### Appendix 1a: General
- A1a.11 Features of Regional Sea 7 317
- A1a.12 Features of Regional Sea 8 319
- A1a.13 Features of Regional Sea 9 320
- A1a.14 Features of Regional Sea 10/11 321
- A1a.15 Evolution of the baseline 324
- A1a.16 Environmental issues 326
- A1a.17 Conservation frameworks 332

### Appendix 1b: Geology, Substrates & Coastal Processes
- A1b.1 Introduction 349
- A1b.2 UK context 349
- A1b.3 Features of Regional Sea 1 359
- A1b.4 Features of Regional Sea 2 365
- A1b.5 Features of Regional Sea 3 370
- A1b.6 Features of Regional Sea 4 & 5 375
- A1b.7 Features of Regional Sea 6 378
- A1b.8 Features of Regional Sea 7 382
- A1b.9 Features of Regional Sea 8 384
- A1b.10 Features of Regional Sea 9 387
- A1b.11 Features of Regional Seas 10 & 11 389
- A1b.12 Economic geology 392
- A1b.13 Geohazards 395
- A1b.14 Environmental issues 399
- A1b.15 Evolution of the baseline 404

### Appendix 1c: Landscape and Seascape
- A1c.1 Introduction 421
- A1c.2 UK context 422
- A1c.3 Landscape designations and classifications 427
- A1c.4 Overview of designations and other landscape initiatives 431
- A1c.5 Features of Regional Sea 1 431
- A1c.6 Features of Regional Sea 2 435
- A1c.7 Features of Regional Sea 3 438
- A1c.8 Features of Regional Sea 4 & 5 441
- A1c.9 Features of Regional Sea 6 444
- A1c.10 Features of Regional Sea 7 449
- A1c.11 Features of Regional Sea 8 453
- A1c.12 Regional Seas 9, 10 & 11 456
- A1c.13 Evolution of the baseline and environmental issues 456

### Appendix 1d: Water Environment
- A1d.1 Introduction 459
- A1d.2 UK context 459
- A1d.3 Features of Regional Sea 1 479
- A1d.4 Features of Regional Sea 2 481
- A1d.5 Features of Regional Sea 3 483
- A1d.6 Features of Regional Sea 4 & 5 485
- A1d.7 Features of Regional Sea 6 488
- A1d.8 Features of Regional Sea 8 496
- A1d.9 Features of Regional Sea 9 498
- A1d.10 Features of Regional Sea 10 & 11 501

| A1j.8 | MPAs and MCZs | 1018 |

### Appendix 2: Other Potentially Relevant Initiatives

| A2.1 | Introduction | 1 |
| A2.2 | Biodiversity, habitats, flora & fauna (including conservation) | 2 |
| A2.3 | Geology, Substrates and Coastal Processes | 10 |
| A2.4 | Landscape/Seascape | 14 |
| A2.5 | Water Environment | 17 |
| A2.6 | Air Quality | 22 |
| A2.7 | Climate & Meteorology | 25 |
| A2.8 | Population and Human Health | 31 |
| A2.9 | Other Users and Material Assets | 33 |
| A2.10 | Cultural Heritage | 40 |

### Appendix 3: Existing Controls

| A3.1 | Introduction | 1 |
| A3.1.1 | Offshore renewable developments | 1 |
| A3.1.2 | Oil and gas, gas storage and carbon dioxide storage | 3 |

### Appendix 4: SEA Stakeholder Workshops

| A4.1 | Introduction | 1 |
| A4.2 | Stakeholder workshops | 1 |
| A4.2.1 | Aims and structure | 1 |
| A4.2.2 | Outputs | 2 |
Intentionally blank
Appendix 1: Environmental Baseline

Introduction

The following Appendix provides environmental information as required under Schedule 2 of The Environmental Assessment of Plans and Programmes Regulations 2004 (Regulation 12(3)). The baseline is described under a series of headings which relate to issues identified by the SEA Regulations on which to judge the “…likely significant effects on the environment, including short, medium and long-term effects, permanent and temporary effects, positive and negative effects, and secondary, cumulative and synergistic effects…” These include:

- Biodiversity, habitats, flora and fauna (including plankton, benthos, cephalopods, fish and shellfish, marine reptiles and marine and other mammals): Appendix 1a
- Geology, substrates and coastal morphology: Appendix 1b
- Landscape/seascape: Appendix 1c
- Water environment: Appendix 1d
- Air quality: Appendix 1e
- Climate and meteorology: Appendix 1f
- Population and human health: Appendix 1g
- Other users, material assets (infrastructure, other natural resources): Appendix 1h
- Cultural heritage: Appendix 1i
- Conservation of sites and species: Appendix 1j

and the interrelationships of the above.

The environmental baseline considers all the above headings in a UK context, before providing more detailed information on key features specific to UK Regional Seas, as defined below and shown in Figure A1.1.

The previous Offshore Energy SEAs used the draft regional sea boundaries defined by JNCC (2004) as a means of considering the broad scale biogeographical regions within UK waters. Iterations to the draft regional seas (e.g. Verling 2009) were underway during the last SEA, and subsequently, a number of other regional subdivisions have been used to delineate the UKCS. These include those used for marine spatial planning, those defined by OSPAR, MSFD sub-regions, and those used in Charting Progress 2 to describe and report on the condition of the UK marine environment. The latter regions were modified from those used in the first Charting Progress on the basis of updated knowledge on the distribution of features, and to align more with WFD water bodies and MSFD sub-regions. This SEA uses a modified version of the Charting Progress 2 boundaries to distinguish several important areas including: the Atlantic
South West Approaches (Regional Sea 5), and the Faroe-Shetland Channel (Regional Sea 9), Rockall Trough and Bank (Regional Sea 10), and Atlantic North West Approaches (Regional Sea 11).

**Figure A1.1: Regional Sea subdivisions used in OESEA3**
