Duties of licensee of licensed site

3.—(1) Section 7 of the 1965 Act (duty of licensee of licensed site) is amended as follows.

(2) For subsection (1) substitute—

“(1) Subject to subsection (4), this section applies where a nuclear site licence has been granted to a person in respect of a site.

(1A) It is the duty of the licensee to secure that no such occurrence involving nuclear matter as is mentioned in subsection (2) causes—

- (a) injury to any person,
- (b) damage to any property of any person other than the licensee, or
- (c) significant impairment of the environment,

being injury, damage or impairment that arises out of or results from the radioactive properties, or a combination of those and any toxic, explosive or other hazardous properties, of that nuclear matter.

(1B) It is the duty of the licensee to secure that no ionising radiations emitted from a source mentioned in subsection (1C) during the period of the licensee’s responsibility cause—

- (a) injury to any person,
- (b) damage to any property of any person other than the licensee, or
- (c) significant impairment of the environment,

being injury, damage or impairment that arises out of or results from the radioactive properties, or a combination of those and any toxic, explosive or other hazardous properties, of that source.

(1C) The emissions of ionising radiations referred to in subsection (1B) are emissions from—

- (a) anything caused or suffered by the licensee to be on the site which is not nuclear matter;
- (b) any waste discharged (in whatever form) on or from the site.

(1D) It is the duty of the licensee to secure that no event happens that creates a grave and imminent threat of a breach of the duty under subsection (1A) or (1B).”

(3) For subsection (2) substitute—

“(2) The occurrences referred to in subsection (1A) are—

- (a) subject to section 7A(12), any occurrence on the licensed site involving nuclear matter during the period of the licensee’s responsibility;
- (b) any occurrence elsewhere than on the licensed site involving nuclear matter that is not excepted matter and which, at the time of the occurrence, satisfies the requirement mentioned in section 7A(1).”

(4) For subsection (3) substitute—

“(3) For the purposes of determining whether the licensee of a licensed site is liable for damage to property by virtue of subsection (1A) because of such occurrence as is mentioned in subsection (2), any such property as is mentioned in subsection (3B) which is on that site at the time of the occurrence is to be deemed to be the property of the licensee.

(3A) For the purposes of determining whether the licensee of a licensed site is liable by virtue of subsection (1D) because of an event creating a grave and imminent threat of a breach of the duty under subsection (1A) as it relates to damage to property, any such property as is mentioned in subsection (3B) which is on that site at the time of the event is to be deemed to be the property of the licensee.

(3B) The property referred to in subsections (3) and (3A) is—

- (a) a nuclear installation;

- (b) property other than a nuclear installation which is on the licensed site for the purpose of being used in connection with the operation, or the cessation of the operation, by the licensee of a nuclear installation which is or has been on that site;
- (c) property other than a nuclear installation which is on the licensed site for the purpose of the construction of a nuclear installation on that site.”

(5) After section 7 insert—

“7A Occurrences during carriage

(1) The requirement referred to in section 7(2)(b) is that the nuclear matter satisfies the condition in any of subsections (2) to (8) in relation to the licensee of the licensed site as licensee of that site.

(2) The condition in this subsection is that the nuclear matter is in the course of carriage to the licensed site with the agreement of the licensee from a place in a country or territory outside the relevant territories.

For these purposes the carriage of the matter is to be treated as starting only after the matter has been loaded on to the means of transport intended to be used for its carriage from that country or territory.

(3) The condition in this subsection is that the nuclear matter is in the course of carriage from the licensed site to a place in a country or territory outside the relevant territories.

For these purposes the carriage of the matter is to be treated as coming to an end once the matter has been unloaded from the means of transport used for its carriage to that country or territory.

(4) The condition in this subsection is that—

- (a) the licensee has taken charge of the nuclear matter from a person authorised to operate a nuclear reactor comprised in a means of transport, and
- (b) the matter is in the course of carriage to the licensed site.

(5) The condition in this subsection is that the nuclear matter is in the course of carriage from the licensed site to a person authorised to operate a nuclear reactor comprised in a means of transport and in which the matter is intended to be used.

For these purposes the carriage of the matter is to be treated as coming to an end once that operator takes charge of the matter.

(6) The condition in this subsection is that—

- (a) the nuclear matter is in the course of carriage on behalf of the licensee as a licensee of the licensed site, otherwise than as described in any of subsections (2) to (5), and the licensee has a direct economic interest in the matter, or
- (b) the nuclear matter was in the course of such carriage and, since ceasing to be in the course of such carriage, has not been in such circumstances as are mentioned in subsection (9), (10) or (11).

(7) The condition in this subsection is that—

- (a) immediately before the nuclear matter ceased to be on the licensed site, the licensee was subject to the duty mentioned in section 7(1A) as regards the matter, and
- (b) since ceasing to be on that site, the nuclear matter has not satisfied any of the conditions in subsections (2) to (6) in relation to the licensee and has not been in such circumstances as are mentioned in subsection (9), (10) or (11).

(8) The condition in this subsection is that—

- (a) the nuclear matter has ceased to satisfy a condition in subsection (2), (3), (4) or (5) in relation to the licensee before the carriage described in that subsection has come to an end, and

- (b) since ceasing to satisfy that condition, it has not been in such circumstances as are mentioned in subsection (9), (10) or (11).
- (9) The circumstances in this subsection are that the nuclear matter—
 - (a) is in the course of carriage on behalf of a person authorised to operate a nuclear reactor comprised in a means of transport and in which the nuclear matter is intended to be used or was used or was intended to be used, or
 - (b) is in the course of relevant carriage on behalf of a person other than the licensee of the licensed site, and otherwise than as described in paragraph (a), and is matter in which that person has a direct economic interest.
- (10) The circumstances in this subsection are that—
 - (a) the nuclear matter is on a relevant site other than the licensed site, and
 - (b) the operator of that site is, or would be if the operator were a licensee of a licensed site and the site were that licensed site, subject to the duty in section 7(1A) as regards the matter.
- (11) The circumstances in this subsection are that the nuclear matter—
 - (a) is within the territorial limits of a country or territory that is not a relevant territory, and
 - (b) is not in the course of such carriage as is described in any of subsections (2) to (5) or in the course of relevant carriage from one relevant site to another.
- (12) An occurrence on a licensed site involving nuclear matter is not to be treated as an occurrence falling within section 7(2)(a) if, at the time of the occurrence, the matter satisfies the requirement in subsection (1) of this section in relation to the operator of another relevant site.
- (13) In determining whether the requirement in subsection (1) is satisfied for the purposes of subsection (12), in a case where the operator is not a licensee of a licensed site acting as such, subsections (1) to (11) are to have effect as if that operator were the licensee of a licensed site and that operator’s site were a licensed site.
- (14) For the purposes of this section, a person who receives a financial or other benefit for or in connection with undertaking, or arranging for, the carriage of nuclear matter does not, for that reason only, have a direct economic interest in the matter.”

Duties of other United Kingdom operators

- (2) In section 9 (duty of Crown in respect of certain sites), for “section 7” substitute “sections 7 and 7A”.

Duties of certain foreign operators

- 5.—(1) Section 10 of the 1965 Act (duty of certain foreign operators) is amended as follows.
- (2) For subsection (1) substitute—
 - “(1) It is the duty of a relevant foreign operator to secure that no occurrence involving nuclear matter which is not excepted matter and satisfying the conditions in subsections (2) and (4) causes—
 - (a) injury to any person,
 - (b) damage to any property of any person other than that operator, or
 - (c) significant impairment of the environment,

being injury, damage or impairment that arises out of or results from the radioactive properties, or a combination of those and any toxic, explosive or other hazardous properties, of that nuclear matter.

(1A) It is the duty of a relevant foreign operator to secure that no event happens that creates a grave and imminent threat of a breach of the duty under subsection (1).”

(3) For subsection (2) substitute—

“(2) The condition in this subsection is that the occurrence is—

- (a) an occurrence taking place wholly or partly within United Kingdom limits; or
- (b) an occurrence taking place outside those limits which also involves nuclear matter in respect of which a duty is imposed on any person by section 7, 8 or 9.

(3) The area within United Kingdom limits consists of—

- (a) the area within the territorial limits of the United Kingdom, and
- (b) the area within the limits of the United Kingdom’s relevant maritime zone (and those limits are to be treated as applying to sea, sea bed, subsoil and airspace).

(4) The condition in this subsection is that the nuclear matter at the time of the occurrence would, if the relevant foreign operator were the licensee of a licensed site and that operator’s site were a licensed site, satisfy the requirement in section 7A(1) in relation to the relevant foreign operator.”

(2) Subsection (1) is subject to subsection (3) and sections 11B and 11D.

(3) Compensation is not payable by virtue of a claim under subsection (1) in respect of the cost of measures of reinstatement that benefit or would benefit property if the property is such that damage to it would not constitute damage in breach of a duty imposed by section 7, 8, 9 or (as the case may be) 10.

(4) A public authority is a qualifying public authority, in relation to a particular significant impairment of the environment, if it may in the exercise of its functions—

(3) Subject to subsection (2), the court may on an appeal under this section determine whether or not to approve the measures of reinstatement to which the appeal relates.

(4) Section 11B(6) applies in relation to a determination of the court as it applies in relation to a decision of the Secretary of State under section 11B.

- (6) The payment of compensation in respect of injury to a person or damage to property otherwise than under this Act by or on behalf of a person who takes preventive measures does not prevent the making of a claim under subsection (3) if and to the extent that such payment does not make full compensation in respect of the injury or damage in question.
- (7) A reference in subsection (2) or (3) to a preventive measure reasonably taken after a breach of duty includes a reference to such part of a preventive measure as is so taken.
- (8) A preventive measure is a measure taken in order to minimise or prevent—
