

Committed to growing our position in the Global Aerospace Economy

“The UK is at the cutting edge of aerospace technology with a world class supply chain that has made us one of the world’s leading aerospace nations. In order to protect and grow this position we need to secure the skills and people that will allow us to innovate and manufacture the new products and processes our customers are demanding.”

Mark Stewart (Chair) - General Manager & HR Director, Airbus

The key areas the employer-led partnership will be focussing on include:

- Introducing six masters level qualifications
- Developing Apprenticeship Trailblazer standards in 20 - 25 occupational roles
- Early careers strategy to get more young people interested in a career in the sector
- Improving supply chain skills
- Managing talent and protect expert knowledge

New Production Demand

Global fleet to double in the next 20 years.

Increasing Competition

The UK must compete on technical advantage.

Huge Growth Opportunity

Potential UK market exceeds \$1tn.

Significant Investment

Industry and government in partnership to keep the UK a world leader in aerospace.
