General Notes

Layout and presentation – Entries in each section (other than in section 5) are listed in alphabetical order. Each entry is prefaced by a reference number, which should be quoted in all correspondence or enquiries.

Further notes precede each section, where appropriate.

Accuracy of publication – Details published of applications reflect information provided by applicants. The Traffic Commissioner cannot be held responsible for applications that contain incorrect information.

Our website includes details of all applications listed in this booklet. The website address is: www.gov.uk

Copies of Applications and Decisions can be inspected free of charge at the Office of the Traffic Commissioner in Leeds.
Section 1 – Applications Received

Inspection of licence applications can be requested under the provisions of Regulation 9 of the Goods Vehicles (Licensing of Operators) Regulations 1995 by anybody who holds statutory objector status. Applications may be inspected free of charge at the Office of the Traffic Commissioner in Leeds by any person who carries written authorisation to act in that capacity.

Objections against published applications may be made in writing by a Chief Officer of Police, a local authority, a planning authority or a prescribed trade union or association within 21 days of the date on which notice of an application is published in Applications and Decisions. Objections must be made either on the grounds that any of the requirements listed in Section 13 of the Goods Vehicles (Licensing of Operators) Act 1995 are not met and/or that a nominated operating centre will be unsuitable for use as such. A copy of the objection must be sent by the objector to the applicant at the same time that it is sent to the Traffic Commissioner. The onus of proof in terms of the grounds on which an objection is lodged lies with the objector.

You may fax a copy of your objection to 0113 2488521 but please note that you must send the original signed document through the post.

Classification of Operator Licences – There are three classes of licence:

- A Restricted (R) licence authorises the use of a goods vehicle on public roads in Great Britain for the carriage of the licence holder’s own goods in the course of his trade or business. The licence holder cannot carry goods for other people for hire or reward;
- A Standard National (SN) licence allows the licence holder to carry both his own goods and goods for other people for hire or reward, on public roads in Great Britain. He can also carry his own goods on journeys abroad;
- A Standard International (SI) licence allows the licence holder to carry both his own goods and goods for other people for hire or reward. These activities can be undertaken both in Great Britain and on international journeys.

Section 3 – Schedule 4 Applications
Schedule 4 to the Goods Vehicles (Licensing of Operators) Act 1995 allows, in certain situations, the transfer of operating centres from one existing licence to either another existing licence or as part of a new licence application. A range of qualifying criteria has to be met, with approval at the Traffic Commissioner’s discretion. An important consideration in the process is any environmental history relating to the subject operating centre or any potentially adverse environmental impact resulting from the transfer. Legislation prevents any statutory objection against the Schedule 4 element of an application.

**New Applications (Section 3.1):** where the Traffic Commissioner has given a direction that the provisions of paragraph 2 of Schedule 4 shall apply, objections may only be lodged against the published application under Section 12(1)(a) of the 1995 Act, disregarding the suitability of the operating centre for use as such by the applicant as set out in Section 13(5)(d) of the Act.

**Variation Applications (Section 3.2):** where the Traffic Commissioner has given a direction that the provisions of paragraph 4 of Schedule 4 shall apply, objections may again only be lodged against the published application under Section 12(1)(a) of the 1995 Act unless that transfer can be accommodated without any overall increase in the existing overall vehicle/trailer authorisation on the receiving licence, in which case there is no statutory requirement to publish details of that application. However, **Section 3.3** does detail any such applications in order that interested parties are made aware of changes to authorised operators at listed operating centres

Section 5 – Public Inquiries

Note: anyone wishing to attend a public inquiry is advised to contact the Office of the Traffic Commissioner on 0121 609 6836, the day before the inquiry, to avoid unnecessary travel should the inquiry be adjourned for any reason.

A transcript of the taped proceedings of public inquiries (either in full or in part) may be ordered from the Office of the Traffic Commissioner. The cost of the transcript varies according to demand and size of content and the office will be able to advise on the scale of charges when an order is placed.

Appeals against any decision published in this section must be lodged with the Upper Tribunal – Administrative Appeal Chamber (Transport), 5th Floor, Rolls Building, 7 Rolls Buildings, Fetter Lane, London, EC4A 1NL not later than 28 days after the date of the letter conveying the Traffic Commissioner’s (or Deputy Traffic Commissioner’s) decision. Section 5.2 – Decisions Taken at Public Inquiries
Goods Vehicles (Licensing of Operators) Act 1995 ("the Act")

Decisions made in respect of the operator's licence held by Tajinder Singh

1. An adverse finding is made under Section 6 of the Act as the operator has been operating more vehicles than authorised.

2. Adverse findings are also made under Sections 26 (1) (a); 26 (1) (b); 26 (1) (c) (iii); 26 (1) (ca); 26 (1) (e); and, Section 26 (1) (f) of the Act.

3. The call-in letter cites a ground under Section 26 (1) (h) of the Act referring to material change, namely the operator no longer being of good repute, being professionally competent or of the appropriate financial standing. Formally, the ground is not made out as the licence is a restricted operator’s licence and the issue should have been of fitness, instead of good repute; professional competence is not an issue on which I can make a formal finding; and finally, the requirement with a restricted operator's licence is for sufficient financial resources, not financial standing. For the avoidance of doubt, the operator has more than adequate financial resources.

4. The operator’s licence is revoked with effect from 00:01 hours on 11 April 2015. It follows that the variation application is refused.

5. Tajinder Singh is disqualified from holding or applying for an operator’s licence in any traffic area in any capacity including as a sole trader, director or partner. The disqualification is for a period of six months from the date of revocation of the operator’s licence, Section 28 of the Act.

GV - S26 - Licence revoked with immediate effect
GV - S28 - Linda George Kempson is disqualified indefinitely from holding or applying for an operator's licence in any capacity including as a sole trader, partner, director or indeed in any capacity.

Licence holder no longer satisfies the requirement to be of good repute and professional competence under S27 (1)(a) and S13A(2)(b) of the Act.
Linence holder no longer satisfies the requirement of financial standing under S27(1)(a) and S13A(2)(b) of the Act
Licence holder no longer satisfies the requirement to have a stable establishment under S27(1) (a) and S13A(2)(b) of the Act
Transport Manager David Benn Boulter has lost both his repute and professional competence as TM.
Also David Benn Boulter is disqualified from holding or applying for a position as a Transport Manager anywhere within the EU for an indefinite period of time
GV - S26 - Licence revoked with immediate effect

The Traffic Commissioner reached the following decision:

• The application for an operator's licence is granted as applied for.
• The Transport Manager, Jonathan Taylor, retains his repute and professional competence.
• An undertaking has been given and is recorded on the licence as follows:

In circa 9 months, the operator will have an audit conducted by the R.H.A. of maintenance systems and documentation, and additionally, of drivers hours and records compliance. The audit is to be copied to the Office of the Traffic Commissioner’s office in Birmingham and your local DVSA office.

GV - S17 - Application granted as applied for, with undertakings
The Deputy Traffic Commissioner reached the following decision:

The application is granted in modified form for one vehicle only. Three undertakings already agreed, as detailed below, are applied to this licence save the undertaking relating to the audit, this has been amended to the first audit being due within 9 months and the Deputy Traffic Commissioner requires another audit within 3 months of the first to be received at the Office of the Traffic Commissioner in Birmingham.

- Safety inspections will be pre-planned and never more than 6 weeks apart. The PMI reports will be fully and properly completed, show rectifications and be retained for at least 2 years.
- There will be a nil defect reporting system. Defect reports will show rectification and all reports will be retained for at least 2 years.
- Maintenance systems, maintenance documentation and vehicle inspections will be audited by a third party within 9 months and a further audit within 3 months following the submission of the first audit report. The audit report will be prepared, acted upon and retained for at least 2 years. A copy of the report will be forwarded to the Office of the Traffic Commissioner, Birmingham, within 14 days of its receipt, together with the Operator’s proposals for implementing its recommendations.

2 further undertakings, as follows, are agreed and attached to this licence:

- That Nichola Bagguley successfully completes a Driver’s Hours and Tachograph course within 3 months. Proof of this is to be sent to the Office of the Traffic Commissioner, Birmingham, within 14 days of the course.
- That Victoria Smith will remove herself from the Operator’s Licence of OD0266044 (Stephen Crook and Partners) as Transport Manager within 60 days if the date if this Public Inquiry.
