” means, in relation to a person, the date on which Part 1 of the Act (care and support) applies to that person by virtue of article 2.

Transitional provision in respect of persons in receipt of services

2.—(1) Except as provided by this Order, Part 1 of the Act does not apply in the case of a person to whom, or in relation to whom, immediately before this Order comes into force, support or services are being provided, or payments towards the cost of support or services are being made.

(2) A local authority providing such support or services or making such payments must, before 1st April 2016, complete a review of that person’s case and from the time the local authority has completed that review, Part 1 of the Act will apply in respect of that person’s case.
(3) If a local authority fails to comply with paragraph (2), Part 1 of the Act applies in that person’s case with effect from 1st April 2016.

(4) In respect of a person to whom paragraph (3) applies, that person is to be treated as—

(a) having needs for care and support or support which meet the eligibility criteria under section 13(7) of the Act (the eligibility criteria);

(b) being entitled to have those needs met under the Act; and

(c) having complied with any requirements in or under the Act to enable the person to have those needs met,

until the local authority has completed a review in that person’s case.

(5) A local authority has completed a review in a person’s case when—

(a) they conclude that the person does not have needs for care and support or for support (as the case may be) in accordance with the Act;

(b) having concluded that the person has such needs and that they are going to meet some or all of them, they begin to do so; or

(c) having concluded that the person has such needs, they conclude that they are not going to meet any of those needs (whether because those needs do not meet the eligibility criteria or for some other reason).

Transitional provision in relation to enforcement of debts

3.—(1) Subject to paragraphs (3) and (4), a sum or charge to which paragraph (2) applies is recoverable under section 69 of the Act (recovery of charges, interest etc.) as if it were a sum due to the local authority in question under Part 1 of the Act.

(2) This paragraph applies to any sum or charge due under Part 3 of the 1948 Act (local authority services) or section 17 of the 1983 Act (charges for local authorities in England and Wales) to a local authority in England in respect of support or services (including a sum or charge which becomes due on or after the date on which this Order comes into force).

(3) Paragraph (1) does not apply to a sum or charge in respect of which proceedings for recovery have begun prior to this Order coming into force.

(4) A sum or charge is recoverable under paragraph (1) within the period within which it would, but for this article, have been recoverable under section 56 of the 1948 Act (legal proceedings) or, as the case may be, section 17 of the 1983 Act.

(5) Notwithstanding article 3(3) of the 2015 Order, neither section 56(1) of the 1948 Act nor section 17(4) of the 1983 Act apply in relation to a sum or charge which is recoverable under paragraph (1).

Transitional modifications in respect of deferred payments

4.—(1) Sections 34 and 35 (deferred payment agreements etc.) of the Act apply in the case of a person to whom, by virtue of article 2, Part 1 of the Act does not otherwise apply.

(2) Where sections 34 and 35 of the Act apply in a person’s case by virtue of paragraph (1), the Care and Support (Deferred Payment) Regulations 2014(6) (“the regulations”) apply with the following modifications—

(a) regulation 3(1)(a) of the regulations (local authority permitted to enter into a deferred payment agreement) shall have effect as if after sub-paragraph (i)—

(i) “or” were omitted, and

(ii) the following sub-paragraph were inserted—

“(ia)are being met by the provision of accommodation under Part 3 of the National Assistance Act 1948; or”; and

(6) S.I. 2014/2671.
regulations 5 (deferred amount and equity limit) and 6 (adults’ contribution) of the regulations shall have effect as if any sums due to a local authority under section 22 of the 1948 Act (charges to be made for accommodation) or section 54 of the 2001 Act (funding by resident etc. of more expensive accommodation) were an amount due under section 14 (power of local authority to charge) or 30(2) of the Act (cases where adult expresses preference for particular accommodation), as the case may be.

(3) Notwithstanding paragraph (1), where a deferred payment agreement under section 55 of the 2001 Act (power for local authorities to take charges on land instead of contributions) is in force in respect of that person—

(a) the regulations do not apply in respect of amounts due from that person to an authority under—

(i) section 14 of the Act; and

(ii) where that deferred payment agreement applies in respect of payments which are additional payments for the purpose of section 54 of the 2001 Act, section 30 of the Act; and

(b) the deferred payment agreement under section 55 of the 2001 Act shall continue to apply on the terms and conditions which pertained to it immediately before the coming into force of the regulations, save that from the relevant date in relation to the person concerned, references in that agreement to—

(i) accommodation provided under Part 3 of the 1948 Act must be read as including accommodation provided by a local authority under section 18 or 19 (duty or power to meet needs for care and support) of the Act (including anything provided in connection with that accommodation), and

(ii) relevant contributions must be read as including the amount due from the person to the local authority under section 14 or, as the case may be, section 30 of the Act.

Transitional provision relating to ordinary residence disputes

5. Any question as to a person’s ordinary residence arising under the 1948 Act and which is to be determined by the Secretary of State on or after this Order comes into force is to be determined in accordance with section 40 of the Act (disputes about ordinary residence or continuity of care).

6.—(1) Any person who, immediately before the relevant date in relation to that person, is deemed to be ordinarily resident in a local authority’s area by virtue of section 24(5) or (6) of the 1948 Act (authority liable for provision of accommodation) is, on that date, to be treated as ordinarily resident in that area for the purposes of Part 1 of the Act.

(2) Section 39 of the Act (where a person’s ordinary residence is) does not have effect in relation to a person who, immediately before the relevant date in relation to that person, is being provided with—

(a) non-hospital NHS accommodation (within the meaning of article 12 of the Health and Social Care Act 2008 (Commencement No. 15, Consequential Amendments and Transitional and Savings Provisions) Order 2010(7)) which has been provided since immediately before 19th April 2010;

(b) shared lives scheme accommodation (within the meaning of regulation 4 of the Care and Support (Ordinary Residence) (Specified Accommodation) Regulations 2014(8)) (“the 2014 Regulations”); or

(c) supported living accommodation (within the meaning of regulation 5 of the 2014 Regulations), for as long as the provision of that accommodation continues.

Transitional provision in relation to protecting property of persons admitted to hospitals etc.

7.—(1) Notwithstanding article 3(3) of the 2015 Order, any steps taken immediately before this Order comes into force by a local authority in England to prevent or mitigate the loss of, or damage to, property

(7) S.I. 2010/708.
(8) S.I. 2014/2828.
in accordance with section 48 of the 1948 Act (duty of Councils to provide temporary protection for property of persons admitted to hospitals etc.) are, on or after this Order comes into force, to be treated as taken in accordance with section 47 of the Act (protecting property of adults being cared for away from home).

(2) Any reasonable expenses incurred but not recovered before this Order comes into force by the local authority in England under section 48 of the 1948 Act may, on or after this Order comes into force, be recovered under section 47(7) of the Act.

**Transitional provision in relation to sight registers**

8. A person who is registered as blind or partially sighted in a register maintained by or on behalf of a local authority in England under section 29 of the 1948 Act (welfare services) immediately before this Order comes into force is to be treated on or after that date as being registered as, respectively, severely sight-impaired or sight-impaired in the register maintained by or on behalf of that local authority under section 77 of the Act (registers of sight-impaired adults, disabled adults, etc.).
