
Administrative Processes Flowcharts

Overview

The Flowcharts are organised into five Phases, representing the stages followed by the complete process involving an Application for Consent and the associated Environmental Assessment that is required. The Flowcharts show four vertical Streams of Activity, representing the processes that are carried out by the following organisations:

- The Operator (covers all organisations seeking consents or permits or with responsibility for offshore activities covered by these processes),
- The Licensing, Exploration and Development Branch (LED) of the Energy Development Unit (EDU) of the Department of Energy, Climate Change (DECC),
- The Environmental Management Team (EMT) within the Offshore Environment and Decommissioning Branch of the Licensing and Consents Unit,
- Other External Bodies, including Statutory Environmental Consultees (SCs) as well as the Public
