

NNR dedication – proposed batches

These are the batches of our freehold NNRs that have been dedicated, or are eligible for dedication under the programme

Particular sites may move between batches over the course of the project.

It is also important to note that not all of these NNRs are 100% Natural England freehold and that the dedication will only apply to the freehold areas. Some NNRs may cover more than one county and only the major county is shown.
