  - b. The Council must report to the improvement board on progress against the objectives in the plan and can commission updates from partners in order to do this.
  - c. A comprehensive and accurate data set that is regularly communicated and understood by all levels of the Council to ensure that data better informs practice and provision in children's services will be developed and delivered.

  - c. Facilities to carry out the reviews;

  - a. Progress against the improvement plan objectives;
  - b. Staff surveys;
  - c. Staff supervision and the quality of feedback.

### **Local Safeguarding Children's Board (LSCB)**

12. The LSCB must be strengthened so it can ensure that partners work together effectively and are held to account for their responsibilities by ensuring that:
  - a. there is action to improve the effectiveness of the LSCB, to ensure its compliance with the requirements of *Working Together to Safeguard Children* and that partners are fulfilling their obligations under section 11 of the Children Act 2004;
  - b. multi-agency practice and individual partner audits are robust, with reporting to the improvement board on any key lessons and recommendations to improve practice;
  - c. all partners are committed to a shared set of priorities for safeguarding; child protection; early help; intervention; and prevention;
  - d. all policies and training are reviewed and delivered to ensure understanding of thresholds (the criteria and level of need for when a case should be referred to local authority children's social care) in all agencies;

- e. the LSCB learns from national lessons of serious case reviews and from LSCBs where effectiveness is considered good or outstanding;
- f. the chair of the LSCB reports progress to the improvement board meeting to inform the improvement board chair's report to the Minister.

13. Taking account of the measures set out in this improvement notice the Council should aim for actions included in the improvement plan to be delivered within 18 months of the Ofsted inspection.

**Improvement against the above measures will be assessed as follows:**

14. The improvement board chair must provide a written progress report against: the areas set out in this notice; improvement against the Ofsted requirements; and any other such information pertinent to the improvement journey, to the Minister of State for Children and Families at six monthly intervals from the date of this improvement notice. The chair's report should be based on independent testing and validation of improvement.

15. In parallel, the LSCB chair should also report to the Improvement Board meeting on progress to improve its effectiveness.

16. The adviser will provide regular communication and reporting to the Department to help assess improvement and to highlight areas of both good practice and concern.

17. Progress reviews will be conducted periodically by Department for Education officials. Prior to reviews, any improvement board chair's report for that period will be supplemented by a Council report of progress against the improvement plan submitted to the Department a week in advance of the review. Such reviews may result in an amendment to this improvement notice and further action being undertaken.

**Failure to comply with this Improvement Notice by the assessment dates or poor progress:**

18. Should the Council be unwilling or unable to comply with this Improvement Notice, or should Ministers not be satisfied with the Council's progress at any stage, ministers may choose to invoke their statutory powers of intervention (s497A Education Act 1996 as amended) to direct the Council to enter into an appropriate arrangement to secure the improvements required in children's services.
