European Maritime and Fisheries Fund: Guidance on ineligibility

1. Introduction

In order that European Union and United Kingdom public funding is not distributed to those who have been convicted of serious infringements or who have committed fraud, the EU has set out regulations detailing those who will be ineligible to receive funding under the scheme.

The European Commission has set out in Commission regulation (EU) 2015/288 the rules on ineligibility for the EMFF scheme.

This guidance sets out the practical operation of those rules and contains details of how the MMO will verify that those who apply for funding are eligible to do so.

2. Definitions

“EFF” means the European Fisheries Fund as set out in Council regulation (EC) 1198/2006

“Fraud” shall mean:

- any intentional act or omission relating to the use or presentation of false, incorrect or incomplete statements or documents, which has as its effect the misappropriation or wrongful retention of funds from the general budget of the European Communities or budgets managed by, or on behalf of, the European Communities, or

- non-disclosure of information in violation of a specific obligation with the same effect, or

- the misapplication of such funds for purposes other than those for which they were originally granted.

as set out in article 1 of Council Act of 26th July 1995 drawing up the Convention on the protection of the European Communities' financial interests (O.J. 95/C 316/03)

“IUU vessel list” means the list of vessels marked as having conducted illegal, unreported or unregulated (“IUU”) fishing as provided for in article 27 of Council regulation (EC) 1005/2008.

“Operator” means the natural or legal person who operates or holds any undertaking carrying out any of the activities related to any stage of production, processing, marketing, distribution and retail chains of fisheries and aquaculture products;
“Points for serious infringements” means points assigned to the holder of a fishing licence or to a master of a fishing vessel in accordance with article 92 of Council regulation (EC) 1224/2009.

“Serious infringement” means any act which falls within the definitions set out in article 42 of Council regulation (EC) No 1005/2008 or article 90 of Council regulation (EC) 1224/2009, The Sea Fishing (Points for Masters of Fishing Boats) Regulations 2014 (SI No. 3345) and in accordance with guidance published by the MMO as set out at annex A.

3. Inadmissibility

Applicants for EMFF grants will be required to notify the MMO if they have been convicted by a United Kingdom court of criminal jurisdiction of any of the following offences:

- An offence resulting in the imposition of points for serious infringements as defined by article 90(1) Council Regulation (EC) 1224/2009 and set out at annex A to this guidance, or
- An offence\(^1\) of fraud relating to European funding, or
- An environmental offence which falls within one of the categories of offences set out at annex b to this guidance.

The information supplied above, if any, will be verified in any event by the MMO. An applicant should also be aware that checks will be undertaken to verify whether any information supplied in relation to the EMFF funding application is accurate.

The MMO will reject any application where any of the following situations arise.

3.1 Operators who have committed serious infringements

Where a competent authority has determined that an operator has committed a serious infringement, applications for EMFF support by that operator shall be ineligible for a period of 12 months from the first official decision by a competent authority assigning infringement points following a conviction for a serious infringement. For the purposes of calculating the ineligibility period, only serious infringements committed from 1 January 2013 will be taken into account.

However, in the case of serious infringements which have attracted points for serious infringements the ineligibility period will be calculated as follows:

\(^1\) An offence of fraud in this context will be considered to have been committed where the offender has been subject of a criminal investigation which has resulted in a criminal sanction of an official written warning (or the equivalent sanction e.g. a police caution), a financial administrative penalty which has been accepted, or has been convicted by a court of criminal jurisdiction of an offence of fraud or the facts of which fall within one or more of the definitions above.
If, at the time of the application for funding under the EMFF scheme, the total infringement points accumulated by an operator in respect of a fishing vessel is

a) 8 or less, the applicant remains eligible for funding,

b) If the number of infringement points by an operator in respect of a fishing vessel is 9 points, the inadmissibility period shall be 12 months.

c) For each point above 9 an additional 1 month period of inadmissibility will be added. See example below;

<table>
<thead>
<tr>
<th>Number of infringement points</th>
<th>Period of inadmissibility</th>
</tr>
</thead>
<tbody>
<tr>
<td>9</td>
<td>12 months</td>
</tr>
<tr>
<td>10</td>
<td>13 months</td>
</tr>
<tr>
<td>11</td>
<td>14 months</td>
</tr>
<tr>
<td>12</td>
<td>15 months</td>
</tr>
<tr>
<td>13</td>
<td>16 months</td>
</tr>
<tr>
<td>For each additional</td>
<td>Increase this period by 1</td>
</tr>
<tr>
<td>infringement point</td>
<td>month.</td>
</tr>
</tbody>
</table>

The starting point of the inadmissibility period referred to above will be the date of the first official decision by a competent authority assigning infringement points following a conviction for a serious infringement which resulted in that operator being assigned a total of 9 or more points in respect of a fishing vessel.

3.2 Vessels included in the EU IUU vessel list.

Vessels included on the EU IUU vessel list or flagged to a country listed as a non-cooperating third country by the EU are ineligible to apply for grant funding under the EMFF scheme.

3.2.1 Inadmissibility of applications by operators included in the Union IUU vessel list.

The period of inadmissibility for an operator whose fishing vessel is included in the Union list of fishing vessels engaged in illegal, unreported and unregulated (IUU) fishing will be a minimum of 24 months from the date the fishing vessel is included on that list and for the whole period during which the fishing vessel remains on the list.

3.2.2 Inadmissibility of applications by operators in a non-cooperating third country.

Operators whose fishing vessel is flagged to a non-cooperating third country shall be inadmissible for a minimum period of 12 months and during the whole period while that country is listed.
3.3 Inadmissibility of applications by operators that have committed fraud in the context of the EFF or the EMFF

Where it is determined by the MMO that an operator has committed a fraud in the context of the EFF or EMFF, all applications for EMFF support by that operator shall be inadmissible from the date of the first official decision establishing the fraud until the end of the eligibility period of the EMFF which runs to 31st December 2023.

A conviction for inciting, aiding and abetting the intentional conduct referred to in the above paragraph will also give rise to a period of ineligibility.

3.4 Inadmissibility of applications by operators that have been convicted of certain environmental offences.

An applicant of EMFF funding who has been convicted of certain environmental offences falling within the categories of offences set out in Directive 2008/99/EC of the European Parliament and Council (see annex B) will be ineligible for grant funding. The ineligibility of applications by the operator will be applied even if the sentence for the offence is suspended or its execution made dependent on the fulfilment of other conditions.

A conviction for inciting, aiding and abetting the intentional conduct referred to in the above paragraph will also give rise to a period of ineligibility.

The period of ineligibility of applications will be calculated on the basis of the following formula:

\[
\text{Penalty Applied} \times \frac{\text{Total length of the eligibility period}}{\text{Maximum Penalty}}
\]

The total length of the Eligibility Period is to 01 January 2014 to 31st December 2023

4. Common provisions

4.1 Calculation of the inadmissibility period where the operator owns more than one fishing vessel

Where an operator owns or controls more than one fishing vessel, the inadmissibility period of an application by that operator shall be determined separately in relation to each individual fishing vessel, in accordance with the list of offences at annex A.

However applications for EMFF support by that operator shall also be inadmissible if:

a) applications in relation to more than half of fishing vessels owned or controlled by that operator are ineligible. For example if an operator owns 3 vessels and 2 of those vessels have been deemed ineligible through inadmissibility outlined in this guidance then that operator becomes entirely ineligible for EMFF support.
b) if in the case of offences for serious infringements listed in points 1, 2 and 5 of the table at annex a, the average number of points assigned per fishing vessel in ownership of the applicant is 7 or more.

For example if an operator accumulates 7 or more points through not fulfilling obligations to record and report catch or catch related data, including data to be transmitted by satellite vessel monitoring system or use of prohibited or non-compliant gear according to EU legislation or Taking on board, transshipping or landing of undersized fish in contravention of the legislation in force that operator becomes entirely ineligible for EMFF support.

4.2 Transfer of ownership

In the case of a sale or other type of transfer of ownership of a fishing vessel any inadmissibility period should not be transferred to the new owner. The inadmissibility of applications by the new owner can only result from new serious infringements committed by the new owner.

However, where infringement points are assigned for serious infringements within table 2 and table 3 committed prior to the change of ownership of the fishing vessel, those points shall be taken into account for the purposes of calculating the inadmissibility period of the new owner if that operator commits a new serious infringement.

4.3 Permanent withdrawal of the fishing licence

The accumulation of 90 infringement points by the holder of a fishing licence shall automatically trigger the permanent withdrawal of the fishing licence.

Where the fishing licence of an operator has been permanently withdrawn for any of the fishing vessels owned or controlled by that operator all applications by that operator shall be inadmissible for support from the EMFF from the date of the withdrawal until the 31st December 2023.

4.4 Revision of inadmissibility period

Provided the inadmissibility period lasts at least 12 months in total, the inadmissibility period:

(a) shall be reduced by 2 months if, in the case of offences for serious infringements listed in points 1, 2 or 5, 2 infringement points are deleted for one of the following reasons:

(b) the fishing vessel which has been used in committing the infringement for which points were assigned uses thereafter VMS or records and transmits thereafter fishing logbook, transhipment and landing declaration data electronically without being legally subject to these technologies; or
(c) the holder of the fishing licence volunteers after the assignation of points to take part in a scientific campaign for the improvement of the selectivity of the fishing gear; or

(d) the holder of the fishing licence is a member of a producer organisation and the holder of the fishing licence accepts a fishing plan adopted by the producer organisation in the year following the assignation of the points involving a reduction of 10% of the fishing opportunities for the holder of the fishing licence; or

(e) the holder of the fishing licence joins a fishery covered by an eco-labelling scheme that is designed to certify and promote labels for products from well-managed marine capture fisheries and focus on issues related to the sustainable use of fisheries resources.

(f) shall be extended by 12 months for each additional offence for a serious infringement listed in annex a committed by the applicant during the inadmissibility period.

(g) by way of derogation from paragraph (b), inadmissibility shall be extended by 1 additional month for each point above 9 for each additional serious infringement committed by the applicant during the inadmissibility period.
