The Forestry Commission has received an application under section 25 (1b) of the Countryside and Rights of Way Act (the Act) for a direction to exclude the public from the site indicated on the attached map, in order to carry out timber harvesting operations.

Having considered the application, the Forestry Commission now proposes to give a direction on the site that would last for longer than 6 months continuously for 230 days between the 28/04/2015 and 01/03/2020. The Act requires us to consult publicly on all such proposals for 'long-term directions'.

This is a summary of our proposal, explaining the reasoning in support of our proposal. It is accompanied by a map of the site which can be seen on the Open Access website:

Full Exclusion of Public access

### **ADDITIONAL INFORMATION TO SUPPORT THE APPLICATION FOR OUTLINE DIRECTION OF LONG TERM CLOSURE**

Matterdale is a large site with significant area of wind blow and very wet ground coupled with the power line through the site. The wet areas and wind blow limit access around the site. The timber extraction is all coming back to one central point such that this area will be in use throughout the work. Given these factors it is not obvious how to split the site into multiple shorter closures.

If, following consultation, we decide to give a long-term direction, we must formally review the decision, not more than 5 years after it is given. We may also revoke or vary the direction at any other time, if new evidence comes to light showing that the circumstances have changed.
