

Agriculture, Forestry and Fishing Sector

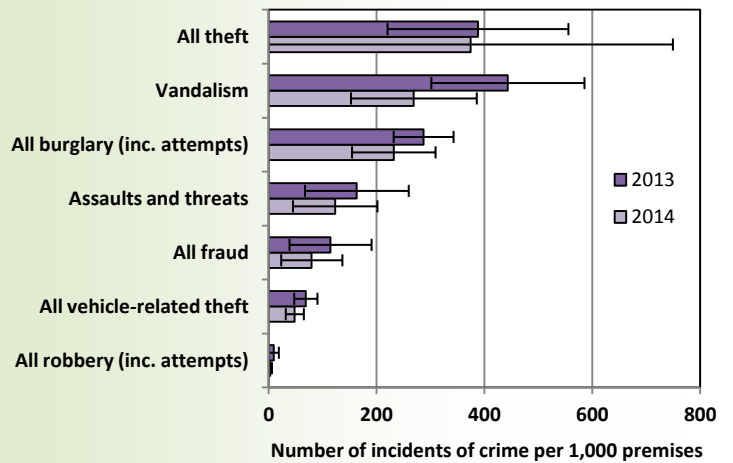

Crime against this sector is similar to 2013:

- This sector experienced the least crime compared to all CVS sectors surveyed in 2012, 2013 and 2014.
- Crime and victimisation rates for most crime types are smaller than in 2013, but most falls are not statistically significant.
- The proportion of premises that experienced metal theft fell by three percentage points between 2013 and 2014.

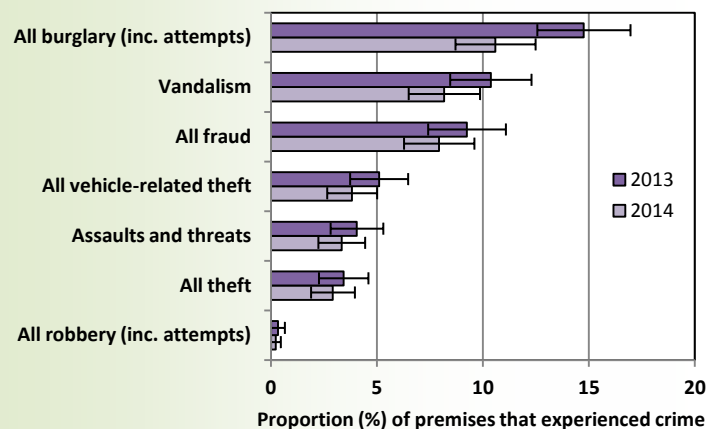

Theft and vandalism were the most common crime types in 2013 and 2014:

Crime rates (incidents per 1,000 premises)

Proportions of premises that are victims (%)

Experiences of crime (2014 CVS) and changes (compared to 2013 CVS)

Crime type	Number of incidents (000s)	Number of incidents of crime per 1,000 premises	Number of victims (000s of premises)	Proportion of premises that experienced a crime	Average number of crimes experienced by each victim (premises)
All burglary (inc. attempts)	19	232 (-55)	9	11% <i>(-4%*)</i>	2 (0)
Vandalism	23	269 (-174)	7	8% (-2%)	3 (-1)
All vehicle-related theft	4	48 (-20)	3	4% (-1%)	1 (0)
All robbery (inc. attempts)	0	3 (-6)	0	0% (0%)	1 -
Assaults and threats	10	123 (-40)	3	3% (-1%)	4 -
All theft	31	375 (-13)	7	8% (-1%)	5 (+1)
All fraud	7	80 (-35)	2	3% (-1%)	3 -
ALL CVS CRIME	95	1,131 (-345)	22	26% (-4%)	4 (-1)

Unweighted base: 1,019 premises

Table notes: Statistically significant changes are highlighted in red bold italics with asterisks (*). Other changes are not significant. A hyphen (-) indicates that a figure is not shown due to a small sample size (fewer than 50 respondents). **Source:** Home Office, 2014 CVS headline tables.
