by Heidi Cruickshank BSc (Hons), MSc, MIPROW

an Inspector appointed by the Secretary of State for Environment, Food and Rural Affairs

Decision date: 10 February 2016

Order Ref: FPS/C1245/7/35M

- This Order is made under Section 53(2)(b) of the Wildlife and Countryside Act 1981 and is known as The Dorset County Council (Public Bridleways at Batcombe and Leigh) Definitive Map and Statement Modification Order 20101.
- The Order is dated 9 July 2010 and proposed to add restricted byways to the Definitive Map and Statement on a route known as Seiver’s Lane, within the Parishes of Batcombe and Leigh. The central section of Seiver’s Lane was not proposed to be recorded by the Order. Full details of the route are set out in the Order Plan and Schedule.
- In accordance with paragraph 8(2) of Schedule 15 to the Wildlife and Countryside Act 1981 I have given notice of my proposal to confirm the Order subject to modifications.
- No objections or representations were received in response to the notice.

Summary of Decision: The Order is confirmed subject to modifications set out in the Formal Decision.

Preliminary matters

1. The Order has been subject to two sets of proposed modifications. The first, proposed by my Interim Order Decision ("IOD"), issued on 21 October 2014, was made following an accompanied site visit, carried out on 5 August 2014. Advertisement of the proposed modifications led to objections and I decided that it would be appropriate to hold a hearing regarding the relevant evidence. This was held on 9 September 2015 and resulted in further modifications being proposed in my second IOD, issued 3 November 2015.

2. No objections or representations have been made to these proposed modifications.

Main issues

3. On considering the relevant matters in the initial IOD and the new evidence provided, I was satisfied that the Order should be confirmed, subject to the proposed alteration to status. No further evidence has been provided to alter my decision on the matter at this stage.

Reasons

4. For the reasons already set out in the IODs I am satisfied that the Order should be confirmed on the basis that, on the balance of probabilities, the documentary evidence shows that Order route was historically a public highway, of the status of at least bridleway. Therefore such rights should be recorded throughout the length of the Order route.
