

Appendix A

Proposed Claim Amendments

~~1. Use of (S)-3-(aminomethyl)-5-methylhexanoic acid or a pharmaceutically acceptable salt thereof for the preparation of a pharmaceutical composition for treating pain.~~

~~2. 1. Use of (S)-3-(aminomethyl)-5-methylhexanoic acid or a pharmaceutically acceptable salt thereof for the preparation of a pharmaceutical composition for treating pain wherein the pain is inflammatory pain.~~

~~2. 2. Use of (S)-3-(aminomethyl)-5-methylhexanoic acid or a pharmaceutically acceptable salt thereof for the preparation of a pharmaceutical composition for treating pain wherein the pain is neuropathic pain caused by injury or infection of peripheral sensory nerves.~~

~~4. Use according to Claim 1 wherein the pain is cancer pain.~~

~~5. 3. Use of (S)-3-(aminomethyl)-5-methylhexanoic acid or a pharmaceutically acceptable salt thereof for the preparation of a pharmaceutical composition for treating pain wherein the pain is postoperative pain.~~

~~6. Use according to Claim 1 wherein the pain is phantom limb pain.~~

~~7. 4. Use of (S)-3-(aminomethyl)-5-methylhexanoic acid or a pharmaceutically acceptable salt thereof for the preparation of a pharmaceutical composition for treating pain wherein the pain is burn pain.~~

~~8. 5. Use of (S)-3-(aminomethyl)-5-methylhexanoic acid or a pharmaceutically acceptable salt thereof for the preparation of a pharmaceutical composition for treating pain wherein the pain is gout pain.~~

~~9. 6. Use of (S)-3-(aminomethyl)-5-methylhexanoic acid or a pharmaceutically acceptable salt thereof for the preparation of a pharmaceutical composition for treating pain wherein the pain is osteoarthritic pain.~~

~~10. 7. Use of (S)-3-(aminomethyl)-5-methylhexanoic acid or a pharmaceutically acceptable salt thereof for the preparation of a pharmaceutical composition for treating pain wherein the pain is trigeminal neuralgia pain.~~

~~11.~~ 8. Use of (S)-3-(aminomethyl)-5-methylhexanoic acid or a pharmaceutically acceptable salt thereof for the preparation of a pharmaceutical composition for treating pain wherein the pain is acute herpetic and postherpetic pain.

~~12.~~ 9. Use of (S)-3-(aminomethyl)-5-methylhexanoic acid or a pharmaceutically acceptable salt thereof for the preparation of a pharmaceutical composition for treating pain wherein the pain is causalgia pain.

~~13.~~ Use according to Claim 1 wherein the pain is idiopathic pain.

~~14.~~ Use according to claim 1, wherein the pain is fibromyalgia pain.

Appendix B

Proposed Claim Amendments

- ~~1. Use of (S)-3-(aminomethyl)-5-methylhexanoic acid or a pharmaceutically acceptable salt thereof for the preparation of a pharmaceutical composition for treating pain.~~
- ~~2. 1. Use of (S)-3-(aminomethyl)-5-methylhexanoic acid or a pharmaceutically acceptable salt thereof for the preparation of a pharmaceutical composition for treating pain wherein the pain is inflammatory pain.~~
- ~~3. Use according to Claim 1 wherein the pain is neuropathic pain.~~
- ~~4. Use according to Claim 1 wherein the pain is cancer pain.~~
- ~~5. 2. Use of (S)-3-(aminomethyl)-5-methylhexanoic acid or a pharmaceutically acceptable salt thereof for the preparation of a pharmaceutical composition for treating pain wherein the pain is postoperative pain.~~
- ~~6. Use according to Claim 1 wherein the pain is phantom limb pain.~~
- ~~7. 3. Use of (S)-3-(aminomethyl)-5-methylhexanoic acid or a pharmaceutically acceptable salt thereof for the preparation of a pharmaceutical composition for treating pain wherein the pain is burn pain.~~
- ~~8. 4. Use of (S)-3-(aminomethyl)-5-methylhexanoic acid or a pharmaceutically acceptable salt thereof for the preparation of a pharmaceutical composition for treating pain wherein the pain is gout pain.~~
- ~~9. 5. Use of (S)-3-(aminomethyl)-5-methylhexanoic acid or a pharmaceutically acceptable salt thereof for the preparation of a pharmaceutical composition for treating pain wherein the pain is osteoarthritic pain.~~
- ~~10. 6. Use of (S)-3-(aminomethyl)-5-methylhexanoic acid or a pharmaceutically acceptable salt thereof for the preparation of a pharmaceutical composition for treating pain wherein the pain is trigeminal neuralgia pain.~~

~~11. 7.~~ Use of (S)-3-(aminomethyl)-5-methylhexanoic acid or a pharmaceutically acceptable salt thereof for the preparation of a pharmaceutical composition for treating pain wherein the pain is acute herpetic and postherpetic pain.

~~12. 8.~~ Use of (S)-3-(aminomethyl)-5-methylhexanoic acid or a pharmaceutically acceptable salt thereof for the preparation of a pharmaceutical composition for treating pain wherein the pain is causalgia pain.

~~13. Use according to Claim 1 wherein the pain is idiopathic pain.~~

~~14. Use according to claim 1, wherein the pain is fibromyalgia pain.~~
