

Expert Committee on Pesticide Residues in Food Sample Details

Quarter 3 2015 Brand Name Annex

Introduction

Where the brand name of a sample is given the produce involved may have been on sale in other retail premises at the same time.

The description and country of origin are taken from labelling on the food or at the point of sale. The country of origin of processed food may not be the country where the unprocessed produce was produced. This is true even of food that has undergone minimal processing, such as meat that has been butchered or frozen vegetables.

Samples with residues above the MRL are in bold, green text.

UK samples with residues of pesticides not approved for use on that food in the UK in bold, blue text

Organic samples with residues of pesticides not permitted for use in organic food production are in bold text

Some brand name details have been withheld – these will be published once enquiries are complete.

Grapes	70		

Expert Committee on Pesticide Residues in Food Sample Details
Quarter 3 2015
Samples for which draft RASFF notifications were submitted

Sample ID	Date of Sampling	Description	Country of Origin	Retail Outlet	Address	Brand Name	Packer / Manufacturer	Pesticide residues found in mg/kg (MRL)
4280/2015	07/07/2015	Flame Seedless Grapes	Egypt	Gilgrove	C44-48 New Covent Garden, London SW8 5JJ	None stated	Maureen Khataba, Cairo, Alex Road KM84	acetamiprid 0.01 (MRL = 0.5) boscalid 0.09 (MRL = 5) ethephon 1.1 (MRL = 1) lambda-cyhalothrin 0.09 (MRL = 0.2) pyraclostrobin 0.06 (MRL = 1)

* **Maximum Residue Levels set at the LOD (LOD MRL):** These MRLs are set at a default level, i.e. at the limit of determination (LOD) where analytical methods can reasonably detect the presence of the pesticide. Either insufficient trials data are available on which to set a maximum residue level or there may be no use of the pesticide on that crop in the EU. However they may be permitted elsewhere.
