Innovate UK
The UK's innovation agency
Innovation creates economic growth. But it does not happen on its own.

Since 2007, we have invested more than £1.5bn in innovation.

£3bn: In business and partner contributions.
£600m: Of investment in innovation.

We have helped 5,000 companies.

Adding an estimated £2.7bn to the UK economy
Leading to £7bn extra sales.
Over £6bn from nanotechnology to life sciences.
Over £5bn from digital industries to manufacturing.

£1.2bn in added value to UK business over 10 years... and over 4,200 extra jobs.

90% of firms winning Knowledge Transfer Partnerships (KTP) said that winning the funding had
improved their business... Two thirds saw improvements as a result.

In Knowledge Transfer Partnerships (KTP), and over 4,200 extra jobs.

Public investment in innovation gives an excellent return.
£1 in supported innovation projects can lead to £5 in economic benefit.

Each £1 invested in KTP... returns around £9 of economic benefit.

We have £7.5bn to add value to the UK economy, leading to £35,000 new jobs and helping 5,000 companies.

In 2013/14 our Collaborative R&D Programme provided grants of around £170m.
