### **Providers Who Employ Staff Discussion Guide**

The interviews are **cognitive** in nature so please ensure that you are using your observational skills when interviewing. It is important that body language and facial expressions are picked up on and drawn upon during the interview. It is also important to probe on cognitive processes throughout exploring: understanding, comprehension, interpretation, usefulness, interaction with the guidance.

Note: 'Employers' in the context of this study should be asked their opinion in their capacity as childcare providers throughout the interview with the exception of their opinion on topic guide section 5 when they should comment from the point of view of an employer of staff.
